Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Silver Salmon	September, 1983	X	X	X
Add Trib 247-50-10300-2055-3008				

Extend CO, into Kings Lake (west side) and into dry lake

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Change recommended to more accurately reflect distribution of coho in a portion of the Cottonwood Cr drainage. Both basins of Kings Lake support rearing coho (FRED + natural fish) Dry Lk also supports rearing coho. Adults have been observed as far upstream as Dry Lake. Note change in drainage pattern.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) LARRY J. EWGER

Date: 9/23/84 Signature: Larry J. Ewger

Address: Palmer ADF+G

Signature of Area Biologist: Larry J. Ewger
