Regional Supervisor 9/8/87 Date

STS 11/20/87

FI Drafted 11/18/87 Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Sockeye	8-4-87 ; 8-16-87	X		
	8/20/87			

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.
Specific location was T5N., R. 1W, section 21. Approximately 300-500 spawning sockeyes observed in stream on north side of Seward Highway from previous upper point extended to point just north of milepost 34.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
