Coho salmon	10-10-86		X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Rearing habitat looked good. Several Dolly Varden observed. Time prevented further investigation. Several juvenile coho salmon were observed and may possibly go farther than observed.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
