JUSTIFICATION:

The guideline harvest for mountain goats has been reached in a portion of the RG026 mountain goat hunt area. This emergency order (01-17-16) closes the mountain goat hunting season in the area bounded by the Chilkat River on the east, the Kelsall River on the north, the Klehini River on the south, and the Canadian border on the west side at **11:59 P.M., on Wednesday, October 12, 2016.**

Based on the fall 2015 aerial survey (42 adults, 11 kids), a guideline harvest objective of 3 points (male goats=1 point, female goats= 2points) was established by ADF&G for the area described above. During a subsequent survey on October 2, 2016, 33 adults and 13 kids were observed. As of Tuesday October 11, 2016 one female and 1 male goat have been harvested for a total of 3 points. Because the guideline harvest level has been reached, this emergency order is being issued to close the mountain goat hunting season in this area.
