Nomination # _____

Carl Yanagawa 10/10/84
Regional Supervisor Date

_____ _____
Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Sockeye	several times since 1982	X		X

Change 247-50-10270-2041 from A to B on map attached. Delete Black Lake from Catalog

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Black Lake is not connected to Wasilla CR, therefore, sockeye do not use this waterway. On the attached map I have shown a small (unnamed) lake within the Wasilla CR drainage that does support a small sockeye run. This run is probably less than 100 fish during most years

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
