Nomination # 89 191

Regional Supervisor — Date 10/28/88

SOS — Date 12/6/88

Drafted — Date 11/14/88

Species	Date(s) Observed	Spawning	Rearing	Migration
coho salmon	10/1/88		XXXX	
Dolly Varden (DV)	10/1/88	XX	XXXX	
Pink Salmon*		XXXX		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Electrofished 74 seconds from high tide line to 300 ft. upstream. Found adult DV (280 mm long) and juvenile DV (80 mm to 105 mm long). Captured one coho salmon juvenile 100 mm long to may have been smolting. Stream substrate excellent for spawning and undercut banks provide good rearing habitat & cover. Also large organic debris (spruce) across stream - but no blockage to fish movement. (See photos P-467-15, 16, 17, 18)

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
