Nomination for Waters
Important to Anadromous Fish

AWC Volume (SE) SC SW W AR IN USGS Quad JUNEAU A-5

Anadromous Water Catalog Number of Waterway 114-27-10550-2017

Name of Waterway Gallagher Cr. USGS name X Local name ____

Addition X Deletion ____ Correction ____ Backup Information ____

For Office Use

Nomination # 93 309	Lanal Shea — Regional Supervisor — Date 10-23-92
Revision Year: ____	Ed Wein — 12/16/92
Revision to: Atlas ____ Catalog ____ Both X	L. Irone — Drafted — Date 1/11/93
Revision Code: A-2 d	

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
coho	10/6/92	X	X		X
DV	10/6/92			X	

Provide any clarifying information, including number of fish observed, location of fi survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of map showing location of mouth and upper points of each species, specific stream reach identified for spawning or rearing, locations of barriers, such as falls.

Comments:
Three small tributaries to Gallagher Cr. - containing coho fry/smolts, Dolly Varden char adults were located during a field survey of a timber harvest unit (Unit E Adult spawning cohos were found in the mouths of the tributaries - entering Gallagher Cr. Length of the tributaries is approx 200' each before the stream gradient steepens to prevent passage. T42S R60E SE1/4 SEC. 28.
