Regional Supervisor Date

_____ _____

_____ _____
Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
King salmon	Delete above falls			

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

The current ATLAS indicates that kings can jump the falls on the Middle Fork of Montana Creek. The upper limits of the creek that are used by salmon should be corrected as depicted on the attached map.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
