Public Review Nomination for Waters
Important to Anadromous Species

[X] Addition [ ] Deletion

Name of Waterbody (if known): wetlands adjacent to Salmon Creek

Location:

Anadromous Waters Catalog Volume and Number 231-30-10080-2010 (Stream No)

USGS 1:63,360 Quadrangle Seward A-7 of 53

or 1:250,000 (if 1:63,360 not available) _____

Species	Date(s) Observed	Stage(s) (Spawning, Rearing, Migration)
Coho	various	rearing
Dolly Varden	"	rearing

Comments: Please provide any clarifying information in addition to identification on Anadromous Waters Catalog Public Review Maps.

The small streams and drainages in the wetlands adjacent the creek are used as is the larger wetlands area during high water. These wetlands are critical rearing habitat according to Ted McHenry. Because of the lack of map detail the line depicting the wetland boundary is not at all accurate.
