Species	Date(s) Observed	Spawning	Rearing	Migration
Chum salmon	July 16, 1990	condition		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

This chum salmon was observed by Mrs. Norma Cobb while on a down creek trip in 1990. Fish was observed approximately 12 miles up Minook Creek (12 miles above confluence with Yukon River).

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
