Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Coho salmon	10-9-86		X	
Chinook salmon	10-9-86		X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

A local resident, Mr. Horner reported seeing adult chinook go above Sitze Road crossing. Several Co and Kr were taken adjacent to a cleared section line. Rearing habitat above survey looked good but time prevented further investigation. 2 snails also were taken in minnow trap. Several Dolly Varden to 6" were observed. Deep pool 150yds above Sitze Rd

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
