IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: See data sheet & map. Photos INCLUDED.
Chinook all captured with minnow traps (all age-0 juveniles)
Other species captured on data sheet.
Habitat extends beyond upstream sampling location (see map)
All sampling conducted in tributary stream above any Yukon R. influence
Fry rearing from tributary mouth upstream to uppermost capture site (map & data sheet coordinates)
All salmon fry genetically screened to species.

Name of Observer (please print): DAVID W DAUM — Add name to DB

Signature: David W Daum

Date: 10-20-2010

Agency: U.S. Fish & Wildlife Service

Address: 101 12th Ave, Room 110
FAIRBANKS, AK 99701

Add new stream w/ Chinook salmon REARING

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
