Nomination # _____

Carl Yanagawa 10/2/84
Regional Supervisor Date

10/24/84

Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Chum	Sept 6, 1984	X		X
Sockeye	Sept 6, 1984	X		X
Coho	July 1984		X	X
Sockeye	July 1984		X	X

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

On 9/6/84, 514 sockeye & 526 chum salmon were enumerated within the area shown in red on the attached map. A beaver dam apparently stopped further upstream movement at the time of this survey. Very large numbers of juvenile coho & sockeye were observed in July, 1984.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) LARRY J. ENGEL

Date: 9/25/84 Signature: Larry J. Engel

Address: Palmer ADF&G

Signature of Area Biologist: Larry J. Engel
