2015-2016 Alaska Drawing Permit Hunt Supplement

ATTENTION ALL HUNTERS!

- All drawing permit hunts listed in this supplement take place in 2015, unless designated as 2016.
- You may apply online beginning November 1 and ending December 15 at 5 p.m. (AKST).
- All applications submitted are final and application fees will not be refunded.
- Applicants may apply for up to 6 moose hunts, only 3 of which may be bull hunts. All 6 may be antlerless hunts. For all hunts that are considered antlerless hunts, the hunt number is in **color**.
- Drawing results will be announced by the **third Friday of February**.

Select your hunt numbers, locate your big game hunting license number and your credit card information, then go online to: www.adfg.alaska.gov/index.cfm?adfg=license.main.

Read this section BEFORE applying

- **The number of permits actually issued may be adjusted up or down depending on the outcome of the most recent population surveys. Many of these surveys are not completed until after the publication of this supplement.** The number of permits may also be adjusted up or down from the number listed in this supplement for administrative reasons.
- If you fail to report on a Drawing, Tier II, or Registration permit (including Tier I, Nelchina caribou), even if you claim the postal service lost your report, **you will be ineligible to be issued any permits for the next regulatory year, including all drawing hunts listed in this supplement.**
- You must obtain or have applied for an Alaska big game hunting license prior to applying (except Alaska residents 10-15 years of age).
- A hunter must be 10 years of age or older by the starting date of the hunt to obtain a permit.
- Nonresidents who will become residents by the starting date of the hunt may apply for resident hunts; however, they must purchase a nonresident big game hunting license in order to apply for those hunts.
- Each hunt is assigned a unique hunt number. Use only hunt numbers listed in this supplement. The complete number must appear on the application.
- You may apply for the same hunt number only once on all individual and party applications combined.
- You may submit up to three (3) different hunt numbers per species on all individual and party applications combined, HOWEVER, you may submit up to six (6) different hunt numbers for moose but only 3 of the 6 may be for bulls (all 6 may be for antlerless if you choose). For all hunts that are considered antlerless hunts, the hunt number is in **color**.
- No person may receive more than one drawing permit per species per regulatory year. Permits are not transferable.
- If you received a drawing permit last year, you are ineligible to receive a drawing permit for the same hunt this year. This restriction does not apply to those who received an undersubscribed drawing permit.
- If you were issued any Koyukuk Controlled Use Area (KCUA) moose permit last year, you are ineligible to receive a drawing permit for any KCUA moose hunt this year.
- Guided nonresident Koyukuk Controlled Use Area (KCUA) moose hunters may only apply for one KCUA hunt.
- Nonresident moose hunters may only apply for one Unit 21E moose hunt.
- Nonresident moose hunters may only apply for one Unit 23 moose hunt.

How to apply

Apply early! Read the drawing permit hunt application instructions carefully.

- You must apply online (VISA or MC only, checks are not accepted). There is NO REFUND of application or license fees.
- A hunter may apply individually OR two (2) hunters desiring to hunt together may apply as a party. For a party application, both hunters apply on the same application and, if drawn, both hunters will receive permits. However, if either hunter is ineligible for any reason, the entire application is invalid, and neither hunter will be entered into the drawing.
- Hunters who receive a drawing permit DO NOT need general season harvest tickets/reports to participate in a drawing hunt. If you have a general season harvest ticket/report for a particular species in addition to your drawing permit, DO NOT report the results of your drawing hunt on a harvest ticket hunt report -- it creates duplicate information. Properly completed permit reports must be returned by the date specified on the permit, even if you did not hunt or were unsuccessful.
- Hunt area maps are available online at http://hunt.alaska.gov.

Proxy hunting for drawing hunts:
You may proxy hunt for caribou drawing hunts. You may proxy hunt for moose in drawing hunts where the legal animal is any bull or antlerless moose. For moose and caribou, antler destruction is required for both the hunter's and the beneficiary's animal. For all other proxy regulations, see the current Alaska State Hunting Regulations.

Permit Re-Issue for Deployed Military: Active duty military personnel deployed to a combat zone who are unable to use their drawing permit may be re-issued a permit for the same hunt the following regulatory year. Forms and information is available at: http://www.adfg.alaska.gov/index.cfm?adfg=huntlicense.military_permits. Additional information is available by contacting the Permit Hunt Administrator, ADF&G, Division of Wildlife Conservation, 333 Raspberry Rd. Anchorage, AK 99518-1599. Phone: (907) 267-2246 or kurt.kamletz@alaska.gov.

Youth Hunting Opportunities

A hunter must be 10 years of age or older by the starting date of the hunt to obtain their own drawing permit. Hunters aged 10-17 with Basic Hunter Education certification, or hunters under the age of 10, are allowed to hunt on behalf of an adult permit holder under the direct and immediate supervision of that adult. The adult permit holder must be a licensed hunter, 16 or older, and is responsible for ensuring all legal requirements are met. Drawing hunts open to youth only are designated with a Y instead of a D, and only youth are eligible to apply.

Hunter Education Requirements

Requirements for hunters *before* hunting in Units 7, 13, 14, 15, and 20:

If you were born after January 1, 1986 and are 16 years old or older, you must have successfully completed a Basic Hunter Education course before you hunt in the units listed above.

If you are under 16 years of age, you must have either successfully completed a Basic Hunter Education course or be under the direct immediate supervision of a licensed hunter who is:

(a) 16 years of age or older and has successfully completed a certified hunter education course, **-OR-**
(b) born on or before January 1, 1986.

Attention All Bowhunters:

Beginning July 1, 2016, all hunters using bow and arrow to hunt big game must have successfully completed a department-approved bowhunter certification course.

Apply Online by 5 p.m. (AKST) December 15!

For hunting information visit http://hunt.alaska.gov or contact the local ADF&G office.

If you need an alternative to applying online, contact your local ADF&G office by **5 p.m. (AKST) November 25** and we will provide accommodation.

Apply early! Due to the high volume of traffic on the website during the last few days, those who attempt to apply at that time can expect delays.

Guide Requirements for Nonresidents

Nonresidents who are citizens of the United States are required to be personally accompanied in the field by an Alaska licensed guide or be accompanied in the field by a qualified resident relative over 19 years of age within the second-degree of kindred* when hunting brown/grizzly bears, Dall sheep, or mountain goat.

Nonresidents who are not citizens of the United States (nonresident aliens) are required to be personally accompanied in the field by an Alaska licensed guide when hunting any species of big game.

Those intending or required to hunt with a guide should make certain there is an available guide registered to guide in that specific area. Having successfully obtained a permit doesn't guarantee the availability of a guide.

All hunters, guided and unguided, are responsible for their actions and should be knowledgeable of all requirements under Alaska State Hunting Regulations.

For information regarding Alaska licensed guides, or to obtain a list of Alaska licensed guides, contact: Dept. of Commerce, Community and Economic Development, Division of Corporations, Business, and Professional Licensing. PO Box 110806, Juneau, Alaska 99811-0806, Phone (907) 465-2534 or visit their web site at: http://commerce.alaska.gov/dnn/cbpl/ProfessionalLicensing.aspx.

Guide-client contracts required for some nonresident hunts

Some hunts require a signed guide-client contract before or at time of application. These hunts are identified with the "handshake" symbol shown at right.

Select a registered or master guide who is currently registered for all or a portion of the Guide Use Area (GUA) where you wish to hunt and for the year the permit is valid. Obtain the guide's unique verification code (provided to the registered guide-outfitter by Big Game Commercial Services Board) from the guide prior to the drawing application deadline. You are required to enter the guide's unique verification code at the time of application.

If you are a nonresident hunting with a qualified resident relative 19 years of age or older, within the second-degree of kindred*, the guide-client contract requirement does not apply, but you must check the appropriate box on the application.

If you are hunting with a registered guide, check the box for Registered Guide when you apply and enter the guide's unique verification code. If you fail to provide this information, your application may be rejected.

***Second-degree kindred:** *A father, mother, brother, sister, son, daughter, spouse, grandparent, grandchild, brother- or sister-in-law, son- or daughter-in-law, father- or mother-in-law, stepfather, stepmother, stepsister, stepbrother, stepson or stepdaughter.*

Guide and Transporter Differences

Hunters should be aware that, except for a registered or master guide, it is illegal for anyone to provide for compensation any supplies, equipment, or services (other than transportation) to a big game hunter in the field. In other words, transporters and individuals may not legally receive compensation for providing vehicles, fuel, bear bait and/or stations, camping, hunting, or game processing equipment or any hunting services such as cleaning of game, glassing, packing, etc. from a permanent or nonpermanent structure in the field or on a boat on saltwater. Licensed transporters may provide transportation services and accommodations (room and board) only at a personally owned permanent structure in the field or on a boat on saltwater. It is illegal for a transporter to accompany or remain in the field at a nonpermanent structure with a big game hunter who is a client of the person except as necessary to perform transportation services. Unlicensed individuals cannot legally provide transportation service or accommodations for compensation.

Undersubscribed Drawing Hunts

Undersubscribed drawing hunts are hunts that had fewer applicants than available permits. If undersubscribed, information about the permits will be posted online at http://hunt.alaska.gov when available. Contact the local ADF&G office nearest the hunt for more information.

Additional instructions and results of last year's drawing hunts can be found on the back page of this supplement.

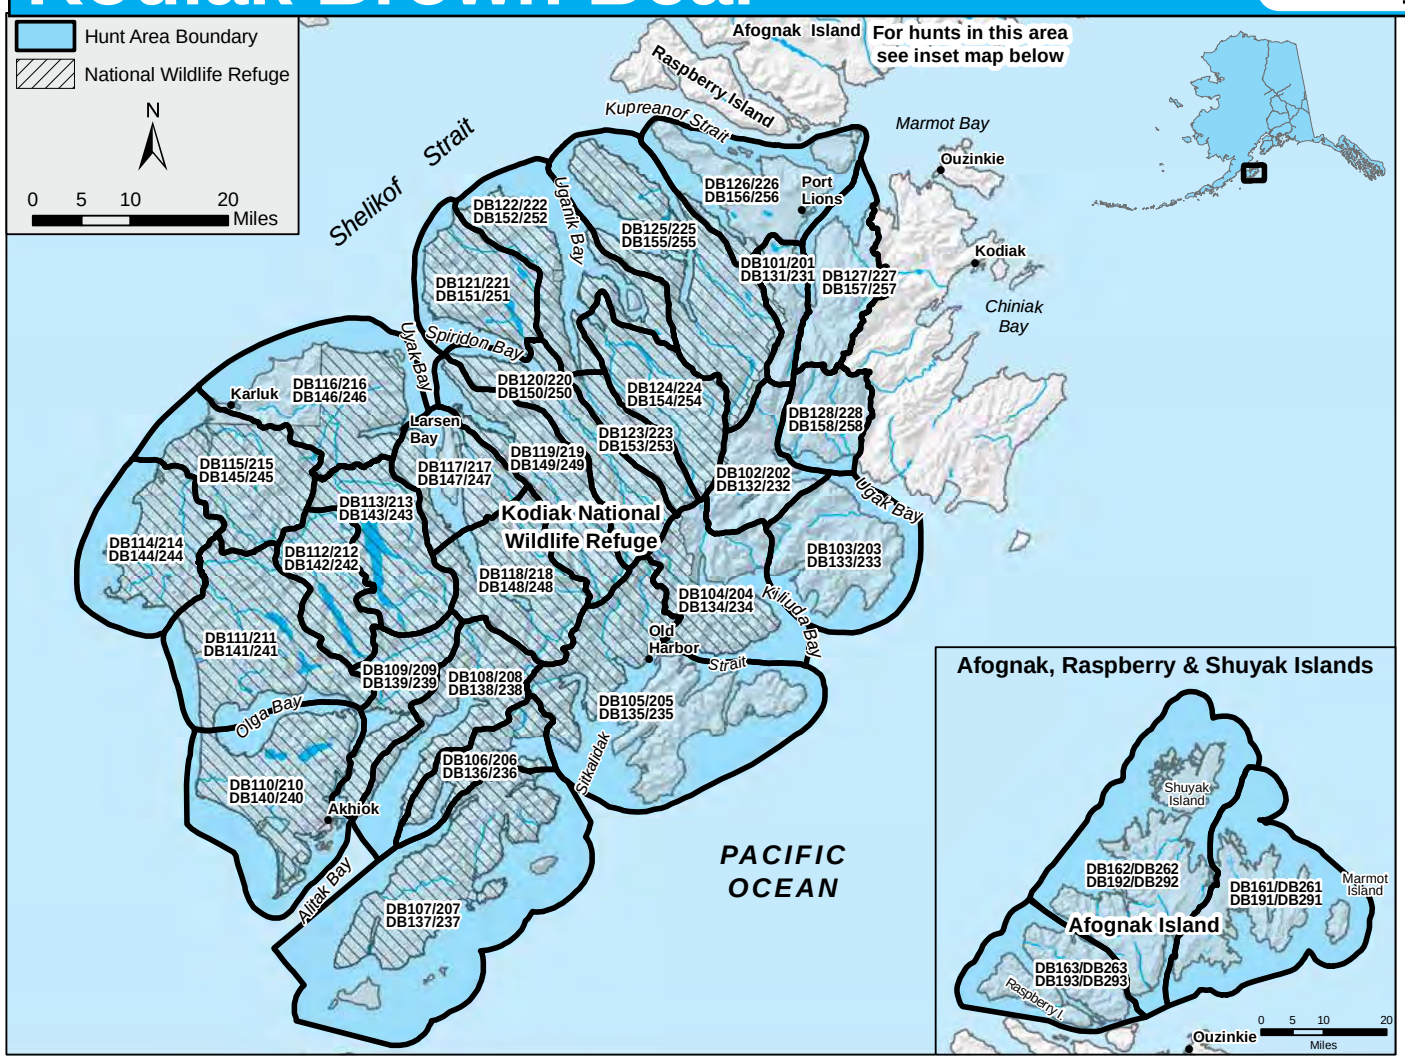
Kodiak Brown Bear

Hunt Maps available on our web site at
http://hunt.alaska.gov



u:\wc\huntarea\arcmap\supplements\2010\8BrnBear.mxd 3/09, 9/09 skt

Reporting Requirements

Successful Hunters -- report in person to ADF&G in Kodiak within 2 days after leaving the hunt area, and submit your completed hunt report. The bear skull (unfrozen and removed from the skin) and hide (with claws and evidence of sex intact and naturally attached) must be presented for sealing within 30 days of harvest and prior to leaving Game Management Unit 8. Guided nonresidents may leave their bear skull and hide with their guide if they complete a temporary sealing form.

Unsuccessful Hunters -- report in person or by telephone (907-486-1880) to an ADF&G representative in Kodiak within 2 days after leaving the hunt area. Completed permit reports must be submitted in person or by mail within 10 days after leaving the hunt area.

Guide Requirements

Nonresident brown bear hunters who are not citizens of the United States (nonresident aliens) must be accompanied in the field by an Alaska licensed guide legally registered to guide in the hunt area. See "Nonresidents Hunting with a Registered Guide" section below.

Nonresident brown bear hunters who are U.S. citizens must be accompanied in the field by an Alaska licensed guide legally registered to guide in the hunt area, or an Alaska resident relative "within the second-degree of kindred."* See "Alaska Residents or Nonresidents Hunting with Resident Relatives" section below.

- Drawing winners will be notified by mail, but permits may only be obtained in person at ADF&G office in Kodiak prior to going in the field. Permits for the spring hunts will be available beginning March 3, 2015. Permits for the fall hunts will be available beginning October 2, 2015.
- All check-ins and check-outs must be done at the ADF&G office in Kodiak during normal working hours.
- A valid Alaska hunting license, Big Game Tag Record, and brown bear locking tag must be presented at the ADF&G office in Kodiak before a permit will be issued.
- Hunters are restricted to a 15-consecutive-day hunt period that they must select when they pick up their permit.
- The bag limit is one bear every four regulatory years, and a legal bear is any bear except cubs or females accompanied by cubs. A wounded bear counts against your bag limit for the regulatory year.
- Applicants successfully drawn for a fall Kodiak bear hunt are ineligible to receive another Kodiak bear permit the following spring.

Residents and 2nd-Degree Kindred Nonresidents (DB200 Series): Application Deadline for all hunts - December 15
Guided Nonresidents (DB100 Series): Application Deadline for Spring hunts - December 15 / Application Deadline for Fall hunts - May 31

Alaska Residents or Nonresidents Hunting with Resident Relatives Fall 2015 and Spring 2016

Fall Season: Oct. 25 - Nov. 30
Spring Season: April 1 - May 15

Nonresidents Hunting with a Registered Guide Spring 2015 and Fall 2015

Nonresidents intending to hunt with a resident relative must apply for the DB200 series of permit hunts listed in chart at right.

Two nonresidents intending to hunt with a resident relative may not apply on a party hunt application, because only one permit is issued per hunt to a nonresident hunting with a resident relative.

A maximum of four nonresidents guided by resident relatives will be awarded permits for each season, with a maximum total of eight permits per regulatory year.

**** Second-degree kindred:***
A father, mother, brother, sister, son, daughter, spouse, grandparent, grandchild, brother- or sister-in-law, son- or daughter-in-law, father- or mother-in-law, stepfather, stepmother, stepsister, stepbrother, stepson or stepdaughter.

Guide-Client contracts are required at the time of application (Dec. 15). In addition, guides may only submit as many hunt applications as permits available for that hunt. A party permit counts as two hunt applications.

Guided nonresidents may apply for one fall Kodiak brown bear drawing permit (DB100 series).

All nonresident Kodiak bear hunters who are not hunting with a resident relative must be accompanied in the field by a licensed big game guide legally registered to hunt in the area. Kodiak National Wildlife Refuge and some private landowners only allow certain guides to take nonresident bear hunters on their lands. Prior to applying for a permit for these areas (marked in the table at left with an asterisk), hunters are strongly encouraged to check on guide availability. A list of the guides registered for particular hunt areas may be obtained from the Dept. of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing, PO Box 110806, Juneau, AK 99811 for a fee of $5.

If a successful applicant cancels a permit (in writing to Kodiak ADF&G), we will choose an alternate for that permit. Alternate lists for each hunt area are produced during the drawing process.

If successful applicants cancel their permits after the above dates, and where there are no alternates for the hunt, unallocated permits will be issued on a first-come, first-served basis starting on the fourth working day after the cancellation is received in the Kodiak ADF&G office. To reserve one of these permits, a hunter or an agent must provide the guide's unique verification code (obtained by the guide from Big Game Commercial Services Board) to the ADF&G office in Kodiak.

If there are no applicants for a drawing permit, or if the alternate list within a particular area is exhausted, we will issue all remaining permits on a first-come, first-served basis starting on February 27, 2015 for the spring hunts and August 10, 2015 for the fall hunts. To reserve one of these permits a hunter, guide, or agent must provide the guide's unique verification code (obtained by the guide from Big Game Commercial Services Board) to the ADF&G office in Kodiak in person.

Much of south and east Afognak Island and northern Kodiak Island is privately owned and subject to land use fees. Access permits are available from land owners. Land status maps and addresses of land owners are available at ADF&G offices in Kodiak, Anchorage, Soldotna, Homer, and Fairbanks and online at http://www.dnr.state.ak.us/mlw/planning/easmtatlas/kodiak/#MAPS-TXT.

11, Chitina	DI450	2	Sept. 6 - Nov. 30	-----	Either Sex	In person to Glennallen within 1 day of leaving the hunt area.	By mail within 15 days of close of season	**Hunt Area:** drainages of the Chitina River east of the Chakina River and south and east of the Nizina River. This is a remote area, primarily accessible by light aircraft on small undeveloped gravel strips.
11 and portion of 13D, Copper River	DI454	24	Sept. 1 thru Mar. 31					**Hunt Area**: east of the Copper River, south of the Klawasi River, and west of the line from Mount Sanford to Mount Wrangell to Long Glacier west of the Kotsina River and that portion of Unit 13D east of the Edgerton Highway. If a successful applicant fails to indicate intent to hunt (in writing to ADF&G, Box 47, Glennallen, AK 99588) by Sept. 1, we will choose an alternate for that permit. An alternate list for the hunt is produced during the drawing process. Hunting opportunity and success on public land is extremely limited. During the hunt period, most bison are found on private lands, where a $1500 trespass fee is charged. Success is high on private land. If you do not have considerable knowledge of the local area, a considerable amount of time to hunt, or do not plan to purchase the trespass permit, please do not apply for this hunt. Additional hunt information will be mailed from the Glennallen office prior to the hunt.

How does the random drawing work?

All permit applications are entered into a computer database. Once entered, each application is carefully checked for 18 potential problems such as two or more applications for the same hunt, correct hunt numbers, date of birth, hunting license information, etc. The computer then randomly assigns a number to each hunt on each valid application. The random number is referred to as your draw number. Party hunt applications receive one draw number for each hunt. That is, both applicants on the party hunt application receive the same draw number per hunt, so if that number is drawn, both party members receive a permit. Permits are awarded to applicants with the lowest draw numbers up to the number of permits allocated for that particular hunt. If five permits are to be awarded for a particular hunt, the five permits will be given to the first five lowest draw numbers until the total permit allocation is awarded. For example, if four of the five permits have been awarded, and a party application has the next random number, the party application will be skipped. This is because there is only one permit left available, and two permits would have to be awarded (one for each party member). The permit will be awarded to the next individual applicant whose number has been selected. After all permits have been tentatively assigned for a species, the listing is checked to identify any individuals who have been selected for two permits for the same species. If this occurs, the individual is awarded a permit based upon the first, second or third choice on the permit application. The other permit is then made available to the first individual applicant with the next lowest random number. The process is repeated for all hunts for that species until all possible permits are issued within the rules for awarding permits. Alternate lists are required to be used in a few specific hunts to maximize hunting opportunity. The alternate list is generated from all remaining applicants using the draw order already assigned in the original random draw. If the original applicant drawn does not notify the department of intent to hunt by the date required, the next applicant(s) on the alternate list will be offered a permit, until all permits have been awarded.

		DS204	60	Aug. 26-Sept. 20		
20E and 20D, Mt. Harper		DS206	4	Aug. 10-Sept. 20		**Hunt Area:** that portion of Unit 20D north of the Alaska Highway and that portion of Unit 20E within the Middle Fork of the Fortymile River drainage north and west of the north bank upstream from and including the Joseph Creek drainage. This area is primarily accessible by light aircraft. Sheep density is low.

Sheep hunt areas in Unit 14C are not the same as the management areas mapped in the Alaska Hunting Regulations.

A permit does not allow you to hunt in an area closed to hunting.

It is your responsibility to know the open season and boundaries of the hunt area for which you have won a permit.

Successful sheep hunters in Unit 14C must bring the horns (attached to the skull plate) for measuring and aging, and the permit hunt report to ADF&G in Anchorage, Palmer, Homer, or Soldotna within 10 days of taking the animal.

To improve your chance of drawing a permit:

1. Please read and follow the instructions carefully. Last year, approximately 158,812 applications were received for drawing permit hunts. About 6% of the total applications were rejected. The most common errors were applying for the same hunt the person won last year, too many hunts per species, failure to report on a hunt the prior year, and applying for the same hunt more than once. In addition, hunt applications were invalidated due to insufficient payment of application fees;
2. Apply for maximum of three hunts per species per regulatory year (six for moose);
3. Apply for less popular hunts. The table below lists results of the 2014 Drawings. The column titled "% Drawn" gives the percentage of applicants who won permits for each hunt; the higher the percentage, the better the odds of winning. For example, 12% of the hunters who applied for brown bear hunt DB251 won permits, while only 2% of those who applied for sheep hunt DS170 won permits.

Restricted Weapons Hunts

Some drawing hunt areas have weapons restrictions. The certification requirements for these areas vary depending on which weapon you are hunting with:

***Certified Bowhunters Only*:** You must have your ADF&G-approved bow hunting education course (**IBEP** or equivalent) certification prior to applying for the drawing hunt; this includes successful completion of the shooting proficiency test. You **MAY NOT** hunt with long bow, recurve bow, or compound bow in any hunt or area restricting the taking of **big game** to archery only unless you have first successfully completed an ADF&G-approved bow hunting education course (IBEP or equivalent). IBEP or equivalent certification courses taken outside Alaska are accepted. Your certification card must be carried on your person while you are hunting in the field.

Certified Muzzleloader Hunters Only: You must have your muzzleloader hunting certification prior to applying for the drawing; this includes successful completion of the shooting proficiency test. For big game, muzzleloaders must be a shoulder-mounted long gun and at least .45 caliber or larger with a barrel that is either rifled or smooth bore and discharges a single projectile. For hunts restricted to muzzleloader only, muzzleloaders equipped with a scope or using smokeless powder are prohibited.

Certified Shotgun Hunters Only: To hunt big game with a **shotgun** in a weapons-restricted hunt, you must have successfully completed a ADF&G-approved Basic Hunter Education course prior to hunting; this includes successful completion of the shooting proficiency test.

If you intend to take one of these courses in Alaska, you should sign up early because classes fill quickly and are seldom offered during the summer. The department currently offers the courses through volunteer instructors and online. The courses include a shooting proficiency test. Names of instructors and course dates are available at regional Fish and Game offices.
