Species	Date(s) Observed	Spawning	Rearing	Migration	Overwinter
Arctic Cisco	August 12, 1987		✓		✓

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Ten Arctic Cisco were captured in gill nets set in the Kuparuk Dead arm gravel extraction pits. The pits are flooded with water from the Kuparuk River. Five fish were captured in pit #6 downstream from R pad and 5 were captured in pit 4 and 5 upstream from R pad.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
