Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Caught by set net, fish travel all the way to the headwaters of Peters Creek - natural spring creek, plenty of fish (support more than two families)

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
