Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

A stream parellels the AK Railroad tracks and is fed by shallow ponds which were created by gravel extraction. Pink and chum salmon were observed spawning up to the outlet of the ponds.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
