PINK SALMON	8-28-85	X		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Approximately 200 pink salmon observed spawning during aerial surveys during July-August 1985; Fish limited by gradient and low water flow to intertidal or slightly above the intertidal portions of the stream; data available in files of Cordova office of ADFG-C.F.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
