JUSTIFICATION:

The most recent aerial survey of the RG231 hunt area resulted in a minimum count of 116 goats. The maximum allowable harvest is six goat points. Each billy counts as one goat point, each nanny counts as two goat points, and each unrecovered goat counts as 1.5 goat points. The current harvest is four billies and one unrecoverable totaling 5.5 points, with additional hunters currently in the field. This closure is necessary to prevent unsustainable harvest.
