Department of Fish and Game
Public Review Nomination for Waters
Important to Anadromous Species

☒ Addition ☐ Deletion

Name of Waterbody (if known): Caribou Creek (Shaw)
334-40-11000-2490-3375-4015

Location:

Anadromous Waters Catalog Volume and Number _____

USGS 1:63,360 Quadrangle Big Delta B-5

or 1:250,000 (if 1:63,360 not available) _____

Species	Date(s) Observed	Stage(s) (Spawning, Rearing, Migration)
Coho Salmon CO	Sept. 11-14, 1979, 9-4-80, June, 1981 and June 1982	Rearing

Comments: Please provide any clarifying information in addition to identification on Anadromous Waters Catalog Public Review Maps.

Juvenile coho salmon were captured in a weir operated in Caribou Creek approximately 1/4 mile above its confluence with Shaw Creek. No adults have been observed and the upper limit of rearing coho salmon is unknown at this time.
