JUSTIFICATION:

The guideline harvest level for mountain goat has been met along Chilkoot Lake and Lutak Inlet, from Taiyasanka harbor to the northern end of Chilkoot Lake. This emergency order (01-10-21) is being issued to close the goat hunting season in this area at **11:59 pm on Saturday, September 18, 2021.**

Based on aerial survey data a guideline harvest objective of 1-2 points (male goat=1 point & female goat=2 points) was established for the area described above. As of Friday, September 17, 2021, 1 female goat has been harvested in this area, for a total of 2 points. Due to the vulnerability of goats in this area, low number of goats observed during aerial surveys, and because the guideline harvest level has been met, this emergency order (01-10-21) is being issued.
