**JUSTIFICATION:**

The guideline harvest for mountain goats has been reached in a portion of the RG026 mountain goat hunt area. An emergency order (01-10-17) has been issued to close the mountain goat hunting season in the area bounded by the Chilkat River on the east, the Kelsall River on the north, the Klehini River on the south, and the Canadian border on the west side at **11:59 P.M., on Wednesday, October 4, 2017.**

Based on the fall 2016 aerial survey (33 adults, 14 kids (29.8% kids)), a guideline harvest objective of 2 points (male goats=1 point, female goats= 2points) was established by ADF&G for the area described above. On October 1, 2017 a subsequent survey (40 adults, 6 kids (13%)) resulted in a similar number of total goats but the proportion of kids was lower. As of Tuesday October 3, 2017 two male goats have been harvested for a total of 2 points. Because the guideline harvest level has been reached, an emergency order has been issued to close the mountain goat hunting season in this area.
