Sport Fish Division

Lake Survey Form

Lake Unnamed (St. Johns) Sec. 35 & 36, Twp. 52S, Rge. 61E, Lat. 57°19' N., Long. 135°34' W.

Acreage Approx. 60 A. Max. Depth 40 feet Altitude 405'

Location St. Johns Bay area Water Color (clear, silty) Clear

Type of Bottom Mud

Inlets (name, size, permanency) One inlet which drains muskeg area. Small.

Benchmark (Description)

Outlet (size, immediate and main drainage) One permanent outlet which flows 2 miles to St.JohnsB.

Barriers None

Use (Private, public, semiprivate) Public - Tongass Nat'l. Forest

Public Access Site None

Facilities (Campground, roadhouse, etc.) None - Fair camp site available

Native Fish Species Dolly Varden

Introduced Species None

Spawning Grounds Limited area in both inlet and outlets

Fishing History None

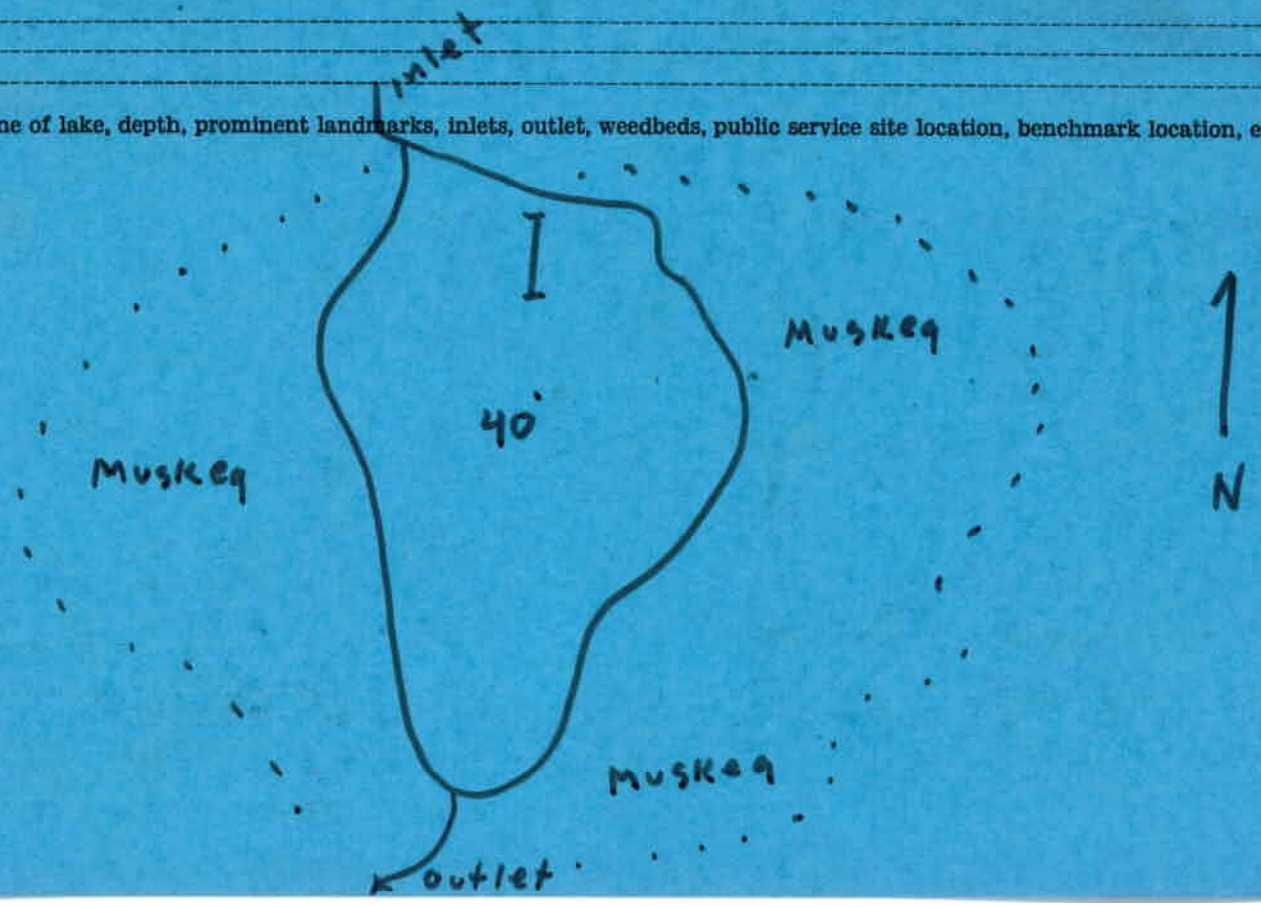
Other Uses None

Fish Losses Unknown

Character and size of watershed Approx. 2 sq. miles of muskeg and Spruce covered hills.

Remarks Little fishery potential due to climax population of Dolly Varden. Largly a muskeg area and a marginal airplane lake. May become more important as logging roads in area are completed.

(over)

Description of accessibility (how reached) Light aircraft. Approx. 15 minutes north out of Sitka.


Sketch: showing outline of lake, depth, prominent landmarks, inlets, outlet, weedbeds, public service site location, benchmark location, etc.
