REGION II
HABITAT DIVISION

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Small tributaries draining off Thunder MT are used for rearing by juvenile coho salmon and dolly varden char. Ten minnow traps fished in tributaries and Jordan Creek 4/23/82, caught 365 coho + 171 Dolly Varden juveniles.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
