

Alaska Department of Fish and Game

---

2023 – 2024

Statewide King and Tanner Crab Commercial  
Fishing Regulations

This booklet contains regulations regarding **COMMERCIAL KING AND TANNER CRAB FISHERIES** in in the State of Alaska. This booklet covers the period June 2023 through May 2024 or until a new book is available following the Board of Fisheries meetings.

**Note to Readers:** These statutes and administrative regulations were excerpted from the Alaska Statutes (AS), and the Alaska Administrative Code (AAC) based on the official regulations on file with the Lieutenant Governor. There may be errors or omissions that have not been identified and changes that occurred after this printing. **This booklet is only effective through the printing date of 8/1/2023. To be certain of the current laws, refer to the official statutes and the AAC. An electronic version, that is updated often, is available on the ADF&G website located here:**

<https://adfg.alaska.gov/index.cfm?adfg=fishregulations.commercial>

**Electronic version current through 8/1/2023**

**Changes to Regulations in this booklet:** The regulations appearing in this booklet may be changed by subsequent board action, emergency regulation, or emergency order at any time. Supplementary changes to the regulations in this booklet will be available on the department's website and at offices of the Department of Fish and Game.

For information or questions regarding regulations, requirements to participate in commercial fishing activities, allowable activities, other regulatory clarifications, or questions on this publication please contact the Regulations Program Coordinator at (907) 465-6124 or email [dfg.fish.regulations@alaska.gov](mailto:dfg.fish.regulations@alaska.gov)

The Alaska Department of Fish and Game (ADF&G) administers all programs and activities free from discrimination based on race, color, national origin, age, sex, religion, marital status, pregnancy, parenthood, or disability. The department administers all programs and activities in compliance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972.

If you believe you have been discriminated against in any program, activity, or facility please write: ADF&G ADA Coordinator, P.O. Box 115526, Juneau, AK 99811-5526 or

U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, MS 2042, Arlington, VA 22203

or the Office of Equal Opportunity, U.S. Department of the Interior, 1849 C Street NW MS 5230, Washington DC 20240.

The department's ADA Coordinator can be reached via phone at the following numbers:  
(VOICE) 907-465-6077 (Juneau TDD) 907-465-3646 (FAX) 907-465-6078  
(Statewide Telecommunication Device for the Deaf) 1-800-478-3648

**Print Date: 8/1/2023**

This publication was released by the Department of Fish and Game at a cost of \$6.61 per copy, and printed in Anchorage, AK in 2023

**ADF&G Mission Statement**

The Alaska Department of Fish and Game’s mission is to manage, protect, maintain, and improve the fish, game and aquatic plant resources of Alaska. The primary goals are to ensure that Alaska’s renewable fish and wildlife resources and their habitats are conserved and managed on the sustained yield principle, and the use and development of these resources are in the best interest of the economy and well-being of the people of the state.

**Guiding Principles**

- Seeking excellence in carrying out its responsibilities under state and federal law, the department will:
- Provide for the greatest long-term opportunities for people to use and enjoy Alaska’s fish, wildlife and habitat resources.
- Improve public accessibility to, and encourage active involvement by the public in, the department’s decision making processes.
- Build a working environment based on mutual trust and respect between the department and the public, and among department staff.
- Maintain the highest standards of scientific integrity and provide the most accurate and current information possible.
- Foster professionalism in department staff, promote innovative and creative resource management, and provide ongoing training and education for career development.

### Article 1. Registration Areas.

#### **5 AAC 34.001. Application of this chapter**

Requirements set out in this chapter apply only to commercial fishing for king crab, unless otherwise specified. Subsistence, personal use, and sport fishing regulations affecting commercial king crab vessels or affecting any other commercial king crab fishing activity are set out in the subsistence fishing regulations in 5 AAC 02, personal use fishing regulations in 5 AAC 77, and sport fishing regulations in 5 AAC 47 - 5 AAC 75.

#### **5 AAC 34.005. Registration areas established**

# COMMERCIAL KING CRAB FISHERY

(a) The following are king crab registration areas and their code letters:

Code Letter

**A** - Southeastern Alaska Area (5 AAC 34.100)

**D** - Yakutat Area (5 AAC 34.160)

**E** - Prince William Sound Area (5 AAC 34.200)

**H** - Cook Inlet Area (5 AAC 34.300)

**K** - Kodiak Area (5 AAC 34.400)

**M** - Alaska Peninsula Area (5 AAC 34.500)

**O** - Aleutian Islands Area (5 AAC 34.600)

**T** - Bristol Bay Area (5 AAC 34.800)

**Q** - Bering Sea Area (5 AAC 34.900)

(b) Each registration area identified in (a) of this section shall be designated as one of the following:

(1) superexclusive registration area: a king crab vessel that has been validly registered to take king crab in a king crab superexclusive registration area may not be used to take the same species of king crab in any other king crab registration area during the same registration year;

(2) exclusive registration area: unless otherwise provided in this chapter, a king crab vessel that has been validly registered to take king crab in a king crab exclusive registration area may not be used to take the same species of king crab in any king crab superexclusive registration area or in any other king crab exclusive registration area during the same registration year;

(3) nonexclusive registration area: during the same registration year, a king crab vessel may be registered to take the same species of king crab in one or more of the king crab nonexclusive registration areas and registered to take the species of king crab for one king crab exclusive registration area, but may not be used to take the same species of king crab in any king crab superexclusive registration area or in more than one king crab exclusive registration area.

## **5 AAC 34.010. Application of regulations**

(a) Unless otherwise specified in this chapter, the regulations in this chapter applicable to a king crab registration area also apply to the adjacent waters of the exclusive economic zone.

# COMMERCIAL KING CRAB FISHERY

(b) The commissioner may suspend the application of this section to all or a portion of the waters of the exclusive economic zone adjacent to a king crab registration area if the commissioner finds that

(1) application of this section fails to facilitate enforcement of regulations applicable to a registration area;

(2) application of this section fails to protect or conserve king crab inhabiting territorial waters of Alaska; or

(3) the state has an insufficient interest in the king crab inhabiting the waters of the exclusive economic zone to warrant extension of the jurisdiction of the state to the exclusive economic zone.

(c) For the purposes of this chapter, "exclusive economic zone" means all the waters adjacent to a king crab registration area and seaward to a boundary line drawn in such a manner that each point on the line is 200 nautical miles from the baseline from which the territorial sea is measured.

## **5 AAC 34.020. King crab area registration**

(a) In addition to the requirements of 5 AAC 39.120 and unless otherwise specified in this chapter, the vessel owner, or the owner's agent, shall validly register a king crab vessel for a king crab registration area before using that vessel to take king crab in that registration area and the exclusive economic zone adjacent to the registration area.

(b) The king crab vessel registration year is June 28 - June 27.

(c) The department shall issue a registration certificate to a king crab vessel if the vessel owner, or the owner's agent, completes a registration form available from the local representative of the department, and if the vessel is licensed and otherwise in compliance with AS 16 and this title. The vessel owner, or the owner's agent, shall sign the registration certificate when it is issued and shall keep it on board the vessel and immediately available at all times during fishing operations. The registration certificate must be shown upon request to any peace officer of the state.

(d) In a king crab registration area, district, or section where tank inspections are required, a vessel registration is not valid until the vessel has had a tank inspection. A tank inspection is not complete unless, at the time of inspection, there is on board the vessel the holder of a valid CFEC interim use or limited entry permit, with the permit in possession, for the registration area or district and the king crab species for which the vessel is registered. Successful completion of the inspection validates the vessel's registration for a registration area. If an inspection is not required in a registration area, compliance with (c) of this section validates the registration.

(e) A vessel shall be issued an inspection certificate upon successful completion of an inspection required by this chapter or 5 AAC 34.030. An inspection is not complete unless a current registration certificate for the king crab registration area is shown to the local representative of the department conducting the inspection. The vessel owner, or the

# COMMERCIAL KING CRAB FISHERY

owner's agent, shall sign the inspection certificate and shall keep it on the vessel and available at all times during fishing operations. The inspection certificate must be shown upon request to any peace officer of the state.

(f) The department may invalidate a vessel registration to permit the vessel to be used to take crab in other king crab registration areas, except that once a vessel has been inspected for a superexclusive or exclusive registration area, the department may not invalidate a vessel registration in order to permit the vessel to be used to take king crab in another superexclusive or exclusive registration area.

(g) Unless otherwise specified in this title, a vessel validly registered to take king crab in a king crab registration area may not be used to take any other species of crab in any other king crab registration area at the same time. A vessel may not be validly registered for more than one king crab registration area at a time.

(h) A vessel owner, or the owner's agent, may register to take one or more species of king crab within a king crab registration area. A vessel registered for a specific species of king crab in a king crab registration area shall comply with all of the registration requirements in this section for that registration area.

(i) The owner, or the owner's agent, of a vessel landing king crab in a registration area other than the area in which the vessel is validly registered at the time under this section shall attach the inspection certificate issued under (c) of this section to the back of the department copy of the fish ticket at the time the king crab are landed.

(j) The commissioner may authorize late registration of a replacement king crab vessel in the event of the loss of a vessel registered for a specific king crab registration area. A replacement vessel authorized to register late shall be registered only for the king crab registration area in which the lost vessel was registered. In order to be authorized to register a replacement vessel under this subsection, the vessel owner, or the owner's agent, shall submit written documentation verifying the loss of the vessel. For purposes of this subsection, "loss of a vessel" means that due to sinking or destruction the vessel is incapable of being used to take king crab during the king crab season in the registration area for which the vessel is registered.

(k) Unless otherwise specified in this chapter, a king crab vessel registration is invalid 24 hours following the closure of the season for that king crab registration area.

(l) If a deadline for vessel registration for a king crab fishery falls on a Saturday, Sunday, or state holiday, the registration deadline is extended to 5:00 p.m. the next state working day.

## **5 AAC 34.030. Inspection requirements**

(a) Unless otherwise specified in this chapter and (b) of this section, within 24 hours before a season opening or at any time during the open season before taking or processing king crab, a king crab vessel registered for a registration area must have its holds or live tanks inspected by a local representative of the department at inspection points specified in this chapter. Unless otherwise specified in this chapter, king crab may

# COMMERCIAL KING CRAB FISHERY

not be on board the vessel at the time of inspection. Successful completion of the inspection validates the vessel's registration for the registration area. During the period 24 hours before the season opening in a registration area until the season closure in that area, the inspection requirements of this section do not apply to a registered king crab vessel that does not have a saltwater circulation system in its holds or live tanks. If an inspection is not required, completion of the registration form validates the registration.

(b) By announcement, the commissioner may require vessel inspection for a registration area that is exempt from the requirements of this section.

## **5 AAC 34.031. Landing requirements**

(a) Except as provided in (b) of this section, a king crab vessel must land all king crab in the registration area for which it is validly registered at the time of the landing.

(b) The owner, or the owner's agent, of a king crab vessel validly registered for a registration area that intends to land king crab in another registration area shall contact by radio or telephone a local representative of the department for authorization before leaving the registration area for which that vessel is registered and shall submit to an inspection at a location specified by the representative. The vessel owner, or the owner's agent, shall contact the representative located in the registration area for which that vessel is validly registered at the time of the contact. A vessel landing king crab under an authorization granted under this subsection may not, at the time of landing its catch, have more king crab on board than were present at the time of the inspection. If the local representative of the department does not require an inspection under this subsection, the vessel owner, or the owner's agent, making radio or telephone contact shall state to the representative the amount of king crab on board at the time of the contact. A vessel authorized to land king crab in another registration area without an inspection may not land 10 percent more or less king crab than the amount stated at the time of the contact with the representative.

(c) When a king crab vessel lands king crab in another registration area under an authorization granted under (b) of this section, the registration under which the vessel is operating becomes invalid. In order to again become validly registered for an area, the vessel must comply with 5 AAC 34.030 or the inspection requirements for a specific registration area otherwise specified in this chapter.

(d) The commissioner may suspend any or all of the requirements of (b) and (c) of this section for a specific registration area if the commissioner determines that to do so would be in the public interest.

(e) Unless otherwise specified in this chapter, after 24 hours following the closure of any registration area for specified species of king crab, a king crab vessel registered for that area may not have that species of king crab on board in waters subject to the jurisdiction of the state unless

(1) the vessel is otherwise in compliance with 5 AAC 34.020 and 5 AAC 34.030;

## COMMERCIAL KING CRAB FISHERY

(2) except in Registration Areas O, T, and Q, the vessel owner, or the owner's agent, has contacted, in person or by radio or telephone, a local representative of the department at a landing port or inspection point specified in this chapter or by the department, and the representative has authorized the extended possession of king crab; contact with the representative must be made within the 24-hour period following the season closure for that species of king crab in the registration area;

(3) the vessel owner, or the owner's agent, who catches and processes king crab has complied with the pot storage requirements in 5 AAC 34.052(a)(1), the landing requirements specified in this subsection or for a specific registration area otherwise specified in this chapter, and has contacted a local representative of the department within the times specified in this subsection or for a specific registration area otherwise specified in this chapter, and the representative has authorized extended possession of king crab for purposes of processing or transportation;

(4) if the king crab are processed, no more than 90 days have passed since the closure of the registration area, and the vessel is carrying a department approved onboard observer for the entire period; during the 90-day period the department may waive the requirement of 5 AAC 34.030 prohibiting the presence of king crab on board a vessel during tank inspection.

(f) The owner, or the owner's agent, of a king crab vessel that has sunk or upon which the death of a crewmember has occurred that prevents timely removal or storage of gear at the time of closure, as specified in 5 AAC 34.052, may apply to the commissioner for a permit to sell legal size male king crab taken when the pots are retrieved by the owner, or the owner's agent, after the king crab season is closed in the registration area. The application must be made within 14 days after the sinking of the vessel or death of a crewmember as described in this subsection. A fish ticket for any delivery made under this subsection must attribute the harvest of the king crab to the lost vessel or the vessel upon which the death of a crewmember has occurred.

(g) A catcher-processor vessel carrying processed king crab out of state waters that had 100 percent onboard observer coverage during the fishing season, is not required to carry an onboard observer while transiting out of state waters if

(1) the vessel departs to the port where it will off-load its king crab within 21 days after departing the registration area;

(2) the vessel owner, or the owner's agent, gives a check out/check in report by notifying the department at least 24 hours in advance of the vessel's departure time and of its estimated time of arrival at the port where the vessel will off-load king crab;

(3) the vessel has a pre-transit inspection by the department before departing;

(4) the vessel proceeds immediately and directly to the port where it will off-load king crab;

(5) the vessel owner, or the owner's agent, notifies the department upon arrival at the port where the vessel will off-load king crab;

(6) the vessel owner, or the owner's agent, complies with any department request for copies of off-load shipping documents; and

(7) the vessel owner, or the owner's agent, cooperates with a department request for an independent third party verification of an off-loading under this section.

## **5 AAC 34.033. Tenders for king crab**

(a) A vessel used to tender king crab for a vessel validly registered to take king crab may not have king crab gear or equipment on board the tendering vessel and may not use that vessel to take king crab.

(b) Before engaging in any tendering operation, the operator of a tendering vessel shall register that vessel with a local representative of the department within the king crab registration area, district, or section in which the operator intends to operate that vessel.

(c) Before leaving a king crab registration area, district, or section for which it is registered, the operator of a tendering vessel shall contact in person, or by radio or telephone, a local representative of the department in the registration area where the vessel is operating. At the time of the contact with the representative, the tendering vessel operator shall state the number of king crab on board the vessel and the vessel's unloading destination. To comply with the requirements of this subsection, the operator of a tendering vessel in Registration Area O, Q, or T must contact a local representative of the department in Dutch Harbor.

## **5 AAC 34.035. Closure of king crab registration areas and appeal procedure**

Within five days following the closure of a king crab registration area or portion of a registration area, the holder of a valid CFEC interim use or limited entry permit, or the vessel owner, or the owner's agent, of a king crab vessel that was validly registered for that area, may formally request, in writing, that the commissioner reopen the area. The commissioner shall consider all relevant information concerning the condition of king crab stocks within the closed registration area. Within 14 days after the receipt of the request, the commissioner shall publicly announce a decision to retain the closure or reopen the registration area or portion of the registration area by emergency order.

## **5 AAC 34.040. Partial closure of registration areas**

(a) Pursuant to the procedures set out in 5 AAC 34.035, the commissioner may close a registration area for certain species of king crab.

(b) Unless otherwise specified in 5 AAC 34, after 24 hours following the closure of any registration area for specified species of king crab, no vessel registered for that area may have that species of king crab on board in waters subject to jurisdiction of the state unless the

(1) vessel is validly registered for another registration area and the area is open for that species of king crab;

# **COMMERCIAL KING CRAB FISHERY**

(2) vessel is otherwise in compliance with 5 AAC 34.020 and 5 AAC 34.030;

(3) vessel operator has contacted, in person or by radio, a local representative of the department at a landing port or inspection point specified in 5 AAC 34 or by the department, and the representative has authorized the extended possession of crab; contact must be made within the 24-hour period following the season closure for that species of king crab in the registration area, or any district in Area Q.

(c) The provisions of 5 AAC 34.035 shall apply to partial closures.

(d) Unless otherwise stated, all references in this chapter to closures of registration areas shall not be deemed applicable to partial closures.

## **5 AAC 34.045. Discretionary openings**

In areas where the commissioner is authorized to open the season by emergency order, the commissioner may delay the opening beyond the earliest date specified in the regulations if he finds that such delay would affect preservation of the public peace, health, safety, or general welfare.

## **Article 2. General Provisions.**

### **5 AAC 34.050. Lawful gear for king crab**

Unless otherwise specified in this chapter,

(1) king crab may be taken only with king crab pots; king crab taken by other means must be returned to the water without further harm;

(2) a king crab pot is a pot that is no more than 10 feet long by 10 feet wide by 42 inches high with rigid tunnel eye openings that individually are no less than five inches (13 cm) in any one dimension with tunnel eye opening perimeters that individually are more than 36 inches (91.4 cm) or a pot that is no more than 10 feet long by 10 feet wide by 42 inches high and that tapers inward from its base to a top consisting of one horizontal opening of any size;

(3) during the open season for king crab, all shellfish pots, other than those described as Dungeness crab, Tanner crab, or shrimp pots, must conform to the specifications in (2) of this section.

### **5 AAC 34.051. King crab gear marking requirements**

(a) At least one buoy on each king crab pot or ring net must be legibly marked with the permanent ADF&G vessel license plate number of the king crab vessel operating the gear. The buoy must bear only the number of the vessel used in operating the gear. The number shall be painted on the top one-third of the buoy in numerals at least four inches high, one-half inch wide, and in a color contrasting to that of the buoy. The buoy

markings must be visible on the buoy above the water surface when the buoy is attached to the crab pot.

(b) In registration areas where a king crab pot limit is in effect, each king crab pot must have one identification tag issued by the department placed on the main buoy or on the trailer buoy if more than one buoy is attached to the pot.

(c) Identification tags are issued before each fishing season, are uniquely numbered for each registration year, and will be issued at the time of vessel registration for that vessel only. The vessel owner, or the owner's agent, shall apply for identification tags at a department office designated to issue the tags. Replacement of tags lost during the season is permitted if the vessel operator submits a sworn statement or affidavit describing how the tags were lost and listing the numbers of the lost tags. Tags shall be renewed annually before each fishing season.

## **5 AAC 34.052. King crab gear storage requirements**

(a) Unless otherwise specified in this chapter, during the closed season for king crab in a registration area, king crab pots must be removed from the water, except rectangular king crab pots with all bait and bait containers removed and all doors secured fully open, and cone or pyramid king crab pots with all bait and bait containers removed and all doors not secured closed, may be stored in waters

(1) of 25 fathoms or less in depth; or

(2) deeper than 25 fathoms for only

(A) seven days following the season closure for king crab in a registration area; or

(B) 72 hours following the closure of any district, portion of a district, or portion of the registration area.

(b) Unless otherwise specified in this chapter, king crab pots with all doors secured fully open and with all bait containers removed may be stored in water deeper than the maximum permissible depth if the vessel owner, or the owner's agent, has contacted, in person or by radio or telephone, the local representative of the department at a landing port or inspection point specified in this chapter or by the department, and has been granted an extension of time to remove and store pots due to a major vessel breakdown or extreme weather conditions.

(c) A pot stored under this section may not have any portion of the line attaching the pot to a buoy or buoys floating on the surface of the water at any time, except for that portion of the line connecting the main buoy to an auxiliary buoy or buoys.

(d) The provisions of this section may be modified by regulations in effect for other specified registration areas.

## **5 AAC 34.053. Operation of other pot gear**

# COMMERCIAL KING CRAB FISHERY

Unless otherwise specified in 5 AAC 31 - 5 AAC 38,

(1) a person or vessel that operates commercial, subsistence, personal use, or sport pots, during the 14 days immediately before the opening of a commercial king crab season in a king crab registration area, may not participate in the commercial king crab fishery in the king crab registration area or, with respect to Registration Area Q, in that district or section of Registration Area Q, where the fishing with pots occurred, except that a person or vessel is not disqualified from the commercial king crab fishery by placing king crab pots with bait and bait containers removed and with the doors secured open in waters that are 25 fathoms or less in depth or as otherwise specified in 5 AAC 34; a person or vessel that participates in a commercial king crab fishery in a king crab registration area or, with respect to Registration Area Q, in that district or section of Registration Area Q where the fishing with pots occurred, may not operate commercial, subsistence, sport, or personal use pots in that registration area during the 14 days after the close of the commercial king crab season; a vessel or person may operate commercial, subsistence, sport, or personal use pots in a king crab registration area after putting king crab pots in storage, as specified in 5 AAC 34.052, and, unless the registration is already invalidated under 5 AAC 34.020(k), after invalidating the vessel's king crab registration by contacting, in person, a local representative of the department;

(2) during a commercial king crab fishery, a person or vessel validly registered for that fishery may not operate commercial, subsistence, sport, or personal use pots other than commercial king crab pots, except that a person or vessel may stop participating in the commercial king crab fishery and instead operate commercial pots other than king crab pots if

(A) the king crab pots are put in storage as specified in 5 AAC 34.052; and

(B) the vessel owner, or the owner's agent, contacts a representative of the department, in person, and requests that the king crab registration be invalidated.

## **5 AAC 34.055. Permits for processing vessels**

The owner or operator of a vessel used in the processing of king crab must obtain a permit from the department before starting processing operations. The permit must contain the following requirements:

(1) reporting of vessel location to the department;

(2) reporting of harvesting or processing operations to the department;

(3) reporting of unloading and transport operations to the department;

(4) permission for local representatives of the department to inspect, at any time, the vessel's holds, live tanks, freezers, processing areas, and processed and unprocessed king crab; and

(5) reporting of any other information required by the department for the conservation and development of king crab resources.

## **5 AAC 34.057. Postseason king crab pot recovery permit**

(a) The department may issue, under the provisions of this section, a permit for Registration Area O, Q, or T to a person or vessel to recover

(1) lost king crab pot gear belonging to another vessel or person; or

(2) king crab pot gear for a vessel that has experienced a major mechanical breakdown.

(b) The permit issued under this section may specify

(1) requirements for a vessel area check-in and check-out procedure to be used by the vessel or person;

(2) requirements for the vessel or person to notify the department by radio, telephone, or telex, at the beginning and the completion of the pot gear recovery operations;

(3) requirements for vessel tank inspections before, and at the conclusion of, the pot gear recovery operations at locations specified by the department;

(4) other necessary conditions as determined by the department.

(c) Before receiving a permit under this section to recover king crab pot gear belonging to another vessel or person, the permit applicant must furnish to the department written authorization for the requested pot gear recovery from the owner of the lost gear or the owner or operator of the vessel experiencing a major mechanical breakdown. If the recovery permit is being issued to recover lost pot gear, the authorization must contain the last known location of the king crab pots and specific identification markings. If the recovery permit is being issued due to a major mechanical breakdown of a vessel, the authorization must include the exact location of the king crab pots and specific identification markings and a written explanation by a qualified repair facility detailing the extent of the damage and estimated time for repairs.

(d) Pot gear recovery operations under this section may only be performed during a closed season and may not be conducted by or for any vessel or person that, at the time of pot gear recovery operations, is registered for any pot fishery in Registration Areas O, Q, or T.

(e) All crab remaining in any pot gear recovered under this section must be immediately returned to the sea without further harm.

## **5 AAC 34.060. Size limit for king crab**

(a) Male king crab seven inches (178 mm) or greater in width of shell may be taken or possessed, unless otherwise provided in 5 AAC 34.

# **COMMERCIAL KING CRAB FISHERY**

(b) Width measurement of king crab shall be the straight-line distance across the carapace at a right angle to a line midway between the eyes to the midpoint of the posterior portion of the carapace and shall include the spines.

## **5 AAC 34.065. Female and undersize king crab**

Male king crab less than minimum size and female king crab may not be taken or possessed. Such king crab which have been taken must be immediately returned unharmed to the sea.

## **5 AAC 34.070. Registration and inspection documents**

Repealed.

## **5 AAC 34.075. Reporting of king crab catches lost or not purchased**

(a) Each king crab fisherman shall indicate on the fish ticket at the time of landing any king crab harvested which are not purchased by the processor or buyer, or which have been dumped at sea.

(b) Each buyer of king crab shall indicate on the fish ticket any king crab which was not purchased from a load.

## **5 AAC 34.080. Harvest strategy**

The department shall establish an annual harvest strategy for each king crab stock which is consistent with the board's policy statement on king crab resource management, 90-04-FB, March 23, 1990, hereby adopted by reference. If adequate data are available, the department shall establish a threshold level of abundance and shall close the fishery during the entire fishing season on any stock that is below its threshold level of abundance. Data used to determine guideline harvest levels and, if appropriate, exploitation rates, may include estimates of exploitable biomass, estimates of recruitment, estimates of threshold, estimates of accepted biological catch, historical fishery performance data, estimates of reproductive potential, and market or other economic considerations. The department may not change current harvest strategies without review by the board, except for those changes already permitted by 5 AAC 34.035.

## **5 AAC 34.081. Definition of "rigid" as applied to tunnel eye openings**

In this chapter, "rigid," as applied to king crab pot tunnel eye openings, means that after placing 20 pounds of pressure, in any direction, anywhere around the perimeter of the tunnel eye opening, the opening is no larger than a maximum dimension allowed under this chapter.

## **Article 3. Conditions for License and Permits.**

### **5 AAC 34.082. Permits for *Lithodes couesi* king crab**

## COMMERCIAL KING CRAB FISHERY

(a) Male king crab of the species *Lithodes couesi* may be taken in Registration Areas K, M, O, Q, and T only under the conditions of a permit issued by the commissioner.

(b) *Lithodes couesi* may be taken only with pots as follows:

(1) in Registration Areas K and M,

(A) pots may be longlined;

(B) no more than 150 large pots or 300 small pots may be operated from a vessel, except that in Registration Area K no more than 75 large pots or 150 small pots may be operated from a vessel;

(C) for purposes of this paragraph, a small pot is a pot that is no more than 20 feet in perimeter and no more than 42 inches high, and a large pot is a pot that is more than 20 feet in perimeter and no more than 42 inches high;

(2) in Registration Areas O, Q, and T, pots may be longlined only in locations where the longlining of pots is permitted for golden king crab.

(c) Fishing operations are restricted to waters 200 fathoms or greater in depth, unless the fishery for golden king crab in that location is closed and an alternate depth is specified in the permit.

(d) The permit required in (a) of this section

(1) may, notwithstanding (c) of this section, restrict the depth of fishing operations;

(2) may specify season dates; the season may be closed during periods before and after shellfish fisheries;

(3) may specify areas of fishing operations by registration area or by district;

(4) may establish minimum size limits;

(5) may require an onboard observer during all operations;

(6) may require a logbook report of operations; and

(7) may, notwithstanding (b) of this section, specify the type, size, and configuration of pots; pots must include an escape mechanism designed to allow female and undersize male crab to exit the pot during fishing operations.

(e) Participation in exclusive or superexclusive king crab fisheries does not exclude a vessel or permit holder from participation in this permit fishery in any area during periods when other king crab fisheries in that area are closed.

(f) Except as provided in (b) of this section, the pot limits specified in the registration areas described in 5 AAC 34 for king crab do not apply to *Lithodes couesi* king crab.

## Article 5. Registration Area A (Southeastern).

### 5 AAC 34.100. Description of Registration Area A

Registration Area A has as its southern boundary the International Boundary at Dixon Entrance, and as its northern boundary a line extending seaward from the western tip of Cape Fairweather at 58° 47.89' N. lat., 137° 56.68' W. long. to the intersection with the seaward limit of the exclusive economic zone at 56° 07.31' N. lat., 141° 44.74' W. long.

### 5 AAC 34.105. Description of Registration Area A districts

Registration Area A districts are described in 5 AAC 33.200.

### 5 AAC 34.107. Description of golden king crab fishing areas within Registration Area A

(a) Northern Area: all waters of Section 11-A, Section 13-C, and Section 13-A in Peril Strait east of Point Kakul at 57° 21.83' N. lat., 135° 41.42' W. long., and all waters of Districts 12 and 15.

(b) Icy Straits Area: all waters of District 14.

(c) North Stephens Passage Area: all waters of Sections 11-B and 11-C.

(d) East Central Area: all waters of Section 11-D, District 10, and District 9 east of a line from Kingsmill Point at 56° 50.00' N. lat., 134° 25.17' W. long. to Point Gardner at 57° 01.00' N. lat., 134° 37.00' W. long., all waters of District 8 north of the latitude of Blaquiere Point at 56° 35.00' N. lat., all waters of Section 6-A, and all waters of District 5 north of the latitude of Point Baker at 56° 21.53' N. lat.

(e) Mid-Chatham Strait Area: all waters of District 9 north of the latitude of Point Ellis at 56° 33.67' N. lat. and west of a line from Kingsmill Point to Point Gardner.

(f) Lower Chatham Strait Area: all waters of District 9 south of the latitude of Point Ellis at 56° 33.67' N. lat., and that portion of District 13-B south of the latitude of Redfish Cape at 56° 18.67' N. lat.

(g) Southern Area: all waters of District 1 and District 2, all waters of District 6 south of a line from Point Colpoys at 56° 20.18' N. lat., 133° 11.90' W. long., to Macnamara Point at 56° 20.18' N. lat., 133° 03.54' W. long., and all waters of District 7 south of the latitude of Point Warde at 56° 10.43' N.

### 5 AAC 34.108. Description of blue king crab fishing areas within Registration Area A

(a) Repealed 2/22/2015.

(b) The waters of District 11 in

(1) Taku Inlet: all waters north of the latitude of Point Bishop at 58° 12.05' N. lat.;

(2) Port Snettisham: all waters east of a line from Point Styleman at 57° 58.44' N. lat., 133° 53.88' W. long. to Point Anmer at 57° 56.08' N. lat., 133° 51.01' W. long.; and

(3) Holkham Bay: all waters east of a line from Point Coke at 57° 47.33' N. lat., 133° 41.43' W. long. to Point Astley at 57° 42.59' N. lat., 133° 39.07' W. long.

(c) Repealed 9/25/2022.

(d) The waters of District 15 in Lynn Canal: all waters north of the latitude of Point Sherman Light at 58° 51.16' N. lat.

## **5 AAC 34.109. Area A registration**

(a) Registration Area A is an exclusive registration area.

(b) Notwithstanding 5 AAC 34.005(b) and 5 AAC 34.020(e), a vessel registered for Registration Area A may also be used to take king crab in Registration Area D if the vessel owner, or the owner's agent, has had the registration for Registration Area A invalidated and has registered the vessel in Registration Area D. A vessel registered for Registration Area D may also be used to take king crab in Registration Area A if the vessel owner, or the owner's agent, has had the registration for Registration Area D invalidated and has registered the vessel in Registration Area A.

(c) In Registration Area A, a king crab registration remains valid throughout the registration year unless it is invalidated under (b) of this section or another provision of this chapter.

(d) In Registration Area A, the vessel registration under 5 AAC 34.020 must be completed no later than 30 days before the scheduled opening date of the commercial king crab season.

(e) Before a vessel that is registered to fish for both golden king crab and Tanner crab in Registration Area A may be used to fish for golden king crab in a portion of Registration Area A that is closed to commercial Tanner crab fishing, all Tanner crab must be removed from the vessel and the vessel owner, or the owner's agent, must have the vessel's Tanner crab registration invalidated by the department. Once the vessel's Tanner crab registration is invalidated, Tanner crab may not be retained on or sold from that vessel.

(f) Before a vessel that is registered to fish for only golden king crab in Registration Area A may be registered to fish for Tanner crab in Registration Area A, the vessel owner, or the owner's agent, must remove all gear operated from that vessel from the waters of that portion of Registration Area A that is closed to commercial Tanner crab fishing.

## **5 AAC 34.110. Fishing seasons for Registration Area A**

# COMMERCIAL KING CRAB FISHERY

(a) Male red king crab may be taken only from 12:00 noon November 1 through January 24.

(b) Male golden king crab may be taken only from 12:00 noon on the date with the smallest Juneau tidal range between February 10 and February 17, as announced by emergency order, through December 1.

(c) Repealed 6/30/83.

(d) Repealed 8/14/2005.

(e) Male blue king crab may be taken only during the open red and golden king crab and Tanner crab seasons.

(f) A season opening may be delayed if the National Weather Service forecast for the major fishing areas in the Southeast Region contains gale force wind warnings of 35 knots and higher on the 4:00 a.m. forecast for the day preceding the start date and the following day, in which case the season opening in all sections of Registration Area A eligible for a season opening will be delayed 24 hours and announcement of this delay will be issued 24 hours before the start of the fishery. If after the initial delay gale warnings continue regionwide, the season opening in all eligible sections may be delayed an additional 24 hours. A season opening delay may continue on a rolling 24-hour basis. For the purposes of this subsection, the corresponding National Weather Service forecast areas considered within the Southeast Region are as follows:

(1) Southern Lynn Canal;

(2) Northern Chatham Strait;

(3) Stephens Passage;

(4) Frederick Sound.

## **5 AAC 34.111. Section 11-A Red and Blue King Crab Management and Allocation Plan**

(a) The Board of Fisheries (board) find that there exists strong competing demands between the personal use and commercial user groups for red and blue king crab in Section 11-A of the Southeastern Alaska Area. The board finds that personal use of red and blue king crab in the Juneau area is a historical use, that this use has grown in recent years concurrent with the growth of the king crab population in Section 11-A, and that there are both summer and winter components to the personal use fishery. The board also finds that the commercial use of red and blue king crab in Section 11-A is historical, economically important, and should be maintained.

(b) When managing red and blue king crab in Section 11-A, the board authorizes the department to conduct the personal use and commercial fisheries according to the following allocation plan:

# COMMERCIAL KING CRAB FISHERY

(1) personal use fishery from July 1 through September 30 (summer season) - 50 percent of the red king crab guideline harvest level;

(2) personal use fishery from October 1 through March 31 (winter season) - 10 percent of the red king crab guideline harvest level;

(3) commercial fishery - 40 percent of the red king crab guideline harvest level when the general season is open under 5 AAC 34.110;

(4) repealed 7/29/2009.

(c) The board finds that the personal use red and blue king crab fishery should be conducted so that the summer and winter seasons last as long as possible within the allocation plan described in (b) of this section. To accomplish this objective the commissioner may close, by emergency order, a personal use red and blue king crab season and immediately reopen a personal use red and blue king crab season during which any of the following restrictions, selected at the discretion of the commissioner, are in effect:

(1) the daily bag and possession limit is one male king crab per person;

(2) the daily bag and possession limit is two male king crab per person;

(3) no more than one pot per vessel may be used to take king crab;

(4) no more than two pots per vessel may be used to take king crab;

(5) no more than three pots per vessel may be used to take king crab;

(6) there is a seasonal per person limit for king crab, established by the commissioner.

## **5 AAC 34.112. Harvest of parasitized king crab**

Notwithstanding the provisions of 5 AAC 34.060 and 5 AAC 34.065, all king crab, male, female, and sub-legal, that have the barnacle parasite *Briarosaccus callosus* or a scar of the parasite under the flap, may be taken for commercial sale during open commercial fishing seasons. The external reproductive organ of the parasite must be removed from all crab before the crab is placed in a live tank and must be retained on board the vessel, out of contact with sea water, and transferred to the processor for disposal.

## **5 AAC 34.113. Southeast Alaska Red King Crab Management Plan**

(a) The Southeast Alaska red king crab fishery shall be managed consistently with the board's "Policy on King and Tanner Crab Resource Management" (90-04-FB, March 23, 1990), adopted by this reference, and according to the principles set out in this section.

# **COMMERCIAL KING CRAB FISHERY**

(b) The department shall close an area if the abundance of various sizes of male and female crabs is inadequate to provide for a sustained harvest, or when potentially high effort precludes an orderly fishery.

(c) The department shall close the fishery if the department's estimate of the available harvest is below the minimum threshold of 200,000 pounds of legal male red king crab.

(d) The department shall determine an appropriate harvest rate before the opening of the fishery. The harvest rate is the percentage of the legal males that can be harvested while providing for the long-term reproductive viability of red king crab stocks. The department shall base the harvest rate on estimates of abundance of the various size classes of male and female crabs, and on factors affecting the reproductive viability of the stock.

(e) The department shall determine the guideline harvest level before each fishing season. The guideline harvest level is the sum of the estimates of sustainable harvest for each fishing district. If stock assessment data are not available, the guideline harvest level will be based on historical fishery performance, catch, and population information. A lack of adequate information will result in conservative management.

## **5 AAC 34.114. Southeast Alaska Golden King Crab Management Plan**

(a) The Southeast Alaska golden king crab fishery shall be managed consistently with the board's Policy on King and Tanner Crab Resource Management (90-04-FB, March 23, 1990), adopted by this reference, and according to the principles set out in this section.

(b) To the extent possible, golden king crab shall be managed as a separate stock in each defined fishing area. The department shall close an area if the abundance of various sizes of male crabs is inadequate to provide for a sustained harvest, or when potentially high effort precludes an orderly fishery.

(c) The department shall base management on historical fishery performance, catch, and population structure information. A lack of adequate information will result in conservative management.

## **5 AAC 34.115. Guideline harvest ranges for Registration Area A**

(a) Repealed 6/24/93.

(b) In Registration Area A, the guideline harvest ranges for the taking of golden king crab in the following areas are:

(1) Northern Area: 0 - 145,000 pounds;

(2) Icy Strait Area: 0 - 55,000 pounds;

(3) North Stephens Passage Area: 0 - 25,000 pounds; p

- (4) East Central Area: 0 - 225,000 pounds;
- (5) Mid-Chatham Strait Area: 0 - 150,000 pounds;
- (6) Lower Chatham Strait Area: 0 - 50,000 pounds;
- (7) Southern Area: 0 - 25,000 pounds.

## **5 AAC 34.116. Commissioner's permits for king crab in Registration Area A**

(a) Male king crab, seven inches or greater in carapace width, may be taken in Registration Area A in the exclusive economic zone only under the conditions of a permit issued by the commissioner.

(b) The permit required in this section:

- (1) may specify season dates;
- (2) may specify pot limits;
- (3) may specify areas of fishing operations by district or by geographic location;
- (4) may require an onboard observer during all operations;
- (5) shall require mandatory completion of logbooks provided by the department, logbooks described in this section must:

(A) include the date, the specific location of harvest by latitude and longitude, the number of pots fished, the average depth of each pot fished, and the time gear is deployed and hauled of each set;

(B) include for the target and each bycatch species, the number of fish retained and discarded:

- (C) be updated within 24 hours after midnight local time on the day of operation;
- (D) be made available to a local representative of the department upon request;
- (E) be submitted with the fish ticket documenting the landing;

(6) may set other conditions deemed necessary by the commissioner for conservation and management purposes.

(c) A person may not make a false entry in the log books described in this section.

## **5 AAC 34.120. Size limits for Registration Area A**

# COMMERCIAL KING CRAB FISHERY

In Registration Area A, only male king crab seven inches or greater in width of shell may be taken or possessed, except that

(1) male king crab less than seven inches in width of shell may be transported through or into the registration area for the purpose of delivery to a processor; king crab may not be taken in the registration area until after delivery of king crab taken in areas with minimum sizes of less than seven inches;

(2) repealed 12/26/97;

(3) repealed 5/9/2015;

(4) male golden king crab six and one-half inches or greater in width of shell may be taken or possessed in the Lower Chatham Strait and Southern Areas only during periods established by emergency order.

## **5 AAC 34.125. Lawful gear for Registration Area A**

(a) King crab may be taken only by king crab pots, except that golden king crab taken in Tanner crab pots as described in 5 AAC 35.125(f) may be retained if the CFEC permit holder fishing for Tanner crab is also registered to fish for golden king crab and both crab fisheries are open at the same time. King crab taken by other means must be returned to the water without further harm.

(b) The following king crab pot limits are in effect in Registration Area A:

(1) during the commercial red king crab season, the maximum number of king crab pots that may be operated from a vessel registered to fish for king crab is as follows:

(A) no more than 20 king crab pots when the guideline harvest level is at least 200,000 but not more than 399,999 pounds;

(B) no more than 30 king crab pots when the guideline harvest level is at least 400,000 but not more than 499,999 pounds;

(C) no more than 40 king crab pots when the guideline harvest level is at least 500,000 but not more than 599,999 pounds;

(D) no more than 50 king crab pots when the guideline harvest level is 600,000 pounds or more;

(2) when the commercial golden king crab season is open in Registration Area A, and the commercial red king crab or Tanner crab season is closed, no more than 80 king crab pots may be operated from a vessel registered to fish for king crab;

(3) when the commercial golden king crab and Tanner crab seasons are open in Registration Area A at the same time, an aggregate of no more than 80 king and Tanner crab pots may be operated from a vessel registered to fish for both king crab and Tanner crab;

(4) when the commercial red and golden king crab seasons are open in Registration Area A at the same time, the pot limits described in (1) of this subsection apply to any vessel registered to fish for king crab.

(c) A king crab pot must have either at least the bottom one-third of one vertical surface of a square pot, or sloping sidewall surface of a conical or pyramid pot, composed of not less than nine-inch stretch mesh webbing or have at least four circular escape rings of six and one-quarter inches minimum inside diameter. The lowest edge of each escape ring must be within eight inches of the top of the bottom web bar on the pot. One ring must be installed in each quadrant of the pot. Escape rings or stretch mesh webbing must be so located on the vertical or sloping sidewall surface to permit the escapement of undersize crab.

(d) In Registration Area A, a registered king crab vessel may not have, at any time in the aggregate, more than the legal limit of gear on board the vessel, in the water in fishing condition, and in the water in nonfishing condition.

(e) A vessel engaged in taking or transporting king crab may not have on board an otter trawl with a ground line or headline longer than 60 feet.

## **5 AAC 34.126. King crab pot marking requirements for Registration Area A**

(a) Notwithstanding 5 AAC 34.051(c), identification tags will be issued to the CFEC permit holder, instead of the vessel owner, at the time of vessel registration. The permit holder, or the permit holder's agent, shall apply for identification tags at a department office designated to issue tags. Replacement of lost tags during the season is permitted if the permit holder and at least one crewmember submit sworn statements or affidavits, in person, at a department office in Registration Area A, describing how the tags were lost and listing the numbers of the lost tags.

(b) If multiple CFEC permit holders are registered to fish from a vessel simultaneously for the golden king crab and Tanner crab fisheries, the tags are issued to the vessel for the duration of the fishing seasons.

## **5 AAC 34.127. King crab pot storage requirements for Registration Area A**

Notwithstanding 5 AAC 34.052, king crab pots with all bait and bait containers removed and all doors secured fully open may be stored in the water only

(1) for seven days following the season closure for king crab in Registration Area A;

(2) for five days following the season closure for king crab in any portion of Registration Area A;

(3) during the 10 days before the scheduled opening of the commercial king and Tanner crab seasons in Registration Area A, only under the following conditions:

# **COMMERCIAL KING CRAB FISHERY**

(A) a pot may not be stored in waters deeper than 10 fathoms at mean low tide; and

(B) buoys must be attached to stored pots and must be marked as specified in 5 AAC 34.051, except that a stack of stored king crab pots may be marked with a single buoy.

## **5 AAC 34.128. Operation of other gear in Registration Area A**

(a) A person or vessel that operates commercial, subsistence, personal use, or sport pots or ring nets, other than commercial shrimp pots or Dungeness crab pots, during the 30 days immediately before the scheduled opening date of the commercial king crab season in Registration Area A may not participate in that king crab fishery.

(b) Notwithstanding 5 AAC 31.053(d), 5 AAC 32.053(d), and 5 AAC 34.053(2), a person or vessel may operate commercial shrimp pots or Dungeness crab pots during an open king crab season in Registration Area A if the commercial shrimp or Dungeness crab season is open in Registration Area A at the same time as the commercial king crab season.

## **5 AAC 34.130. Logbooks**

(a) In Registration Area A, during a king crab season, an operator of a vessel registered to fish in the commercial king crab fishery shall complete logbooks provided by the department.

(b) Logbooks described in (a) of this section shall be

(1) updated daily;

(2) sealed in envelopes provided by the department to maintain confidentiality; and

(3) submitted to the primary processor or buyer for attachment to the fish ticket; the processor or buyer shall forward fish tickets with the attached, sealed envelopes containing logbooks to the department in accordance with 5 AAC 39.130.

(c) A catcher-seller described in 5 AAC 39.130 shall attach logbooks described in this section to the department copy of fish tickets.

(d) A person may not make a false entry in the logbook required in (a) of this section.

## **5 AAC 34.140. Registration Area A inspections and inspection points**

(a) If an inspection is required under (c) of this section, Registration Area A inspection points are located at Ketchikan, Wrangell, Petersburg, Sitka, and Juneau or at other locations specified by the department.

(b) Unless required under (c) of this section, king crab vessel inspections, as specified in 5 AAC 34.030, are not required in Registration Area A.

(c) In Registration Area A, by announcement, the commissioner may require king crab vessel inspections as specified in 5 AAC 34.030.

## **5 AAC 34.143. Reporting requirements for king crab in Registration Area A**

In addition to the reporting requirements in 5 AAC 39.130 and 5 AAC 34.075, the commissioner may require an owner or operator of a vessel validly registered to fish in the commercial king crab fishery in Registration Area A to report to a local representative of the department the following catch information:

(1) the number of legal king crab on board the vessel and the number of pot lifts conducted during the fishing period in any fishing area, district, or portion of a district; and

(2) any other information that the commissioner determines is necessary for the conservation and management of the resource; the board directs the commissioner to consult with the fishing industry in developing reporting requirements under this paragraph.

## **5 AAC 34.145. Subsistence fishing**

Repealed 6/30/79.

## **5 AAC 34.150. Closed waters in Registration Area A**

(a) The following waters of Section 11-A are closed to the taking of red king crab:

(1) the waters north of a line from Marmion Island Light to the easternmost tip of Point Salisbury at 58° 12.50' N. lat., 134° 13.75' W. long., and enclosed by a line from Outer Point on Douglas Island at 58° 18.20' N. lat., 134° 41.30' W. long., across Stephens Passage to the mouth of Bear Creek on Admiralty Island at 58° 16.80' N. lat., 134° 46.50' W. long., along the shoreline of Admiralty Island in a northerly direction to Symonds Point at 58° 20.60' N. lat., 134° 50.20' W. long., across Saginaw Channel to the southeasternmost tip of Shelter Island at 58° 22.30' N. lat., 134° 48.60' W. long., along the shoreline of Shelter Island to the southernmost tip of Halibut Cove at 58° 27.70' N. lat., 134° 53.30' W. long., across Favorite Channel to the southernmost entrance of Amalga Harbor at 58° 29.30' N. lat., 134° 47.30' W. long.; and

(2) the waters of Barlow Cove south of the latitude of Barlow Point at 58° 22.80' N. lat., 134° 53.70' W. long.

(b) The following waters of Section 11-A are closed to the taking of golden king crab: the waters north of a line from Marmion Island Light to the easternmost tip of Point Salisbury at 58° 12.50' N. lat., 134° 13.75' W. long., and east of a line extending from the northernmost tip of Outer Point at 58° 18.20' N. lat., 134° 41.30' W. long., to the southernmost tip of Portland Island at 58° 19.74' N. lat., 134° 44.04' W. long., to the northernmost tip of Portland Island at 58° 21.12' N. lat., 134° 45.48' W. long., to the southernmost tip of Point Louisa at 58° 22.26' N. lat., 134° 43.50' W. long.

## **5 AAC 34.155. Registration Area A closures**

Within 24 hours following the closure of Registration Area A to the taking of a specified species of king crab, all vessels with that species on board must arrive at a processing facility and remain until offloading of crab is complete, unless the vessel is otherwise in compliance with 5 AAC 34.031(e).

## **Article 6. Registration Area D (Yakutat).**

### **5 AAC 34.160. Description of Registration Area D**

Registration Area D has as its western boundary the longitude of Cape Suckling (144° W. long.), and as its southern boundary a line extending seaward from the western tip of Cape Fairweather at 58° 47.89' N. lat., 137° 56.68' W. long. to the intersection with the seaward limit of the exclusive economic zone at 56° 07.31' N. lat., 141° 44.74' W. long.

### **5 AAC 34.165. Description of Registration Area D districts**

Registration Area D districts are described in 5 AAC 30.200.

### **5 AAC 34.166. Area D registration**

(a) Registration Area D is an exclusive registration area.

(b) Notwithstanding 5 AAC 34.005(b) and 5 AAC 34.020(e), a vessel registered for Registration Area D may also be used to take king crab in Registration Area A if the vessel owner, or the owner's agent, has had the registration for Registration Area D invalidated and has registered the vessel in Registration Area A. A vessel registered for Registration Area A may also be used to take king crab in Registration Area D if the vessel owner, or the owner's agent, has had the registration for Registration Area A invalidated and has registered the vessel in Registration Area D.

(c) In Registration Area D, a king crab registration remains valid throughout the registration year unless it is invalidated under (b) of this section or another provision of this chapter.

### **5 AAC 34.170. Fishing seasons for Registration Area D**

(a) Male red king crab may be taken only from 12:00 noon October 24 through December 31.

(b) Male golden king crab may be taken only under the conditions of a permit issued by the commissioner.

(c) Male blue king crab may be taken only from 12:00 noon October 24 through December 31.

### **5 AAC 34.175. Guideline harvest range for Registration Area D**

In Registration Area D, the guideline harvest range for the taking of red and blue king crab is 0 - 20,000 pounds.

## **5 AAC 34.180. Size limits for Registration Area D**

The size limits for king crab in Registration Area D are the same as those described for king crab in Registration Area A in 5 AAC 34.120.

## **5 AAC 34.185. Lawful gear for Registration Area D**

(a) King crab may be taken only with king crab pots. King crab taken by other means must be returned to the water without further harm.

(b) During an open commercial king crab season in those waters north and east of a line from Point Manby to Ocean Cape,

(1) no more than 40 king crab pots may be operated from a vessel registered to fish for king crab;

(2) when the commercial king crab and Tanner crab seasons are open in Registration Area D at the same time, an aggregate of no more than 40 king or Tanner crab pots may be operated from a vessel registered to fish for both king and Tanner crab.

(c) After December 31, 2017, king crab may not be taken with pots that have tunnel eye openings located on the vertical plane of the pot.

(d) In Registration Area D, a registered king crab vessel may not have, at any time in the aggregate, more than the legal limit of gear on board the vessel, in the water in fishing condition, and in the water in nonfishing condition.

(e) A vessel engaged in taking or transporting king crab may not have on board an otter trawl with a ground line or headline longer than 60 feet.

(f) A king crab pot must have either at least the bottom one-third of one vertical surface of a square pot, or sloping sidewall surface of a conical or pyramid pot, composed of not less than nine-inch stretch mesh webbing or have at least four circular escape rings of six and one-quarter inches minimum inside diameter. The lowest edge of each escape ring must be within eight inches of the top of the bottom web bar on the pot. One ring must be installed in each quadrant of the pot. Escape rings or stretch mesh webbing must be so located on the vertical or sloping sidewall surface to permit the escapement of undersize crab.

## **5 AAC 34.186. King crab pot marking requirements for Registration Area D**

In addition to the requirements of 5 AAC 34.051, in Registration Area D, replacement of identification tags lost during the season is permitted if the vessel operator and at least one crewmember submit sworn statements or affidavits, in person, at a department office in Registration Area D, describing how the tags were lost and listing the numbers of the lost tags.

## **5 AAC 34.187. King crab pot storage requirements for Registration Area D**

Notwithstanding 5 AAC 34.052, king crab pots with all bait and bait containers removed and all doors secured fully open may be stored in the water only

(1) for seven days following the season closure for king crab in Registration Area D;

(2) for 72 hours following the season closure for king crab in any portion of Registration Area D;

(3) at any time in the waters of Russell Fiord (first bay south of Cape Stoss) in waters no deeper than 10 fathoms.

## **5 AAC 34.188. Operation of other gear in Registration Area D**

(a) A person or vessel that operates commercial, subsistence, personal use, or sport pots or ring nets, other than commercial shrimp pots or Dungeness crab pots, during the 14 days immediately before the scheduled opening date of the commercial king crab season in Registration Area D may not participate in that king crab fishery.

(b) Notwithstanding 5 AAC 31.053(d), 5 AAC 32.053(d), and 5 AAC 34.053(2), a person or vessel may operate commercial shrimp pots or Dungeness crab pots during an open king crab season in Registration Area D if the commercial shrimp or Dungeness crab season is open in Registration D at the same time as the commercial king crab season.

## **5 AAC 34.189. Logbooks**

(a) In Registration Area D, during a king crab season, an operator of a vessel registered to fish in the commercial king crab fishery shall complete logbooks provided by the department.

(b) Logbooks described in (a) of this section shall be

(1) updated daily;

(2) sealed in envelopes provided by the department to maintain confidentiality; and

(3) submitted to the primary processor or buyer for attachment to the fish ticket; the processor or buyer shall forward fish tickets with the attached, sealed envelopes containing logbooks to the department in accordance with 5 AAC 39.130.

(c) A catcher-seller described in 5 AAC 39.130 shall attach logbooks described in this section to the department copy of fish tickets.

(d) A person may not make a false entry in the logbook required in (a) of this section.

## **5 AAC 34.190. Registration Area D inspections and inspection points**

(a) If an inspection is required under (c) of this section, Registration Area D inspection points are located at Yakutat or at other locations specified by the department.

(b) Unless required under (c) of this section, king crab vessel inspections, as specified in 5 AAC 34.030, are not required in Registration Area D.

(c) In Registration Area D, by announcement, the commissioner may require king crab vessel inspections as specified in 5 AAC 34.030.

## **5 AAC 34.193. Reporting requirements for king crab in Registration Area D**

In addition to the reporting requirements in 5 AAC 34.075, 5 AAC 34.189, and 5 AAC 39.130, the commissioner may require an owner or operator of a vessel validly registered to fish in the commercial king crab fishery in Registration Area D to report to a local representative of the department the following catch information:

(1) the number of legal king crab on board the vessel and the number of pot lifts conducted during the fishing period in any fishing area, district, or portion of a district; and

(2) any other information that the commissioner determines is necessary for the conservation and management of the resource; the board directs the commissioner to consult with the fishing industry in developing reporting requirements under this paragraph.

## **Article 7. Registration Area E (Prince William Sound).**

### **5 AAC 34.200. Description of Registration Area E**

Registration Area E has as its western boundary a line running along the longitude of Cape Fairfield at 148° 50.25' W. long., south to the latitude of Cape Douglas at 58° 51.10' N. lat., then west to 149° W. long., then south along 149° W. long., and its eastern boundary the longitude of Cape Suckling at 144° W. long.

### **5 AAC 34.205. Description of districts**

Repealed 6/30/83.

### **5 AAC 34.206. Area E registration**

Registration Area E is a superexclusive registration area.

### **5 AAC 34.210. Fishing seasons for Registration Area E**

The commercial taking of king crab in Registration Area E is closed until the king crab stocks have recovered enough for a harvest strategy to be developed by the department and adopted by the Board of Fisheries.

## **5 AAC 34.215. Guideline harvest levels**

Repealed 6/30/83.

## **5 AAC 34.217. Guideline harvest range for Registration Area E**

The guideline harvest range for golden king crab is 0 - 60,000 pounds.

## **5 AAC 34.220. Size limits for Registration Area E**

(a) Only male red and golden king crab seven inches or greater in width of shell may be taken or possessed.

(b) Only male blue king crab 5.9 inches or greater in width of shell may be taken or possessed.

## **5 AAC 34.225. Lawful gear for Registration Area E**

(a) King crab may be taken only with king crab pots. King crab taken by other means must be returned to the water without further harm.

(b) Trawls with a ground line not exceeding 60 feet may be used for taking bait.

## **5 AAC 34.227. King crab pot storage requirements for Registration Area E**

Notwithstanding 5 AAC 34.052, cone or pyramid king crab pots with all bait and bait containers removed and all doors not secured closed may be stored in the water only from 30 days before the scheduled opening date of the commercial king crab season in Registration Area E, until 30 days following the closure of that season.

## **5 AAC 34.240. Registration Area E inspection points**

Registration Area E initial inspection points are located at Cordova and Valdez or at other locations specified by the department. Reinspection points are located at Cordova, Valdez, Seward or at other locations specified by the department.

## **Article 8. Registration Area H (Cook Inlet).**

### **5 AAC 34.300. Description of Registration Area H**

Registration Area H has as its eastern boundary the longitude of Cape Fairfield (148° 50.25' W. long.), and as its southern boundary the latitude of Cape Douglas (58° 51.10' N. lat.).

### **5 AAC 34.305. Description of Registration Area H districts**

Registration Area H districts are described in 5 AAC 21.200.

## **5 AAC 34.306. Area H registration**

(a) Registration Area H is a superexclusive registration area.

(b) A king crab vessel must be registered for Registration Area H before the scheduled opening date of the commercial king crab season.

## **5 AAC 34.310. Fishing seasons for Registration Area H**

The commercial taking of king crab in Registration Area H is closed until the king crab stocks have recovered enough for a harvest strategy to be developed by the department and adopted by the Board of Fisheries.

## **5 AAC 34.315. Guideline harvest levels**

Repealed 6/30/83.

## **5 AAC 34.320. Size limits for Registration Area H**

Only male king crab seven inches or greater in width of shell may be taken or possessed, except that

(1) repealed 8/24/2002;

(2) male king crab less than seven inches in width of shell may be transported through or into the registration area for the purpose of delivery to a processor; king crab may not be taken in the registration area until after delivery of king crab taken in areas with minimum legal sizes of less than seven inches in shell width.

## **5 AAC 34.325. Lawful gear for Registration Area H**

(a) Notwithstanding 5 AAC 34.050, king crab may be taken only with king crab pots and ring nets. King crab taken by other means must be returned to the water without further harm.

(b) During the commercial king crab season in Registration Area H, an aggregate of no more than 75 king and Tanner crab pots may be operated from a vessel registered to fish for king crab, except that if the projected guideline harvest level for king crab is less than 1,500,000 pounds, an aggregate of no more than 40 pots may be operated from a vessel registered to fish for king crab.

(c) During the commercial Tanner crab season in the Southern District, an aggregate of no more than 75 king and Tanner crab pots may be operated from a vessel registered to fish for king and Tanner crab, except that if the projected guideline harvest level for Tanner crab is less than 800,000 pounds, an aggregate of no more than 40 pots may be operated from a vessel registered to fish for king and Tanner crab.

(d) A vessel engaged in taking or transporting king crab may not have on board an otter trawl with a ground line or headline longer than 60 feet.

## **5 AAC 34.326. King crab pot marking requirements for Registration Area H**

In addition to the requirements of 5 AAC 34.051, in Registration Area H, replacement of identification tags lost during the season is permitted if the vessel operator submits a sworn statement or affidavit, in person, at a department office in Registration Area H, describing how the tags were lost and listing the numbers of the lost tags.

## **5 AAC 34.327. King crab pot storage requirements for Registration Area H**

(a) Notwithstanding 5 AAC 34.052, rectangular king crab pots with all bait and bait containers removed and all doors secured fully open, and cone or pyramid king crab pots with all bait and bait containers removed and with all doors not secured closed, may be stored in the Kamishak Bay District and in those waters of the Southern District west of a line from Coal Point to Sixty-foot Rock to Anisom Point only in waters no deeper than 15 fathoms. In all remaining waters of the Southern District, rectangular king crab pots with all bait and bait containers removed and all doors secured fully open and cone or pyramid king crab pots with all bait and bait containers removed and all doors not secured closed may be stored only in waters of not more than 10 fathoms deep.

(b) Cone or pyramid pots with all bait and bait containers removed and all doors not secured closed may be stored in the water only from 30 days before the scheduled opening date of the commercial king crab season in Registration Area H, until 30 days following the closure of that season.

## **5 AAC 34.340. Registration Area H inspection points**

Registration Area H initial inspection points are located at Homer, Seldovia, and Seward. Reinspection points are located at Homer, Seldovia, Seward, and Kodiak or at other locations specified by the department.

## **Article 9. Registration Area K (Kodiak).**

### **5 AAC 34.400. Description of Registration Area K**

Registration Area K consists of all Pacific Ocean waters south of the latitude of Cape Douglas (58° 51.10' N. lat.), west of 149° W. long., and east of a line extending south from Cape Kumlik along 157° 27.00' W. long.

### **5 AAC 34.405. Description of Registration Area K districts**

(a) Northeast District: all waters of Registration Area K northeast of a line extending from Cape Barnabas at 57° 09.07' N. lat., 152° 52.20' W. long., to a point offshore at 53° 26.20' N. lat., 151° 29.10' W. long., east of 153° 16.00' W. long. in Sitkalidak Strait, east of a line between Inner Point and Afognak Point along 152° 47.75' W. long., east of 152° 30.00' W. long. in Shuyak Strait, and east of a line extending north from Shuyak Island 152° 20.00' W. long.

# COMMERCIAL KING CRAB FISHERY

(b) Southeast District: all waters of Registration Area K west of 153° 16.00' W. long. in Sitkalidak Strait, west of a line extending from Cape Barnabas at 57° 09.07' N. lat., 152° 52.20' W. long. to a point offshore at 53° 26.20' N. lat., 151° 29.10' W. long., east of 156° 20.22' W. long., and south of a line extending from Cape Trinity at 56° 44.80' N. lat., 154° 08.90' W. long. to a point offshore at 55° 23.23' N. lat., 156° 20.22' W. long.

(c) Southwest District: all waters of Registration Area K west of a line extending from Cape Trinity at 56° 44.80' N. lat., 154° 08.90' W. long. to a point offshore at 55° 23.23' N. lat., 156° 20.22' W. long., east of 156° 20.22' W. long., and south of a line from Cape Ikolik at 57° 17.40' N. lat., 154° 47.40' W. long. to the Alaska Peninsula, near Kilokak Rocks, at 57° 10.34' N. lat., 156° 20.22' W. long., including all of Alitak Bay and Olga Bay.

(d) Semidi Island District: all waters of Registration Area K west of a line extending south from the Alaska Peninsula, near Kilokak Rocks, along 156° 20.22' W. long., and east of a line extending south from Cape Kumlik along 157° 27.00' W. long.

(e) Shelikof District: all waters of Registration Area K north of a line from Cape Ikolik at 57° 17.40' N. lat., 154° 47.40' W. long. to the Alaska Peninsula, near Kilokak Rocks at 57° 10.34' N. lat., 156° 20.22' W. long., west of a line between Inner Point and Afognak Point along 152° 47.75' W. long., west of 152° 30.00' W. long. in Shuyak Strait, and west of a line extending north from Shuyak Island along 152° 20.00' W. long.

## **5 AAC 34.406. Area K registration**

(a) Registration Area K is an exclusive registration area for red and blue king crab and a nonexclusive registration area for golden king crab.

(b) Notwithstanding 5 AAC 34.005(b), 5 AAC 34.020(e), 5 AAC 34.506, and (a) of this section, only a vessel registered for the West Chignik District of Registration Area M may be used to take king crab in the Semidi Island District of Registration Area K.

## **5 AAC 34.410. Fishing seasons for Registration Area K**

(a) The commissioner may open and close, by emergency order, a season for red and blue king crab beginning 12:00 noon September 25.

(b) Repealed 8/14/2005.

(c) Male golden king crab may be taken from January 1 through December 31 only under conditions of a permit issued by the commissioner.

## **5 AAC 34.420. Size limits for Registration Area K**

Only male red and blue king crab seven inches or greater, and male golden king crab six and one-half inches or greater, in width of shell may be taken or possessed, except that male king crab less than seven inches in width of shell may be transported through or into the registration area for the purpose of delivery to a processor. King crab may not be

# **COMMERCIAL KING CRAB FISHERY**

taken in the registration area until after delivery of king crab taken in areas with minimum sizes of less than seven inches.

## **5 AAC 34.425. Lawful gear for Registration Area K**

(a) King crab may be taken only with king crab pots. King crab taken by other means must be returned to the water without further harm.

(b) Each king crab pot must have at least one-third of one vertical surface of the pot composed of not less than nine-inch stretched mesh webbing.

(c) The following king crab pot limits are in effect in Registration Area K:

(1) if the projected guideline harvest level is more than 6,000,000 pounds, no more than 75 pots may be operated;

(2) if the projected guideline harvest level is at least 3,000,000 but not more than 6,000,000 pounds, no more than 50 pots may be operated;

(3) if the projected guideline harvest level is less than 3,000,000 pounds, no more than 25 pots may be operated.

(d) A vessel engaged in taking or transporting king crab may not have on board an otter trawl with a ground line or headline longer than 60 feet.

## **5 AAC 34.427. King crab pot storage requirements for Registration Area K**

Notwithstanding 5 AAC 34.052, cone or pyramid king crab pots with all bait and bait containers removed and all doors not secured closed may be stored in the water only from 30 days before the scheduled opening date of the commercial king crab season in Registration Area K, until 30 days following the closure of that season.

## **5 AAC 34.440. Registration Area K inspection points**

Registration Area K inspection points are located at Kodiak or at other locations specified by the department.

## **5 AAC 34.460. Kodiak King Crab Management Plan**

(a) The Kodiak king crab fishery must be managed according to the guidelines set forth in this section.

(b) To the extent possible individual king crab stocks must be managed as a single unit throughout their range. The department should avoid as much as possible small area closures that will leave a portion of a stock open to fishing.

(c) Repealed 6/30/83.

(d) The department shall manage the harvest during the season described in 5 AAC 34.410(a) (early season) so that approximately 10 percent of the estimated harvest for each stock will be retained to provide for a harvest during the season described in 5 AAC 34.410(b) (late season).

(e) The late season will open between November 15 and December 15, if a significant portion of the early season harvest goals have been attained in the Northeast, Southeast, and Southwest districts. The late season must open no later than December 15.

## **Article 10. Registration Area M (Alaska Peninsula).**

### **5 AAC 34.500. Description of Registration Area M**

Registration Area M consists of waters west of a line extending south from Cape Kumlik along 157° 27.00' W. long. and east of a line extending south from Scotch Cap Light along 164° 44.72' W. long. Registration Area M also includes all waters of Bechevin Bay and Isanotski Strait south of a line from the easternmost tip of Chunak Point to the westernmost tip of Cape Krenitzen.

### **5 AAC 34.505. Description of Registration Area M districts**

(a) Unimak Bight District: all waters of Registration Area M west of a line from Cape Pankof at 54° 39.60' N. lat., 163° 03.70' W. long. to Point Petrof at 54° 28.75' N. lat., 162° 49.42' W. long. and extending south from Point Petrof along 162° 49.42' W. long.

(b) Central District: all waters of Registration Area M east of a line from Cape Pankof at 54° 39.60' N. lat., 163° 03.70' W. long. to Point Petrof at 54° 28.75' N. lat., 162° 49.42' W. long. and extending south from Point Petrof along 162° 49.42' W. long., and west of a line from Kupreanof Point at 55° 33.98' N. lat., 159° 35.88' W. long. to Castle Rock at 55° 16.80' N. lat., 159° 29.11' W. long. and extending to a point offshore at 54° 06.07' N. lat., 157° 27.00' W. long.

(c) West Chignik District: all waters of Registration Area M east of a line from Kupreanof Point at 55° 33.98' N. lat., 159° 35.88' W. long. to Castle Rock at 55° 16.80' N. lat., 159° 29.11' W. long. and extending to a point offshore at 54° 06.07' N. lat., 157° 27.00' W. long.

### **5 AAC 34.506. Area M registration**

Registration Area M is a superexclusive registration area. A vessel registered to take king crab in the West Chignik District may not be used to take king crab in any other king crab registration district in Registration Area M during the same registration year.

### **5 AAC 34.510. Fishing seasons for Registration Area M**

(a) The commissioner may open and close, by emergency order, a season for red and blue king crab beginning 12:00 noon September 25.

# **COMMERCIAL KING CRAB FISHERY**

(b) Male golden king crab may be taken from January 1 through December 31 only under conditions of a permit issued by the commissioner.

(c) Repealed 8/14/2005.

## **5 AAC 34.520. Size limits for Registration Area M**

(a) Only male king crab six and one-half inches or greater in width of shell may be taken or possessed.

(b) Repealed 8/14/2005.

## **5 AAC 34.525. Lawful gear for Registration Area M**

(a) King crab may be taken only with king crab pots. King crab taken by other means must be returned to the water without further harm.

(b) Each king crab pot must have at least one-third of one vertical surface of the pot composed of not less than nine-inch stretched mesh webbing.

(c) During the commercial king crab season in Registration Area M, an aggregate of no more than 75 pots may be operated from a vessel registered to fish for king crab, except that if the projected guideline harvest level is less than 600,000 pounds, no more than 40 pots may be operated.

(d) A vessel engaged in taking or transporting king crab may not have on board an otter trawl with a ground line or headline longer than 60 feet.

## **5 AAC 34.527. King crab pot storage requirements for Registration Area M**

Notwithstanding 5 AAC 34.052, king crab pots may not be stored in the water starting seven days following the closure of the South Peninsula and Chignik District commercial Tanner crab seasons until the scheduled opening date of the commercial king crab season in Registration Area M.

## **5 AAC 34.540. Registration Area M inspection points**

Registration Area M inspection points are located at Kodiak and Dutch Harbor or at other locations specified by the department.

## **5 AAC 34.590. Vessel length restrictions for Registration Area M**

(a) In the West Chignik District, a vessel engaged in the commercial king crab fishery may not be longer than 58 feet overall length.

(b) For the purposes of this section, "overall length" means the straight line length between the extremities of the vessel, excluding anchor rollers.

## Article 11. Registration Area O (Aleutian Islands Area).

### 5 AAC 34.600. Description of Registration Area O

Registration Area O has as its eastern boundary the longitude of Scotch Cap Light (164° 44.72' W. long.), its western boundary the Maritime Boundary Agreement Line as that line is described in the text of and depicted in the annex to the Maritime Boundary Agreement between the United States and the Union of Soviet Socialist Republics signed in Washington, June 1, 1990, and as that Maritime Boundary Agreement Line is depicted on NOAA Chart #513 (7th Edition, June 2004) and NOAA Chart #514 (7th Edition, January 2004), adopted by reference, and its northern boundary a line from the latitude of Cape Sarichef (54° 36' N. lat.) to 171° W. long., north to 55° 30' N. lat., and west to the Maritime Boundary Agreement Line.

### 5 AAC 34.604. Description of red king crab districts

The districts for the commercial red king crab fishery in Registration Area O are as follows:

(1) Dutch Harbor District: all waters of Registration Area O between the longitude of Scotch Cap Light (164° 44.72' W. long.) and 171° W. long.;

(2) Adak District: all waters of Registration Area O between 171° W. long. and 179° W. long.;

(3) Petrel District: all waters of Registration Area O west of 179° W. long.

### 5 AAC 34.606. Area O registration

(a) Registration Area O is a nonexclusive registration area for all king crab.

(b) For the commercial red king crab fishery, the vessel registration deadline for the registration year is 21 days before that vessel begins fishing operations. Before a vessel may be registered under this subsection, the vessel operator must obtain a CFEC interim-use permit for Aleutian Islands king crab that references the vessel's ADF&G license number and file a registration form with the department, except that a vessel operator is not required to obtain a CFEC interim-use permit before filing a registration form for the red king crab fishery in the Petrel District. The registration form must identify the vessel and vessel operator and must be received in person, or by mail or facsimile, at the department office in Dutch Harbor or Kodiak by the deadline specified in this subsection.

### 5 AAC 34.610. Fishing seasons for Registration Area O

(a) The commissioner may open and close, by emergency order, a season for male red king crab in the

(1) Adak District under 5 AAC 34.616, beginning 12:00 noon August 1 and ending no later than 11:59 p.m. February 15;

# COMMERCIAL KING CRAB FISHERY

(2) Petrel District and Dutch Harbor District, beginning 12:00 noon October 15 and ending no later than 11:59 p.m. February 15.

(b) Male golden king crab may be taken only as follows:

(1) repealed 6/17/2018;

(2) from 12:00 noon August 1 through 11:59 p.m. April 30, except that the commissioner may, by emergency order, open the season on or after July 15 to accommodate surveys and stock assessment.

(c) Repealed 8/24/2002.

(d) During a fishing season opened under (a) of this section in the waters of Alaska in the Adak District, only a vessel that is 60 feet or less in overall length may be used to fish for red king crab.

## **5 AAC 34.612. Harvest levels for golden king crab in Registration Area O**

In accordance with 5 AAC 34.080, the Aleutian Islands Area golden king crab fishery shall be managed based on the following harvest strategy:

(a) In that portion of the Registration Area O east of 174° W. long., the total allowable catch level shall be established as follows:

(1) if MMAE is less than 25 percent of MMAE(1985-2017), the fishery will not open;

(2) if MMAE is at least 25 percent but not greater than 100 percent of MMAE(1985-2017), the number of legal male golden king crab available for harvest will be computed as  $(0.15) \times (\text{MMAE}/\text{MMAE}(1985-2017)) \times (\text{MMAE})$  or 25 percent of LMAE, whichever is less; and

(3) if MMAE is greater than 100 percent of MMAE(1985-2017), the number of legal male golden king crab available for harvest will be computed as  $(0.15) \times (\text{MMAE})$  or 25 percent of LMAE, whichever is less.

(b) In that portion of the Registration Area O west of 174° W. long., the total allowable catch level shall be established as follows:

(1) if MMAw is less than 25 percent of MMAw(1985-2017), the fishery will not open;

(2) if MMAw is at least 25 percent but not greater than 100 percent of MMAw(1985-2017), the number of legal male golden king crab available for harvest will be computed as  $(0.20) \times (\text{MMAw}/\text{MMAw}(1985-2017)) \times (\text{MMAw})$  or 25 percent of LMAw, whichever is less; and

(3) if MMAw is greater than 100 percent of MMAw(1985-2017), the number of legal male golden king crab available for harvest will be computed as  $(0.20) \times (\text{MMAw})$  or 25 percent of MMAw, whichever is less.

(c) In implementing this harvest strategy, the department shall consider the reliability of abundance estimates of golden king crab, the manageability of the fishery, and other factors the department determines necessary to manage consistent with sustained yield principles, and shall use the best scientific information available and consider all sources of uncertainty as necessary to avoid overfishing.

(d) In this section,

(1) MMAE means the abundance of male golden king crab in the portion of the Registration Area O east of  $174^\circ$  W. long., that are greater than or equal to 111 millimeters in carapace length estimated by the stock assessment model for the time prior to the start of the fishery;

(2) MMAE(1985-2017) means the mean value of the abundance of male golden king crab in the portion of the Registration Area O east of  $174^\circ$  W. long., that are greater than or equal to 111 millimeters in carapace length estimated by the stock assessment model for the time prior to the start of the fishery for the period 1985 - 2017;

(3) LMAE means the abundance of male golden king crab in the portion of the Registration Area O east of  $174^\circ$  W. long., that are greater than or equal to 136 millimeters in carapace length estimated by the stock assessment model for the time prior to the start of the fishery;

(4) MMAw means the abundance of male golden king crab in the portion of the Registration Area O west of  $174^\circ$  W. long., that are greater than or equal to 111 millimeters in carapace length estimated by the stock assessment model for the time prior to the start of the fishery;

(5) MMAw(1985-2017) means the mean value of the abundance of male golden king crab in the portion of the Registration Area O west of  $174^\circ$  W. long., that are greater than or equal to 111 millimeters in carapace length estimated by the stock assessment model for the time prior to the start of the fishery for the period 1985 - 2017;

(6) LMAw means the abundance of male golden king crab in the portion of the Registration Area O west of  $174^\circ$  W. long., that are greater than or equal to 136 millimeters in carapace length estimated by the stock assessment model for the time prior to the start of the fishery.

## **5 AAC 34.616. Adak District red king crab harvest strategy**

(a) In the Adak District, based on the best scientific information available, if the department determines that there is a harvestable surplus of

# COMMERCIAL KING CRAB FISHERY

(1) red king crab available in the waters of Alaska in the Adak District, the commissioner may open, by emergency order, a commercial red king crab fishery only in the waters of Alaska in the Adak District under 5 AAC 34.610(a)(1);

(2) at least 250,000 pounds of red king crab in the Adak District, the commissioner may open, by emergency order, a commercial red king crab fishery in the entire Adak District under 5 AAC 34.610(a)(1).

(b) In the Adak District, during a season opened under 5 AAC 34.610(a)(1), the operator of a validly registered king crab fishing vessel shall

(1) report each day to the department

(A) the number of pot lifts;

(B) the number of crab retained for the 24-hour fishing period preceding the report; and

(C) any other information the commissioner determines is necessary for the management and conservation of the fishery, as specified in the vessel registration certificate issued under 5 AAC 34.020; and

(2) complete and submit a logbook as prescribed and provided by the department.

## **5 AAC 34.620. Size limits for Registration Area O**

(a) Male red king crab six and one-half inches or greater in width of shell may be taken or possessed.

(b) Only male golden king crab six inches or greater in width of shell may be taken or possessed.

(c) Repealed 8/24/2002.

## **5 AAC 34.625. Lawful gear for Registration Area O**

(a) King crab may be taken only with king crab pots. King crab taken by other means must be returned to the water without further harm.

(b) Pots used to take golden king crab

(1) must have at least four circular escape rings of five and one-half inches minimum inside diameter installed on the vertical plane or have at least one-third of one vertical surface of the pot composed of not less than nine-inch stretched mesh webbing to permit the escapement of undersized golden king crab;

(2) may be operated only from a shellfish longline; a buoy is not required for each pot, but each end of the longline must be marked by a cluster of four buoys; one buoy in the cluster must be marked in accordance with 5 AAC 34.051 and have the initials "SL"

# COMMERCIAL KING CRAB FISHERY

to identify it as a shellfish longline; for purposes of this subsection "a shellfish longline" is a stationary, buoyed, and anchored line with at least 10 shellfish pots attached; and

(3) notwithstanding 5 AAC 39.145, may have an opening that is laced, sewn, or secured together by a single length of untreated, 100 percent cotton twine no larger than 60 thread; the cotton twine may be knotted at each end only; the opening must be within six inches of, and parallel with, the bottom of the pot; the cotton twine may not be tied or looped around web bars.

(c) Otter trawls with a ground line or headline exceeding 60 feet in length may not be on board a vessel engaged in the taking or transporting of king crab.

(d) In the Petrel District commercial red king crab fishery in Registration Area O, established by emergency order under 5 AAC 34.610(a), no more than 250 pots may be operated from a validly registered vessel.

(e) Pots used to take red king crab

(1) must have at least one-third of one vertical surface of the pot composed of not less than nine-inch stretched mesh webbing to permit the escapement of undersized red king crab; and

(2) may not be longlined; each pot must be individually buoyed and marked.

(f) Repealed 7/22/2017.

(g) In the Adak District commercial red king crab fishery established under 5 AAC 34.610(a)(1),

(1) the pot limits are as follows:

(A) in the waters of Alaska, no more than 10 pots may be operated from a validly registered vessel;

(B) in the waters of the exclusive economic zone, no more than 15 pots may be operated from a validly registered vessel;

(2) king crab pot gear may be deployed or retrieved only from 8:00 a.m. until 5:59 p.m. each day.

## **5 AAC 34.627. King crab gear storage requirements for Registration Area O**

(a) Notwithstanding 5 AAC 34.052, and except as described in (b) of this section, during the closed season for king crab in Registration Area O, king crab pots must be removed from the water except, with all doors fully open and with all bait containers removed,

(1) single line king crab pots may be stored in waters 25 fathoms or less in depth; and

# COMMERCIAL KING CRAB FISHERY

(2) longline king crab pots may be stored in waters 75 fathoms or less in depth.

(b) King crab pots may not be stored in the following waters:

(1) from June 1 through August 15, the waters east of 169° W. long.;

(2) Hot Springs Bay, inside of a line from the tip of Ridge Point to 54° 12.67' N. lat., 165° 52' W. long.; and

(3) Kalekta Bay, inside of a line from the tip of Erskine Point to the tip of Cape Kalekta.

## **5 AAC 34.628. Operation of other gear in Registration Area O**

(a) Notwithstanding 5 AAC 34.053, and except as provided in (b) of this section, a person or vessel that operates longline, trawl, or pot gear in waters less than 125 fathoms in depth in a commercial, subsistence, personal use, or sport fishery in that portion of Registration Area O open to commercial red king crab fishing 30 days immediately before the scheduled opening date of the commercial red king crab fishery may not participate in the commercial red king crab fishery.

(b) The provisions of 5 AAC 34.053(1), 5 AAC 35.053(1), and (a) of this section do not apply to a person or vessel participating in the Adak District commercial red king crab fishery, except that a vessel may not participate in the Adak commercial red king crab fishery if pot, trawl, or longline is operated from that vessel during the seven days before the scheduled opening of the fishery.

## **5 AAC 34.640. Registration Area O inspections and inspection points**

(a) Inspection points in Registration Area O are located at Dutch Harbor and at additional locations if specified by the department.

(b) Notwithstanding 5 AAC 34.030(a), for Registration Area O a registered king crab vessel must, when required by the department, have its holds, live tanks, and freezers inspected by a local representative of the department at Dutch Harbor or additional locations specified by the department within 72 hours before taking or processing king crab.

## **5 AAC 34.641. Landing requirements for Registration Area O**

(a) Repealed 11/6/96.

(b) Notwithstanding 5 AAC 34.031(e), in waters subject to the jurisdiction of the state, following the closure of Registration Area O to the taking of a specified species of king crab, a king crab vessel validly registered for Registration Area O may not have that species of king crab on board after 72 hours following the closure if delivery is made to Dutch Harbor, Akutan, or King Cove, except that a vessel delivering to King Cove may

# COMMERCIAL KING CRAB FISHERY

request additional time to deliver king crab using the procedure described in (c)(1) of this section.

(c) If a vessel is delivering king crab to a location east of King Cove, or if the vessel owner, or the owner's agent, wishes to request additional time to deliver king crab to King Cove under (b) of this section, the

(1) vessel owner, or the owner's agent, shall contact, by radio or telephone, a representative of the department in Dutch Harbor within 72 hours following the closure described in (b) of this section;

(2) representative of the department in Dutch Harbor shall grant a reasonable amount of additional time for the vessel to reach the port of delivery; the amount of additional time shall be determined under the assumption that the vessel departed the fishing grounds immediately after the closure and proceeded directly to the processing location, except that additional time may be allowed for a vessel to stop en route and offload the vessel's crab pots at a storage facility if the vessel operator first contacts a representative of the department in Dutch Harbor and provides information on the location of the storage facility, the expected time of gear placement at that facility, and the expected time the vessel will depart the storage facility en route to the port of delivery.

(d) To be in compliance with 5 AAC 34.031(b), the vessel owner, or the owner's agent, or a tender vessel registered for Registration Area O that intends to land king crab in another registration area shall make the radio or telephone contact required by 5 AAC 34.031(b) only with a representative of the department at Dutch Harbor.

(e) Repealed 8/24/2002.

## **5 AAC 34.690. Vessel length restrictions**

(a) King crab may not be taken from the waters of Unalaska Bay enclosed by a line from Cape Cheerful (54° N. lat., 166° 40.33' W. long.) to Priest Rock (54° N. lat., 166° 22.50' W. long.) by vessels over 50 feet, U.S. Coast Guard registered length or 58 feet overall length.

(b) In the remaining waters of Registration Area O east of 171° W. long., not specified in (a) of this section, king crab may not be taken by vessels over 58 feet overall length when the guideline harvest level is 1,000,000 pounds or less.

## **Article 13. Registration Area T (Bristol Bay).**

### **5 AAC 34.800. Description of Registration Area T**

Registration Area T has as its northern boundary the latitude of Cape Newenham (58° 39' N. lat.), as its southern boundary the latitude of Cape Sarichef (54° 36' N. lat.), and as its western boundary 168° W. long., and includes all waters of Bristol Bay.

### **5 AAC 34.806. Area T registration**

(a) Registration Area T is an exclusive registration area.

(b) For the red king crab fishery, the preseason vessel registration deadline for the registration year is 5:00 p.m. September 24. Before a vessel may be preseason registered under this subsection, the vessel operator must file a preseason registration form with the department. The preseason registration form must identify the vessel and vessel operator, and must be received in person, by mail, electronic mail, or facsimile, at the department office in Dutch Harbor or Kodiak by the deadline specified in this subsection.

## **5 AAC 34.810. Fishing seasons for Registration Area T**

(a) Male red king crab may be taken only from 12:00 noon October 15 through 11:59 p.m. January 15.

(b) Male golden king crab may be taken from January 1 through December 31 only under conditions of a permit issued by the commissioner.

## **5 AAC 34.815. Harvest Strategy**

Repealed 6/30/83, Register 86.

## **5 AAC 34.816. Bristol Bay red king crab harvest strategy**

(a) In accordance with 5 AAC 34.080, the Bristol Bay red king crab fishery shall be managed based on the following harvest strategy:

(1) the threshold level of abundance is 8,400,000 mature female red king crab and 14,500,000 pounds of effective spawning biomass; the Bristol Bay red king crab season may open only if analysis of preseason survey data indicates that the population of red king crab exceeds both of these indices of stock reproductive potential; the Bristol Bay red king crab season will not open if preseason survey data indicates that the population is at or below either of these two indices;

(2) if the Bristol Bay red king crab season is open under (1) of this subsection and the effective spawning biomass is at least 14,500,000 pounds, but less than 34,750,000 pounds, the number of legal male red king crab available for harvest will be no more than 10 percent of the mature male red king crab abundance or no more than 50 percent of the legal-sized male red king crab abundance, whichever is less;

(3) if the Bristol Bay red king crab season is open under (1) of this subsection and the effective spawning biomass is at least 34,750,000 pounds, but less than 55,000,000 pounds, the number of legal male red king crab available for harvest will be no more than 12.5 percent of the mature male red king crab abundance or no more than 50 percent of the legal-sized male red king crab abundance, whichever is less;

(4) if the Bristol Bay red king crab season is open under (1) of this subsection and the effective spawning biomass is 55,000,000 pounds or more, the number of legal male red king crab available for harvest will be no more than 15 percent of the mature male red

king crab abundance or no more than 50 percent of the legal-sized male red king crab abundance, whichever is less;

(5) when applying this harvest strategy, the department shall consider the reliability of the estimates of abundance of red king crab, other factors necessary to be consistent with sustained yield principles, and the best scientific information available.

(b) For the purpose of this section,

(1) "effective spawning biomass" means the estimated biomass of mature female red king crab that the population of mature male red king crab could successfully mate in a given year;

(2) "mature female red king crab" means female red king crab that are 3.5 inches (90 mm) or more in carapace length;

(3) "mature male red king crab" means male red king crab that are 4.7 inches (120 mm) or more in carapace length.

## **5 AAC 34.820. Size limits for Registration Area T**

(a) Male red king crab six and one-half inches or greater in width of shell may be taken or possessed.

(b) Repealed 8/24/2002.

(c) Only male golden king crab five and one-half inches or greater in width of shell may be taken or possessed.

## **5 AAC 34.825. Lawful gear for Registration Area T**

(a) King crab may be taken only with king crab pots. King crab taken by other means must be returned to the water without further harm.

(b) Each king crab pot must have at least one-third of one vertical surface of the pot composed of not less than nine-inch stretched mesh webbing.

(c) Each pot used to take golden king crab must have at least four circular escape rings of not less than five and one-half inches inside diameter installed on the vertical plane or have at least one-third of one vertical surface of the pot composed of not less than nine-inch stretched mesh webbing to permit the escapement of undersize golden king crab.

(d) Repealed 8/8/99.

(e) Repealed 8/8/99.

# **COMMERCIAL KING CRAB FISHERY**

(f) At the time of tank inspection required under 5 AAC 34.030, the gear must meet all specifications required by this chapter and 5 AAC 39, including identification, escape mechanisms, and mesh size requirements.

(g) A vessel engaged in taking or transporting king crab may not have on board an otter trawl with a ground line or headline longer than 60 feet.

(h) Repealed 8/15/2008.

(i) Repealed 8/14/2005.

(j) Repealed 8/14/2005.

(k) In Registration Area T, the operator of a vessel that is registered for the red king crab fishery may have on board the vessel no more than 10 groundfish pots, as defined in 5 AAC 28.050(e). Notwithstanding 5 AAC 34.050(1), red king crab taken from these pots may be legally retained.

## **5 AAC 34.827. King crab pot storage requirements for Registration Area T**

(a) In addition to the provisions of 5 AAC 34.052, in Registration Area T, king crab pots may be stored in waters north of 57° N. lat., south of 58° N. lat., east of 166° W. long., and west of 164° W. long. during the closed commercial king crab season.

(b) Repealed 8/14/2005.

(c) Repealed 8/14/2005.

## **5 AAC 34.840. Registration Area T inspection points and requirements**

(a) Registration Area T inspection points are located at Dutch Harbor or at other locations specified by the department.

(b) Notwithstanding 5 AAC 34.030, in Registration Area T within 30 hours before a season opening or at any time during the open season before taking or processing king crab, a king crab vessel registered for Registration Area T must, when required by the department, have all holds or live tanks inspected by a local representative of the department at inspection points specified in this section. Unless otherwise specified in this chapter, king crab may not be on board the vessel at the time of inspection. Successful completion of the inspection validates the vessel's registration for Registration Area T. During the period 30 hours before the season opening in Registration Area T until the season closure, the inspection requirements of this section do not apply to a registered king crab vessel that does not have a saltwater circulation system in its holds or live tanks. If an inspection is not required, completion of the registration form validates the registration.

## **5 AAC 34.841. Landing requirements for Registration Area T**

# COMMERCIAL KING CRAB FISHERY

(a) Notwithstanding 5 AAC 34.031(e)(3), following the closure of Registration Area T to the taking of a specified species of king crab, a vessel validly registered for that area may not have that species of king crab on board the vessel in waters subject to the jurisdiction of the state, if delivery is made to

(1) Dutch Harbor, Akutan, or King Cove, after 30 hours following the closure;

(2) Adak, the Pribilof Islands, or a location east of King Cove,

(A) the vessel owner, or the owner's agent, shall contact, by radio or telephone, a representative of the department in Dutch Harbor within 30 hours following the closure; and

(B) the representative of the department in Dutch Harbor shall grant a reasonable amount of additional time for the vessel to reach the port of delivery; the amount of additional time shall be determined under the assumption that the vessel departed the fishing grounds immediately following the closure and proceeded directly to the processing location.

(b) For purposes of this section, a vessel validly registered for Registration Area T landing king crab at Dutch Harbor, Akutan, or King Cove will be deemed to have landed its catch in the area for which it is validly registered at the time of landing.

(c) To comply with 5 AAC 34.031(b), the vessel owner, the owner's agent, or the operator of a tender vessel registered for Registration Area T that intends to land king crab in another registration area shall make the radio or telephone contact required under (a) of this section with a representative of the department at Dutch Harbor.

(d) Repealed 8/8/99.

(e) After the king crab fishing season is closed, a vessel with king crab on board may not be used for any purpose except to travel to the port of delivery to offload king crab, and the vessel may not pull any gear, baited or stored, or place any gear into storage, except that a vessel may stop en route and offload pots at a storage facility if the vessel operator first contacts a representative of the department in Dutch Harbor and provides information on the location of the storage facility, the expected time of gear placement at that facility, and the expected time the vessel will depart the storage facility en route to the port of delivery. After king crab have been delivered to the port of delivery, the vessel operator shall remove any pot gear remaining on the grounds, return any king crab in pot gear to the water immediately without further harm, and place the pot gear in an authorized storage area or on board the vessel within 10 days after the closure of the season.

(f) After the season is closed and before delivery of king crab, a vessel may not have a line in the block on board that vessel.

## **5 AAC 34.842. Catch information reporting in Registration Area T**

# COMMERCIAL KING CRAB FISHERY

If requested by the department, the operator of a vessel registered to take king crab in Registration Area T may report up to every 12 hours to a local representative of the department information that the department has determined is useful for the purpose of managing the harvest of king crab.

## **Article 14. Registration Area Q (Bering Sea).**

### **5 AAC 34.900. Description of Registration Area Q**

Registration Area Q has as its southern boundary a line from 54° 36' N. lat., 168° W. long., to 54° 36' N. lat., 171° W. long., to 55° 30' N. lat., 171° W. long., to 55° 30' N. lat., 173° 30' E. long., as its northern boundary the latitude of Point Hope (68° 21' N. lat.), as its eastern boundary a line from 54° 36' N. lat., 168° W. long., to 58° 39' N. lat., 168° W. long., to Cape Newenham (58° 39' N. lat.), and as its western boundary the Maritime Boundary Agreement Line as that line is described in the text of and depicted in the annex to the Maritime Boundary Agreement between the United States and the Union of Soviet Socialist Republics signed in Washington, June 1, 1990, and as that Maritime Boundary Agreement Line is depicted on NOAA Chart #513 (7th Edition, June 2004) and NOAA Chart #514 (7th Edition, January 2004), adopted by reference.

### **5 AAC 34.905. Description of Registration Area Q districts**

- (a) Repealed 6/14/80.
- (b) Pribilof District: waters of Registration Area Q south of the latitude of Cape Newenham (58° 39' N. lat.).
- (c) Northern District: waters of Registration Area Q north of the latitude of Cape Newenham (58° 39' N. lat.).
  - (1) Norton Sound Section: waters, north of the latitude of Cape Romanzof (61° 49' N. lat.) and south of 66° N. lat.);
  - (2) Saint Matthew Island Section: waters north of the latitude of Cape Newenham (58° 39' N. lat.) and south of the latitude of Cape Romanzof (61° 49' N. lat.);
  - (3) Kotzebue Sound Section: all remaining waters of the district.

### **5 AAC 34.906. Area Q registration**

- (a) Registration Area Q is a nonexclusive registration area, except that the Norton Sound Section of the Northern District is a superexclusive registration area.
- (b) In the Pribilof District and the St. Matthew Island Section of the Northern District,
  - (1) for the red and blue king crab fishery, the vessel preseason registration deadline for the registration year is 5:00 p.m. August 24;

# COMMERCIAL KING CRAB FISHERY

(2) for the golden king crab fishery, the vessel registration deadline for the registration year is 21 days before the vessel begins fishing operations.

(c) Before a vessel may be registered under this section, the vessel operator must obtain a CFEC interim-use permit for Bering Sea king crab that references the vessel's ADF&G license number and file a registration form with the department, except that a vessel operator is not required to obtain a CFEC interim-use permit before filing a registration form for the Pribilof District red and blue king crab fisheries or the Saint Matthew Island Section blue king crab fishery. The registration form must identify the vessel and vessel operator and must be received in person, by mail, electronic mail, or facsimile, at the department office in Dutch Harbor or Kodiak by the applicable deadline specified in (b) of this section.

## **5 AAC 34.910. Fishing seasons for Registration Area Q**

(a) After an opening time and date for taking king crab set forth in (b) - (d) of this section, no person may possess or transport aboard any registered king crab vessel or any tender, any species of king crab until the vessel has complied with the inspection provisions of 5 AAC 34.030(b).

(b) In the Pribilof District,

(1) male red and blue king crab may be taken only from 12:00 noon October 15 through 11:59 p.m. January 15;

(2) repealed 8/24/2002;

(3) male golden king crab may be taken from January 1 through December 31 only under conditions of a permit issued by the commissioner.

(c) In the Saint Matthew Island Section,

(1) male blue king crab may be taken only from 12:00 noon October 15 through 11:59 p.m. February 1;

(2) male golden king crab may be taken from January 1 through December 31 only under conditions of a permit issued by the commissioner.

(d) In the Norton Sound Section of the Northern District, male red king crab, male blue king crab, and male Hanasaki king crab may be taken only as follows:

(1) during a fishing season established by emergency order to open on or after June 15 and close 12:00 noon September 3 (summer season); and

(2) through the ice only, during a fishing season to open February 1 and close April 30, unless extended by emergency order;

(3) the fishing season will be closed for the entirety of 2020 east of 167° W. long.

# COMMERCIAL KING CRAB FISHERY

(e) Repealed 6/30/83.

(f) In the Kotzebue Sound Section,

(1) male red and blue king crab may be taken only as follows:

(A) during the summer season as follows:

(i) in the waters north of 66° N. lat., from 12:00 noon June 15 through August 1;

(ii) repealed 7/16/2006;

(B) through the ice only, from 12:00 noon November 15 through 12:00 noon May 15 (winter season);

(2) male golden king crab may be taken from January 1 through December 31 only under conditions of a permit issued by the commissioner.

(g) Notwithstanding 5 AAC 34.053, a person or vessel that operates commercial pots during the 7 days immediately before the opening of a commercial king crab season in the Norton Sound section of Registration Area Q may not participate in the commercial king crab fishery in that Registration Area.

## **5 AAC 34.915. Norton Sound Section red king crab harvest strategy**

(a) The department shall manage the summer and winter commercial seasons of the Norton Sound Section red king crab fishery in accordance with 5 AAC 34.080 and 5 AAC 34.910, as follows:

(1) the threshold level of abundance of legal male red king crab biomass is 1.25 million pounds; the Norton Sound red king crab winter and summer commercial seasons may open only if analysis of preseason survey data indicates that the population of legal male red king crab exceeds this level; if the winter and summer commercial seasons for red king crab are opened under this paragraph,

(A) eight percent of the guideline harvest level may be taken during the winter season; and

(B) any remaining guideline harvest level not taken during the winter season may be taken during the summer commercial season;

(2) if the Norton Sound red king crab season is open under (1) of this subsection and the legal male red king crab biomass is less than two million pounds, the number of legal male red king crab available for harvest will be no more than seven percent of the legal male red king crab abundance;

(3) if the Norton Sound red king crab season is open under (1) of this subsection and the legal male red king crab biomass is at least two million pounds, but less than

# COMMERCIAL KING CRAB FISHERY

three million pounds, the number of legal male red king crab available for harvest will be no more than 13 percent of the legal male red king crab abundance;

(4) if the Norton Sound red king crab season is open under (1) of this subsection and the legal male red king crab biomass is three million pounds or more, the number of legal male red king crab available for harvest will be no more than 15 percent of the legal male red king crab abundance;

(5) when applying this harvest strategy, the department shall consider the reliability of the estimates of abundance of red king crab, other factors necessary to be consistent with sustained yield principles, the best scientific information available, and harvest efficiency;

(6) the commissioner may, by emergency order, reduce by small increments the closed waters described in 5 AAC 34.935(a) to no less than three miles from mean lower low tide to allow the commercial king crab fishery to efficiently obtain the allowable harvest of red king crab.

(b) Notwithstanding 5 AAC 39.690(e)(7), the commissioner may, by emergency order, open a CDQ fishery in Norton Sound, with an allocation of 7.5 percent of the forecasted guideline harvest level for male red king crab.

## **5 AAC 34.917. Saint Matthew Island Section blue king crab harvest strategy**

(a) In the Saint Matthew Island Section, the commissioner may, by emergency order, open the blue king crab fishery only if the department's preseason survey estimate of mature male blue king crab equals at least 50 percent of the 1978-2012 average survey estimate of mature males.

(b) If the commercial blue king crab fishery is open under (a) of this section, and the preseason survey estimate of mature males is

(1) at least 50 percent but less than 100 percent of the 1978 - 2012 average survey estimate of mature males, the number of legal males available for harvest will be no more than  $0.1 \times M \times (M/M_{1978-2012})$ , where  $M$  = the current year preseason survey estimate of mature males, and  $M_{1978-2012}$  = the 1978 - 2012 average survey estimate of mature males, or 25 percent of the preseason survey estimate of legal males, whichever is less;

(2) equal to or greater than the 1978 - 2012 average survey estimate of mature males, the number of legal males available for harvest will be no more than 10 percent of the preseason survey estimate of mature males or 25 percent of the preseason survey estimate of legal males, whichever is less.

(c) In implementing this harvest strategy, the Alaska Board of Fisheries directs the department to use the best scientific information available and to consider the reliability of estimates of blue king crab, the manageability of the fishery, and any other factors it determines necessary to be consistent with sustained yield principles.

(d) For the purposes of this section,

# COMMERCIAL KING CRAB FISHERY

(1) "preseason survey estimate" means the

(A) population number present at the time of the preseason survey as estimated directly by the area-swept method from annual trawl survey data, if a stock-assessment model is not used for abundance estimation;

(B) model-estimated population number present at the time of the preseason survey times the estimated survey selectivity and catchability, if a stock-assessment model is used for abundance estimation;

(2) "legal males" means all male blue king crab at least

(A) 5.5 inches in width of shell; or

(B) 120 millimeters in length of shell, if only shell length measurements are available in the preseason survey data;

(3) "mature males" means all male blue king crab at least 105 millimeters in length of shell.

## **5 AAC 34.918. Pribilof District blue king crab harvest strategy**

(a) Notwithstanding 5 AAC 34.910(b)(1), in the Pribilof District, the commercial blue king crab fishery will open only if the department's analysis of preseason survey data indicates that the population of blue king crab

(1) contains an estimated spawning biomass of at least 13.2 million pounds for two consecutive years; and

(2) will result in a total allowable catch for the fishery, established under (b) of this section, of at least 0.5 million pounds, not including the community development quota (CDQ) established under 5 AAC 39.690; neither the commercial blue king crab fishery or the CDQ fishery will open if the minimum total allowable catch threshold is not met.

(b) The total allowable catch for the commercial blue king crab fishery is 10 percent of the estimated abundance of mature males or 20 percent of the number of legal males, whichever is less.

(c) In implementing this harvest strategy, the board directs the department to

(1) use the best scientific information available;

(2) consider the reliability of estimates of blue king crab;

(3) consider the manageability of the fishery; and

(4) consider any other factors the department determines necessary to be consistent with sustained yield principles.

(d) For the purposes of this section,

(1) "estimated spawning biomass" means the estimated biomass of all mature male and female blue king crab;

(2) "legal males" means all male blue king crab that are at least six and one-half inches in width of shell;

(3) "mature males" means all male blue king crab that are at least 120 millimeters in length of shell.

## **5 AAC 34.920. Size limits for Registration Area Q**

(a) In the Pribilof District, only male red and blue king crab six and one-half inches or greater, and male golden king crab five and one-half inches or greater, in width of shell, may be taken or possessed.

(b) In the Saint Matthew Island Section, only male blue and golden king crab five and one-half inches or greater in width of shell may be taken or possessed.

(c) In the Kotzebue Sound Section, only male red king crab four and three-quarter inches or greater, and male blue and golden king crab five and one-half inches or greater, in width of shell, may be taken or possessed.

(d) In the Norton Sound Section, only the following king crab may be taken or possessed:

(1) male red king crab four and three-quarter inches or greater in width of shell;

(2) male blue king crab five inches or greater in width of shell;

(3) male Hanasaki king crab four and three-quarter inches or greater in width of shell.

(e) Repealed 6/30/84.

## **5 AAC 34.925. Lawful gear for Registration Area Q**

(a) King crab may be taken only with king crab pots, except that during the winter season for king crab in the Norton Sound Section, king crab may be taken through the ice with jigging gear as described in 5 AAC 02.010(a)(2). Jigging gear must be marked as described in 5 AAC 02.010(e)(1). King crab taken by other means must be returned to the water without further harm.

(b) In addition to the requirements of 5 AAC 39.145, in the Pribilof District and the Saint Matthew Island Section and Norton Sound Section of the Northern District, escape mechanism requirements for king crab pots are as follows:

## COMMERCIAL KING CRAB FISHERY

(1) in the Pribilof District, each king crab pot must have at least one-third of one vertical surface of the pot composed of not less than nine-inch stretched mesh webbing;

(2) in the Saint Matthew Island Section, each king crab pot must have eight escape rings with an inside diameter measure of 5.8 inches placed on a vertical plane within one mesh measurement from the bottom of the pot, with four escape rings on two sides of a four-sided pot, or if the pot has no escape rings as specified in this paragraph, then one-half of one vertical side of a four-sided pot must have a side panel composed of not less than eight-inch stretched mesh webbing;

(3) in the Norton Sound Section, each king crab pot must have at least four circular escape rings with a minimum inside diameter of four and one-half inches installed on a vertical plane within one mesh measurement from the bottom of the pot or have at least one half of one vertical surface of a square pot, or sloping side-wall surface of a conical or pyramid pot, composed of not less than six and one-half inch stretched mesh webbing to permit the escapement of undersized crab.

(c) Each pot used to take golden king crab must have no less than four circular escape rings of not less than five and one-half inches inside diameter installed on the vertical plane or have at least one-third of one vertical surface of the pot composed of not less than nine-inch stretched mesh webbing to permit the escapement of undersize golden king crab.

(d) In the Norton Sound and Kotzebue Sound Sections during the winter commercial king crab season, a king crab pot

(1) may be of any dimension or size;

(2) may be operated only through a solid ice cover;

(3) must be attached to the ice by a stake that is legibly marked with the name and address of the operator; and

(4) must have at least four circular escape rings with a minimum inside diameter of four and one-half inches installed on a vertical plane within one mesh measurement of the bottom of the pot or have at least one half of one vertical surface of a square pot, or sloping side-wall surface of a conical or pyramid pot, composed of not less than six and one-half inch stretched mesh webbing to permit the escapement of undersized king crab.

(e) During a commercial king crab season, the following pot limits are in effect:

(1) in the Pribilof District

(A) in the red and blue king crab fisheries, an aggregate of no more than 250 pots may be operated from an individual vessel;

(B) in the golden king crab fishery, an aggregate of no more than 50 pots may be operated from a validly registered king crab vessel with an overall length of more than

## COMMERCIAL KING CRAB FISHERY

125 feet, and an aggregate of no more than 40 pots may be operated from a validly registered king crab vessel with an overall length of 125 feet or less;

(2) in the Norton Sound Section of the Northern District, as follows:

(A) an aggregate of no more than 50 pots may be operated from a validly registered king crab vessel with an overall length of more than 125 feet;

(B) an aggregate of no more than 40 pots may be operated from a validly registered king crab vessel with an overall length of 125 feet or less;

(C) a permit holder may operate no more than 20 pots described in (d) of this section during the winter through-the-ice commercial king crab season described in 5 AAC 34.910(d)(2); only 20 pot tags will be issued to any one permit holder for the entirety of the season;

(3) in the Saint Matthew Island Section of the Northern District,

(A) in the blue king crab fishery, the operator of a vessel that is validly registered for the commercial blue king crab fishery may have on board the vessel, or in the water in fishing condition, no more than 10 groundfish pots, as defined in 5 AAC 28.050(e); notwithstanding 5 AAC 34.050(1) and (a) of this section, blue king crab taken from these pots may be legally retained;

(B) in the golden king crab fishery, an aggregate of no more than 75 pots may be operated from a validly registered king crab vessel with an overall length of more than 125 feet, and an aggregate of no more than 60 pots may be operated from a validly registered king crab vessel with an overall length of 125 feet or less;

(4) in the Kotzebue Sound Section of the Northern District, an aggregate of no more than 50 pots may be operated from a validly registered king crab vessel with an overall length of more than 125 feet, and an aggregate of no more than 40 pots may be operated from a validly registered king crab vessel with an overall length of 125 feet or less.

(f) In Registration Area Q, pots used to take golden king crab may be longlined. Notwithstanding 5 AAC 34.051, a buoy is not required for each pot, but each end of the longline must be marked by a cluster of four buoys. One buoy in the cluster must be marked in accordance with the specifications of 5 AAC 34.051 and include the initials "SL" to identify that the pots are on a shellfish longline. For the purposes of this subsection, "shellfish longline" is a stationary, buoyed, and anchored line with more than one shellfish pot attached.

(g) Repealed 8/14/2005.

(h) Repealed 8/14/2005.

(i) In the districts of Registration Area Q, a registered king crab vessel may not have, at any time in the aggregate, more than the legal limit of gear on board the vessel, in the water in fishing condition, and in the water in nonfishing condition. At the time of tank

# **COMMERCIAL KING CRAB FISHERY**

inspection required under 5 AAC 34.030, the gear must meet all specifications required by this chapter and 5 AAC 39, including identification, escape mechanisms, and mesh size requirements.

(j) A vessel engaged in taking or transporting king crab may not have on board an otter trawl with a ground line or headline longer than 60 feet.

(k) For the purposes of this section, "overall length" means the horizontal distance, rounded to the nearest foot, between the foremost part of the stem and the aftermost part of the stern, excluding bowsprits, rudders, outboard motor brackets, and similar fittings or attachments.

## **5 AAC 34.926. King crab pot marking requirements for Registration Area Q**

(a) Except during the winter through-the-ice commercial king crab season described in 5 AAC 34.910(d)(2), in Registration Area Q, the main buoy or trailer buoy must display one current identification tag and no other tags issued under 5 AAC 34.051.

(b) In Registration Area Q, except in the Norton Sound Section of the Northern District, replacement of identification tags lost during the season is permitted if the vessel operator and three crewmembers submit sworn statements or affidavits, in person, at the department office in Dutch Harbor, describing how the tags were lost and listing the numbers of the lost tags.

(c) In the winter through-the-ice commercial king crab season described in 5 AAC 34.910(d)(2), each king crab pot must have one current identification tag and no other tags issued by the department attached above the ice on the line attached to the pot or on the stake attached to the ice that secures the pot in a manner so that the tag is clearly visible. Current identification tags will be issued at the designated department office at the time the permit holder registers for the winter through-the-ice season. Replacement of identification tags lost during the season is permitted if the permit holder submits a sworn statement or affidavit describing how the tags were lost and listing the numbers of the lost tags.

## **5 AAC 34.927. King crab pot storage requirements for Registration Area Q**

(a) Notwithstanding 5 AAC 34.052, in the Norton Sound Section of Registration Area Q, rectangular king crab pots with all bait and bait containers removed and all doors secured fully open, and cone or pyramid king crab pots with all bait and bait containers removed and all doors not secured closed, may be stored in waters deeper than 25 fathoms only for 72 hours following the closure of the commercial king crab season in the Norton Sound Section.

(b) In the Northern District of Registration Area Q, king crab pots may be stored only in waters north of 59° N. lat., south of 59° 30' N. lat., west of 169° 31' W. long., and east of 171° W. long., or by removal from the water.

(c) From June 1 through August 31, king crab pots may not be stored in the waters around the Pribilof Islands shoreward of the 25-fathom isobath.

## 5 AAC 34.935. Closed waters in Registration Area Q

(a) Except as provided in 5 AAC 34.915(a)(6), all waters of the Norton Sound Section enclosed by a line from 64° 24.00' N. lat., 166° 15.00' W. long., to 64° 15.00' N. lat., 166° 15.00' W. long., to 64° 15.00' N. lat., 163° 30.00' W. long., to 64° 10.00' N. lat., 163° 30.00' W. long., to 64° 10.00' N. lat., 162° 00.00' W. long., to 64° 15.00' N. lat., 162° 00.00' W. long., to 64° 15.00' N. lat., 161° 30.00' W. long., to 64° 00.00' N. lat., 161° 30.00' W. long., to 64° 00.00' N. lat., 161° 15.00' W. long., to 63° 32.00' N. lat., 161° 15.00' W. long. are closed to the taking of king crab during the summer season.

(b) King crab may not be taken in waters within 10 miles of mean lower low water around St. Lawrence, King, and Little Diomed Islands.

(c) From November 15 through May 15, the waters of the Norton Sound Section enclosed by a line from 64° 30.17' N. lat., 165° 28.07' W. long., to 64° 27.13' N. lat., 165° 28.07' W. long., to 64° 25.50' N. lat., 165° 17.45' W. long., to 64° 28.55' N. lat., 165° 17.45' W. long., are closed to the taking of king crab.

(d) The waters of Alaska surrounding St. Matthew Island, Hall Island, and Pinnacle Island are closed to the taking of king crab.

## 5 AAC 34.940. Registration Area Q inspections and inspection points

(a) Registration Area Q inspection points are located at Dutch Harbor, or at other locations specified by the department.

(b) Notwithstanding 5 AAC 34.030, for the Saint Matthew Island Section of Registration Area Q, a registered king crab vessel must, when required by the department, have its holds, live tanks, and freezers inspected by a local representative of the department at Dutch Harbor or additional locations specified by the department within 72 hours before taking or processing king crab.

(c) Notwithstanding 5 AAC 34.030, for the Pribilof District of Registration Area Q, a registered king crab vessel must, when required by the department, have its holds, live tanks, and freezers inspected by a local representative of the department at Dutch Harbor or additional locations specified by the department within 30 hours before taking or processing king crab.

## 5 AAC 34.941. Landing requirements for Registration Area Q

(a) Notwithstanding 5 AAC 34.031(e), following the closure of any district in Registration Area Q to the taking of a specified species of king crab, a vessel validly registered for that district may not have that species of king crab on board the vessel in waters subject to the jurisdiction of the state, if delivery is made

(1) in the district or registration area in which the king crab were taken, after 30 hours following the closure;

# COMMERCIAL KING CRAB FISHERY

(2) to Dutch Harbor, Akutan, or King Cove from the

(A) Pribilof District of Registration Area Q, after 30 hours following the closure, except that a vessel delivering to King Cove may request additional time to deliver crab under (b) of this section;

(B) Northern District of Registration Area Q in the

(i) Norton Sound Section, after the time specified at check out with a representative of the department in Nome;

(ii) Saint Matthew Island Section, after 72 hours following the closure;

(iii) Kotzebue Sound Section, after 72 hours following the closure.

(b) If a vessel is delivering crab to a location east of King Cove, or if the vessel owner, or the owner's agent, wishes to request additional time to deliver king crab to King Cove under (a)(2)(A) of this section, the

(1) vessel owner, or the owner's agent, shall contact, by radio or telephone, a representative of the department in Dutch Harbor within 24 hours following the closure;

(2) representative of the department in Dutch Harbor shall grant a reasonable amount of additional time for the vessel to reach the port of delivery; the amount of additional time shall be determined under the assumption that the vessel departed the fishing grounds immediately following the closure and proceeded directly to the processing location, except that a vessel may stop en route and offload pots at a storage facility if the vessel operator first contacts a representative of the department in Dutch Harbor and provides information on the location of the storage facility, the expected time of gear placement at that facility, and the expected time the vessel will depart the storage facility en route to the port of delivery.

(c) For purposes of this section, a vessel validly registered for Registration Area Q, or a district or section in Registration Area Q, landing king crab at Dutch Harbor, Akutan, or King Cove will be deemed to have landed its catch in the area for which it is validly registered at the time of landing.

(d) To comply with 5 AAC 34.031(b), the vessel owner, owner's agent, or operator of a tender vessel registered for Registration Area Q that intends to land king crab in another registration area shall make the radio or telephone contact required under (b) of this section with a representative of the department at Dutch Harbor.

## **5 AAC 34.950. District registration**

(a) Vessel and gear registered for Registration Area Q must also be registered for the Northern District before fishing in that district. Vessels and gear registered for the Northern District may not be used to fish in any other district. The registration district shall be indicated on the registration certificate.

(b) Vessel and gear district registration may be voided or changed by the vessel owner or operator by completing a form provided by a local representative of the department. In addition, the representative at Dutch Harbor may authorize changes of district registration over the radio if radio contact is made by the vessel operator, provided the local representative determines that to do so would be consistent with sound enforcement policy.

(c) No vessel licensed as a commercial fishing vessel may have any unprocessed king crab on board within the Northern District in Registration Area Q unless the vessel is registered for that district.

(d) A vessel may be used for the taking of king crab within the Northern District only if it is currently registered for the district and is validly registered for Area Q.

(e) The commissioner may suspend and reinstate any of the requirements of this section if he finds that to do so would be in the public interest.

## **5 AAC 34.960. Application of regulations in the Norton Sound and Kotzebue Sound Sections of Registration Area Q**

(a) From November 15 through May 15, the following regulations in this chapter do not apply in the Norton Sound and Kotzebue Sound Sections:

- (1) 5 AAC 34.020;
- (2) 5 AAC 34.030;
- (3) 5 AAC 34.031;
- (4) 5 AAC 34.033;
- (5) 5 AAC 34.040(b) and (c);
- (6) 5 AAC 34.052;
- (7) 5 AAC 34.910(a);
- (8) 5 AAC 34.935(a) and (b);
- (9) 5 AAC 34.940.

(b) For purposes of this chapter, any craft used to transport king crab over the ice from a fishing location to a buyer is not considered to be a vessel.

### Article 1. Registration Areas.

#### 5 AAC 35.001. Application of this chapter

Requirements set out in this chapter apply only to commercial fishing for Tanner crab, unless otherwise specified. Subsistence, personal use, and sport fishing regulations affecting commercial Tanner crab fishing vessels or affecting any other commercial Tanner crab fishing activity are set out in the subsistence fishing regulations in 5 AAC 02, personal use fishing regulations in 5 AAC 77, and sport fishing regulations in 5 AAC 47 - 5 AAC 75.

#### 5 AAC 35.005. Registration areas established

(a) The following are Tanner crab registration areas and their code letters:

Code Letter

**A** - Southeastern Alaska Area (5 AAC 35.100)

**D** - Yakutat Area (5 AAC 35.160)

# **COMMERCIAL TANNER CRAB FISHERY**

**E** - Prince William Sound Area (5 AAC 35.300)

**H** - Cook Inlet Area (5 AAC 35.400)

**J** - Westward Area (5 AAC 35.500)

(b) Each registration area identified in (a) of this section shall be designated as superexclusive or nonexclusive.

(c) A vessel validly registered for a superexclusive registration area may not be used to take Tanner crab in any other registration area during that registration year. Unless otherwise specified in this chapter, a Tanner crab vessel validly registered for a nonexclusive registration area may not be used to take Tanner crab in a superexclusive registration area during that registration year. A vessel may register for more than one nonexclusive registration area.

## **5 AAC 35.010. Application of regulations**

(a) Unless otherwise specified in this chapter, the regulations in this chapter applicable to a Tanner crab registration area also apply to the adjacent waters of the exclusive economic zone.

(b) The commissioner may suspend the application of this section to all or a portion of the waters of the exclusive economic zone adjacent to a Tanner crab registration area if the commissioner finds that

(1) application of this section fails to facilitate enforcement of regulations applicable to a registration area;

(2) application of this section fails to protect or conserve Tanner crab inhabiting territorial waters of Alaska; or

(3) the state has an insufficient interest in the Tanner crab inhabiting the waters of the exclusive economic zone to warrant extension of the jurisdiction of the state to the exclusive economic zone.

(c) For purposes of this chapter, "exclusive economic zone" means all the waters adjacent to a Tanner crab registration area and seaward to a boundary line drawn in such a manner that each point on the line is 200 nautical miles from the baseline from which the territorial sea is measured.

## **5 AAC 35.020. Tanner crab area registration**

(a) A person may use a vessel to take Tanner crab in a Tanner crab registration area and the exclusive economic zone adjacent to the registration area only if the vessel owner, or the owner's agent, has validly registered the vessel with the department for that Tanner crab registration area.

## **COMMERCIAL TANNER CRAB FISHERY**

(b) Unless otherwise specified in this chapter, the vessel owner, or the owner's agent, shall validly register each Tanner crab vessel for a Tanner crab registration area before using the vessel to take Tanner crab in that registration area.

(c) The Tanner crab vessel registration year is August 1 - July 31.

(d) The department shall issue a registration certificate to a Tanner crab vessel if the vessel owner, or the owner's agent, completes a registration form available from the local representative of the department, and if the vessel is licensed and otherwise in compliance with AS 16 and this title. The vessel owner, or the owner's agent, shall sign the registration certificate when it is issued and shall keep it on board the vessel and available at all times during fishing operations. The registration certificate must be shown upon request to any peace officer of the state.

(e) In a Tanner crab registration area or district where tank inspections are required, a vessel registration is not valid until the vessel has had a tank inspection. A tank inspection is not complete unless, at the time of inspection, there is on board the vessel the holder of a valid CFEC interim use or limited entry permit, with the permit in possession, for the registration area or district and the Tanner crab species for which the vessel is registered. Successful completion of the inspection validates the vessel's registration for a registration area. If an inspection is not required in a registration area, compliance with (d) of this section validates the registration.

(f) The department may invalidate a vessel registration to permit the vessel to be used to take crab in other Tanner crab registration areas, except that once a vessel has been inspected for a superexclusive registration area, the department may not invalidate a vessel registration in order to permit the vessel to be used to take Tanner crab in another registration area.

(g) A vessel shall be issued an inspection certificate upon successful completion of an inspection required by this chapter or 5 AAC 35.030. An inspection is not complete unless a current registration certificate for the Tanner crab registration area is shown to the local representative of the department conducting the inspection. The vessel owner, or the owner's agent, shall sign the inspection certificate and shall keep it on the vessel and available at all times during fishing operations. The inspection certificate must be shown upon request to any peace officer of the state.

(h) An operator of a Tanner crab vessel validly registered for a superexclusive registration area may not operate any other Tanner crab vessel registered for any other superexclusive registration area in the same registration year.

(i) Unless otherwise specified in this chapter, a vessel validly registered to take Tanner crab in any Tanner crab registration area may not be used to take any other species of crab in any other crab registration area. A vessel may not be validly registered for more than one Tanner crab registration area at a time.

(j) The commissioner may authorize late registration of a replacement Tanner crab vessel in the event of the loss of a vessel registered for a specific Tanner crab registration area. A replacement vessel authorized to register late shall be registered only for the

# COMMERCIAL TANNER CRAB FISHERY

Tanner crab registration area in which the lost vessel was registered. In order to be authorized to register a replacement vessel under this subsection, the vessel owner, or the owner's agent, shall submit written documentation verifying the loss of the vessel. For purposes of this subsection, "loss of a vessel" means that due to sinking or destruction the vessel is incapable of being used to take Tanner crab during the Tanner crab season in the registration area for which the vessel is registered.

(k) A Tanner crab vessel registration is invalid 24 hours after the closure of the season for that Tanner crab registration area.

(l) If a deadline for a vessel registration for a Tanner crab fishery falls on a Saturday, Sunday, or state holiday, the registration deadline is extended to 5:00 p.m. the next state working day.

## **5 AAC 35.030. Inspection requirements**

By announcement, the commissioner may require a registered Tanner crab vessel to have all holds, live tanks, and freezers inspected before or during an open Tanner crab fishing season.

## **5 AAC 35.031. Tanner crab landing requirements**

(a) Unless otherwise specified in this chapter and except as provided in (b) of this section, a Tanner crab vessel shall land all Tanner crab in the registration area for which it is validly registered at the time of the landing.

(b) The owner, or the owner's agent, of a Tanner crab vessel validly registered for a registration area that intends to land Tanner crab in another registration area shall contact, by radio or telephone, a local representative of the department for an authorization before leaving the registration area for which that vessel is registered and shall submit to an inspection at a location specified by the representative. The vessel owner, or the owner's agent, shall contact the representative located in the registration area for which that vessel is validly registered at the time of the contact. A vessel landing Tanner crab in another registration area under an authorization granted under this subsection may not, at the time of landing, have more Tanner crab on board than were present at the time of the inspection. If the local representative of the department does not require an inspection under this subsection, the vessel owner, or the owner's agent, making radio or telephone contact shall state to the representative the amount of Tanner crab on board the vessel at the time of the contact. A vessel authorized to land Tanner crab in another registration area without an inspection may not land 10 percent more or less Tanner crab than the amount stated at the time of the contact with the representative.

(c) Unless otherwise specified in this chapter, after 24 hours following the closure of a Tanner crab registration area, a Tanner crab vessel registered for that area may not have Tanner crab on board while it is in waters subject to the jurisdiction of the state

(1) unless the vessel is otherwise in compliance with 5 AAC 35.020, and 5 AAC 35.030 if applicable;

## **COMMERCIAL TANNER CRAB FISHERY**

(2) unless the vessel owner, or the owner's agent, has contacted in person or by radio or telephone a local representative of the department at a landing port or inspection point specified in this chapter or by the department, and the representative has authorized the extended possession of Tanner crab; contact with the representative must be made within the 24-hour period following the season closure for the registration area;

(3) unless the vessel owner, or the owner's agent, that catches and processes Tanner crab has complied with the gear storage requirements in 5 AAC 35.052(a)(1), and the landing requirements specified in this section or specified for a specific registration area, and has contacted a local representative of the department within the times specified in this subsection, and the representative has authorized extended possession of Tanner crab for purposes of processing or transportation;

(4) unless, if the Tanner crab are processed, no more than 90 days have passed since the closure of the registration area or district, and the vessel is carrying a department-approved onboard observer for the entire 90-day period.

(d) Except in Registration Area A, the provisions of (a) - (c) of this section also apply to the closure of districts, subdistricts, sections, or any other portion of a registration area.

(e) The owner, or the owner's agent, of a vessel landing Tanner crab under an authorization granted under (b) of this section shall attach the inspection certificate issued under 5 AAC 35.020 to the back of the department copy of the fish ticket at the time the Tanner crab are landed.

(f) The owner, or the owner's agent, of a Tanner crab vessel that has sunk or upon which the death of a crewmember has occurred that prevents timely removal or storage of gear at the time of closure, as specified in 5 AAC 35.052, may apply to the commissioner for a permit to sell legal size male Tanner crab taken when the pots are retrieved by the vessel owner, or the owner's agent, after the Tanner crab season is closed in the registration area. The application must be made within 14 days after the sinking of the vessel or death of a crewmember as described in this subsection. A fish ticket for a delivery made under this subsection must attribute the harvest of the Tanner crab to the lost vessel or the vessel upon which the death of a crewmember has occurred.

(g) A catcher-processor vessel carrying processed Tanner crab out of state waters that had 100 percent onboard observer coverage during the fishing season, is not required to carry an onboard observer while transiting out of state waters if

(1) the vessel departs to the port where it will off-load its Tanner crab within 21 days after departing the registration area;

(2) the vessel owner, or the owner's agent, gives a check out/check in report by notifying the department at least 24 hours in advance of the vessel's departure time and of its estimated time of arrival at the port where the vessel will off-load Tanner crab;

(3) the vessel has a pre-transit inspection by the department before departing;

# **COMMERCIAL TANNER CRAB FISHERY**

(4) the vessel proceeds immediately and directly to the port where it will off-load Tanner crab;

(5) the vessel owner, or the owner's agent, notifies the department upon arrival at the port where the vessel will off-load Tanner crab;

(6) the vessel owner, or the owner's agent, complies with any department request for copies of off-load shipping documents; and

(7) the vessel owner, or the owner's agent, cooperates with a department request for an independent third party verification of an off-loading under this section.

## **5 AAC 35.033. Tenders for Tanner crab**

(a) A vessel used to tender Tanner crab for a vessel validly registered to take Tanner crab may not have Tanner crab gear or equipment on board the tendering vessel and may not use that vessel to take Tanner crab.

(b) Before engaging in a tendering operation, the operator of a tendering vessel shall register that vessel with a local representative of the department within the Tanner crab registration area, district, or section in which the operator intends to operate that vessel.

(c) Before leaving a Tanner crab registration area, district, or section for which it is registered, the operator of a tendering vessel shall contact, in person or by radio or telephone, a local representative of the department in the registration area where the vessel is operating. At the time of the contact with the representative, the tendering vessel operator shall state the number of Tanner crab on board the vessel and the vessel's unloading destination.

## **5 AAC 35.035. Closure of Tanner crab registration areas and appeal procedure**

Within five days after the closure of a Tanner crab registration area or portion of a registration area, the owner, or the owner's agent, of a Tanner crab vessel that was validly registered for that area may formally request, in writing, that the commissioner reopen the area. The commissioner shall consider all relevant information concerning the condition of Tanner crab stocks within the closed registration area. Within 14 days after the receipt of the request, the commissioner shall publicly announce a decision to retain the closure or reopen the area by emergency order.

## **Article 2. General Provisions.**

### **5 AAC 35.050. Lawful gear for Tanner crab**

Unless otherwise specified in this chapter,

(1) Tanner crab may be taken only with Tanner crab pots and ring nets; Tanner crab taken by other means must be returned to the water without further harm;

# COMMERCIAL TANNER CRAB FISHERY

(2) a Tanner crab pot is a pot that is no more than 10 feet long by 10 feet wide by 42 inches high with rigid tunnel eye openings that individually are less than five inches (13 cm) in one dimension with tunnel eye opening perimeters that individually are more than 36 inches (91.4 cm) or a pot that is no more than 10 feet long by 10 feet wide by 42 inches high and that tapers inward from its base to a top that consists of one horizontal opening of any size;

(3) Tanner crab pots with tunnel eye openings on the vertical plane of the pot that are used to take Tanner crab during the closed king crab season in any area may not have tunnel eye openings more than five inches (13 cm) in height.

## **5 AAC 35.051. Tanner crab gear marking requirements**

At least one buoy on each Tanner crab pot or ring net must be legibly marked with the permanent ADF&G vessel license plate number of the Tanner crab vessel operating the gear. The buoy must bear only the number of the vessel used in operating the gear. The number shall be painted on the top one-third of the buoy in numerals at least four inches high and one-half inch wide, in a color contrasting to that of the buoy. The buoy markings must be visible on the buoy above the water surface when the buoy is attached to the crab pot.

## **5 AAC 35.052. Tanner crab gear storage requirements**

(a) Unless otherwise specified in this chapter, during the closed season for Tanner crab in a registration area, Tanner crab pots must be removed from the water, except rectangular Tanner crab pots with all bait and bait containers removed and with all doors secured fully open, and cone or pyramid Tanner crab pots with all bait and bait containers removed and with all doors not secured closed, may be stored in waters

(1) of 25 fathoms or less in depth; or

(2) deeper than 25 fathoms only for

(A) seven days following the season closure for Tanner crab in that registration area;

(B) 72 hours following the closure of any portion of that registration area;

(3) if the vessel owner, or the owner's agent, has contacted, in person or by radio or telephone, the local representative of the department at a landing port or inspection port specified in this chapter for a specific registration area or a port specified by the department and has requested and been granted an extension of time to remove and store pots due to a major vessel breakdown or extreme weather conditions.

(b) A pot stored under this section may not have any portion of the line attaching the pot to a buoy or buoys floating on the surface of the water at any time, except for that portion of the line connecting the main buoy to a trailer buoy or buoys.

# **COMMERCIAL TANNER CRAB FISHERY**

(c) Provisions in this section may be modified by regulations for specific registration areas.

## **5 AAC 35.053. Operation of other pot gear**

Unless otherwise specified in 5 AAC 31 - 5 AAC 38

(a) in a Tanner crab registration area, or with respect to Registration Area J, in a district of Registration Area J,

(1) a person or vessel that operates commercial, subsistence, sport, or personal use pots, during the 14 days immediately before the opening of the commercial Tanner crab season may not participate in the commercial Tanner crab fishery in the Tanner crab registration area where the fishing with pots occurred, except that a person or vessel is not disqualified from the commercial Tanner crab fishery by placing the vessel's Tanner crab pots in storage, as specified in 5 AAC 35.052;

(2) a person or vessel that participates in a commercial Tanner crab fishery may not operate commercial, subsistence, sport, or personal use pots in that registration area during the 14 days after the close of the commercial Tanner crab season, except a vessel or person may operate other commercial pots in that registration area after

(A) placing the vessel's Tanner crab pots in storage, as specified in 5 AAC 35.052; and

(B) the vessel owner, or the owner's agent, contacts a representative of the department, in person, and requests that the Tanner crab registration be invalidated; unless the registration is already invalidated under 5 AAC 35.020(k).

(b) during a commercial Tanner crab fishery, a person or vessel validly registered for that fishery may not operate commercial, subsistence, sport, or personal use pots other than commercial Tanner crab pots, except that a person or vessel may stop participating in the commercial Tanner crab fishery and instead operate commercial pots other than Tanner crab pots if

(1) the vessel's Tanner crab pots are put in storage as specified in 5 AAC 35.052; and

(2) the vessel owner, or the owner's agent, contacts a representative of the department, in person, and requests that the Tanner crab registration be invalidated.

## **5 AAC 35.055. Permits for processing vessels**

The owner or operator of a vessel used in the processing of Tanner crab shall obtain a permit from the department before starting processing operations. The permit must contain the following requirements:

(1) reporting of vessel location to the department;

# COMMERCIAL TANNER CRAB FISHERY

(2) reporting of harvesting or processing operations to the department;

(3) reporting of unloading and transport operations to the department;

(4) permission for local representatives of the department to inspect at any time the vessel's holds, live tanks, freezers, processing areas, and processed and unprocessed Tanner crab; and

(5) reporting of any other information required by the department for the conservation and development of Tanner crab resources.

## **5 AAC 35.057. Postseason Tanner crab pot recovery permits**

(a) The department may issue, under the provisions of this section, a permit for the Bering Sea, Eastern Aleutian, and Western Aleutian Districts of Registration Area J to a person or vessel to recover

(1) lost Tanner crab pot gear belonging to another vessel or person; or

(2) Tanner crab pot gear for a vessel that has experienced a major mechanical breakdown.

(b) The permit issued under this section may specify

(1) requirements for a vessel area check-in and check-out procedure to be used by the vessel or person;

(2) requirements for the vessel or person to notify the department by radio, telephone, or telex at the beginning and the completion of the pot gear recovery operations;

(3) requirements for vessel tank inspections before, and at the conclusion of, the pot recovery operation at locations specified by the department;

(4) other necessary conditions as determined by the department.

(c) Before receiving a permit under this section to recover Tanner crab pot gear belonging to another vessel or person, the permit applicant must furnish to the department written authorization for the requested pot gear recovery from the owner of the lost gear or the owner or operator of the vessel experiencing a major mechanical breakdown. If the recovery permit is being issued to recover lost gear, the authorization must contain the last known location of the Tanner crab pots and specific identification markings. If the recovery permit is being issued due to a major mechanical breakdown of a vessel, the authorization must include the exact location of the Tanner crab pots and specific identification markings and a written explanation by a qualified repair facility detailing the extent of the damage and estimated time for repairs.

(d) Pot gear recovery operations under this section may only be performed during a closed season and may not be conducted by or for any vessel or person that, at the time of

# **COMMERCIAL TANNER CRAB FISHERY**

pot gear recovery operations, is registered for any pot fishery in the Bering Sea, Eastern Aleutian, and Western Aleutian Districts of Registration Area J.

(e) All crab remaining in any pot gear recovered under this section must be immediately returned to the sea without further harm.

## **5 AAC 35.060. Size limit for Tanner crab**

(a) Unless otherwise provided in this chapter, male Tanner crab of the species *Chionoecetes bairdi* five and one-half inches or greater in width of shell may be taken or possessed.

(b) Width measurement of Tanner crab shall be the greatest straight-line distance across the carapace at a right angle to a line midway between the eyes to the midpoint of the posterior portion of the carapace and shall include the spines.

## **5 AAC 35.065. Female and undersize Tanner crab**

Male Tanner crab less than minimum size and female Tanner crab may not be taken or possessed. Such Tanner crab which have been taken must be immediately returned unharmed to the sea.

## **5 AAC 35.075. Reporting of Tanner crab catches lost or not purchased**

(a) Each Tanner crab fisherman shall indicate on the fish ticket at the time of landing any Tanner crab harvested which are not purchased by the processor or buyer, or which have been dumped at sea.

(b) Each buyer of Tanner crab shall indicate on the fish ticket any Tanner crab which was not purchased from a load.

## **5 AAC 35.080. Harvest strategy**

The department shall establish an annual harvest strategy for each Tanner crab stock that is consistent with the board's Policy on King and Tanner Crab Resource Management (90-04-FB, March 23, 1990), adopted by this reference. If adequate data are available, the department shall establish a threshold level of abundance for each stock and may not allow fishing on any stock that is below its threshold level of abundance. Data used to determine guideline harvest levels and, if appropriate, exploitation rates, may include estimates of exploitable biomass, estimates of recruitment, estimates of threshold level of abundance, estimates of acceptable biological catch, historical fishery performance data, estimates of reproductive potential, and market or other economic considerations. Except for those closures authorized by 5 AAC 35.035, the department may not change established harvest strategies unless the board has reviewed the change.

## **5 AAC 35.081. Definition of "rigid" as applied to tunnel eye openings**

In this chapter, "rigid," as applied to Tanner crab pot tunnel eye openings, means that after placing 20 pounds of pressure, in any direction, anywhere around the perimeter of

the tunnel eye opening, the opening is no larger than a maximum dimension allowed under this chapter.

## **Article 5. Registration Area A (Southeastern).**

### **5 AAC 35.100. Description of Registration Area A**

Registration Area A has as its southern boundary the International Boundary at Dixon Entrance, and as its northern boundary a line extending seaward from the western tip of Cape Fairweather at 58° 47.89' N. lat., 137° 56.68' W. long., to the intersection with the seaward limit of the exclusive economic zone at 56° 07.31' N. lat., 141° 44.74' W. long.

### **5 AAC 35.105. Description of Registration Area A districts**

Registration Area A districts are described in 5 AAC 33.200.

### **5 AAC 35.106. Area A registration**

- (a) Registration Area A is a superexclusive registration area.
- (b) A Tanner crab vessel may not be registered in Registration Area A simultaneously as both a pot and ring net vessel. A vessel's registration may be changed during the open Tanner crab season if the owner, or the owner's agent, submits a written request for a change in registration to the department for validation.
- (c) In Registration Area A, the vessel registration under 5 AAC 35.020 must be completed no later than 30 days before the scheduled opening date of the commercial Tanner crab season.
- (d) Before a vessel that is registered to fish for both golden king crab and Tanner crab in Registration Area A may be used to fish for golden king crab in a portion of Registration Area A that is closed to commercial Tanner crab fishing, all Tanner crab must be removed from the vessel and the vessel owner, or the owner's agent, must have the vessel's Tanner crab registration invalidated by the department. Once the vessel's Tanner crab registration is invalidated, Tanner crab may not be retained on or sold from that vessel.
- (e) Before a vessel that is registered to fish for only golden king crab in Registration Area A may be registered to fish for Tanner crab in Registration Area A, the vessel owner, or the owner's agent, must remove all gear operated from that vessel from the waters of that portion of Registration Area A that is closed to commercial Tanner crab fishing.

### **5 AAC 35.110. Fishing season for Registration Area A**

- (a) Male Tanner crab may be taken only from 12:00 noon on the date with the smallest Juneau tidal range between February 10 and February 17, as announced by emergency order, through May 1.

## **COMMERCIAL TANNER CRAB FISHERY**

(b) A season opening may be delayed if the National Weather Service forecast for the major fishing areas in the Southeast Region contains gale force wind warnings of 35 knots and higher on the 4:00 a.m. forecast for the day preceding the start date and the following day, in which case the season opening in all sections of Registration Area A eligible for a season opening will be delayed 24 hours and announcement of this delay will be issued 24 hours before the start of the fishery. If after the initial delay gale warnings continue regionwide, the season opening in all eligible sections may be delayed an additional 24 hours. A season opening delay may continue on a rolling 24-hour basis. For the purposes of this subsection, the corresponding National Weather Service forecast areas considered within the Southeast Region are as follows:

- (1) Southern Lynn Canal;
- (2) Northern Chatham Strait;
- (3) Stephens Passage;
- (4) Frederick Sound.

### **5 AAC 35.112. Permits for tanneri and angulatus Tanner crab in Registration Area A**

(a) Male Tanner crab of the species *Chionoecetes tanneri* and *Chionoecetes angulatus* may be taken in Registration Area A only under the conditions of a permit issued by the commissioner.

(b) *C. tanneri* and *C. angulatus* Tanner crab may be taken only with pots as follows:

- (1) no more than 100 pots may be operated from a vessel;
- (2) pots may be longlined.

(c) Fishing operations are restricted to waters 200 fathoms or greater in depth.

(d) The permit required in (a) of this section

- (1) may, notwithstanding (c) of this section, restrict the depth of fishing operations;
- (2) may specify season dates; the season may be closed during periods before and after other shellfish fisheries;
- (3) may specify areas of fishing operations by district, subdistrict, or registration subareas;
- (4) may establish minimum legal size limits;
- (5) may require an onboard observer during all operations;

# COMMERCIAL TANNER CRAB FISHERY

(6) may specify the type, size, and configuration of pots; pots must include an escape mechanism designed to allow female and undersize male crab to exit the pot during fishing operations;

(7) may require mandatory completion of logbooks provided by the department and require that the logbooks be attached to the fish ticket at the time of landing; and

(8) may set other conditions deemed necessary by the commissioner for conservation and management purposes.

(e) Participants must hold a Registration Area A Tanner crab limited entry permit (either permanent or interim) and, except as provided in (f) of this section, may not have fished in any other superexclusive registration area for Tanner crab.

(f) Notwithstanding 5 AAC 35.005, participation in superexclusive *Chionoecetes bairdi* or *Chionoecetes opilio* Tanner crab fisheries does not exclude a vessel or permit holder from participation in the permit fishery under this section in any area during periods when other Tanner crab fisheries in that area are closed.

## **5 AAC 35.113. Registration Area A Tanner crab harvest strategy**

(a) In Registration Area A, the minimum stock threshold for a commercial Tanner crab fishery is 2,300,000 pounds of mature male Tanner crab, measured by one-half of the long-term average (1997 - 2007) of mature male abundance. If the estimated abundance of mature male Tanner crab is below 2,300,000 pounds, the commercial Tanner crab fishery will remain closed.

(b) The department shall manage the commercial Tanner crab fishery under a harvest strategy in which the commissioner, by emergency order, opens and closes fishing periods as follows:

(1) the initial period of the commercial Tanner crab fishing season in the core areas, noncore areas, inside exploratory areas, and outside exploratory areas will be at least five days in length, and may be increased with additional fishing days allowed based on the estimated biomass of mature male crab and the number of registered pots at the start of the fishery, as follows:

<b>Pots registered</b>	<b>Additional fishing days</b>	
	If the mature biomass is at least 2,300,000 pounds, but less than 5,500,000 pounds	If the mature biomass is 5,500,000 pounds or greater
1,600 - 2,399	4 additional days	5 additional days
2,400 - 3,199	3 additional days	4 additional days
3,200 - 3,999	2 additional days	3 additional days

# COMMERCIAL TANNER CRAB FISHERY

4,000 - 4,799	1 additional day	2 additional days
4,800 - 5,599	1 additional day	2 additional days
5,600 - 6,399	0 additional days	1 additional day
6,400 - 7,000	0 additional days	1 additional day

(2) at the end of the initial period, the core areas will close to fishing, and the noncore, inside exploratory areas, and outside exploratory areas will remain open for an additional five days; after the noncore areas close to fishing, the inside exploratory areas and outside exploratory areas will remain open for an additional fourteen days; after the inside exploratory areas close to fishing, the outside exploratory areas will remain open through March 31.

(c) For the purposes of this section,

(1) "core areas" includes the following waters in Registration Area A:

(A) Icy Strait: waters west of a line from Point Sophia to 58° 14.00' N. lat., 135° 16.00' W. long., including the waters of Port Frederick and Excursion Inlet, and waters east of Section 14-A, including the waters of Glacier Bay not closed by the National Park Service;

(B) St. James Bay: waters west of a line from Point Whidbey to 58° 33.00' N. lat., 135° 09.60' W. long.;

(C) District 15: waters east of a line from the north tip of Little Island to Point St. Mary, including Berners Bay;

(D) Section 11-A: waters of Section 11-A in Stephens Passage;

(E) Section 11-B: waters north of line from Point Arden to Circle Point and east of a line from Point Arden to Point Bishop, including all waters of Taku Inlet;

(F) Seymour Canal: waters north of 57° 37.00' N. lat.;

(G) Port Snettisham: waters east and north of a line from Point Styleman to Point Anmer;

(H) Endicott Arm and Tracy Arm: waters east of a line from Point Coke to Point Astley;

(I) Gambier Bay: waters west of a line from Point Gambier to 57° 24.90' N. lat., 133° 53.00' W. long.;

(J) Pybus Bay: waters north and west of a line from Point Pybus to the easternmost tip of San Juan Island to a point at 57° 14.60' N. lat., 134° 07.30' W. long.;

# COMMERCIAL TANNER CRAB FISHERY

(K) Section 13-C, excluding Sitkoh Bay;

(L) Keku Strait, Port Camden and associated bays: waters southeast of a line from Cornwallis Point at 56° 55.91' N. lat., 134° 16.42' W. long. to Point McCartney at 57° 01.49' N. lat., 134° 03.51' W. long. and west of a line from Point Camden at 56° 48.66' N. lat., 133° 52.79' W. long. to Salt Point Light at 56° 50.68' N. lat., 133° 52.02' W. long.;

(M) Frederick Sound: waters east of a line from Bay Point to Boulder Point including Farragut Bay, Thomas Bay, Section 8-A, and Section 8-B, and north and east of a line from Mitchell Point to Point St. John, including Kah Sheets Bay, Duncan Canal, and Wrangell Narrows;

(2) “noncore areas” includes all waters of Alaska in those portions of districts in Registration Area A that are not described in (1) and (4) of this subsection;

(3) “outside exploratory areas” includes all waters of Registration Area A in the exclusive economic zone;

(4) “inside exploratory areas” includes all waters of Registration Area A within Districts 1, 2, 3, and 4 as described in 5 AAC 33.200.

## **5 AAC 35.116. Tanner crab ring net harvest management policy for Registration Area A**

The Registration Area A Tanner crab fishery is to be regulated in a manner that will result in no less than 96 percent of the Tanner crab catch being taken by the pot fishery and no more than four percent by the ring net fishery. This is a long-term management goal and does not require the department to use emergency order authority to achieve the goal within any one season. Based upon the percent of the total harvest taken by ring net fishermen during the general fishing season, the department may restrict the time allowed in the subsequent year's general season to restrain the harvest by ring net fishermen so as not to exceed the four percent guidelines.

## **5 AAC 35.120. BCS control measures**

(a) The department shall manage Tanner crab stocks in Registration Area A to minimize the spread, and to reduce the incidence, of bitter crab syndrome (BCS). The department shall identify areas of significant infection by BCS, in which the following restrictions apply:

(1) a person shall contact a local representative of the department before fishing for Tanner crab in an area of significant infection by BCS and shall contact a local representative of the department before leaving the area; all fishing vessels shall deliver all Tanner crab harvested in an area of significant infection by BCS to a tender or processor, and may not discard the crab overboard;

# **COMMERCIAL TANNER CRAB FISHERY**

(2) an operator of a tender vessel shall contact a local representative of the department before operating in an area of significant infection by BCS; an operator of a tender vessel that takes crab on board in such an area

(A) shall transport all Tanner crab harvested in the BCS area directly to a processing facility;

(B) may not accept Tanner crab from fishing vessels after leaving the area;

(C) shall hold Tanner crab infected with BCS in containers that do not contain circulating sea water.

(b) By emergency order, the department may open the commercial Tanner crab season after October 1 in areas of significant infection by BCS.

## **5 AAC 35.125. Lawful gear for Registration Area A**

(a) Tanner crab may be taken only with Tanner crab pots or ring nets. Tanner crab taken by other means must be returned to the water without further harm.

(b) The following Tanner crab gear limits are in effect in Registration Area A:

(1) no more than 80 Tanner crab pots may be operated from a vessel registered to fish for Tanner crab;

(2) no more than 20 Tanner crab ring nets may be operated from a vessel registered to fish for Tanner crab;

(3) when the commercial golden king crab and Tanner crab seasons are open in Registration Area A at the same time, an aggregate of no more than 80 king and Tanner crab pots may be operated from a vessel registered to fish for both king and Tanner crab;

(4) when the commercial red king crab and Tanner crab seasons are open in Registration Area A at the same time, no more than the number of pots allowed under 5 AAC 34.125 may be operated from a vessel registered to fish for both king and Tanner crab;

(5) Tanner crab ring nets may not be longlined.

(c) In Registration Area A, a Tanner crab ring net is a bag-shaped net suspended between no more than two frames. The bottom frame may not be larger in perimeter than the top frame and the maximum diameter of the ring net may not exceed six feet for a round ring net. For a ring net with a frame that is not round, the area encompassed by the larger frame may not exceed 29 square feet. The ring net web must be nonrigid and collapsible, and must lay flat so that when fishing it does not prohibit free movement of fish or shellfish across the net.

## **COMMERCIAL TANNER CRAB FISHERY**

(d) In Registration Area A, a registered Tanner crab vessel may not have, at any time in the aggregate, more than the legal limit of gear on board the vessel, in the water in fishing condition, and in the water in nonfishing condition.

(e) Repealed 9/27/2009.

(f) In Registration Area A, pots used to take Tanner crab must be rigged to permit escapement of undersize Tanner crab as follows:

(1) at least one-third of one vertical surface of a square pot, or sloping surface of a conical or pyramid pot, must be composed of not less than seven-inch stretched mesh webbing, placed on the bottom one-third of the vertical or sloping sidewall surface of the pot; or

(2) no less than four circular escape rings of four and three-quarters inch minimum inside diameter must be installed on the vertical plane of a square pot, or the sloping sidewall surface of a conical or pyramid pot; the lowest edge of each escape ring must be within eight inches of the top of the bottom web bar on the pot; one escape ring must be installed in each quadrant of the pot.

### **5 AAC 35.126. Tanner crab gear marking requirements for Registration Area A**

(a) In addition to the requirements of 5 AAC 35.051, in Registration Area A, in locations where a Tanner crab pot limit is in effect, each Tanner crab pot must have one identification tag issued by the department placed on the main buoy or on the trailer buoy if more than one buoy is attached to the pot.

(b) Identification tags are issued before each fishing season, are uniquely numbered for each registration year, and will be issued to the CFEC permit holder at the time of vessel registration. The permit holder, or the permit holder's agent, shall apply for identification tags at a department office designated to issue the tags. Replacement of tags lost during the season is permitted if the permit holder and at least one crewmember submit sworn statements or affidavits, in person, at a department office in Registration Area A, describing how the tags were lost and listing the numbers of the lost tags.

(c) Each Tanner crab ring net must have an identification tag, as specified in (a) of this section.

(d) If multiple CFEC permit holders are registered to fish from a vessel simultaneously for the Tanner crab and golden king crab fisheries, the tags are issued to the vessel for the duration of the fishing seasons.

### **5 AAC 35.127. Tanner crab gear storage requirements for Registration Area A**

(a) Rectangular Tanner crab pots with all bait and bait containers removed and all doors secured fully open, and cone or pyramid Tanner crab pots with all bait and bait containers removed and all doors not secured closed, may be stored in the water only

# **COMMERCIAL TANNER CRAB FISHERY**

(1) for seven days following the season closure for Tanner crab in Registration Area A;

(2) for five days following the season closure for Tanner crab in any portion of Registration Area A;

(3) during the 10 days before the opening of the commercial king and Tanner crab seasons in Registration Area A only under the following conditions:

(A) a pot may not be stored in waters deeper than 10 fathoms at mean low tide; and

(B) buoys must be attached to stored pots and must be marked as specified in 5 AAC 35.051, except that a stack of stored Tanner crab pots or ring nets may be marked with a single buoy.

(b) Ring nets with all bait and bait containers removed may be stored in the water as specified in (a) of this section.

## **5 AAC 35.128. Operation of other gear in Registration Area A**

(a) A person or vessel that operates commercial, subsistence, sport, or personal use pots or ring nets, other than commercial shrimp pots or Dungeness crab pots, during the 30 days immediately before the scheduled opening date of the commercial Tanner crab season in Registration Area A may not participate in that Tanner crab fishery.

(b) Notwithstanding 5 AAC 31.053(d), 5 AAC 32.053(d), and 5 AAC 35.053(2), a person or vessel may operate commercial shrimp pots or Dungeness crab pots during an open Tanner crab season in Registration Area A if the commercial shrimp or Dungeness crab season is open in Registration Area A at the same time as the commercial Tanner crab season.

(c) Notwithstanding 5 AAC 35.053(1), during the 14 days after the close of the commercial Tanner crab season in Registration Area A, a person or vessel that participated in a commercial Tanner crab fishery may operate commercial, subsistence, sport, or personal use pots in Tanner crab Registration Area A after putting Tanner crab pots in storage, as specified in 5 AAC 35.052, and, unless the registration is already invalidated under 5 AAC 35.020(k), after invalidating the vessel's Tanner crab registration by contacting, in person, a local representative of the department.

## **5 AAC 35.130. Logbooks**

(a) In Registration Area A, an operator of a vessel registered to fish using pot gear in the commercial Tanner crab fishery shall complete logbooks provided by the department.

(b) Logbooks described in (a) of this section shall be

(1) updated daily;

(2) sealed in envelopes provided by the department to maintain confidentiality; and

# **COMMERCIAL TANNER CRAB FISHERY**

(3) submitted to the primary processor or buyer for attachment to the fish ticket; the processor or buyer shall forward fish tickets with the attached, sealed envelopes containing logbooks to the department in accordance with 5 AAC 39.130.

(c) A catcher-seller described in 5 AAC 39.130 shall attach logbooks described in this section to the department copy of fish tickets.

(d) A person may not make a false entry in the logbook required in (a) of this section.

## **5 AAC 35.140. Registration Area A inspection points**

Registration Area A inspection points are located at Ketchikan, Wrangell, Petersburg, and Juneau or at other locations specified by the department.

## **5 AAC 35.143. Reporting requirements for Tanner crab in Registration Area A**

In addition to the reporting requirements in 5 AAC 39.130 and 5 AAC 35.075, the commissioner may require an owner or operator of a vessel registered to fish in the commercial Tanner crab fishery in Registration Area A to report to a local representative of the department the following information:

(1) the number of legal male Tanner crab on board the vessel and the number of pot lifts conducted during the fishing period in any fishing area, district, or portion of a district; and

(2) any other information that the commissioner determines is necessary for the conservation and management of the resource; the board directs the commissioner to consult with the fishing industry in developing reporting requirements under this paragraph.

## **5 AAC 35.155. Registration Area A closures**

Within 24 hours following closure of Registration Area A to the taking of Tanner crab, all vessels with Tanner crab on board must arrive at a processing facility and remain until offloading of crab is complete, unless the vessel is otherwise in compliance with 5 AAC 35.031(c).

## **Article 6. Registration Area D (Yakutat).**

### **5 AAC 35.160. Description of Registration Area D**

Registration Area D has as its western boundary the longitude of Cape Suckling (144° W. long.), and as its southern boundary a line extending seaward from the western tip of Cape Fairweather at 58° 47.89' N. lat., 137° 56.68' W. long. to the intersection with the seaward limit of the exclusive economic zone at 56° 07.31' N. lat., 141° 44.74' W. long.

### **5 AAC 35.165. Description of Registration Area D districts**

# **COMMERCIAL TANNER CRAB FISHERY**

Registration Area D districts are described in 5 AAC 30.200.

## **5 AAC 35.166. Area D registration**

(a) Registration Area D is a nonexclusive registration area.

(b) A Tanner crab vessel may not be registered in Registration Area D simultaneously as both a pot and ring net vessel. A vessel's registration may be changed during the open Tanner crab season if the vessel owner, or the owner's agent, submits a written request for a change in registration to the department for validation.

## **5 AAC 35.170. Fishing season for Registration Area D**

Male Tanner crab may be taken only from 12:00 noon January 15 through May 1.

## **5 AAC 35.171. Permits for tanneri and angulatus Tanner crab in Area D**

(a) Male Tanner crab of the species *Chionoecetes tanneri* and *Chionoecetes angulatus* may be taken in Registration Area D only under the conditions of a permit issued by the commissioner.

(b) *C. tanneri* and *C. angulatus* Tanner crab may be taken only with pots as follows:

(1) no more than 100 pots may be operated from a vessel;

(2) pots may be longlined.

(c) Fishing operations are restricted to waters 200 fathoms or greater in depth.

(d) The permit required in (a) of this section

(1) may, notwithstanding (c) of this section, restrict the depths of fishing operations;

(2) may specify season dates; the season may be closed during periods before and after other shellfish fisheries;

(3) may specify areas of fishing operations by district, subdistrict, or registration subareas;

(4) may establish minimum legal size limits;

(5) may require an onboard observer during all operations;

(6) may specify the type, size, and configuration of pots; pots must include an escape mechanism designed to allow female and undersize male crab to exit the pot during fishing operations;

(7) may require mandatory completion of logbooks provided by the department and require that the logbooks be attached to the fish ticket at the time of landing; and

# COMMERCIAL TANNER CRAB FISHERY

(8) may set other conditions deemed necessary by the commissioner for conservation and management purposes.

(e) Participation in superexclusive Tanner crab fisheries does not exclude a vessel or permit holder from participation in this permit fishery in any area during periods when other Tanner crab fisheries in that area closed.

## **5 AAC 35.175. Maximum harvest level for Registration Area D**

The maximum annual allowable harvest for Tanner crab is 1,000,000 pounds.

## **5 AAC 35.180. Lawful gear for Registration Area D**

(a) Tanner crab may be taken only with Tanner crab pots and ring nets. Tanner crab taken by other means must be returned to the water without further harm.

(b) The following Tanner crab gear limits are in effect in Registration Area D:

(1) no more than 40 Tanner crab pots may be operated from a vessel registered to fish for Tanner crab with pot gear;

(2) no more than 40 Tanner crab ring nets may be operated from a vessel registered to fish for Tanner crab with ring net gear;

(3) when both the commercial king and Tanner crab seasons are open in Registration Area D at the same time, an aggregate of no more than 40 king or Tanner crab pots may be operated from a vessel registered to fish for both king and Tanner crab;

(4) Tanner crab may not be taken with pots that have tunnel eye openings located on the vertical plane of the pot;

(5) Tanner crab ring nets may not be longlined.

(c) In Registration Area D, a Tanner crab ring net is a bag-shaped net suspended between no more than two frames. The bottom frame may not be larger in perimeter than the top frame and the maximum diameter of the ring net may not exceed six feet for a round ring net. For a ring net with a frame that is not round, the area encompassed by the larger frame may not exceed 29 square feet. The ring net web must be nonrigid and collapsible, and must lay flat so that when fishing it does not prohibit free movement of fish or shellfish across the net.

(d) In Registration Area D, a pot used to take Tanner crab must be rigged to permit escapement of undersize Tanner crab as follows:

(1) at least one third of one vertical surface of a square pot, or sloping surface of a conical or pyramid pot, must be composed of not less than seven-inch stretched mesh webbing, placed on the bottom one-third of the vertical or sloping sidewall surface of the pot; or

(2) no less than four circular escape rings of four and three-quarters inch minimum inside diameter must be installed on the vertical plane of a square pot, or the sloping sidewall surface of a conical or pyramid pot; the lowest edge of each escape ring must be within eight inches of the top of the bottom web bar on the pot; one ring must be installed in each quadrant of the pot.

## **5 AAC 35.181. Tanner crab gear marking requirements for Registration Area D**

(a) In addition to the requirements of 5 AAC 35.051, in Registration Area D, in locations where a Tanner crab pot limit is in effect, each Tanner crab pot must have one identification tag issued by the department placed on the main buoy or on the trailer buoy if more than one buoy is attached to the pot.

(b) Identification tags are issued before each fishing season, are uniquely numbered for each registration year, and will be issued at the time of vessel registration for that vessel only. The vessel owner, or the owner's agent, shall apply for identification tags at a department office designated to issue the tags. Replacement of tags lost during the season is permitted if the vessel operator and at least one crewmember submit sworn statements or affidavits, in person at the department office that issued the tags, describing how the tags were lost and listing the numbers of the lost tags. Tags shall be renewed annually before each fishing season.

(c) Each Tanner crab ring net must have an identification tag, as specified in (a) of this section.

## **5 AAC 35.182. Tanner crab gear storage requirements for Registration Area D**

(a) Rectangular Tanner crab pots with all bait and bait containers removed and all doors secured fully open, and cone or pyramid Tanner crab pots with all bait and bait containers removed and all doors not secured closed, may be stored in the water only for

(1) seven days following the season closure for Tanner crab in Registration Area D;

(2) 72 hours following the season closure for Tanner crab in any portion of Registration Area D.

(b) Ring nets with all bait and bait containers removed may be stored in the water as specified in (a) of this section.

## **5 AAC 35.183. Operation of other gear in Registration Area D**

(a) A person or vessel that operates commercial, subsistence, sport, or personal use pots or ring nets, other than commercial shrimp pots or Dungeness crab pots, during the 14 days immediately before the scheduled opening date of the commercial Tanner crab season in Registration Area D may not participate in that Tanner crab fishery.

(b) Notwithstanding 5 AAC 31.053(d), 5 AAC 32.053(d), and 5 AAC 35.053(2), a person or vessel may operate commercial shrimp pots or Dungeness crab pots during an

# **COMMERCIAL TANNER CRAB FISHERY**

open Tanner crab season in Registration Area D if the commercial shrimp or Dungeness crab season is open in Registration Area D at the same time as the commercial Tanner crab season.

## **5 AAC 35.185. Registration Area D inspection points**

Registration Area D inspection points are located at Yakutat or at other locations specified by the department.

## **5 AAC 35.190. Logbooks**

(a) In Registration Area D, during a Tanner crab season, an operator of a vessel registered to fish using pot gear in the commercial Tanner crab fishery shall complete logbooks provided by the department.

(b) Logbooks described in (a) of this section shall be

(1) updated daily;

(2) sealed in envelopes provided by the department to maintain confidentiality; and

(3) submitted to the primary processor or buyer for attachment to the fish ticket; the processor or buyer shall forward fish tickets with the attached, sealed envelopes containing logbooks to the department in accordance with 5 AAC 39.130.

(c) A catcher-seller described in 5 AAC 39.130 shall attach logbooks described in this section to the department copy of fish tickets.

(d) A person may not make a false entry in the logbook required in (a) of this section.

## **5 AAC 35.193. Reporting requirements for Tanner crab in Registration Area D**

In addition to the reporting requirements in 5 AAC 35.075, 5 AAC 35.190, and 5 AAC 39.130, the commissioner may require an owner or operator of a vessel registered to fish in the commercial Tanner crab fishery in Registration Area D to report to a local representative of the department the following information:

(1) the number of legal male Tanner crab on board the vessel and the number of pot lifts conducted during the fishing period in any fishing area, district, or portion of a district; and

(2) any other information that the commissioner determines is necessary for the conservation and management of the resource; the board directs the commissioner to consult with the fishing industry in developing reporting requirements under this paragraph.

## **Article 7. Registration Area E (Prince William Sound).**

### **5 AAC 35.300. Description of Registration Area E**

# **COMMERCIAL TANNER CRAB FISHERY**

Registration Area E has as its western boundary a line running along the longitude of Cape Fairfield at 148° 50.25' W. long., south to the latitude of Cape Douglas at 58° 51.10' N. lat., then west to 149° W. long., then south along 149° W. long., and as its eastern boundary the longitude of Cape Suckling at 144° W. long.

## **5 AAC 35.305. Description of Registration Area E districts.**

(a) Northeastern District: all waters north of a line at 60° 30' N. lat., from a point on Hawkins Island at 146° 19.50' W. long., west to 147° 40' W. long., and east of 147° 40' W. long., and south of 60° 48.50' N. lat., and including waters south of a line from the southeastern point of Bligh Island at 60° 48.80' N. lat., 146° 43.30' W. long., to Bidarka Point at 60° 49.14' N. lat., 146° 38.45' W. long., and waters west of Salmo Point at 145° 45.70' W. long., north of Hawkins Island.

(b) Central District: all waters north of a line from the west side of Montague Island to the east side of Latouche Island at 60° N. lat., and east of a line from Point Grace at the northernmost tip of Latouche Island at 60° 04.80' N. lat., 147° 51' W. long., to Point Helen at the southernmost tip of Knight Island at 60° 09.30' N. lat., 147° 46' W. long., and including waters on the east side of Knight Island, and south of a line at 60° 30' N. lat., from Knight Island at 147° 42' W. long., to Hawkins Island at 146° 19.50' W. long., and west of a line from that point on Hawkins Island to a point on Hinchinbrook Island at 60° 28.80' N. lat., and 146° 23' W. long., and north of a line at 60° 20.60' N. lat., from Bear Cape on Hinchinbrook Island to Middle Point on Montague Island.

(c) Southwestern District: all waters east of a line from Cape Fairfield at 148° 50.25' W. long., south to the latitude of Cape Douglas at 58° 51.10' N. lat., then west to 149° W. long., then south along 149° W. long., and west of a line drawn south from Cape Cleare at 147° 54' W. long., and those waters southwest of a line running from Point Countess at 60° 12.90' N. lat., 148° 05.30' W. long., to Bainbridge Point at 60° 12' N. lat., 148° 03' W. long., to Evans Point at 60° 07.90' N. lat., 147° 54.80' W. long., and to Point Grace at 60° 04.80' N. lat., 147° 51' W. long., and including those waters south of the Central District at 60° N. lat.

(d) Southeastern District: all waters west of the longitude of Cape Suckling at 144° W. long., south of the Northeastern and Central districts, and east of the Southwestern District.

(e) Northwestern District: all waters north and west of the Northeastern, Central, and Southwestern Districts.

## **5 AAC 35.306. Area E registration**

(a) Registration Area E is an exclusive registration area.

(b) A Tanner crab vessel must be registered under 5 AAC 35.020 no later than 15 days before the scheduled opening date of the commercial Tanner crab season.

## **5 AAC 35.308. Registration Area E Tanner crab harvest strategy.**

## COMMERCIAL TANNER CRAB FISHERY

(a) In the Prince William Sound Area an estimate of the abundance of mature male Tanner crab ( $T_M$ ) for each district will be used to establish a guideline harvest level (GHL) for legal size male Tanner crab ( $T_L$ ), if the current estimated abundance of  $T_M$  is above the minimum stock threshold for opening a fishery, as follows:

(1) the commercial fishery may open in the Northeastern District only if  $T_M$  is greater than or equal to 217,800 crab; the GHL will be determined as follows:

(A) the GHL for  $T_L$  may not exceed 10 percent of the estimated abundance of  $T_M$  if  $T_M$  abundance is greater than or equal to 217,800 but less than 326,700 crab;

(B) the GHL for  $T_L$  may not exceed 15 percent of the estimated abundance of  $T_M$  if  $T_M$  abundance is greater than or equal to 326,700 but less than 435,700 crab;

(C) the GHL for  $T_L$  may not exceed 20 percent of the estimated abundance of  $T_M$  if  $T_M$  abundance is greater than or equal to 435,700 crab;

(D) the GHL for  $T_L$  may not exceed 20 percent of  $T_L$  abundance;

(E) the GHL for  $T_L$  may be reduced, or the commercial fishery closed, if the estimated commercial harvest would cause the estimated abundance of  $T_M$  to fall below the minimum threshold;

(2) the commercial fishery may open in the Central District only if the current estimated abundance of  $T_M$  is greater than or equal to 246,700 crab; the GHL will be determined as follows:

(A) the GHL for  $T_L$  may not exceed 10 percent of the estimated abundance of  $T_M$  if  $T_M$  abundance is greater than or equal to 246,700 but less than 370,100 crab;

(B) the GHL for  $T_L$  may not exceed 15 percent of the estimated abundance of  $T_M$  if  $T_M$  abundance is greater than or equal to 370,100 but less than 493,500 crab;

(C) the GHL for  $T_L$  may not exceed 20 percent of the estimated abundance of  $T_M$  if  $T_M$  abundance is greater than or equal to 493,500 crab;

(D) the GHL for  $T_L$  may not exceed 20 percent of  $T_L$  abundance;

(E) the GHL for  $T_L$  may be reduced, or the commercial fishery closed, if the estimated commercial harvest would cause the estimated abundance of  $T_M$  to fall below the minimum threshold;

(3) the commercial fishery may open in the Southwestern District only if the current estimated abundance of  $T_M$  is greater than or equal to 327,000 crab; the GHL will be determined as follows:

(A) the GHL for  $T_L$  may not exceed 10 percent of the estimated abundance of  $T_M$  if  $T_M$  abundance is greater than or equal to 327,000 but less than 490,400 crab;

# COMMERCIAL TANNER CRAB FISHERY

(B) the GHL for  $T_L$  may not exceed 15 percent of the estimated abundance of  $T_M$  if  $T_M$  abundance is greater than or equal to 490,400 but less than 653,900 crab;

(C) the GHL for  $T_L$  may not exceed 20 percent of the estimated abundance of  $T_M$  if  $T_M$  is greater than or equal to 653,900 crab;

(D) the GHL for  $T_L$  may not exceed 20 percent of  $T_L$  abundance;

(E) the GHL for  $T_L$  may be reduced or the commercial fishery closed, if the estimated commercial harvest would cause the estimated abundance of  $T_M$  to fall below the minimum threshold;

(4) in the Northwestern and Southeastern Districts, if there is adequate data available, the department shall determine if there is a harvestable surplus of Tanner crab for the Northwestern and Southeastern Districts, and either district may open.

(b) In implementing this harvest strategy, the board directs the department to use the best scientific information available and to consider the reliability of estimates of Tanner crab *C. bairdi*, the manageability of the fishery, and any other factors the department determines necessary to be consistent with the sustained yield principle.

(c) For the purposes of this section:

(1) “ $T_M$ ” means male Tanner crab that are 4.4 inches (113 mm) or greater in carapace width, that is the size of mature male Tanner crab in the Prince William Sound Area;

(2) “ $T_L$ ” means male Tanner crab that are 5.0 inches (127 mm) or greater in carapace width, that is the legal size of Tanner crab allowed to be retained for harvest in the Prince William Sound Area;

(3) “GHL” means guideline harvest level.

(d) If a commercial fishery opens under this section in any district, a sport fishery will open in the same district as provided in 5 AAC 55.022(b)(3).

## **5 AAC 35.310. Fishing seasons for Registration Area E**

(a) In Registration Area E, male Tanner crab may be taken only from January 15 until April 15, during periods established by emergency order.

(b) If the opening day National Weather Service forecast for the following 48 hours for Prince William Sound, as defined by the National Weather Service as PKZ125, contains a gale warning, the season opening in all districts shall be delayed 24 hours. If after the initial weather delay, the 4:00 a.m. National Weather Service forecast for the current day and night or the following day and night again contains a gale warning, the season opening in all districts shall be delayed an additional 24 hours. The season opening delays may continue for seven days, after which time the season shall be opened regardless of any gale warning in the National Weather Service forecasts.

# COMMERCIAL TANNER CRAB FISHERY

## **5 AAC 35.311. Commissioner's permits for Tanner crab in Registration Area E**

(a) In the Eastern and Western Districts, male Tanner crab, five inches or greater in carapace width, may be taken only under the conditions of a permit issued by the commissioner.

(b) Only pot gear may be used and no more than 50 Tanner crab pots may be operated from a vessel.

(c) The permit required in this section

(1) may specify season dates;

(2) may specify areas of fishing operations by district or by geographic location;

(3) may require an onboard observer during all operations;

(4) shall require mandatory completion of log sheets provided by the department; log sheets described in this section must

(A) include the date, the specific location of harvest by latitude and longitude, the number of pots fished, the average depth of each pot fished, and the time gear is deployed and removed from the water of each set;

(B) include for the target and each bycatch species the number of fish retained and discarded;

(C) be updated within 24 hours after midnight local time on the day of operation;

(D) be made available to a local representative of the department upon request;

(E) be submitted with the corresponding fish ticket at the time of landing;

(5) may set other conditions the commissioner determines are necessary for conservation and management purposes.

(d) A person may not make a false entry in the log sheets described in this section.

(e) Registration Area E is a superexclusive registration area for Tanner crab; an operator of a Tanner crab vessel validly registered for a superexclusive registration area may not operate any other Tanner crab vessel registered for any other superexclusive registration area in the same registration year as established under 5 AAC 35.020(h).

## **5 AAC 35.312. Closed waters in Registration Area E. The following waters are closed to the taking of Tanner crab:**

(1) Port Valdez: north of 61° 01.00' N. lat.;

(2) Galena Bay: east of a line from 60° 57.63' N. lat., 146° 45.17' W. long., to 60° 58.41' N. lat., 146° 43.34' W. long.;

# **COMMERCIAL TANNER CRAB FISHERY**

(3) Port Fidalgo: north of a line from Porcupine Point at 60° 44.62' N. lat., 146° 42.08' W. long., to Bidarka Point at 60° 49.14' N. lat., 146° 38.45' W. long.;

(4) Port Gravina: north of a line from Gravina Point at 60° 37.37' N. lat., 146° 15.22' W. long., to Red Head at 60° 40.25' N. lat., 146° 30.22' W. long.

## **5 AAC 35.320. Size limits for Registration Area E**

Only male Tanner crab five inches or greater in width of shell may be taken or possessed.

## **5 AAC 35.325. Lawful gear for Registration Area E**

(a) Tanner crab may be taken only with Tanner crab pots as specified in 5 AAC 35.050. Tanner crab taken by other means must be returned to the water without further harm.

(b) Repealed 7/22/2017.

(c) Each Tanner crab pot must have no less than four escape rings of no less than four and three-quarters inches (121 mm) inside diameter installed on the vertical plane to permit escapement of undersize Tanner crab.

(d) The number of Tanner crab pots that may be operated from a vessel will be established by emergency order before the opening of each commercial Tanner crab season, not to exceed 30 Tanner crab pots per vessel. In determining the annual pot limit, the department will consider the

(1) total number of registered vessels;

(2) estimated catch per unit effort; and

(3) the guideline harvest level.

(e) Repealed 9/29/96.

(f) Repealed 9/29/96.

(g) Tanner crab pots may be deployed or removed from the water only from 8:00 a.m. to 6:00 p.m. The commissioner may, by emergency order, increase the time that pots may be deployed or removed from the water.

## **5 AAC 35.326. Tanner crab pot marking requirements for Registration Area E**

(a) In addition to the requirements of 5 AAC 35.051, in Registration Area E, in locations where a Tanner crab pot limit is in effect, each Tanner crab pot must have one identification tag issued by the department placed on the main buoy or on the trailer buoy if more than one buoy is attached to the pot.

# **COMMERCIAL TANNER CRAB FISHERY**

(b) Identification tags are issued before each fishing season, are uniquely numbered for each registration year, and will be issued at the time of vessel registration for that vessel only. The vessel owner, or the owner's agent, shall apply for identification tags at a department office designated to issue the tags. Replacement of tags lost during the season is permitted if the vessel operator submits a sworn statement or affidavit to the department office that issued the tags, describing how the tags were lost and listing the numbers of the lost tags. Tags shall be renewed annually before each fishing season.

## **5 AAC 35.327. Tanner crab pot storage for Registration Area E**

(a) Cone or pyramid Tanner crab pots with all bait and bait containers removed and all doors not secured closed, and rectangular Tanner crab pots with all bait and bait containers removed and all doors secured fully open, may be stored in the water only from 30 days before the scheduled opening date of the commercial Tanner crab season in Registration Area E until 30 days after the closure of that season.

(b) The Tanner crab pot storage provisions in 5 AAC 35.052(a)(2)(A) apply to the Eastern and Western Districts of Registration Area E.

## **5 AAC 35.328. Operation of other gear in Registration Area E**

A person or vessel that operates subsistence, sport, or personal use pots during the 30 days immediately before the scheduled opening date of the commercial Tanner crab season in Registration Area E may not participate in that commercial Tanner crab fishery.

## **5 AAC 35.340. Registration Area E inspection points**

Repealed.

## **5 AAC 35.345. Inspection requirements for Registration Area E**

The commissioner may, by emergency order, require that vessels fishing for Tanner crab in Registration Area E be inspected within 24 hours before the scheduled opening date of the commercial Tanner crab season in Registration Area E or at any time during the open season by a local representative of the department at an inspection point specified by the department.

## **5 AAC 35.350. Log sheet requirements for Registration Area E**

(a) An operator of a vessel registered for the commercial Tanner crab fishery shall complete log sheets provided by the department.

(b) Log sheets described in this section shall be

(1) updated daily; and

(2) submitted to the primary processor or buyer after each trip with the corresponding fish ticket; the processor or buyer shall submit the fish ticket and corresponding log sheets to the department in accordance with 5 AAC 39.130.

# **COMMERCIAL TANNER CRAB FISHERY**

(c) A catcher-seller described in 5 AAC 39.130 shall submit log sheets described in this section to the department with the corresponding fish ticket.

(d) A person may not make a false entry in log sheets required in this section.

## **5 AAC 35.358. Reporting requirements for Registration Area E**

An owner or operator of a vessel registered to fish in the commercial Tanner crab fishery must report each day to the department as specified on registration:

(1) the number of pot lifts;

(2) the number of crab retained for the 24-hour fishing period preceding the report; and

(3) any other information that the commissioner determines is necessary for the conservation and management of the fishery.

## **Article 8. Registration Area H (Cook Inlet).**

### **5 AAC 35.400. Description of Registration Area H**

Registration Area H has as its eastern boundary the longitude of Cape Fairfield (148° 50.25' W. long.) and as its southern boundary the latitude of Cape Douglas (58° 51.10' N. lat.).

### **5 AAC 35.405. Description of Registration Area H districts**

Registration Area H districts are described in 5 AAC 21.200.

### **5 AAC 35.406. Area H registration**

(a) Registration Area H is a superexclusive registration area.

(b) In Registration Area H, for the Tanner crab fishery, the vessel registration deadline for the registration year is 5:00 p.m. January 10.

### **5 AAC 35.408. Registration Area H Tanner crab harvest strategy**

(a) The provisions of this section establish abundance thresholds for the Tanner crab fisheries in the Southern, Kamishak, and Barren Island Districts of Cook Inlet.

(b) In the Southern District, the minimum stock threshold for the commercial fishery is 1,000,000 legal male Tanner crab. If the commercial fishery has been closed for three or more consecutive years, then the estimated abundance of legal male Tanner crab from the Kachemak Bay trawl survey must be greater than or equal to 1,000,000 crab for two or more years before the commercial fishery may reopen. The commercial Tanner crab fishery will open only under the following conditions:

# COMMERCIAL TANNER CRAB FISHERY

(1) if the estimated abundance level of legal male Tanner crab is 2,000,000 crab or greater, the commercial fishery will open to harvest Tanner crab at a rate, in combination with the noncommercial fisheries, not to exceed 25 percent of the estimated abundance level of legal male Tanner crab;

(2) if the estimated abundance level of legal male Tanner crab is 1,000,000, but less than 2,000,000 crab, the commercial Tanner crab fishery will open to harvest Tanner crab at a rate, in combination with the noncommercial fisheries, not to exceed 15 percent of the estimated abundance level of legal male Tanner crab;

(3) the commercial fishery may not open if

(A) the estimated abundance level of legal male Tanner crab is below 1,000,000 crab;

(B) attainment of the guideline harvest level would cause legal male Tanner crab abundance to fall below 1,000,000 crab; or

(C) the estimated harvest capacity, calculated by the number of registered vessels multiplied by the legal pot limit, and the estimated catch rate exceeds the guideline harvest level during a commercial fishery of a minimum 12-hour duration;

(4) repealed 9/12/2008;

(5) repealed 9/12/2008.

(c) In the Kamishak and Barren Islands Districts, combined, the minimum stock threshold for the commercial fishery is 4,000,000 legal male Tanner crab. If the commercial fishery has been closed for three or more consecutive years, then the estimated abundance of legal male Tanner crab from the Kamishak Bay trawl survey must be greater than or equal to 1,000,000 crab for two or more years before the commercial fishery may reopen. The commercial fishery will open only under the following conditions:

(1) if the estimated abundance level of legal male Tanner crab is 8,000,000 crab or greater, Tanner crab may be harvested at a rate, in combination with the noncommercial fisheries, not to exceed 25 percent of the estimated abundance level of legal male Tanner crab;

(2) if the abundance level of legal male Tanner crab is at least 4,000,000, but less than 8,000,000 crab, Tanner crab may be harvested at a rate, in combination with the noncommercial fisheries, not to exceed 15 percent of the estimated abundance level of legal male Tanner crab;

(3) the commercial fishery may not open if

(A) the estimated abundance level of legal male Tanner crab is below 4,000,000 crab;

# **COMMERCIAL TANNER CRAB FISHERY**

(B) the attainment of the guideline harvest level would cause the abundance of legal male Tanner crab to fall below 4,000,000 crab; or

(C) the estimated harvest capacity, calculated as the number of registered vessels multiplied by the legal pot limit and estimated catch rates, exceeds the guideline harvest level for a fishery of a minimum 24-hour duration.

(d) The noncommercial Tanner crab fisheries in the Cook Inlet Area will be managed as provided in 5 AAC 58.022(11)(A) and 5 AAC 02.325(a) when the most recent consecutive three-year average of legal male stock abundance estimated from the Kachemak Bay trawl survey is greater than or equal to 200,000 crab and the annual estimate for the most recent year is at least 100,000 crab. The harvest rate is not expected to exceed approximately 10 percent of legal male Tanner crab abundance managed under this section.

(e) The noncommercial Tanner crab fisheries in the Cook Inlet Area will be managed as provided in 5 AAC 58.022(11)(B) and 5 AAC 02.325(b) in the absence of a trawl survey or if the most recent consecutive three-year average of legal male stock abundance estimated from the Kachemak Bay trawl survey is less than 200,000 crab or the annual estimate for the most recent year is below 100,000 crab. The harvest rate is not expected to exceed approximately 10 percent of legal male Tanner crab abundance managed under this section.

## **5 AAC 35.410. Fishing seasons for Registration Area H**

(a) In the Southern District, male Tanner crab may be taken only during periods established by emergency order within the period of January 15 through March 31. The orders must be based on weather factors that affect crab mortality, such as forecasted wind speed and air temperature.

(b) In all other districts, male Tanner crab may be taken only from 12:00 noon January 15 through March 31.

(c) Notwithstanding (b) of this section, the commercial harvest of Tanner crab in the Outer, Eastern, and Central Districts is closed until the Tanner crab stocks have recovered and a harvest strategy for those districts is developed by the department and adopted in a regulation by the Board of Fisheries.

## **5 AAC 35.420. Size limits for Registration Area H**

Only male Tanner crab four and one-half inches or greater in width of shell may be taken or possessed.

## **5 AAC 35.425. Lawful gear for Registration Area H**

(a) Tanner crab may be taken only with Tanner crab pots and ring nets. Tanner crab taken by other means must be returned to the water without further harm.

## **COMMERCIAL TANNER CRAB FISHERY**

(b) Each Tanner crab pot must have no less than four escape rings of no less than four and three-quarters inches inside diameter installed on the vertical plane to permit escapement of undersize Tanner crab.

(c) During a commercial Tanner crab season in Registration Area H, an aggregate of no more than 75 king and Tanner crab pots may be operated from a vessel registered to fish Tanner crab, except that in the Southern District,

(1) an aggregate of no more than 40 pots may be operated from a vessel if the guideline harvest level for Tanner crab in the Southern District is greater than 400,000 pounds, but not more than 800,000 pounds;

(2) an aggregate of no more than 20 pots may be operated from a vessel if the guideline harvest level for Tanner crab is less than 400,000 pounds.

### **5 AAC 35.426. Tanner crab gear marking requirements for Registration Area H**

(a) In addition to the requirements of 5 AAC 35.051, in Registration Area H, in locations where a Tanner crab pot limit is in effect, each Tanner crab pot must have one identification tag issued by the department placed on the main buoy or on the trailer buoy if more than one buoy is attached to the pot.

(b) Identification tags are issued before each fishing season, are uniquely numbered for each registration year, and will be issued at the time of vessel registration for that vessel only. The vessel owner, or the owner's agent, shall apply for identification tags at a department office designated to issue the tags. Replacement of tags lost during the season is permitted if the vessel operator submits a sworn statement or affidavit to the department office that issued the tags, describing how the tags were lost and listing the numbers of the lost tags. Tags shall be renewed annually before each fishing season.

### **5 AAC 35.427. Tanner crab pot storage for Registration Area H**

(a) Rectangular Tanner crab pots with all bait and bait containers removed and with all doors secured fully open, and cone or pyramid Tanner crab pots with all bait and bait containers removed and all doors not secured closed, may be stored in the Kamishak District and in those waters of the Southern District west of a line from Coal Point to 60 Foot Rock to Anisom Point only in waters of not more than 15 fathoms deep. In all remaining waters of the Southern District, rectangular Tanner crab pots with all bait and bait containers removed and all doors secured fully open, and cone or pyramid Tanner crab pots with all bait and bait containers removed and all doors not secured closed, may be stored only in waters of not more than 10 fathoms deep.

(b) Cone or pyramid pots with all bait and bait containers removed and all doors not secured closed may be stored in the water only from 30 days before the scheduled opening date of the commercial Tanner crab season in Registration Area H until 30 days after the closure of that season.

### **5 AAC 35.428. Operation of other gear in Registration Area H**

# **COMMERCIAL TANNER CRAB FISHERY**

A person or vessel that operates commercial, subsistence, sport, or personal use pots or ring nets, other than shrimp pots or Dungeness crab pots, during the 14 days immediately before the scheduled opening date of the commercial Tanner crab season in Registration Area H may not participate in that Tanner crab fishery, except that in the Southern District, a person or vessel operating groundfish pots during the 14 days before the scheduled opening date of the commercial Tanner crab season in Registration Area H may participate in that fishery after the groundfish pot gear is removed from the water.

## **5 AAC 35.440. Registration Area H inspection points**

Registration Area H initial inspection points are located at Homer, Seldovia, and Seward. Reinspection points are located at Homer, Seldovia, Seward, and Kodiak or at other locations specified by the department.

## **5 AAC 35.445. Inspection requirements for Registration Area H**

Within 24 hours before the scheduled opening date of the commercial Tanner crab season in Registration Area H or at any time during the open season, a Tanner crab vessel registered for Registration Area H must have all holds, live tanks, and freezers inspected by a local representative of the department at an inspection point specified in 5 AAC 35.440. Tanner crab may not be on board the vessel at the time of inspection. The requirements of this section do not apply to a registered Tanner crab vessel that does not have a saltwater circulation system in its holds or live tanks.

## **Article 10. Registration Area J (Westward).**

### **5 AAC 35.500. Description of Registration Area J**

Registration Area J includes all Pacific Ocean waters south of the latitude of Cape Douglas (58° 51.10' N. lat.), and west of 149° W. long., and all Bering Sea and Pacific Ocean waters east of the Maritime Boundary Agreement Line as that line is described in the text of and depicted in the annex to the Maritime Boundary Agreement between the United States and the Union of Soviet Socialist Republics signed in Washington, June 1, 1990, and as that Maritime Boundary Agreement Line is depicted on NOAA Chart #513 (7th Edition, June, 2004) and NOAA Chart #514 (7th Edition, January, 2004), adopted by reference.

### **5 AAC 35.505. Description of Registration Area J districts**

(a) Kodiak District: all Pacific Ocean waters south of the latitude of Cape Douglas (58° 51.10' N. lat.), west of 149° W. long., and east of a line extending south from Cape Kumlik along 157° 27.00' W. long.

(1) Northeast Section: all waters of the Kodiak District northeast of a line extending from Cape Chiniak at 57° 37.20' N. lat., 152° 09.37' W. long. to a point offshore at 55° 07.17' N. lat., 149° 00.00' W. long., east of a line between Inner Point and Afognak Point along 152° 47.75' W. long., east of 152° 30.00' W. long. in Shuyak Strait, and east of a line extending north from Shuyak Island along 152° 20.00' W. long.;

## **COMMERCIAL TANNER CRAB FISHERY**

(2) Eastside Section: all waters of the Kodiak District southwest of a line extending from Cape Chiniak at 57° 37.20' N. lat., 152° 09.37' W. long. to a point offshore at 55° 07.17' N. lat., 149° 00.00' W. long., northeast of a line extending from Cape Barnabas at 57° 09.07' N. lat., 152° 52.20' W. long. to a point offshore at 53° 26.20' N. lat., 151° 29.10' W. long., and east of 153° 16.00' W. long. in Sitkalidak Strait;

(3) Southeast Section: all waters of the Kodiak District southwest of a line extending from Cape Barnabas at 57° 09.07' N. lat., 152° 52.20' W. long. to a point offshore at 53° 26.20' N. lat., 151° 29.10' W. long., east of 156° 20.22' W. long., south of a line extending from Cape Trinity at 56° 44.80' N. lat., 154° 08.90' W. long. to a point offshore at 55° 23.23' N. lat., 156° 20.22' W. long., and west of 153° 16.00' W. long. in Sitkalidak Strait;

(4) Southwest Section: all waters of the Kodiak District west of a line extending from Cape Trinity at 56° 44.80' N. lat., 154° 08.90' W. long., to a point offshore at 55° 23.23' N. lat., 156° 20.22' W. long., east of 156° 20.22' W. long., and south of a line from Cape Ikolik at 57° 17.40' N. lat., 154° 47.40' W. long. to a point offshore at 57° 14.00' N. lat., 155° 32.10' W. long., continuing to a point offshore at 57° 00.00' N. lat., 156° 00.00' W. long., continuing to a point offshore at 56° 49.89' N. lat., 156° 20.22' W. long., including all of Alitak Bay and Olga Bay;

(5) Semidi Island Overlap Section: all waters of the Kodiak District west of a line extending south from the Alaska Peninsula, near Kilokak Rocks, along 156° 20.22' W. long., and east of a line extending south from Cape Kumlik along 157° 27.00' W. long.;

(6) Westside Section: all waters of the Kodiak District north of a line from Cape Ikolik at 57° 17.40' N. lat., 154° 47.40' W. long., continuing to a point offshore at 57° 14.00' N. lat., 155° 32.10' W. long., east of a line from a point offshore at 57° 14.00' N. lat., 155° 32.10' W. long., continuing to a point offshore at 57° 30.00' N. lat., 155° 00.00' W. long., continuing to a point offshore at 58° 00.00' N. lat., 154° 00.00' W. long., continuing to a point offshore at 58° 51.10' N. lat., 152° 45.00' W. long., west of a line between Inner Point and Afognak Point along 152° 47.75' W. long., west of 152° 30.00' W. long. in Shuyak Strait, and west of a line extending north from Shuyak Island along 152° 20.00' W. long.;

(7) North Mainland Section: all waters of the Kodiak District enclosed by a line from Cape Douglas at 58° 51.10' N. lat., 153° 15.09' W. long. to a point offshore at 58° 51.10' N. lat., 152° 45.00' W. long., continuing to a point offshore at 58° 00.00' N. lat., 154° 00.00' W. long., continuing to the Alaska Peninsula at 58° 00.00' N. lat., 154° 47.68' W. long.;

(8) South Mainland Section: all waters of the Kodiak District enclosed by a line from the Alaska Peninsula at 58° 00.00' N. lat., 154° 47.68' W. long. to a point offshore at 58° 00.00' N. lat., 154° 00.00' W. long., continuing to a point offshore at 57° 30.00' N. lat., 155° 00.00' W. long., continuing to a point offshore at 57° 14.00' N. lat., 155° 32.10' W. long., continuing to a point offshore at 57° 00.00' N. lat., 156° 00.00' W. long., continuing to a point offshore at 56° 49.89' N. lat., 156° 20.22' W. long., continuing to the Alaska Peninsula, near Kilokak Rocks, at 57° 10.34' N. lat., 156° 20.22' W. long.

## **COMMERCIAL TANNER CRAB FISHERY**

(b) South Peninsula District: all Pacific Ocean waters west of a line from Kupreanof Point at 55° 33.98' N. lat., 159° 35.88' W. long., to Castle Rock at 55° 16.80' N. lat., 159° 29.11' W. long. and extending to a point offshore at 54° 6.07' N. lat., 157° 27.00' W. long., and east of a line extending south from Scotch Cap Light along 164° 44.72' W. long.

(1) Eastern Section: all waters east of 162° W. long.;

(2) Western Section: all waters west of 162° W. long.

(c) Eastern Aleutian District: all waters between the longitude of Scotch Cap Light (165° 56.25' W. long.) and 172° W. long., and south of 54° 36' N. lat.;

(1) Akutan Section: all waters of Alaska west of the longitude of Akun Head (165° 37.58' W. long.) and east of the longitude of North Head (165° 56.25' W. long.) and north of a line from 54° 07.63' N. lat., 165° 39.88' W. long., to 54° 08.36' N. lat., 165° 38.36' W. long.;

(2) Unalaska/Kalekta Bay Section: all waters of Alaska west of the longitude of Erskine Point (166° 16.30' W. long.) and east of the longitude of Cape Cheerful (166° 40.33' W. long.);

(3) Makushin/Skan Bay Section: all waters of Alaska south of the latitude of Cape Kovrizhka (53° 50.67' N. lat.) and north of the latitude of Spray Cape (53° 36.83' N. lat.);

(4) General Section: all remaining waters of the Eastern Aleutian District not described in (1) - (3) of this subsection.

(d) Western Aleutian District: all waters west of 172° W. long., and south of 54° 36' N. lat.

(e) Bering Sea District: all Bering Sea waters north of 54° 36' N. lat.

(1) Eastern Subdistrict: all waters of the Bering Sea District east of 173° W. long., including the waters of Bristol Bay;

(A) Norton Sound Section: all waters of the Eastern Subdistrict east of 168° W. long. and north of the latitude of Cape Romanzof;

(B) General Section: all waters of the Eastern Subdistrict not included in the Norton Sound Section;

(2) Western Subdistrict: all waters of the Bering Sea District west of 173° W. long.

(f) Chignik District: all Pacific Ocean waters east of a line from Kupreanof Point at 55° 33.98' N. lat., 159° 35.88' W. long., to Castle Rock at 55° 16.80' N. lat., 159° 29.11' W. long., and extending to a point offshore at 54° 6.07' N. lat., 157° 27.00' W. long., and west of a line extending south from Cape Kumlik along 157° 27.00' W. long.

# COMMERCIAL TANNER CRAB FISHERY

## **5 AAC 35.506. Area J registration**

(a) Registration Area J is a nonexclusive registration area, except the Kodiak and Chignik Districts are superexclusive registration districts.

(b) Notwithstanding (c) and (g) of this section, a Chignik Tanner crab permit holder may register a vessel to take Tanner crab in the Semidi Island Overlap Section of the Kodiak District, as specified in 5 AAC 35.507.

(c) A Tanner crab vessel may not be registered to take Tanner crab in more than one district of Registration Area J at a time.

(d) A Tanner crab vessel from which pots having identification tags required by 5 AAC 35.526 are fished may not be, at the same time, validly registered to fish any other fishery with pot gear.

(e) For the Chignik, Eastern Aleutian, Western Aleutian, and Bering Sea Districts, the registration deadlines for the registration year are as follows:

(1) for the Bering Sea District *C. opilio* Tanner crab fishery, the preseason registration deadline is 5:00 p.m. September 24;

(2) for the Bering Sea District, *C. bairdi* Tanner crab fishery, the preseason registration deadline is 5:00 p.m. September 24;

(3) repealed 8/14/2005;

(4) for the Eastern Aleutian District *C. bairdi* Tanner crab fishery, the preseason registration deadline is 5:00 p.m. December 24;

(5) for the Western Aleutian District *C. bairdi* Tanner crab fishery, the registration deadline is 5:00 p.m. October 10;

(6) for the Chignik District *C. bairdi* Tanner crab fishery, if the guideline harvest level exceeds 2,000,000 pounds, the registration deadline is 5:00 p.m. December 24.

(f) Before a vessel may be registered under this section, the vessel operator must obtain a CFEC interim-use permit for Tanner crab that references the vessel's ADF&G license number and file a registration form with the department, except that a vessel operator is not required to obtain a CFEC interim-use permit before filing a preseason registration form for the Bering Sea Tanner or snow crab fisheries. The registration form must identify the vessel and vessel operator and must be received in person, or by mail, electronic mail, or facsimile, at the department office in Dutch Harbor or Kodiak by the applicable deadline specified in (e) of this section.

(g) A vessel that is registered for the Tanner crab fishery in the Kodiak District may not be registered for the Tanner crab fishery in the Chignik or South Peninsula Districts during that registration year.

## COMMERCIAL TANNER CRAB FISHERY

(h) The operator of a vessel registered to take Tanner crab in any district or section of Registration Area J must comply with any check-in and check-out procedures for sections specified by the department in an Area J registration certificate issued under 5 AAC 35.020.

(i) In the Bering Sea District, a vessel operator may harvest *C. bairdi* Tanner crab as follows:

(1) in a directed *C. bairdi* Tanner crab fishery or as incidental harvest while the vessel operator is registered for the *C. opilio* Tanner crab fishery; a vessel operator that is registered to fish for *C. opilio* Tanner crab in the Bering Sea District may retain *C. bairdi* Tanner crab in an amount not to exceed five percent of the weight of the *C. opilio* Tanner crab on board the vessel and reported on an ADF&G fish ticket;

(2) east of 166° W. long. as incidental harvest while the vessel operator is registered for the Bristol Bay red king crab fishery; a vessel operator that is registered to fish for Bristol Bay red king crab may also retain *C. bairdi* Tanner crab in an amount not to exceed five percent of the weight of Bristol Bay red king crab on board the vessel and reported on an ADF&G fish ticket;

(3) repealed 7/22/2017;

(4) a vessel operator may not be concurrently registered to harvest *C. bairdi* Tanner crab in waters both east and west of 166° W. long.

(j) In the Bering Sea District, a vessel operator that is registered to fish for *C. bairdi* Tanner crab may also retain *C. opilio* Tanner crab in an amount not to exceed thirty-five percent of the weight of *C. bairdi* Tanner crab on board the vessel and reported on an ADF&G fish ticket.

(k) A Tanner crab vessel registration must be validated in person or by facsimile transmission, at an inspection point specified in 5 AAC 35.540, in the

(1) Chignik and South Peninsula Districts, not earlier than 24 hours before the scheduled opening date of the commercial Tanner crab season;

(2) Kodiak District, not earlier than 26 hours before the scheduled opening date of the commercial Tanner crab season.

**5 AAC 35.507. Kodiak, Chignik, and South Peninsula Districts *C. bairdi* Tanner crab harvest strategies.** (a) In the Kodiak, Chignik, and South Peninsula Districts, a commercial *C. bairdi* Tanner crab fishery may open only if analysis of preseason survey data indicates that the subject population

(1) in the Chignik District or a section of the South Peninsula District is sufficient to provide a guideline harvest level of 200,000 pounds or more as calculated under (c) of this section; or

# COMMERCIAL TANNER CRAB FISHERY

(2) in a section of the Kodiak District is sufficient to provide a guideline harvest level of 100,000 pounds or more as calculated under (c) of this section.

(b) Notwithstanding (a) of this section, a commercial *C. bairdi* Tanner crab fishery may open

(1) in the South Mainland Section if at least two adjacent sections are open and will close when both of the adjacent sections are closed;

(2) in the Semidi Island Overlap Section subject to the following conditions:

(A) when either the Southwest Section of the Kodiak District or the Chignik District is opened;

(B) the owner or the owner's agent of a vessel registers with the department before fishing in the Semidi Island Overlap Section and is not simultaneously registered to fish in other sections of the Kodiak District or the Chignik District;

(C) the pot limit is 70 pots per vessel;

(D) a vessel operator provides daily reports to the department verbally or in writing of the vessel's catch, catch locations, and effort, or maintains logbooks that include the vessel's catch, catch location, and effort; and

(E) the commissioner may close, by emergency order, the Semidi Island Overlap Section based on fishery performance.

(c) In the Kodiak, Chignik, and South Peninsula Districts, the department shall establish separate *C. bairdi* Tanner crab guideline harvest levels, as described in (1) or (2) of this subsection. In the Kodiak, Chignik, and South Peninsula Districts, and under the restrictions of (d) of this section, the maximum exploitation rate on legal male abundance ( $EXP_{ELM}$ ) shall be established as follows:

(1) in an area where the long-term trend in mature male abundance (MMA) is increasing, the maximum exploitation rate on legal male abundance ( $EXP_{ELM}$ ) in all districts or sections will be established by an analysis of preseason survey mature female abundance (MFA) data as follows:

(A) if MFA is less than 40 percent of  $MFA_{(1988-2021)}$ ,  $EXP_{ELM}$  will be 0.05;

(B) if MFA is at least 40 percent but not greater than 100 percent of  $MFA_{(1988-2021)}$ ,  $EXP_{ELM}$  will be computed as  $((MFA/MFA_{(1988-2021)} - 0.4)/0.6) \times 0.15 + 0.05$ , with slope  $m$  and intercept  $b$ ;

(i) the  $EXP_{ELM}$  slope " $m$ " is computed as  $(((((MFA/MFA_{(1988-2021)} - 0.4)/0.6) \times 0.15) + 0.05) - 0.05)/0.5$ ;

(ii) the  $EXP_{ELM}$  intercept " $b$ " is computed as  $0.05 - (m \times 0.5)$ ;

# COMMERCIAL TANNER CRAB FISHERY

(C) if MFA is greater than 100 percent of  $MFA_{(1988-2021)}$ ,  $EXP_{ELM}$  will be 0.20, and

(i) if MMA is less than 50 percent of  $MMA_{(1988-2021)}$ , the fishery will not open;

(ii) if MMA is at least 50 percent but not greater than 100 percent of  $MMA_{(1988-2021)}$ , the guideline harvest level of legal males will be computed as  $((m \times MMA/MMA_{(1988-2021)}) + b) \times ELM$ ;

(iii) if MMA is greater than 100 percent of  $MMA_{(1988-2021)}$ , the guideline harvest level of legal males will be 20 percent of ELM;

(2) in an area where the long-term trend in mature male abundance (MMA) is stable or decreasing, the maximum exploitation rate on legal male abundance ( $EXP_{ELM}$ ) in all districts or sections will be established by an analysis of preseason survey mature female abundance (MFA) data as follows:

(A) if MFA is less than 40 percent of  $MFA_{(1988-2021)}$ ,  $EXP_{ELM}$  will be 0.05;

(B) if MFA is at least 40 percent but not greater than 100 percent of  $MFA_{(1988-2021)}$ ,  $EXP_{ELM}$  will be computed as  $((MFA/MFA_{(1988-2021)} - 0.4)/0.6) \times 0.15 + 0.05$ , with slope  $m$  and intercept  $b$ , and

(i) the  $EXP_{ELM}$  slope “ $m$ ” is computed as  $(((((MFA/MFA_{(1988-2021)} - 0.4)/0.6) \times 0.15) + 0.05) - 0.05)/0.5$ ;

(ii) the  $EXP_{ELM}$  intercept “ $b$ ” is computed as  $0.05 - (m \times 1)$ ;

(C) if MFA is greater than 100 percent of  $MFA_{(1988-2021)}$ ,  $EXP_{ELM}$  will be 0.20, and

(i) if MMA is less than 100 percent of  $MMA_{(1988-2021)}$ , the fishery will not open;

(ii) if MMA is at least 100 percent but not greater than 150 percent of  $MMA_{(1988-2021)}$ , the guideline harvest level of legal males will be computed as  $((m \times MMA/MMA_{(1988-2021)}) + b) \times ELM$ ;

(iii) if MMA is greater than 150 percent of  $MMA_{(1988-2021)}$ , the guideline harvest level of legal males will be 20 percent of ELM.

(d) Notwithstanding (a) – (c) of this section, in implementing these harvest strategies, the department shall

(1) consider the reliability of the estimates of *C. bairdi* Tanner crab, the manageability of the fishery, and other factors the department determines necessary to be consistent with sustained yield principles; and

(2) use the best scientific information available and consider all sources of uncertainty as necessary to avoid overfishing.

# COMMERCIAL TANNER CRAB FISHERY

(e) In this section,

(1) “EXP<sub>ELM</sub>” means the maximum exploitation rate on legal male *C. bairdi* Tanner crab abundance as determined in (c) of this section;

(2) “MFA” means the abundance of mature female *C. bairdi* Tanner crab in the entire surveyed portion of the district or section estimated at the time of the preseason survey;

(3) “MFA<sub>(1988–2021)</sub>” means the mean value of the abundance of mature female *C. bairdi* Tanner crab in the entire surveyed portion of the district or section estimated at the time of the preseason survey for the period 1988–2021;

(4) “MMA” means the abundance of male *C. bairdi* Tanner crab in the entire surveyed portion of the district or section that are more than 114 mm carapace width estimated at the time of the preseason survey;

(5) “MMA<sub>(1988–2021)</sub>” means the mean value of the abundance of male *C. bairdi* Tanner crab in the entire surveyed portion of the district or section that are more than 114 mm carapace width estimated at the time of the preseason survey for the period 1988–2021; and

(6) “ELM” means 100 percent of the soft-shell, new-shell, and old-shell male *C. bairdi* Tanner crab abundance in the entire surveyed portion of the district or section that are at least 140 mm (five and one-half inches) carapace width, including lateral spines, estimated at the time of the preseason survey.

## 5 AAC 35.508. Bering Sea District *C. bairdi* Tanner crab harvest strategy

(a) In the Bering Sea District, the department shall establish a separate *C. bairdi* Tanner crab total allowable catch level for that portion of the Bering Sea District that is east of 166° W. long., and for that portion that is west of 166° W. long., as described in (b) and (c) of this section. The maximum exploitation on mature male biomass (EXPMMB) in both areas will be established by an analysis of preseason survey mature female biomass (MFB) data as follows:

(1) if MFB is less than 25 percent of MFB(1982-2018), EXPMMB will be 0.05;

(2) if MFB is at least 25 percent but not greater than 100 percent of MFB(1982-2018), EXPMMB will be computed as  $((\text{MFB}/\text{MFB}(1982-2018) - 0.25)/0.75) \times 0.15) + 0.05$ , with slope *m* and intercept *b*;

(A) the EXPMMB slope '*m*' is computed as  $(((((\text{MFB}/\text{MFB}(1982-2018) - 0.25)/0.75) \times 0.15) + 0.05) - 0.05)/0.75$ ;

(B) the EXPMMB intercept '*b*' is computed as  $0.05 - (m \times 0.25)$ ;

(3) if MFB is greater than 100 percent of MFB(1982-2018), EXPMMB will be 0.20.

## COMMERCIAL TANNER CRAB FISHERY

(b) In that portion of the Bering Sea District that is east of 166° W. long., and under the restrictions of (d) of this section, the total allowable catch level shall be established as follows:

(1) if BE is less than 25 percent of BE,(1982-2018), the fishery will not open;

(2) if BE is at least 25 percent but not greater than 100 percent of BE,(1982-2018), the total allowable catch will be  $((m \times BE^{\circ}E,(1982-2018)) + b) \times BE$  or 50 percent of ELME, whichever is less;

(3) if BE is greater than 100 percent of BE,(1982-2018), the total allowable catch will be computed as EXPMMB  $\times$  BE or 50 percent of ELME, whichever is less.

(c) In that portion of the Bering Sea District that is west of 166° W. long., and under the restrictions of (d) of this section, the total allowable catch level shall be established as follows:

(1) if BW is less than 25 percent of BW,(1982-2018), the fishery will not open;

(2) if BW is at least 25 percent but not greater than 100 percent of BW,(1982-2018), the total allowable catch will be computed as  $((m \times BW^{\circ}W,(1982-2018)) + b) \times BW$  or 50 percent of ELMW, whichever is less;

(3) if BW is greater than 100 percent of BW,(1982-2018), the total allowable catch will be computed as EXPMMB  $\times$  BW or 50 percent of ELMW, whichever is less.

(d) Notwithstanding (a) - (c) of this section, in implementing this harvest strategy, the department shall consider the reliability of the estimates of *C. bairdi* Tanner crab, the manageability of the fishery, and other factors the department determines necessary to be consistent with sustained yield principles, and use the best scientific information available and consider all sources of uncertainty as necessary to avoid overfishing.

(e) In this section,

(1) "EXPMMB" means the maximum exploitation rate on mature male *C. bairdi* Tanner crab biomass as determined in (a) of this section;

(2) "MFB" means the biomass of mature female *C. bairdi* Tanner crab in the entire surveyed portion of the Bering Sea estimated for the time of the preseason survey;

(3) "MFB(1982-2018)" means the mean value of the biomass of mature female *C. bairdi* Tanner crab in the entire surveyed portion of the Bering Sea estimated at the time of the preseason survey for the period 1982-2018;

(4) "BE" means the biomass of male *C. bairdi* Tanner crab in the portion of the Bering Sea District that is east of 166° W. long. that are more than 112 mm carapace width estimated at the time of the preseason survey;

## COMMERCIAL TANNER CRAB FISHERY

(5) "BE,(1982-2018)" means the mean value of the biomass of male *C. bairdi* Tanner crab in the portion of the Bering Sea District that is east of 166° W. long. that are more than 112 mm carapace width estimated at the time of the preseason survey for the period 1982-2018;

(6) "ELME" means 100 percent of the new-shell male *C. bairdi* Tanner crab in the portion of the Bering Sea District that is east of 166° W. long. that are at least 127 mm (five inches) carapace width, including lateral spines, plus a percentage of old-shell male *C. bairdi* Tanner crab that are at least 127 mm carapace width estimated at the time of the preseason survey; the percentage of old-shell male *C. bairdi* Tanner crab will be based on the expected fishery selectivity for old-shell versus new-shell male *C. bairdi* Tanner crab;

(7) "BW" means the biomass of male *C. bairdi* Tanner crab in the portion of the Bering Sea District that is west of 166° W. long. that are more than 102 mm carapace width estimated at the time of the preseason survey;

(8) "BW,(1982-2018)" means the mean value of the biomass of male *C. bairdi* Tanner crab in the portion of the Bering Sea District that is west of 166° W. long. that are more than 102 mm carapace width estimated for the time of the preseason survey for the period 1982-2018;

(9) "ELMW" means 100 percent of the new-shell male *C. bairdi* Tanner crab in the portion of the Bering Sea District that is west of 166° W. long. that are at least 127 mm (five inches) or greater carapace width, including lateral spines, plus a percentage of old-shell male *C. bairdi* Tanner crab that are at least 127 mm CW estimated at the time of the preseason survey; the percentage of old-shell male *C. bairdi* Tanner crab will be based on the expected fishery selectivity for old-shell versus new-shell male *C. bairdi* Tanner crab.

### **5 AAC 35.509. Eastern and Western Aleutian District Tanner crab harvest strategy.**

(a) In the Eastern Aleutian District, a commercial Tanner crab fishery shall be managed by the department in accordance with 5 AAC 35.080 and may open only if

(1) analysis of preseason survey data indicates that the estimated population at the time of the survey is at or above 50 percent of the long-term average of mature male abundance; and

(2) the fishery is in a section of the Eastern Aleutian District that is sufficient to provide a guideline harvest level (GHL) of 10,000 pounds or more, or, for a fishery in the Unalaska Bay Section, sufficient to provide a guideline harvest level (GHL) of 15,000 pounds or more, as calculated under (d) of this section.

(b) The threshold levels of mature male abundance, in numbers of crab, for the Akutan Bay, Unalaska/Kalekta Bay and Makushin/Skan Bay Sections of the Eastern Aleutian District are calculated as one - half of the average of the annual survey estimated abundance of mature male Tanner crab in each section for the period 1990-2019.

(c) In the Eastern Aleutian District, the

## **COMMERCIAL TANNER CRAB FISHERY**

(1) vessel operator must register with the department before fishing in any of the sections and may not be simultaneously registered to fish in more than one section at a time;

(2) commissioner may close, by emergency order, any section based on fishery performance;

(3) commissioner may announce, by emergency order area closures in Unalaska Bay to reduce the impact of commercial fisheries on subsistence fisheries.

(d) If the commercial Tanner crab fishery in the Eastern Aleutian District is opened under (a) of this section, the GHL will be calculated as follows:

(1) if the current mature male abundance estimate is between 50 and 100 percent of the long – term average, the guideline harvest level will be no more than five percent of the mature male abundance and no more than 10 percent of the legal size male abundance, whichever is less;

(2) if the current mature male abundance estimate is above 100 percent of the long – term average, the guideline harvest level will be no more than 10 percent of the mature male abundance and no more than 15 percent of the legal size male abundance, whichever is less.

(e) In implementing the harvest strategy under this section, the board understands that the department will consider the reliability of the estimates of abundance of Tanner crab, the manageability of the fishery, and other factors deemed necessary to be consistent with sustained yield principles and to use the best scientific information available.

(f) Nothing in this section prohibits the department from opening a commercial fishery for Tanner crab in the General Section of the Eastern Aleutian District under the conditions of a permit issued by the commissioner. The permit required in this section may

(1) specify season dates to consider the timing of mating and molting;

(2) specify areas of fishing operations by district or geographic location to distribute effort;

(3) specify the amount and configuration of pots as needed to minimize bycatch and evaluate fishery performance;

(4) specify harvest limits to prevent localized depletion;

(5) require a department representative to be onboard during fishing operations to collect biological or fishery dependent information needed for stock assessment;

(6) require completion of logbooks provided by the department that include the date, the specific location of harvest by latitude and longitude, the number of pots fished, the average depth of each pot fished, the time that gear is deployed and removed from the

# COMMERCIAL TANNER CRAB FISHERY

water of each set, and the number of crab retained and discarded for the target and each bycatch species; a person may not make a false entry in a logbook required under this section.

(g) Repealed 9/25/2022.

(h) For the purposes of this section,

(1) “average of the annual survey estimated abundance of mature male Tanner crab” means the average of the semi – annual trawl survey estimated abundance of mature male Tanner crab for the period 1990 – 2019;

(2) "mature male abundance" means the survey estimated abundance of all male Tanner crab greater than 114 millimeters in carapace width.

(i) In the Western Aleutian District, male Tanner crab five and one-half inches carapace width or greater may be taken only under the conditions of a permit issued by the commissioner.

(j) The permit required in (i) of this section, may

(1) specify season dates to consider the timing of mating and molting;

(2) specify areas of fishing operations by district or geographic location to distribute effort;

(3) specify the amount and configuration of pots as needed to minimize bycatch and evaluate fishery performance;

(4) specify harvest limits to prevent localized depletion;

(5) require a department representative to be onboard during fishing operations to collect biological or fishery dependent information needed for stock assessment;

(6) require completion of logbooks provided by the department that include the date, the specific location of harvest by latitude and longitude, the number of pots fished, the average depth of each pot fished, the time gear is deployed and removed from the water of each set, and the number of crab retained and discarded for the target and each bycatch species; a person may not make a false entry in the logbook required in this section.

## **5 AAC 35.510. Fishing seasons for Registration Area J**

(a) In the Kodiak District,

(1) in the Northeast, Eastside, Southeast, Southwest, Westside, North Mainland, and South Mainland Sections, pots may be operated to take Tanner crab only from 8:00 a.m. to 5:59 p.m., with a soak time of 14 hours from 6:00 p.m. to 7:59 a.m., from 12:00 noon January 15 until 12:00 noon March 31;

## **COMMERCIAL TANNER CRAB FISHERY**

(2) the season opening shall be delayed for 24 hours if the January 14, 4:00 a.m. National Weather Service forecast for any section of the Kodiak District, except in the Semidi Island Overlap and Southwest Sections, contains a gale warning, in which case the season opening in all sections of the Kodiak District eligible for a season opening will be delayed 24 hours; if after the initial weather delay, the 4:00 a.m. National Weather Service forecast again contains a gale warning, the season opening in all sections will be delayed an additional 24 hours; the season opening delays may continue on a rolling 24-hour basis until 12:00 noon on January 25, when the season will open regardless of any gale warning in the National Weather Service forecasts; for the purposes of this paragraph, the corresponding National Weather Service forecast areas for the sections of the Kodiak District are as follows:

- (A) Northeast Section: PKZ132;
- (B) Eastside Section: PKZ132;
- (C) Southeast Section: PKZ132;
- (D) Westside Section: PKZ138;
- (E) North Mainland Section: PKZ138;

(3) based on the department's assessment of effort, manageability, and harvest rate, the commissioner may, by emergency order, increase the daily fishing period in the sections specified in this subsection, when the effort in the district declines and a substantial amount of the guideline harvest level remains to be taken.

(4) in the Semidi Island Overlap Section, pots may be operated to take Tanner crab from 12:00 noon January 15 until 12:00 noon February 28.

(b) In the Chignik District,

(1) when the guideline harvest level is 200,000 pounds or more, pots may be operated to take Tanner crab only from 8:00 a.m. to 5:59 p.m., with a soak time of 14 hours from 6:00 p.m. to 7:59 a.m., from 12:00 noon January 15 through 12:00 noon March 31;

(2) the season opening shall be delayed for 24 hours if the January 14, 4:00 a.m. National Weather Service marine forecast contains a gale warning; if after the initial weather delay, the 4:00 a.m. National Weather Service marine forecast again contains a gale warning, the season opening will be delayed an additional 24 hours; the season opening delays may continue on a rolling 24-hour basis until 12:00 noon on January 25, when the season will open regardless of the National Weather Service marine forecasts; for the purposes of this paragraph, the corresponding National Weather Service marine forecast area for the Chignik District PKZ155.

(c) In the South Peninsula District,

## COMMERCIAL TANNER CRAB FISHERY

(1) when the guideline harvest level is 200,000 pounds or more, pots may be operated to take Tanner crab only from 8:00 a.m. to 5:59 p.m., with a soak time of 14 hours from 6:00 p.m. to 7:59 a.m., from 12:00 noon January 15 through 12:00 noon March 31;

(2) the season opening shall be delayed for 24 hours if the January 14, 4:00 a.m. National Weather Service marine forecast contains a gale warning; if after the initial weather delay, the 4:00 a.m. National Weather Service marine forecast again contains a gale warning, the season opening will be delayed an additional 24 hours; the season opening delays may continue on a rolling 24-hour basis until 12:00 noon on January 25, when the season will open regardless of the National Weather Service marine forecasts; for the purposes of this paragraph, the corresponding National Weather Service marine forecast area for the South Peninsula District is PKZ155.

(d) In the Eastern Aleutian District, pots may be operated to take Tanner crab only from 8:00 a.m. to 5:59 p.m., with a soak time of 14 hours, from 6:00 p.m. to 7:59 a.m., from 12:00 noon January 15 until 12:00 noon March 31, unless closed earlier by emergency order.

(e) In the Western Aleutian District, pots may be operated to take Tanner crab only during a season opened by emergency order from 12:00 noon November 1 through 12:00 noon March 31.

(f) In the Bering Sea District, Tanner crab fishing seasons are as follows:

(1) male *C. bairdi* Tanner crab may be taken from 12:00 noon October 15 until 11:59 p.m. March 31;

(2) in waters west of 165° W. long., male *C. opilio* Tanner crab may be taken from

(A) 12:00 noon October 15 through 11:59 p.m. May 15 in the Eastern Subdistrict;  
and

(B) 12:00 noon October 15 through 11:59 p.m. May 31 in the Western Subdistrict;

(3) male hybrid Tanner crab may be taken during the open seasons specified in (1) and (2) of this subsection, under the identification criteria specified in 5 AAC 35.521(c);

(4) Tanner crab may not be taken or possessed in the Norton Sound Section of the Eastern Subdistrict.

(g) For the purposes of this section, "soak time" means the period of time that Tanner crab pot gear is submerged in the water in fishing condition and not being operated.

**5 AAC 35.511. Permits for *tanneri* and *angulatus* Tanner crab in Registration Area J**

## **COMMERCIAL TANNER CRAB FISHERY**

(a) Male Tanner crab of the species *Chionoecetes tanneri* and *Chionoecetes angulatus* may be taken in Registration Area J only under the conditions of a permit issued by the commissioner.

(b) *C. tanneri* and *C. angulatus* Tanner crab may be taken only with pots as follows:

(1) in the Kodiak, Chignik, and South Peninsula Districts of Area J,

(A) pots may be longlined;

(B) no more than 150 large pots or 300 small pots may be operated from a vessel, except that in the Kodiak District no more than 75 large pots or 150 small pots may be operated from a vessel;

(C) for purposes of this paragraph, a small pot is a pot that is no more than 20 feet in perimeter and no more than 42 inches high, and a large pot is a pot that is more than 20 feet in perimeter and no more than 42 inches high;

(2) in that portion of Registration Area J not described in (1) of this subsection, pots may be longlined only in areas where the longlining of pots is permitted for golden king crab.

(c) Fishing operations are restricted to waters 200 fathoms or greater in depth, unless the fishery for golden king crab in that location is closed and an alternate depth is specified in the permit.

(d) The permit required in (a) of this section

(1) may, notwithstanding (c) of this section, restrict the depth of fishing operations;

(2) may specify season dates; the season may be closed during periods before and after other shellfish fisheries;

(3) may specify areas of fishing operations by registration area or by district;

(4) may establish minimum legal size limits;

(5) may require an onboard observer during all operations;

(6) may require a logbook report of operations; and

(7) may, notwithstanding (b) of this section, specify the type, size, and configuration of pots; pots must include an escape mechanism designed to allow female and undersize male crab to exit the pot during fishing operations.

(e) Participation in superexclusive Tanner crab fisheries does not exclude a vessel or permit holder from participation in this permit fishery in any area during periods when other Tanner crab fisheries in that area are closed.

# COMMERCIAL TANNER CRAB FISHERY

(f) Except as provided in (b) of this section, the pot limits specified in the registration areas described in 5 AAC 35 for Tanner crab do not apply to *Chionoecetes tanneri* and *Chionoecetes angulatus* Tanner crab.

## **5 AAC 35.517. Bering Sea *C. opilio* Tanner crab harvest strategy**

(a) In the Bering Sea District, the commercial *C. opilio* Tanner crab fishery may open only if the department's analysis of preseason survey data indicates the population of *C. opilio* Tanner crab

(1) contains an estimated spawning biomass of at least 25 percent of Bmsy;

(2) repealed 6/10/2010.

(b) If the estimated spawning biomass of *C. opilio* Tanner crab is

(1) at least 25 percent of Bmsy, but less than Bmsy, the total allowable catch will be  $(Fmsy / 3 + (Bt - 0.25 \times Bmsy) \times 0.417 \times Fmsy / (0.75 \times Bmsy)) \times 100$  percent of the estimated mature male biomass or 58 percent of exploited legal males, whichever is less;

(2) at or above Bmsy, the total allowable catch will be  $(0.75 \times Fmsy) \times 100$  percent of the estimated mature male biomass or 58 percent of the exploited legal males, whichever is less.

(c) In implementing this harvest strategy, the board directs the department to use the best scientific information available and to consider the reliability of estimates of *C. opilio* Tanner crab, the manageability of the fishery, and any other factors the department determines necessary to be consistent with the sustained yield principles.

(d) For the purposes of this section,

(1) "Bmsy" means the population biomass of mature male and female *C. opilio* Tanner crab that could produce maximum sustained yield under prevailing environmental conditions;

(2) "Bt" means the biomass of mature male and female *C. opilio* Tanner crab in a given year;

(3) "estimated mature male biomass" means the estimated biomass of all morphometrically mature male *C. opilio* Tanner crab;

(4) "estimated spawning biomass" means the estimated biomass of all morphometrically mature male *C. opilio* Tanner crab and all morphometrically mature female *C. opilio* Tanner crab;

(5) "exploited legal males" means 100 percent of the new-shell male *C. opilio* Tanner crab that are at least 102 millimeters (four inches) in width of shell, plus a percentage of old-shell male *C. opilio* Tanner crab that are at least 102 millimeters in width of shell estimated at the time of the survey; the percentage of old-shell male *C.*

# **COMMERCIAL TANNER CRAB FISHERY**

opilio Tanner crab will be based on the expected fishery selectivity for old-shell verses new-shell male *C. opilio* Tanner crab;

(6) "Fmsy" means the fishing mortality of the mature male *C. opilio* Tanner crab stock that could produce maximum sustained yield under prevailing environmental conditions.

## **5 AAC 35.520. Size limits for Registration Area J**

(a) Only male Tanner crab of the species *Chionoecetes opilio* 3.1 inches or greater in width of shell may be taken or possessed.

(b) In the Bering Sea District, Tanner crab size limits are as follows:

(1) male *C. bairdi* Tanner crab, or hybrid Tanner crab conforming to the identification criteria described in 5 AAC 35.521(a), must be 4.8 inches or greater in width of shell, except that in the waters west of 166° W. long., male *C. bairdi* Tanner crab, or hybrid Tanner crab conforming to the identification criteria described in 5 AAC 35.521(a), must be 4.4 inches or greater in width of shell;

(2) male *C. opilio* Tanner crab, or hybrid Tanner crab conforming to the identification criteria described at 5 AAC 35.521(b), must be 3.1 inches or greater in width of shell.

## **5 AAC 35.521. Identification of Bering Sea Tanner crab**

(a) In the Bering Sea District, a Tanner crab with both eyes completely red in color and the margin of the upper lip (labrum) notched at two points with angular V-shaped cuts forming an 'M' shape is considered to be a *C. bairdi* Tanner crab.

(b) In the Bering Sea District, a Tanner crab that does not display the characteristics described in (a) of this section is considered to be a *C. opilio* Tanner crab.

(c) For the purpose of 5 AAC 35.510(f)(3) and 5 AAC 35.520(b), a hybrid Tanner crab that conforms to the description in (a) of this section is considered to be a *C. bairdi* Tanner crab, and a hybrid Tanner crab that does not conform to that description is considered to be a *C. opilio* Tanner crab, as illustrated in the Alaska Department of Fish and Game *Chionoecetes* Crab Quick Reference Guide, revised as of September 2016, and adopted by reference.

(d) For the purpose of this section, "red" means a primary color similar in hue to blood.

## **5 AAC 35.525. Lawful gear for Registration Area J**

(a) Tanner crab may be taken only with Tanner crab pots. Tanner crab taken by other means must be returned to the water without further harm.

(b) The following Tanner crab pot requirements are in effect in Registration Area J:

## COMMERCIAL TANNER CRAB FISHERY

(1) to permit the escapement of undersize *C. bairdi* Tanner crab, pots used to take *C. bairdi* Tanner crab in

(A) Registration Area J, except the Bering Sea District, must have at least one-third of one vertical surface of the pot composed of not less than six and three-quarter inch stretched mesh webbing or have no less than four circular escape rings of no less than five inches inside diameter installed on the vertical surface of the pot;

(B) the Bering Sea District, must have at least one-third of one vertical surface of the pot composed of not less than six and one-half inch stretched mesh webbing or have no less than four circular escape rings of no less than four and one-half inches inside diameter installed in a manner on the vertical surface of the pot so that the bottom of a ring is no higher on the vertical surface than the first full mesh from the bottom of the pot; and

(2) to permit the escapement of undersize *C. opilio* Tanner crab, pots used to take *C. opilio* Tanner crab must have at least eight escape rings with an inside diameter measure of no less than four inches installed in a manner on the vertical surface of the pot so that the bottom of a ring is no higher on the vertical surface than the first full mesh from the bottom of the pot, with four escape rings on each of two sides of a four-sided pot, or if the pot has no escape rings as specified in this paragraph, one-half of one side of a four-sided pot must have a side panel composed of not less than five and one-quarter inch stretched mesh webbing.

(c) The following pot limits are in effect in Registration Area J:

(1) in the Kodiak District, when the guideline harvest level for *C. bairdi* Tanner crab is

(A) less than 5,000,000 pounds, an aggregate of no more than 20 pots may be operated from a validly registered Tanner crab vessel;

(B) at least 5,000,000 pounds, an aggregate of no more than 30 pots may be operated from a validly registered Tanner crab vessel;

(2) in the Chignik District, an aggregate of no more than 30 pots may be operated from a validly registered Tanner crab vessel, except that if the guideline harvest level exceeds 2,000,000 pounds,

(A) the total number of pots allowed in the fishery is 1,000; and

(B) the department will establish the individual vessel pot limit, not to exceed 50 pots per vessel, by dividing the 1,000 total pot limit by the number of vessels that register by the registration deadline specified in 5 AAC 35.506(e)(6);

(3) in the South Peninsula District, if the

# **COMMERCIAL TANNER CRAB FISHERY**

(A) guideline harvest level is less than 2,000,000 pounds, an aggregate of no more than 20 pots may be operated from a validly registered Tanner crab vessel;

(B) guideline harvest level is at least 2,000,000 but less than 3,000,000 pounds, an aggregate of no more than 30 pots may be operated from a validly registered Tanner crab vessel;

(C) guideline harvest level is 3,000,000 or more pounds, an aggregate of no more than 50 pots may be operated from a validly registered Tanner crab vessel;

(4) repealed 9/12/2008;

(5) in the Eastern Aleutian District, the total number of pots allowed in the fishery is 300; the department will establish the individual vessel pot limit by dividing the 300 total pot limit by the number of vessels that register before the season opens; no more than 50 pots per vessel is allowed.

(d) In the Bering Sea District, the tunnel eye openings on the vertical side of a Tanner crab pot may be no more than three inches high, except that up to 20 groundfish pots, as defined in 5 AAC 28.050(e), may be on board the vessel that is registered for either the Bering Sea Tanner crab or Bering Sea snow crab fisheries. Tanner and snow crab taken from these groundfish pots may be retained.

(e) In Registration Area J, a validly registered Tanner crab vessel may not have at any time in the aggregate, more than the legal limit of gear on board the vessel, in the water in fishing condition, and in the water in nonfishing condition. At the time of the tank inspection required under 5 AAC 35.555, the gear must meet all specifications required by this chapter and 5 AAC 39, including identification, escape mechanisms, and mesh size requirements.

(f) For the purposes of this section, "overall length" means the horizontal distance, rounded to the nearest foot, between the foremost part of the stem and the aftermost part of the stern, excluding bowsprits, rudders, outboard motor brackets, and similar fittings or attachments.

## **5 AAC 35.526. Tanner crab pot marking requirements for Registration Area J**

(a) In addition to the requirements of 5 AAC 35.051, in Registration Area J, in locations where a Tanner crab pot limit is in effect, each Tanner crab pot must have one identification tag issued by the department placed on the main buoy or on the trailer buoy if more than one buoy is attached to the pot.

(b) Identification tags are issued before each fishing season, are uniquely numbered for each registration year, and will be issued at the time of vessel registration for that vessel only. The vessel owner, or the owner's agent, shall apply for identification tags at a department office designated to issue the tags. Replacement of tags lost during the season is permitted if the vessel operator submits a sworn statement or affidavit to the department office that issued the tags, describing how the tags were lost and listing the numbers of the lost tags. Replacement tags will only be available from the Kodiak and

# COMMERCIAL TANNER CRAB FISHERY

Dutch Harbor local department offices. Tags shall be renewed annually before each fishing season.

(c) Repealed 9/12/2008.

## **5 AAC 35.527. Tanner crab pot storage requirements for Registration Area J**

The Tanner crab pot storage requirements in 5 AAC 35.052(a)(2) apply, except in the

(1) Western Aleutian District, pots may be stored in waters of not more than 30 fathoms deep from January 1 through December 31;

(2) Eastern Aleutian District, pots may be stored in waters of not more than 25 fathoms deep only from 30 days before the scheduled opening date of the commercial Tanner crab season through seven days after the closure of the commercial Tanner crab season, except that pots may not be stored in the waters of

(A) Hot Springs Bay inside of a line from the tip of Ridge Point to 54° 12.67' N. lat., 165° 52' W. long.; or

(B) Kalekta Bay inside of a line from the tip of Erskine Point to the tip of Cape Kalekta;

(3) South Peninsula and Chignik Districts, pots may be stored in the water only from the scheduled opening date of the commercial red and blue king crab season until seven days after the closure of the commercial Tanner crab season;

(4) Bering Sea District, pots may be stored in

(A) repealed 8/14/2005;

(B) the waters of the Eastern Subdistrict north of 57° N. lat., south of 58° N. lat., east of 166° W. long., and west of 164° W. long., from January 1 through December 31;

(C) repealed 8/14/2005;

(D) the waters around the Pribilof Islands shoreward of the 25-fathom isobath only from September 1 through May 31, and pots may also be stored in the waters around the Pribilof Islands at any depth within five nautical miles from the shoreline of St. Paul or St. George Islands, or in waters that are not more than 35 fathoms deep for 14 days before the scheduled opening date, and for 14 days after the closure, of the commercial C. opilio season;

(5) Kodiak District and Chignik Districts, rectangular pots with all bait and bait containers removed and all doors secured fully open and cone or pyramid pots with all bait and bait containers removed and all doors not secured closed may be stored in waters more than 25 fathoms for seven days following the season closure for Tanner crab in any section of the Kodiak and Chignik Districts;

# **COMMERCIAL TANNER CRAB FISHERY**

(6) Kodiak, Chignik, and South Peninsula Districts, or a section of those districts, if the commissioner, by emergency order, closes the commercial Tanner crab fishing season with less than six-hours notice in a daily period, except when the closure is announced preseason, baited pot gear may be stored in waters deeper than 25 fathoms for up to three days following the closure.

## **5 AAC 35.528. Operation of other gear in Registration Area J**

In the Kodiak District, a person or vessel that participated in the commercial Tanner crab fishery may participate in the subsistence Tanner crab fishery in a section of the Kodiak District that is closed to commercial Tanner crab fishing after the person is no longer participating in the commercial fishery and the vessel operator has invalidated the vessel's commercial Tanner crab registration, and after the section of the Kodiak District has been closed to commercial fishing for at least 14 days.

## **5 AAC 35.535. Closed waters in Registration Area J**

The waters of Alaska surrounding St. Matthew Island, Hall Island, and Pinnacle Island are closed to the taking of Tanner crab.

## **5 AAC 35.540. Registration Area J inspection points**

Registration Area J inspection points are located at Kodiak and Dutch Harbor or at other locations specified by the department.

## **5 AAC 35.555. Inspection requirements for Registration Area J**

(a) Except in the Kodiak, Chignik, and South Peninsula Districts, during the 24 hours before the scheduled opening date of the commercial Tanner crab season in Registration Area J, or a portion of Registration Area J, or at any time during the open season before taking crab, a Tanner crab vessel registered for Registration Area J must, when required by the department, have all holds, live tanks, and freezers inspected by a local representative of the department at an inspection point specified in 5 AAC 35.540. Tanner crab may not be on board the vessel at the time of inspection. The requirements of this section do not apply to a registered Tanner crab vessel that does not have a saltwater circulation system in its holds or live tanks. In the Bering Sea District only, the requirements of this section do not apply to catcher-processor vessels, if the commercial *C. bairdi* Tanner crab season remains open through the opening of the commercial *C. opilio* Tanner crab season.

(b) Notwithstanding (a) of this section, for the Bering Sea District commercial *Chionoecetes opilio* fishery, a registered Tanner crab vessel may have its holds, live tanks, and freezers inspected by a local representative of the department at Dutch Harbor or additional locations specified by the department within 48 hours before taking or processing Tanner crab.

## **5 AAC 35.556. Landing requirements for Registration Area J**

## COMMERCIAL TANNER CRAB FISHERY

(a) Except as provided in (b) of this section, the landing provisions of 5 AAC 35.031 apply to all districts within Registration Area J.

(b) The landing provisions of 5 AAC 35.031(c)(2) do not apply to the Bering Sea, Western Aleutian, and Eastern Aleutian Districts of Area J.

(c) Notwithstanding 5 AAC 35.031(c), following the closure of Registration Area J, or a portion of Registration Area J, to the taking of a specified species of Tanner crab, a vessel validly registered for that area may not have that species of Tanner crab on board the vessel in waters subject to the jurisdiction of the state, if delivery is made

(1) in the district or subdistrict that the Tanner crab were taken, or to a floating processor at St. Matthew or the Pribilof Islands if the Tanner crab were taken in the Western Subdistrict of the Bering Sea, after 24 hours following the closure;

(2) to Dutch Harbor, Akutan, or King Cove from the

(A) Eastern Aleutian District, after 24 hours following the closure;

(B) Western Aleutian District, after 72 hours following the closure, except that the owner, or the owner's agent, of a vessel delivering to King Cove may request additional time to deliver Tanner crab using the procedure specified in (3) of this subsection;

(C) Eastern Subdistrict of the Bering Sea District, after 24 hours following the closure, except that a owner, or the owner's agent, of a vessel delivering to King Cove may request additional time to deliver Tanner crab using the procedure specified in (3) of this subsection;

(D) Western Subdistrict of the Bering Sea District, after 72 hours following the closure;

(3) to Adak or a location east of King Cove, or if the vessel owner, or the owner's agent, wishes to request additional time to deliver Tanner crab under (c)(2)(B) or (c)(2)(C) of this section,

(A) the vessel owner, or the owner's agent, shall contact, by radio or telephone, a representative of the department in Dutch Harbor within 24 hours after the closure;

(B) the representative of the department in Dutch Harbor shall grant a reasonable amount of additional time for the vessel to reach the port of delivery; the amount of additional time shall be determined under the assumption that the vessel departed the fishing grounds immediately after the closure and proceeded directly to the processing location, except that a vessel may stop en route and offload pots at a storage facility if the vessel operator first contacts a representative of the department in Dutch Harbor and provides information on the location of the storage facility, the expected time of gear placement at that facility, and the expected time the vessel will depart the storage facility en route to the port of delivery.

(d) In the Kodiak, Chignik, and South Peninsula Districts, or a section of those districts, when the Tanner crab fishery is closed and gear has been stored as specified in 5 AAC 35.527(6), a vessel with Tanner crab on board may not be used for any purpose, except to travel to the port of delivery to offload the Tanner crab. The vessel operator may not pull any gear, baited or stored, or place any gear in storage. Once the Tanner crab on board the vessel has been off-loaded to the port of delivery, the vessel operator shall immediately remove any pot gear remaining on the fishing grounds and return any crab caught to the water without further harm. All pot gear must be placed in storage or on board the vessel within three days following the closure of a section or district.

## **5 AAC 35.558. Reporting requirements for Registration Area J**

In the Eastern Aleutian District, a validly registered Tanner crab vessel must report each day to the department

(1) the number of pot lifts;

(2) the number of crab retained for the 24-hour fishing period preceding the report; and

(3) any other information that the commissioner determines is necessary for the management and conservation of the fishery, as specified in the vessel registration certificate issued under 5 AAC 35.020.

## **5 AAC 35.590. Vessel length restrictions**

(a) In the Eastern Aleutian District, in the waters of Unalaska Bay enclosed by a line from Cape Cheerful (54° N. lat., 166° 40.33' W. long.) to Priest Rock (54° N. lat., 166° 22.50' W. long.), Tanner crab may not be taken by vessels over 50 feet, United States Coast Guard registered length or 58 feet overall length. In the remainder of the Eastern Aleutian District, Tanner crab may not be taken by vessels over 58 feet in overall length when the guideline harvest level for Tanner crab in the Eastern Aleutian District is 1,000,000 pounds or less.

(b) Tanner crab may not be taken in the Chignik and South Peninsula Districts by vessels over 58 feet in overall length.

(c) In this section, "overall length" means the straight line length between the extremities of the vessel, excluding anchor rollers.

## Chapter 39. General Provisions.

**5 AAC 39.001. Application of this chapter.** Unless otherwise specified in this section or 5 AAC 01 - 5 AAC 77, requirements in this chapter apply to commercial fishing only, except that 5 AAC 39.002 and 5 AAC 39.999 apply to all of 5 AAC 01 - 5 AAC 77. Subsistence, personal use, and sport fishing regulations affecting commercial fishing vessels or affecting any other commercial fishing activity are set out in the subsistence fishing regulations in 5 AAC 01 and 5 AAC 02, personal use regulations in 5 AAC 77, and sport fishing regulations in 5 AAC 47 - 5 AAC 75.

**5 AAC 39.002. Liability for violations.** Unless otherwise provided in 5 AAC 01 - 5 AAC 41 or in AS 16, a person who violates a provision of 5 AAC 01 - 5 AAC 41 is strictly liable for the offense, regardless of his intent.

**5 AAC 39.010. Retention of fish taken in a commercial fishery.** (a) A person engaged in commercial fishing may retain fish from lawfully taken commercial catch for that person's own use, including for the use as bait in a commercial fishery. Fish retained under this section may not be sold or bartered.

(b) Except as otherwise specified in 5 AAC 01 - 5 AAC 39, a commercial fisherman shall report on an ADF&G fish ticket, at the time of delivery of the commercial catch, the number of steelhead retained from the commercial catch but not sold. For the purposes of this subsection, "delivery" means the offloading of the finfish for sale or for transport to a buyer for later sale.

**5 AAC 39.105. Types of legal gear.** (a) All gear shall be operated in a manner conforming to its basic design.

(b) The size of meshes of a gillnet shall be substantially consistent.

(c) All references to mesh size in the regulations are considered to be "stretched measure."

(d) Unless otherwise provided in this title, the following are legal types of gear:

(1) a **gillnet** is a net primarily designed to catch fish by entanglement in the mesh and consisting of a single sheet of webbing hung between cork line and lead line, and fished from the surface of the water;

(2) a **set gillnet** is a gillnet that has been intentionally set, staked, anchored, or otherwise fixed;

(3) a **drift gillnet** is a drifting gillnet that has not been intentionally staked, anchored, or otherwise fixed;

(4) a **purse seine** is a floating net designed to surround fish and which can be closed at the bottom by means of a free-running line through one or more rings attached to the lead line;

(5) a **hand purse seine** is a floating net designed to surround fish and which can be closed at the bottom by pursing the lead line; pursing may only be done by hand power, and a free-running line through one or more rings attached to the lead line is not allowed;

(6) a **beach seine** is a floating net designed to surround fish which is set from and hauled to the beach;

(7) **power troll** gear consists of a line or lines with lures or baited hooks which are deployed, drawn through the water, and retrieved by means of a power troll gurdy, for which the power source may be hydraulic, electrical or mechanical; power troll gear does not include hand troll gear;

(8) **hand troll** gear consists of a line or lines with lures or baited hooks which are drawn through the water from a vessel by hand trolling, strip fishing or other types of trolling, and which are retrieved by hand power or hand-powered crank and not by any type of electrical, hydraulic, mechanical or other assisting device or attachment;

(9) a **fish wheel** is a fixed, rotating device, with no more than four baskets on a single axle, for catching fish which is driven by river current or other means;

(10) a **trawl** is a bag-shaped net towed through the water to capture fish or shellfish;

(A) a **beam** trawl is a trawl with a fixed net opening utilizing a wood or metal beam;

(B) an **otter trawl** is a trawl with a net opening controlled by devices commonly called otter doors;

(C) a **pelagic trawl** is a trawl where the net, or the trawl doors or other trawl-spreading device, do not operate in contact with the seabed, and which does not have attached to it any protective device, such as chafing gear, rollers, or bobbins, that would make it suitable for fishing in contact with the seabed;

(11) a **pot** is a portable structure designed and constructed to capture and retain fish and shellfish alive in the water;

(12) a **ring net** is a bag-shaped net suspended between no more than two frames; the bottom frame may not be larger in perimeter than the top frame; the gear must be nonrigid and collapsible so that when fishing it does not prohibit free movement of fish or shellfish across the top of the net;

(13) a **longline** is a stationary buoyed or anchored line or a floating, free drifting line with lures or baited hooks attached;

(14) a **shovel** is a hand-operated implement for digging clams or cockles;

(15) a **mechanical clam digger** is a mechanical device used or capable of being used for the taking of clams;

(16) a **scallop dredge** is a dredge-like device designed specifically for and capable of taking scallops by being towed along the ocean floor;

(17) a **fyke net** is a fixed, funneling (fyke) device used to entrap fish;

(18) a **lead** is a length of net employed for guiding fish into a seine or set gillnet;

(19) an **anchor** is a device used to hold a salmon fishing vessel or net in a fixed position relative to the beach; this includes using part of the seine or lead, a ship's anchor or being secured to another vessel or net that is anchored;

(20) a **herring pound** is an enclosure used primarily to retain herring alive over extended periods of time;

(21) **diving gear** is any type of hard hat or skin diving equipment including scuba, a tethered, umbilical, surface-supplied system, and a snorkel;

(22) a **hydraulic clam digger** is a device using water or a combination of air and water to remove clams from their environment;

(23) a **grappling hook** is a hooked device with flukes or claws and attached to a line and operated by hand;

(24) a **dip net** is a bag-shaped net supported on all sides by a rigid frame; the maximum straight-line distance between any two points on the net frame, as measured through the net opening, may not exceed five feet; the depth of the bag must be at least one-half of the greatest straight-line distance, as measured through the net opening; no portion of the bag may be constructed of webbing that exceeds a stretched measurement of 4.5 inches; the frame must be attached to a single rigid handle and be operated by hand;

(25) a **mechanical jigging machine** is a device that deploys a line with lures or baited hooks and retrieves that line with electrical, hydraulic, or mechanically powered

assistance; a mechanical jigging machine allows the line to be fished only in the water column; a mechanical jigging machine must be attached to a vessel registered to fish with a mechanical jigging machine; the mechanical jigging machine may not be anchored or operated unattached from the vessel;

(26) an **abalone iron** is a flat device used for taking abalone and which is more than one inch (24 mm) in width and less than 24 inches (61 cm) in length and with all prying edges rounded and smooth;

(27) a **handline** is a hand-held line, with one or more hooks attached, which may only be operated manually; a handline is legal gear only for smelt in the Bristol Bay Area, described in 5 AAC 06.100;

(28) **dinglebar troll** gear consists of one or more lines, retrieved and set with a troll gurdy or hand troll gurdy, with a terminally attached weight from which one or more leaders with one or more lures or baited hooks are pulled through the water while a vessel is making way;

(29) a **sea urchin rake** is a hand-held implement, no longer than four feet, equipped with projecting prongs used to gather sea urchins;

(30) a **cast net** is a circular net with a mesh size of no more than one and one-half inches and weights attached to the perimeter which, when thrown, surrounds the fish and closes at the bottom when retrieved

(31) an **eel stick** consists of a single straight or bent pole, equipped with notches or projecting tines, used to take lamprey through the ice.

**5 AAC 39.107. Operation of gear.** (a) Each fisherman shall operate or assist in operating only one type of net gear at any one time.

(b) Throughout the period of operation of mobile net gear, a person who holds a valid CFEC permit for that gear must be physically present on board the vessel from which the net gear is operated.

(c) A CFEC permit holder shall personally operate or assist in the operation of mobile net gear. "Personally operate or assist in operation" means assisting or supervising some portion of the immediate operation.

(d) A person who holds a limited entry permit or an interim-use permit for stationary fishing gear must be physically present at a beach or riparian fishing site during the operation of net gear or other stationary fishing gear at the site, except when the permit holder is at or traveling to or from the location of (1) a sale of fish caught in the gear; or (2) other stationary gear of the permit holder. For purposes of this subsection "fishing site" includes any structure used for providing shelter in support of the operation of net gear or other stationary gear.

(e) A person who holds a CFEC permit for the operation of stationary net gear or fish wheels shall be within a reasonable distance of the gear when at a point of sale or at the

location of other stationary gear of that permit holder. A "reasonable distance" means a distance that ensures that the CFEC permit holder retains competent supervision of the gear.

(f) In the Yukon Area, as described in 5 AAC 05.100, a person who holds a CFEC permit for stationary fishing gear must be physically present for the initial deployment of the gear at the beginning of the commercial fishing period and at the end of the commercial fishing period to terminate operation of the gear.

(g) In the Yakutat District south of 59° 40' N. lat. in Yakutat Bay, a fishing site under AS 16.05.253(b) includes the CFEC permit holder's permanent place of residence in Yakutat.

**5 AAC 39.109. Nonresident crewmember fishing license fees.** The amount to be added, in accordance with AS 16.05.480(h), to the annual base fee for a nonresident crewmember fishing license is the additional amount calculated every three years by the Commercial Fisheries Entry Commission under 20 AAC 05.245(a)(7).

**5 AAC 39.110. Crewmember fishing license requirements.** (a) Each commercial fisherman who does not hold a valid interim-use or entry permit card issued by the Commercial Fisheries Entry Commission shall obtain a crewmember fishing license before fishing in any waters of Alaska. A crewmember fishing license is not required for the holder of a valid interim-use or entry permit card.

(b) Repealed 8/15/2008.

(c) A crewmember licensee who does not hold a valid CFEC permit may crew in any fishery if he or she is working for the holder of a valid CFEC permit for that fishery who is operating the fishing gear in the manner described in 5 AAC 39.107.

(d) A valid interim-use or entry permit card holder may crew in any fishery.

(e) In this section, "crew" means the activities of a commercial fisherman as defined in AS 16.05.940(4), who is actively engaged in the operation of fishing gear that is being operated in the manner described in 5 AAC 39.107.

(f) Each holder of a commercial fishing license, as required in AS 16.05.480(a), who is 16 years of age or older and participating in a commercial fishery in which crewmember participation is restricted by exclusive or superexclusive area registration requirements shall possess an identification card that has been issued to the commercial fishing license holder by a state or federal agency or other organization specified by the Department of Public Safety that bears a photograph of the commercial fishing license holder.

(g) The department will issue a duplicate crewmember license to a person whose crewmember license has been lost or destroyed and who submits a request for a duplicate crewmember license on a form prescribed by the department along with a \$5 duplicate crewmember license fee.

**5 AAC 39.111. Personal identification required.** A person who is in possession of a CFEC interim-use or entry permit card shall, upon the request of a buyer of fish or a peace officer of the state, present the personal identification required under AS 16.10.267(a)(2) to establish that the permit card is in the possession of the person to whom the permit card is issued.

**5 AAC 39.119. Vessel identification.** (a) Unless otherwise specified, a commercial fishing vessel required to be licensed under AS 16.05.490 must display its permanent vessel license plate number

(1) in permanent symbols at least 12 inches high and with lines at least one inch wide that contrast with the background;

(2) on both sides of the hull, cabin, or mast;

(3) in a manner such as to be plainly visible and unobscured; and

(4) at all times when registered to fish.

(b) Repealed 10/1/98.

(c) The following vessels are exempt from the requirements of this section:

(1) those exempt from licensing under AS 16.05.495;

(2) seine skiffs operating with a seine vessel;

(3) repealed 2/10/2005.

**5 AAC 39.120. Registration of commercial fishing vessels.** (a) A person who owns a commercial fishing vessel or that person's authorized agent shall register that vessel by completing a vessel license application or renewal form and submitting it to the Commercial Fisheries Entry Commission, unless the vessel is not required to be licensed under AS 16.05.495. Vessel registration is required before fishing or transporting unprocessed fish in any waters of Alaska. A vessel, if it is in compliance with all regulations governing registration and if it displays a license issued under AS 16.05.530, unless the vessel is not required to be licensed under AS 16.05.495, is considered to be registered under the laws of the state and may take or transport unprocessed fish. It is unlawful to take, attempt to take, or possess unprocessed fish aboard a vessel in the waters of Alaska unless the vessel is registered under the laws of the state. For purposes of this subsection,

(1) "employ," as used in AS 16.05.475, means taking or attempting to take fish, or transporting fish which have been taken or any operation of a vessel aiding or assisting in the taking or transporting of unprocessed fish;

(2) "in compliance with all regulations governing registration" includes vessel registration required by 5 AAC 28.020, 5 AAC 31.020, 5 AAC 31.030, 5 AAC 32.020, 5 AAC 32.030, 5 AAC 34.020, 5 AAC 34.030, 5 AAC 35.020, 5 AAC 35.030, 5 AAC

## GENERAL PROVISIONS

38.020, and 5 AAC 38.030, and includes district or subdistrict registration requirements of 5 AAC 03 - 5 AAC 38, and includes the provisions of this section;

(3) "registered under the laws of the state" means that a vessel displays a license described in 20 AAC 05.1958 and issued under AS 16.05.530, unless the vessel is not required to be licensed under AS 16.05.495, and that the registration provisions of 5 AAC 03 - 5 AAC 39 have been complied with and evidence of compliance is immediately available at all times during fishing or transporting operations, and can be shown upon request to an authorized representative of the department.

(b) Area registration requirements for shellfish vessels are as specified in the registration regulations in 5 AAC 31 - 5 AAC 38.

(c) Area registration requirements for salmon net fishing vessels are as follows:

(1) a person who owns a fishing vessel to be used to take salmon with net gear, or his authorized agent, shall register for an area by designating on the vessel license application or renewal form the vessel's one area of intended salmon net gear operation for the year; it is unlawful for a vessel to engage in salmon net fishing in an area other than the single area selected;

(2) in this section the term "area" means any registration area listed in (d) of this section, except that

(A) in salmon net Registration Area T, a vessel must also be registered by the department for a fishing district as required by 5 AAC 06.370;

(B) in salmon net Registration Area Y, a vessel must also be registered by the department for a fishing district as required by 5 AAC 05.370;

(C) a purse seine vessel registered for salmon net Registration Area M is also registered to operate purse seine gear in Registration Area F during the same registration year;

(3) a vessel registered for an area of salmon net fishing in compliance with (c)(1) of this section will be issued, by the Commercial Fisheries Entry Commission, a vessel license area tab for that year; it is unlawful for a vessel to fish in the area of registration unless the vessel displays the area tab on the vessel license number plate; no vessel owner or operator may possess for each vessel, or no vessel may display, more than one vessel license area tab;

(4) a person who owns a fishing vessel registered for an area of intended operation in compliance with (c)(1) of this section or his authorized agent may register it for a different salmon net registration area under the following conditions:

(A) the reregistration of a salmon net fishing vessel shall be authorized by the

## GENERAL PROVISIONS

(i) commissioner upon receipt of proof in writing that the vessel has been lost through sinking, destruction, or extensive mechanical breakdown, or that the vessel operator has suffered serious injury, sickness or death during the open season; or

(ii) Commercial Fisheries Entry Commission upon receipt of a written certification or personal affidavit stating that the vessel has not been used for salmon net fishing in the original area of registration during the current registration year;

(B) a person authorized to reregister a vessel must complete a reregistration form issued by the Commercial Fisheries Entry Commission and submit it to the commissioner together with any previously issued vessel license area tab;

(C) it is unlawful for a vessel to fish in the area of reregistration unless the vessel displays the appropriate area tab on the vessel license number plate;

(D) area reregistration under this section shall supersede the original area registration as if the original area registration had never been made;

(E) once a vessel has reregistered for another net registration area to replace a lost vessel, that vessel can not transfer back to its original net registration area during that season;

(5) repealed 4/16/83.

(d) Salmon net gear registration areas are as follows:

Code

<b>Letter</b>	<b>Area</b>
<b>A</b> -	Southeastern Alaska Area (5 AAC 33.100)
<b>D</b> -	Yakutat Area (5 AAC 30.100)
<b>E</b> -	Prince William Sound Area (5 AAC 24.100) and the Yakataga District of the Yakutat Area (5 AAC 30.200(a))
<b>F</b> -	Atka-Amlia Islands Area (5 AAC 11.101)
<b>H</b> -	Cook Inlet Area (5 AAC 21.100)
<b>K</b> -	Kodiak Area (5 AAC 18.100)
<b>L</b> -	Chignik Area (5 AAC 15.100)
<b>M</b> -	Aleutian Islands and Alaska Peninsula Areas (5 AAC 12.100 and 5 AAC 09.100) and, from August 1 through August 31, the

Atka-Amlia Islands Area (5 AAC 11.101) for purse seine gear only

**T** - Bristol Bay Area (5 AAC 06.100) and January 1 through December 31, the Cinder River and Inner Port Heiden Sections of the Alaska Peninsula Area and August 1 through December 31, that portion of the Ilnik Section within Ilnik Lagoon and all waters inside the Seal Islands of the Alaska Peninsula Area (5 AAC 09.200(a)(1) - (3))

**W** - Kuskokwim Area (5 AAC 07.100)

**X** - Arctic-Kotzebue Area (5 AAC 03.100)

**Y** - Yukon Area (5 AAC 05.100)

**Z** - Norton Sound-Port Clarence Area (5 AAC 04.100)

(e) Evidence of proper registration or licensing must be kept immediately available at all times during fishing operations and must be shown upon request to any peace officer of the state.

(f) The provisions of this section do not apply to halibut fishing.

(g) Repealed 10/1/98.

**5 AAC 39.128. Reporting requirements for unlicensed commercial fishing vessels in the waters of Alaska.** (a) Before entering the waters of Alaska,

(1) an operator of an unlicensed commercial fishing vessel shall report by telephone, and shall leave a recorded report at a telephone number designated by the department for that purpose, or shall report by other means specified by the department. A report under this section must

(A) identify the vessel and vessel operator;

(B) certify that no unprocessed fish are on board the vessel;

(C) include the destination, travel route, and dates of transit; and

(D) include the quantity, species, and the location from which the fish were taken if any processed fish are on board the vessel.

(b) The commissioner may, upon request by a local representative of the department, waive all or part of the requirements of this section if the commissioner determines that compliance with this section is not necessary for conservation, management, or enforcement in a designated geographical area.

(c) For the purposes of this section,

(1) "commercial fishing vessel" means a floating craft powered, towed, rowed, or otherwise propelled, which is used for or equipped to be used for

(A) commercial fishing;

(B) fish processing;

(C) fish transport; or

(D) fish storage, including temporary storage;

(2) "unlicensed" means not licensed under AS 16.05.490 - 16.05.530.

**5 AAC 39.130. Reports required of fishermen, processors, buyers, exporters, and operators of certain commercial fishing vessels; transporting requirements.** (a)

Before operating during a calendar year, an individual, company, firm, or other organization that is a first purchaser, catcher-exporter, catcher-processor, or catcher-seller shall submit to the department a completed intent to operate application provided by the department or available online, together with a \$25 processing fee for each individual, company, firm, or other organization identified in the application; the fee is not required of an applicant that paid the annual fee required by AS 43.75.020(a). The individual, company, firm, or other organization may begin to operate only after receiving authorization from the department to begin operating, along with the individual's or organization's processor code for the current year.

(b) An individual, company, firm, or other organization described in (a) of this section that intends or is required to use the eLandings Electronic Reporting System shall access the system by completing an operator documentation and user agreement on the Interagency eLandings Electronic Reporting System's website. In addition to the other requirements of this section, an individual, company, firm, or other organization described in (a) of this section that the commissioner determines has submitted at least 2,000 salmon harvest fish tickets or bought more than 20 million pounds of salmon during any of the previous three calendar years shall thereafter use the eLandings Electronic Reporting System for all salmon delivered to a tender vessel, floating processor, or shorebased processor. In addition to the other requirements of this section, a first purchaser shall use the tLandings application for all groundfish delivered to a tender vessel.

(c) An individual, company, firm, or other organization described in (a) of this section shall record each delivery on an ADF&G fish ticket. A fish ticket must be completed for all fish or byproducts of fish harvested in the waters of Alaska and for all fish or byproducts of fish harvested in waters outside of the waters of Alaska and offloaded or

processed in the waters of Alaska. Fish tickets for each fishery must be finalized and submitted to a local representative of the department not later than seven days after a delivery or partial delivery, or as otherwise specified by the department, such as for each vessel trip. The operator of a vessel that has harvested fish in the waters of Alaska and whose port of delivery is outside this state, or who sells, transfers, receives, or delivers fish in the Exclusive Economic Zone (EEZ), shall submit a completed hauled weight fish ticket or a fish ticket to the department before the fish are transported out of the jurisdiction of this state. At the time of delivery or partial delivery, or as otherwise directed by the department, fish tickets must include the following information:

- (1) the name and signature of the applicable individual, company, firm, or other organization described in (a) of this section;
- (2) the name and signature of the CFEC permit holder that operated the unit of gear with which the fish were taken;
- (3) the processor code imprinted on the fish ticket from the code plate issued by the department, the processor code handwritten on the fish ticket if instructed by an authorized representative of the department, or the electronically captured information from the eLandings Electronic Reporting System, except that if a catcher-seller is shipping fish to a fisheries business, the fisheries business must imprint the fish ticket, or electronically capture the information on the eLandings Electronic Reporting System, with the processor code of the fisheries business; in this paragraph, "fisheries business" has the meaning given in AS 43.75.290;
- (4) the name, or the United States Coast Guard number or Department of Transportation number, of the vessel employed in taking the fish, if applicable;
- (5) the date fishing gear was deployed and the date the delivery or partial delivery of the fish is completed;
- (6) the permanent ADF&G vessel license plate number, if applicable;
- (7) the type of gear by which the fish were taken by the gear code number specified by the department;
- (8) the statistical areas, districts, and subdistricts in which the fish were taken and, if required by a local representative of the department, the nearest headland or bay in which the fish were taken;
- (9) the pounds, including any applicable weight modifier such as with ice and slime, delivery condition code, and disposition code, including any applicable overage code, of fish by species, except that
  - (A) for salmon and crab, the number is also required;
  - (B) for herring, only the weight, in pounds or tons, and delivery condition are required;

## GENERAL PROVISIONS

(10) an indication of a partial delivery, including a partial delivery of groundfish as specified in 5 AAC 28.070(f), if applicable;

(11) the CFEC permit number of the operator of the unit of gear with which the fish were taken, imprinted on the fish ticket from the valid permit card or electronically captured from the valid permit card; the imprinting requirement under this paragraph may be suspended by a local representative of the department after presentation by the commercial fisherman of the operator's permit application validated by CFEC or documentation from the department or CFEC that the permit card has been damaged, lost, or stolen; if a suspension is granted, the buyer or commercial fisherman must handwrite the name of the permit holder, the permit holder's permit number, and, if applicable, the permanent ADF&G vessel license plate number on the fish ticket, and attach a copy of the supporting documentation;

(12) the number or pounds of fish by species retained by a commercial fisherman for that person's own use, if applicable;

(13) the number of licensed crewmembers, including the vessel operator, if applicable;

(14) the number of certified onboard observers, if applicable;

(15) the management program code, if using the eLandings Electronic Reporting System;

(16) the permanent ADF&G vessel license plate number of the tender vessel, if applicable;

(17) for a dual permit, the second CFEC permit number, if required by the department;

(18) any other information that the commissioner determines is necessary.

(d) A person may not possess a fish ticket that has been imprinted with a CFEC permit number until the time of delivery or partial delivery.

(e) A buyer of fish harvested through a CDQ program, as described in 6 AAC 93, shall electronically submit a fish ticket at least one time per week. The buyer may use the consolidated fish ticket feature in the eLandings Electronic Reporting System, including seaLandings, to generate the fish ticket. In this subsection, "week" means a seven-day period of time that begins on Sunday and ends on Saturday.

(f) An individual, company, firm, or other organization described in (a) of this section shall furnish, verbally or in writing, purchasing, production, or other information as required by the commissioner.

(g) Not later than April 1, a first purchaser, catcher-exporter, or catcher-processor that has been assigned a processor code under (a) of this section shall submit a Commercial Operator's Annual Report (COAR), which is an operator's accurate and complete

summary of activity for each intent to operate application approved by the department for the previous year, or a signed statement of nonactivity for the previous year, on a form provided by the department or available online. The department will not authorize operations for the current year to an applicant that has not submitted all COAR reports due under this section for any previous year.

(h) A commercial fisherman shall furnish to the buyer information necessary for completion of reports required by the commissioner.

(i) An individual, company, firm, or other organization described in (a) of this section using the eLandings Electronic Reporting System must electronically submit the initial landing report at the completion of a delivery or partial delivery, and submit to the department the final landing report and a copy of the fish ticket generated and printed from the eLandings Electronic Reporting System not later than seven days after the delivery or partial delivery.

(j) A commercial fisherman shall submit to the department verbally, in writing, or electronically through the eLandings Electronic Reporting System, directly or through the buyer, information necessary for reports required by the commissioner.

(k) Unless otherwise specified in this chapter, in addition to other requirements of this section, each person that is the first purchaser of or that first processes raw groundfish or halibut shall comply with the record keeping and electronic reporting requirements through the eLandings Electronic Reporting System and any other reporting requirements in 50 C.F.R. 679.5, revised as of October 1, 2013.

(l) The commissioner may, by emergency order, close a fishing season and immediately reopen a fishing season during which a different reporting requirement is in effect.

(m) In addition to the other provisions of this section, if the commissioner determines it is necessary, the following information regarding the transporting, delivery, or shipping of unprocessed fish must be transmitted to an authorized local representative of the department either in person, in writing, by radio or telephone, or by other means specified by the department:

(1) the number and species of salmon taken in a regulatory area must be reported before being transported to any other area or out of this state;

(2) the number or pounds, by species, of all other fish must be reported before being transported out of this state;

(3) the number or pounds, by species, of fish taken by a catcher-seller must be reported upon delivery or before shipping the fish within the state.

(n) A floating processor shall report in person, by radio or telephone, or by other means specified by the department, to the local representative of the department located within the management area of intended operation before the start of processing operations. The report must include the initial processing location by district or

subdistrict and latitude and longitude, and the date of intended operation. Before moving the operation and upon arriving at a new location, the operator shall notify the local representative of the department in person, by radio or telephone, or by other means specified by the department, of the new location of operation by district or subdistrict and latitude and longitude. A local representative of the department may waive all or part of the requirements of this subsection upon determining that the requirements are not necessary for the conservation or management of the fishery in that area.

(o) In this section,

(1) "buyer-exporter" means the first purchaser of unprocessed fish that exports or attempts to export out of this state the fish either unprocessed or custom processed;

(2) "catcher-exporter" means a commercial fisherman who exports or attempts to export out of this state unprocessed or custom processed fish that were legally taken by the catcher-exporter;

(3) "catcher-processor" means a commercial fisherman who sells or attempts to sell processed or unprocessed fish that were legally taken by the catcher-processor in or out of this state;

(4) "catcher-seller" means a commercial fisherman who sells or attempts to sell unprocessed fish that were legally taken by the catcher-seller

(A) to the general public for use for noncommercial purposes;

(B) for use as bait for commercial or noncommercial purposes;

(C) to restaurants, grocery stores, and established fish markets;

(D) by shipping the fish to a licensed buyer, processor, or exporter within this state;

(5) "commercial fish transporter" means those individuals whose activities require a permit under AS 16.05.671;

(6) "custom processed" means that the fish is processed by a person that does not own the fish;

(7) "delivery" means offloading fish for sale or for transport to a buyer for later sale;

(8) "dual permit" means the use of additional fishing gear on board a vessel or at a set gillnet site under a second CFEC permit as allowed under the applicable provisions in this title;

(9) "eLandings Electronic Reporting System"

(A) means the electronic and Internet based reporting system maintained by the department, the National Marine Fisheries Service, Alaska Region, and the International Pacific Halibut Commission to provide an alternative to paper fish tickets;

(B) includes the following:

(i) eLandings, which is a web application for shore side and Internet capable vessels;

(ii) seaLandings, which is a desktop application for sea vessels without Internet capability;

(iii) tLandings, which is a portable data storage application for tender and other operations;

(10) "first purchaser:

(A) means the person that first purchases unprocessed fish directly from the commercial fisherman for the purchaser's own business and does not act as a buying agent for another business;

(B) includes a

(i) buyer-exporter;

(ii) floating processor;

(iii) independent buyer;

(iv) shorebased processor;

(11) "fish ticket" includes

(A) a department issued paper copy form for recording harvest; and

(B) an electronically generated record of harvest from the eLandings Electronic Reporting System;

(12) "floating processor" includes the operator of a vessel who

(A) operates as a catcher-processor;

(B) is the first purchaser of unprocessed fish and sells or attempts to sell processed or unprocessed fish in or out of this state;

(13) "independent buyer" means the first purchaser of unprocessed fish for sale unprocessed within this state to a shorebased processor, floating processor, or buyer-exporter;

## GENERAL PROVISIONS

(14) "partial delivery" means the offloading of fish for sale or for transport to a buyer of only a portion of the total harvest from one vessel's trip, excluding catch retained for

(A) personal use under 5 AAC 39.010;

(B) bait under applicable provisions of this title;

(15) "shorebased processor" means a land-based first purchaser that purchases unprocessed fish and sells or attempts to sell that fish, processed or unprocessed, in or out of this state;

(16) "trip" means

(A) for a vessel on which fish are harvested but not processed, the period of time from when the vessel commences fishing until completion of the final delivery; a trip may include one or more partial deliveries; or

(B) a period of time designated by the department, such as every seven days.

(17) "tender vessel" means a vessel whose operator acts as an agent for a processor and accepts delivery of fish from a commercial fisherman or another tender vessel for transport to a shore-based or floating processor.

**5 AAC 39.140. Inspection of fishing establishments and vessels.** (a) Representatives of the Department of Fish and Game or the Department of Public Safety shall have free and unobstructed access to all fishing vessels, canneries, salteries, and other land-based or floating processing establishments to inspect catch, equipment, gear, and operational compliance with AS 16 and regulations promulgated thereunder.

(b) Upon being approached by a vessel or aircraft under the control of a representative of the Departments of Fish and Game or Public Safety, the operator of a fishing vessel, catcher-processor, or floating processor shall be alert for, and immediately comply with, signals conveying enforcement intent. A vessel operator signaled to stop or heave to for boarding shall

(1) stop immediately and lay to or maneuver in such a way as to permit the representative and his party to come aboard;

(2) if requested, provide a safe ladder for the representative and his party;

(3) when necessary to facilitate the boarding, provide a man rope, safety line and illumination of the ladder;

(4) take such other actions as necessary to ensure the safety of the representative and party and to facilitate the boarding; and

(5) make every effort to comply with all lawful orders given by the representative, except that the owner or operator of the vessel is solely responsible for navigation,

supervision, and control of the vessel and his decisions shall be final in all matters pertaining to proper navigation and safety of the vessel crew, and fishing gear.

(c) On a vessel which catches and processes crab and is required to carry an observer under 5 AAC 39.645, the vessel operator must separate crab to be retained and, before butchering, must make those crab available to the observer for inspection.

(d) Notwithstanding the requirements of 5 AAC 30.392(a), 5 AAC 30.393, 5 AAC 33.392(d), and 5 AAC 33.393, upon request by a local representative of the department or a peace officer of the state, a fisherman or processor shall relinquish the tag and head of adipose-fin-clipped salmon, and shall inform the representative or peace officer of the date and location of the catch, if known.

**5 AAC 39.141. Onboard observer program.** (a) The Board of Fisheries finds that, in particular fisheries, observers on board fishing vessels would greatly enhance management, primarily by facilitating information gathering, and by improving regulatory compliance. Onboard observers may be the only practical fishery monitoring, data-gathering, or enforcement mechanism in some Alaska fisheries where a large component of vessels, such as catcher-processors and floating processors, rarely or never enter Alaskan ports. The Board of Fisheries, therefore, finds it necessary to authorize the Alaska Department of Fish and Game to implement onboard observer programs in particular fisheries when the board determines that it

- (1) is the only practical data-gathering or enforcement mechanism;
- (2) will not unduly disrupt the fishery; and
- (3) can be conducted at a reasonable cost.

(b) Every onboard observer shall have free and unobstructed access to inspect the catch, equipment, gear, or operations of the fishing vessel or the tender to which the observer is assigned, and to board vessels delivering to the vessel to which the observer is assigned and inspect the catches of vessels delivering to the vessel to which the observer is assigned while the vessel to which the observer is assigned is

- (1) within waters under the jurisdiction of the state;
- (2) taking or intending to take any species of fish; or
- (3) transporting or processing any species of fish.

(c) Onboard observers must be as unintrusive to vessel operations as practicable and must make the scope of their activities as predictable as possible in the performance of their assigned observer duties.

(d) Onboard observers are not required to obtain criminal or administrative search warrants to conduct their duties.

(e) Onboard observers shall carry out such scientific and other duties as deemed necessary or appropriate to manage, protect, maintain, improve, and extend the fish and aquatic plant resources of the state.

(f) Onboard observers shall have access to all vessel location information at any time, including free and unobstructed access to vessel coordinates and depths for all sampled pots.

(g) Every independent contracting agent, and their office personnel and business agents while employed by the independent contracting agent and for six months after terminating that employment, may not work as an onboard observer.

**5 AAC 39.142. Conflict of interest standards for onboard observers and independent contracting agents.**

(a) A department approved fisheries onboard observer

(1) must be employed by

(A) an independent contracting agent who has been certified by the department; or

(B) the department;

(2) may not have a financial interest in the observed fishery;

(3) may not have a personal interest in the vessel to which he or she is assigned;

(4) may not serve as a crewmember or processing worker on the vessel to which he or she is assigned;

(5) may not solicit, accept, or receive, directly or indirectly, a gift, whether in the form of money, service, loan, travel, entertainment, hospitality, employment promise, or in any other form, that is a benefit to the observer's personal or financial interests, under circumstances in which it could be reasonably inferred that the gift is intended to influence the performance of official duties, actions, or judgment;

(6) may not have been convicted of a misdemeanor or felony involving fraud, dishonesty, an "offense against the person" in violation of AS 11.41, arson under AS 11.46.400, or a fish and game misdemeanor or fish and game infraction with a penalty in excess of \$300 for a period of seven years preceding application to the onboard observer program;

(7) may not have a personal or financial interest, other than that of the observer's employee relationship, in the entity that employs the observer;

(8) may not spend more than 90 days on board any one vessel in 12 consecutive months, unless the 90-day limitation is waived by the department for good cause, except that an onboard observer may spend up to 120 days on board any one vessel in 12 consecutive months during a crab fishery that is 75 days or longer in duration;

(9) may be assigned to a vessel only upon approval by the department.

(b) An independent contracting agent who provides onboard observers

(1) may not be an individual, partnership, or corporation with a personal or direct financial interest in the proceeds of any vessel licensed to process or harvest in the affected fishery, other than the provision of observers;

(2) shall assign observers to vessels without regard to requests from vessel owners or operators for a specific individual;

(3) repealed 12/26/97;

(4) may not knowingly or negligently hire as an observer an individual who has a personal or financial interest, other than that of the observer's employee relationship, with the contracting agent;

(5) may not hire an observer on a commission basis;

(6) shall for each observer assignment to a vessel, submit to the department, upon request, a written statement, signed by the contracting agent under oath and subject to applicable criminal penalties, stating that the contracting agent does not have a personal interest and does not have a direct or subsidiary financial interest in the vessel or in fishing activities of the vessel;

(7) shall obtain and submit to the department, upon request, for each observer assignment to a vessel, a written statement, signed by the vessel owner, operator, or owner's agent, under oath and subject to applicable criminal penalties, stating that the vessel owner or operator does not have a personal interest and does not have a direct or subsidiary financial interest in the contracting agent.

(c) In this section

(1) "financial interest" means any source of income to, or a capital investment held by, an individual or the individual's spouse or blood relation up to and including the second degree of kindred;

(2) "personal interest" means an interest held or involvement by an individual, partnership, or corporation, or an individual's immediate family member or parent, including membership in any organization from which, or as a result of which, a person or organization receives a benefit.

**5 AAC 39.143. Onboard observer certification and decertification.** (a) To become certified as a crab or scallop onboard observer, a person must first obtain a crab or scallop onboard observer trainee permit and complete the trainee requirements of this section. The department shall issue a crab or scallop onboard observer trainee permit to a person who completes training and orientation specified by the department and who passes, with a score of at least 90 percent, an exam administered by the department.

(b) Before embarking on each observer trip, a crab or scallop observer trainee shall participate in a briefing with the department.

(c) An observer trainee permit expires as follows:

(1) a crab observer trainee permit expires on the earlier of the

(A) 36th day after the crab observer trainee has participated in a briefing for an observer trip if, during this 36-day period, the trainee has not participated in a debriefing with the department; or

(B) 180th day after the crab observer trainee permit was issued; however, if a crab trainee observer has been deployed at least once during the first 180 days after the observer permit was issued, the trainee permit may be extended up to 365 days, at the discretion of the department;

(2) a scallop observer trainee permit expires on the earlier of the

(A) 36th day after the scallop observer trainee has participated in a briefing for an observer trip if, during this 36-day period, the trainee has not participated in a debriefing with the department; or

(B) 180th day after the scallop observer trainee permit was issued; however if a scallop trainee observer has been deployed at least once during the first 180 days after the observer permit was issued, the trainee permit may be extended, up to 270 days, at the discretion of the department.

(d) The department may revoke a trainee permit for the reasons listed under (j) of this section or at the department's discretion and under the procedures set out in (l) - (n) of this section. If revocation proceedings are pending on the date the permit would expire under (c)(1) of this section, the permit expires under that paragraph, and all rights under the permit cease. If revocation proceedings are pending on the date the permit would expire under (c)(2) of this section, the permit does not expire on that date, but is suspended until conclusion of the revocation proceedings. The trainee may not act under the permit during the period of suspension. The permit expires at the conclusion of the revocation proceedings unless the department determines that the permit should not be revoked and that the trainee should be certified as an observer under (f) of this section.

(e) A person whose crab or scallop observer trainee permit has expired or has been revoked may not be issued another trainee permit unless that person completes retraining and reorientation specified by the department and repasses, with a score of at least 90 percent, an exam administered by the department.

(f) The department shall certify as a crab or scallop onboard observer a trainee who

(1) has a valid crab or scallop observer trainee permit;

(2) has satisfactorily completed all assigned trainee tasks specified by the department in writing, or assigned verbally in person, or during radio, telephone, or other electronic communication transmission while the observer is deployed to a vessel;

(3) has not engaged in behavior described in (j) of this section;

(4) has completed the number of observer trips that the department, in its discretion, determines from debriefing the trainee are necessary to prepare the trainee to perform as a crab or scallop onboard observer; and

(5) is not the subject of revocation proceedings under this section.

(g) A trainee may appeal a denial of certification as a crab or scallop onboard observer to the commissioner. The appeal must be in writing and must be received by the commissioner within 15 days after the denial. The commissioner or the commissioner's designee shall conduct an investigation and review, and may hold a hearing on the matter. If a designee conducts an investigation and review or holds a hearing, the designee shall recommend action to the commissioner. The commissioner shall make a decision within 45 days after receiving an appeal. The commissioner's decision under this section is the final administrative action.

(h) Until the commissioner's decision in an appeal under (g) of this section, the trainee may act under the terms of a valid trainee permit. If, while an appeal under (g) of this section is pending, the permit expires under (c) of this section or is revoked under (d) of this section, all rights under the permit cease.

(i) An onboard observer certification expires if a shellfish observer has not functioned as a shellfish onboard observer for 18 consecutive months. To become recertified after 18 consecutive months of not functioning as a shellfish observer, a person must successfully complete all trainee and certification requirements set out in (a), (b), (c), (e), and (f) of this section.

(j) An onboard observer certification may be revoked for any one of the following reasons:

(1) failure to satisfactorily complete all assigned tasks specified by the department in writing, or assigned verbally in person, or during radio, telephone, or other electronic communication transmission while the observer is deployed to a vessel;

(2) use, possession, or being under the influence of alcohol or an illegal controlled substance on board the assigned vessel, boarding any vessel under the influence of alcohol or an illegal controlled substance, missing an appointment with the department due to alcohol or an illegal controlled substance, or attending an appointment with the department under the influence of alcohol or an illegal controlled substance;

(3) engaging in violent or criminal behavior, including behavior that may endanger a person or property on the assigned vessel or that prevents the observer from performing tasks according to the standards of the onboard observer manual;

## GENERAL PROVISIONS

(4) soliciting or accepting items or services, other than basic life necessities, from an operator, owner, or crewmember of a vessel to which the observer is assigned;

(5) failure to report known criminal behavior or cooperate with the investigation or prosecution of criminal behavior arising from fishing operations of the vessel to which the observer is assigned;

(6) engaging in sexual relations with an employee, operator, crewmember, officer, director, agent, owner, or shareholder of the vessel or any entity with ownership of, or management authority over, the vessel to which the observer is assigned while the observer is deployed to a vessel;

(7) repealed 7/21/99;

(8) exhibiting poor judgment or unprofessional behavior that interferes with the observer's ability to perform assigned tasks or results in a breach of confidentiality, lack of observer coverage, or other actions detrimental to the observer program.

(k) A certified onboard observer may be demoted to trainee status for failure to satisfactorily perform assigned tasks specified by the department.

(l) The department shall notify an observer in writing of its intent to revoke a certification or to demote a certified onboard observer to trainee status. Notice may be served by personal delivery or by sending the notice by certified mail, return receipt requested. The department may revoke the certification or may demote a certified onboard observer to trainee status if, within 45 days after serving or sending the notice, the department does not receive a written objection from the observer that specifies the reasons why revocation or demotion should not occur.

(m) If the department receives an objection under (l) or (n) of this section, the commissioner, or the commissioner's designee, shall conduct an investigation and review, and may hold a hearing on the matter. If a designee conducts the investigation and review, or holds a hearing, the designee shall recommend action to the commissioner. Until the commissioner's decision under this subsection, the observer may act under the terms of the certification. If the commissioner determines that one or more of the grounds for revocation of the certification have been met, the commissioner may revoke the certification. If the commissioner determines that one or more of the grounds for demotion have been met, the commissioner may demote the onboard observer to trainee status. The commissioner's determination under this subsection is the final administrative action.

(n) If the commissioner determines that the performance of an onboard observer creates an immediate, substantial threat to the orderly conduct of the fishery or the conservation of fishery resources, the commissioner, upon notice to the observer, without first conducting a hearing, may suspend the certification or may demote the observer to trainee status. If a certification is suspended or if an observer is demoted to trainee status under this subsection, the commissioner shall notify the observer, in writing, and specify the grounds for the immediate suspension or demotion. The observer may submit a written objection to the department's action that specifies the reasons why the

certification should not be suspended or why the demotion should not occur. If an objection is not received within 45 days after the date that the notice was mailed or served by personal delivery, the commissioner shall notify the observer that the certification is revoked or that the observer is retained on trainee status, subject to (b) - (h) of this section, as the final administrative determination. Notice under this subsection may be served by personal delivery or certified mail, return receipt requested, to the observer's last known address. If a timely objection is received, the provisions of (m) of this section apply. The suspension or demotion terminates, and the observer is returned to certified observer status, if, within 90 days after the department's receipt of an objection, the commissioner

(1) makes the final administrative determination to return the observer to certified observer status;

(2) fails to provide notice of the revocation or demotion under this section; or

(3) fails to make a final determination under (m) of this section that revokes the certification or demotes the observer to trainee status.

(o) Repealed 12/26/97.

(p) In this section,

(1) "briefing" means a meeting between the department and an observer in which the upcoming observer trip is discussed;

(2) "debriefing" means a meeting between the department and

(A) an observer in which the observer's collected data are reviewed;

(B) a trainee observer to determine if the trainee will be granted certification status under (f) of this section;

(3) "trainee" means a person who holds a crab or scallop onboard observer trainee permit and is a candidate to be a certified crab or scallop onboard observer.

**5 AAC 39.144. Onboard observer independent contracting agent certification and decertification.** (a) To become certified or to renew certification as an independent contracting agent authorized to provide onboard observers, an applicant must meet the requirements of this section. The department shall issue or renew an independent contracting agent certificate only after

(1) the applicant has completed a written application on a form provided by the department; in this application the applicant shall

(A) verify that the applicant is familiar with the requirements of 5 AAC 39.141 - 5 AAC 39.143, 5 AAC 39.146, 5 AAC 39.645, 5 AAC 39.646, and this section for onboard observers and contracting agents;

## GENERAL PROVISIONS

(B) acknowledge that the applicant's certification as an independent contracting agent will be subject to revocation by the commissioner at any time under the procedures set out in (e) - (j) of this section;

(C) designate an agent in this state for service of process;

(D) provide a current mailing address, daytime business phone number, and a contact or message phone number;

(E) provide all other information requested by the department to assist the department in administration, management, or enforcement of its onboard observer program or certification of onboard observer independent contracting agents;

(F) verify that the applicant is not precluded from certification under (i) of this section;

(2) the applicant has completed a written conflict-of-interest statement on a form provided by the department;

(3) the department has reviewed the application and the conflict-of-interest statement submitted under this section and has determined that the application is complete and that no conflict of interest appears to exist under 5 AAC 39.142;

(4) the department has determined that certification is not precluded under (i) of this section.

(b) An independent contracting agent's certification expires on December 31 of the year it was issued unless a certification renewal application is received by the department before December 31 of that year, or unless the certification has been previously canceled or revoked under this section. The department shall renew a certification if a completed certification renewal application is timely received by the department and no revocation proceedings are pending against the contracting agent on the date the certification would expire or the application is received, and the department has determined that the applicant meets the requirements of this section.

(c) A certified independent contracting agent shall submit a new conflict-of-interest statement to the department

(1) within 30 days after any event that would change any information provided in the contracting agent's most recent conflict-of-interest statement;

(2) when submitting a certification renewal application described in (b) of this section; or

(3) at any time upon request by the department.

(d) The commissioner may revoke an independent contracting agent's certification as provided in (e) - (h) of this section. If revocation proceedings are pending on the date the certification would expire under (b) of this section, and if a certification renewal

application has been received by the department, the certification will not expire on that date, but is suspended until the conclusion of the revocation proceedings. If a certification renewal application is received by the department before the contracting agent's certification would expire under (b) of this section and revocation proceedings begin after the certification has been renewed, the contracting agent may continue to operate under its existing certification until the conclusion of the revocation proceedings, unless a suspension has occurred under (g) of this section.

(e) An independent contracting agent's certification may be revoked for any of the following reasons:

(1) violation of conflict-of-interest standards in 5 AAC 39.142(b) by the contracting agent;

(2) failure to require employees to follow conflict-of-interest standards;

(3) a substantial violation of the requirements of 5 AAC 39.141, 5 AAC 39.143, 5 AAC 39.146, 5 AAC 39.645, 5 AAC 39.646, and this section;

(4) any other violation of the requirements of 5 AAC 39.141 - 5 AAC 39.143, 5 AAC 39.146, 5 AAC 39.645, 5 AAC 39.646, and this section that is not described in (1) and (3) that is not cured within a reasonable time specified by the department after the department has notified the contracting agent, in writing, of the violation;

(5) failure to respond, within the time specified by the department, to a request from the department for information, unless within the specified time the contracting agent demonstrates to the department that the request is unreasonable;

(6) failure to maintain an effective means of communication between the contracting agent and the department;

(7) failure to report known violations of conflict-of-interest standards or known attempts to violate conflict-of-interest standards;

(8) failure to report known criminal behavior by an observer or criminal behavior arising from fishing operations of the fishing vessel to which the contracting agent has assigned an observer;

(9) failure to cooperate with investigation or prosecution of an observer employed by the contracting agent or a fishing vessel for which the contracting agent has provided an observer.

(f) The commissioner shall notify an independent contracting agent, in writing, of its intent to revoke the contracting agent's certification. Notice under this subsection may be served by personal delivery or by sending the notice by certified mail, return receipt requested, to the contracting agent or to the agent's designee for service of process in this state. The commissioner may revoke the certification without further proceedings if, within 45 days after the date that the notice was mailed or served by personal delivery,

the department does not receive a written objection from the contracting agent that specifies the reasons why the revocation should not occur.

(g) If the commissioner determines that the performance of an independent contracting agent creates an immediate, substantial threat to the orderly conduct of the fishery or the conservation of fishery resources, the commissioner, upon notice to the contracting agent, without first conducting a hearing, may suspend the certification. If a certification is suspended under this subsection, the commissioner shall notify the contracting agent in writing and specify the grounds for immediate suspension. The contracting agent may submit a written objection to the department's action that specifies the reasons why the revocation should not occur. If an objection is not received within 45 days after the date that the notice was mailed or served by personal delivery, the commissioner shall notify the contracting agent that the certification is revoked, subject to (a) - (c) and (i) of this section, as the final administrative determination. Notice under this subsection may be served by personal delivery or certified mail, return receipt requested, to the contracting agent or to the agent's designee for service of process in this state. If a timely objection is received, the provisions of (h) of this section apply. The suspension terminates within 90 days after the department's receipt of an objection, if the commissioner

(1) makes the final administrative determination to withdraw the suspension; or

(2) fails to make a final determination under (h) of this section.

(h) If the department receives a timely objection under (f) or (g) of this section, the commissioner, or the commissioner's designee, shall conduct an investigation and review and may hold a hearing on the matter. The contracting agent's certification shall remain in effect during an investigation and review unless it is suspended under (g) of this section. If a designee conducts the investigation and review or holds a hearing, the designee shall recommend action to the commissioner who may then adopt it as the final administrative determination. If the commissioner disagrees with the recommendation, the commissioner may reject the recommendation and review the record or conduct a new hearing to make a final administrative determination. If the commissioner determines that one or more of the grounds for revocation of certification have been met, the commissioner may revoke the certification. The commissioner's determination under this subsection is the final administrative action.

(i) An independent contracting agent whose certification has been revoked under this section may not apply for a new certification for a period of one year following revocation. If the contracting agent is a partnership or corporation, its partners, shareholders who hold 20 percent or more of the corporation's outstanding stock, officers, directors, any person with management authority over the activity or activities that significantly contributed to the revocation may not apply for a contracting agent certification for a period of one year following revocation.

(j) The department may cancel an independent contracting agent's certification upon the request of the contracting agent. The department, in its discretion, may proceed with revocation proceedings despite a request for cancellation from a contracting agent.

(k) The provisions of (a) - (j) of this section do not apply until April 1, 1998 to an independent contracting agent approved by the department before the effective date of this section.

**5 AAC 39.145. Escape mechanism for shellfish and groundfish pots.** Pot gear must include an escape mechanism in accordance with the following provisions:

(1) a sidewall, which may include the tunnel, of all shellfish and groundfish pots must contain an opening equal to or exceeding 18 inches in length, except that in shrimp pots the opening must be a minimum of six inches in length; the opening must be laced, sewn, or secured together by a single length of untreated, 100 percent cotton twine, no larger than 30 thread; the cotton twine may be knotted at each end only; the opening must be within six inches of the bottom of the pot and must be parallel with it; the cotton twine may not be tied or looped around the web bars; Dungeness crab pots may have the pot lid tie-down straps secured to the pot at one end by a single loop of untreated, 100 percent cotton twine, no larger than 60 thread, as a substitute for the above requirement; the pot lid must be secured so that, when the twine degrades, the lid will no longer be securely closed;

(2) all king crab, Tanner crab, shrimp, miscellaneous shellfish and groundfish pots may, instead of complying with (1) of this section, satisfy the following: a sidewall, which may include the tunnel, must contain an opening at least 18 inches in length, except that shrimp pots must contain an opening at least six inches in length; the opening must be laced, sewn, or secured together by a single length of treated or untreated twine, no larger than 36 thread; a galvanic timed release (GTR) device, designed to release in no more than 30 days in salt water, must be integral to the length of twine so that, when the device releases, the twine will no longer secure or obstruct the opening of the pot; the twine may be knotted only at each end and at the attachment points on the galvanic timed release device; the opening must be within six inches of the bottom of the pot and must be parallel with it; the twine may not be tied or looped around the web bars;

(3) in an area open to commercial, personal use, sport, or subsistence fishing with pot gear, including a pot storage area, a registered commercial fishing vessel or a vessel used for personal use, sport, or subsistence fishing may not have on board the vessel or in the water, in fishing or stored condition, any groundfish or shellfish pot gear that does not have an opening or rigging as specified in this section;

(4) all commercial, subsistence, personal use, and sport shellfish pots constructed with rigid mesh must have at least one opening in a sidewall of the pot which may include the tunnel, except Dungeness crab pots that have a pot lid tie-down that complies with (1) of this section; the opening in a king crab or Tanner crab pot must be equal to or exceed a 12-inch by 8-inch rectangle; the opening in a Dungeness crab pot must be equal to or exceed a 10-inch by 6-inch rectangle; the lower long edge of the opening must be parallel to, and within six inches of, the bottom of the pot; the opening in a shrimp pot must be equal to or exceed a four-inch square; the lower edge of the opening must be parallel to, and within six inches of, the bottom of the pot; the opening may be covered with a single panel secured to the pot with no more than four single loops of untreated, 100 percent cotton twine, no larger than 30 thread; each single loop of cotton twine may contain only one knot and may not be laced along the opening; the panel must be attached

to the pot in a manner that when the cotton twine degrades the panel will drop away from the pot exposing the opening completely;

(5) all commercial, subsistence, personal use, and sport collapsible groundfish pots, commonly known as slinky pots, must contain two openings in the mesh with each equal to or exceeding 18 inches in length; the openings must each be laced, sewn, or secured together by a single length of untreated, 100 percent cotton twine not larger than 30 thread; the cotton twine may be knotted at each end only; the openings must be on opposite sides of the pot; if placed on the tunnel side the opening must be in an area that does not include the door opening, within six inches of the edge of the pot.

**5 AAC 39.146. Onboard observer briefing and debriefing.** (a) An onboard observer shall attend a briefing before deployment on the observer's assigned vessel. An observer shall bring to the observer's briefing all equipment that is specified, in writing, by the department.

(b) An onboard observer shall immediately notify the department of the observer's departure from the assigned vessel. After departure, an observer shall return directly to the department office responsible for management of the fishery that the observer's assigned vessel participated in for a debriefing, unless the observer contacts the department for authorization to do otherwise.

(c) An onboard observer shall be briefed and debriefed only at the department office responsible for management of the fishery that the observer's assigned vessel participates in, unless the department authorizes a different department office. The observer's independent contracting agent shall schedule briefings and debriefings with the department at least 48 hours in advance.

(d) If an onboard observer's vessel returns to any port for any reason, the observer shall contact the department immediately and be prepared to provide all of the observer's data and deployment information to the department. The department may schedule a midtrip debriefing, which will allow a preliminary data check and provide the department an opportunity to resolve sampling problems or answer observer questions.

(e) Trainee observers shall be fully briefed and debriefed for each individual fishery they observe prior to observing any subsequent fisheries. Observers holding a current certification with the department may be briefed and debriefed for multiple fisheries with prior authorization, at the discretion of the department.

**5 AAC 39.163. Bottom Trawl Fisheries Management Plan.** (a) The Board of Fisheries and the Department of Fish and Game are concerned about the bycatch of fish, particularly crab and halibut, by nonpelagic trawl gear used to harvest bottomfish. King and Tanner crab populations in most areas of the state are either depressed or declining and are in need of protection from human-induced mortality if they are to be allowed to rebuild to levels that will allow future harvests. Halibut populations, while high, are fully utilized in directed fisheries, and any additional harvest by nondirected fisheries may increase exploitation rates above those used to maintain a sustained harvest level. There is an indication that nonpelagic trawl gear may, at certain times and in certain locations, inflict unacceptable mortalities on these nondirected species. Since there is not, at this

time, enough data available to quantify the effects of nonpelagic trawl fisheries on nondirected species, the board adopts the Bottom Trawl Fisheries Management Plan as a means of ensuring that the data can be obtained.

(b) The Board of Fisheries finds that in fisheries operating nonpelagic trawls, onboard observers provide the only effective means of collecting information essential to managing the resource. These fisheries generally harvest large numbers of prohibited finfish and shellfish that cannot be legally retained. Since a large portion of the prohibited species taken will be killed or seriously damaged in the trawl, avoidance of prohibited species is essential to conservation and wise use of the resource. Without onboard observers, scientifically reliable data on prohibited species catch and related biological information cannot be developed. In the absence of a reliable database, the department cannot effect time and area restrictions or set nonpelagic trawl catch quotas to provide protection for prohibited species.

(c) Based on findings that onboard observers provide the only way to establish reasonable resource protection measures in managing certain nonpelagic trawl fisheries, and consistent with 5 AAC 39.141 and AS 16.05.251(a)(12), a vessel may not operate nonpelagic trawl gear in waters specified in 5 AAC 39.164(a) without an onboard observer present. Because no management alternatives exist, other than disallowing operation of such vessels and gear, all costs associated with the observer are determined to be an attendant fishing-related cost and must therefore be borne by the vessel owner or operator on board whose vessel the observer serves.

(d) When sufficient reliable data has been collected to determine times and locations where nonpelagic trawl gear can be operated without significant detrimental impact on prohibited species, the limitations in this section and 5 AAC 39.164 will be appropriately modified.

**5 AAC 39.164. Nonpelagic trawl gear restrictions.** (a) Nonpelagic trawl gear may be operated in all waters of Tanner crab Registration Area J (5 AAC 35.500) only if, as may be required under 5 AAC 39.163(c), an onboard observer is present on the vessel when gear is being operated, only under the conditions of a permit issued by the commissioner, and only in locations and during periods not otherwise closed to nonpelagic trawling under (b) or (c) of this section. The permit

(1) must specify the locations and times when nonpelagic trawl gear may be operated;

(2) may restrict the amount of fish and shellfish that may be harvested within a specified location; and

(3) must be obtained in person at a department office located within the statistical area.

(b) Nonpelagic trawl gear may not be operated in waters of Alaska as follows:

(1) the waters of Alaska in the Kodiak groundfish registration area described in 5 AAC 28.400;

(2) repealed 7/2/99;

(3) in waters of the Chignik groundfish registration area described in 5 AAC 28.500, and in that portion of the South Alaska Peninsula groundfish registration area described in 5 AAC 28.550 between a line extending from the southernmost tip of Kupreanof Point at 55° 33.98' N. lat., 159° 35.88' W. long., to a point offshore at 53° 40.46' N. lat., 156° 20.22' W. long. and the longitude of Scotch Cap Light at 164° 44.72' W. long., except the waters

(A) in the area enclosed by 55° 14' N. lat., 55° 34' N. lat., 159° 20' W. long., and 160° 04' W. long.;

(B) of Alaska around Sanak and Caton Islands north of 54° 22.80' N. lat. and east of 162° 41.83' W. long.;

(4) in the following waters of king crab Registration Area O (5 AAC 34.600) from January 1 through December 31:

(A) Akutan Bay closure, all waters of Akutan Bay south of a line from Akun Head (54° 18' N. lat., 165° 38' W. long.) to North Head (54° 13.50' N. lat., 165° 56' W. long.), and north of 54° 08' N. lat.;

(B) Unalaska Bay closure, all waters of Unalaska Bay enclosed by a line from Cape Cheerful (54° 01' N. lat., 166° 40' W. long.) to Cape Kalekta (54° 00.50' N. lat., 166° 22.50' W. long.);

(C) Makushin Bay closure, all waters of Makushin Bay enclosed by a line from Cape Kovrizhka (53° 51' N. lat., 167° 09.50' W. long.) to Cape Idak (53° 31.33' N. lat., 167° 48' W. long.) to Konets Head (53° 19' N. lat., 167° 51' W. long.);

(D) Inanudak Bay closure, all waters of Inanudak Bay enclosed by a line from Cape Aslik (53° 25' N. lat., 168° 24.50' W. long.) to Cape Illmalianuk (53° 16.50' N. lat., 168° 36' W. long.);

(E) Akun Bay closure, all waters of Akun Bay enclosed by a line from Billings Head (54° 17.50' N. lat., 165° 28.50' W. long.) to 54° 13' N. lat., 165° 24.50' W. long. on the opposite shore;

(F) Beaver Inlet closure, all waters of Beaver Inlet south of a line from Brundage Head (53° 56' N. lat., 166° 12.50' W. long.) to Cape Sedanka (53° 50.50' N. lat., 166° 05.33' W. long.) and north of 53° 42' N. lat.;

(5) the department shall close, by emergency order, waters of king crab Registration Area T (5 AAC 34.800) in a manner that matches closures of the exclusive economic zone made by the federal government;

(6) repealed 2/22/2015:

(7) repealed 4/24/2009;

(8) the St. Lawrence Island Habitat Conservation Area as described in 50 C.F.R. Part 679, Table 45, as revised as of August 25, 2008;

(9) the Northern Bering Sea Research Area as described in 50 C.F.R. Part 679, Table 43, as revised as of August 25, 2008;

(10) the Nunivak Island, Etolin Strait, and Kuskokwim Bay Habitat Conservation Area as described in 50 C.F.R. Part 679, Table 44, as revised as of August 25, 2008;

(11) the waters of Alaska of the Bering Sea east of 162° W. long.

(c) Repealed 7/21/99.

**5 AAC 39.165. Trawl gear unlawful.** A person may not use any type of trawl gear for any commercial fishing purposes in the following locations:

(1) waters of Prince William Sound enclosed by a line from Point Whitshed to Point Bentinck, and a line from Cape Hinchinbrook Light at 60° 14.25' N. lat., 146° 38.80' W. long. to Seal Rocks Light at 60° 09.78' N. lat., 146° 50.30' W. long. to Zaikof Point at 60° 18.48' N. lat., 146° 55.10' W. long., and from a point at 60° 11.00' N. lat., 147° 20.00' W. long. on the northwest side of Montague Island, north to a point at 60° 30.00' N. lat., 147° 20.00' W. long., then east to a point at 60° 30.00' N. lat., 147° W. long., then northeast to Knowles Head at 60° 41.00' N. lat., 146° 37.50' W. long.;

(2) the waters east of a line from Porcupine Point at 60° 44.60' N. lat., 146° 42.10' W. long. in Port Fidalgo to the southernmost tip of Bligh Island at 60° 48.30' N. lat., 146° 47.90' W. long. to the northernmost tip of Bligh Island at 60° 52.90' N. lat., 146° 46.00' W. long. to Rocky Point at 60° 57.00' N. lat., 146° 46.20' W. long.;

(3) the state waters of Bristol Bay, described in 5 AAC 06.100;

(4) Karluk River Closure: all waters of Alaska in the Kodiak Area that are approximately three miles on either side of the mouth of the Karluk River bounded on the north by a line from 57° 36.26' N. lat., 154° 23.73' W. long., to a point at the state waters boundary at 57° 38.51' N. lat., 154° 27.92' W. long., and bounded on the south by a line from 57° 32.34' N. lat., 154° 32.15' W. long., to a point at the state waters boundary at 57° 34.84' N. lat., 154° 36.80' W. long.

**5 AAC 39.167. Commercial fishing gear prohibited in waters of Alaska surrounding essential fish habitat areas.** In the waters of Alaska surrounding essential fish habitat areas, as defined in 50 C.F.R. 679.22, as revised as of August 25, 2008, during state managed fisheries, the following commercial fishing gear is prohibited as follows:

(1) the Aleutian Islands Coral Habitat Protection Area is closed to nonpelagic trawl, scallop dredge, dinglebar troll, pot, and longline gear;

(2) the Aleutian Islands Habitat Conservation Area is closed to nonpelagic trawl gear;

(3) the Bowers Ridge Habitat Conservation Zone is closed to nonpelagic trawl, scallop dredge, and dinglebar troll gear;

(4) the Gulf of Alaska Coral Habitat Protection Areas are closed to nonpelagic trawl, scallop dredge, dinglebar troll, pot, and longline gear;

(5) the Alaska Seamount Habitat Protection Areas are closed to nonpelagic trawl, scallop dredge, dinglebar troll, pot, and longline gear.

**5 AAC 39.185. Policy on closures due to illegal fishing.** (a) Some fisheries have had a documented history of illegal commercial fishing dating back to 1968. Enforcement efforts by the Department of Public Safety have been largely ineffective in controlling this recurring problem on a long-term basis. The Board recognizes the difficulty of enforcement in some areas of the state and although the current regulations are sufficient to protect fish stocks, they may be ineffective due to special enforcement problems.

(b) In the interest of the conservation of valuable renewable fish resources, the Board of Fisheries directs the commissioner, or his authorized designee, to take the following actions given the specified circumstances. If illegal fishing activities develop to the point that regulations pertaining to protection of fish stocks become ineffective, the commissioner shall consider closing the affected fishery by emergency order for a period of up to one week. When the fishery reopens and illegal fishing continues to be a problem, the appropriate fishery may be closed for an additional period of time. Continued violations may result in additional closures of the fishery.

**5 AAC 39.195. Announcement of emergency orders.** Announcement of emergency orders will be publicized and made known to interested persons, fishermen, buyers, packers, and canneries by one or more of the following means, if possible:

- (1) radio transmission by department stations;
- (2) notices posted at canneries and public places;
- (3) press releases and announcements in
  - (A) the department's website;
  - (B) local newspapers; and
  - (C) commercial radio stations;
- (4) telephone message hotline;
- (5) electronic mail;
- (6) facsimile transmission;

(7) other appropriate public notification media.

**5 AAC 39.197. Unlawful possession of fish.** No person may possess, purchase, sell, barter or transport fish within the state or within water subject to the jurisdiction of the state if that person knows or has reason to know that fish were taken or possessed in contravention of 5 AAC 03 - 5 AAC 39.

**5 AAC 39.200. Application of fishery management plans.** (a) The Board of Fisheries has implemented by regulation fishery management plans that provide the Department of Fish and Game with guidelines to be followed when making management decisions regarding the state's subsistence, commercial, sport and personal use fisheries. The primary goal of these management plans is to protect the sustained yield of the state's fishery resources while at the same time providing an equitable distribution of the available harvest between various users. The regulations contained in this section are intended to aid in the achievement of that goal and therefore will apply to all fishery management plans contained in 5 AAC 03 - 5 AAC 39.

(b) In some fishery management plans, the distribution of harvestable fish between various users is determined by the harvest that occurs during a specific time period, at a specific location or by a specific group or groups of users. At times fishermen, due to circumstances that are beyond the control of the department, such as weather or price disputes, will not harvest fish. When this happens in a fishery governed by a management plan, the goals of that plan may not be achieved. Therefore, when a fishery is open to the taking of fish and the group or groups of users whose catch determines the distribution of the harvest as set out in the applicable management plan is not taking the harvestable fish available to them, the department shall manage the fishery as if the available harvest is being taken. When determining the available harvest, the department shall consider the number of fish needed to meet spawning requirements, the number of fish present in the fishery and in spawning areas that are in excess of spawning requirements and the estimated harvesting capacity of the group or groups of users that would normally participate in the fishery.

**5 AAC 39.205. Criteria for the allocation of fishery resources among personal use, sport, and commercial fisheries.** Before adopting regulations that allocate fish among personal use, sport, and commercial fisheries, the board will, as appropriate to particular allocation decisions, consider factors such as those set out in AS 16.05.251(e).

## Article 6. Shellfish Fishery.

### 5 AAC 39.645. Shellfish onboard observer program

(a) The Board of Fisheries (board) finds that onboard observers provide the only effective means of collecting essential biological and management data from catcher-processor and floating processor vessels that process shellfish, and from an adequate number of catcher vessels that take shellfish in the commercial fisheries described in (d) of this section. These data are necessary to achieve the requirements set out in 16 U.S.C. 1801-1883 (Magnuson-Stevens Act) and the federal Fisheries Management Plan for Bering Sea/Aleutian Islands King and Tanner Crab, dated July 18, 1998, including the sustained yield of the shellfish resource without overfishing. The department has

traditionally collected essential biological and management data at the point of shoreside landing immediately before processing. The evolution to processing by catcher-processor and floating processor vessels in particular fisheries, and the lack of an adequate number of catcher-processor vessels in particular Bering Sea and Aleutian Islands crab fisheries that are required by this section to have an onboard observer on board the vessel, has seriously eroded the department's ability to adequately monitor harvests, assess the amount and type of bycatch occurring in the fisheries, and collect biological data for inseason management. Onboard observers are the only practical data-gathering mechanism for these fisheries without unduly disrupting the operation of these fisheries.

(b) Further, the board finds that, in particular shellfish fisheries, onboard observers provide the only effective means to enforce regulations that protect the shellfish resource. The board finds that catcher-processor catch statistics have clearly demonstrated that some operators of these vessels have routinely failed to comply with king and Tanner crab size limit regulations. Without onboard observer coverage, sublegal and female crab might be taken and processed immediately, making enforcement of size and sex regulations impossible.

(c) The cost of providing these onboard observers for catcher vessels and at-sea processors in the commercial Bering Sea and Aleutian Islands registration areas crab and special permit fisheries, excluding the Norton Sound and Kotzebue Sound Sections, will be borne by the department through the harvest and sale of crab or will be borne directly by the vessel. The costs of the observer requirements for catcher-processor vessels that retain processed crab after the close of a fishery, under 5 AAC 34.031(e)(4) and 5 AAC 35.031(c)(4), shall be borne by the vessel. In those cases, the cost for the department-approved observer shall be borne by the vessel. The department will have full authority and responsibility for deploying onboard observers on any vessel participating in the commercial Bering Sea and Aleutian Islands Area crab fisheries, or any fisheries conducted under a commissioner's permit, as necessary for fishery management and data-gathering needs. No acceptable management alternatives exist other than disallowing operation of a vessel that is required, but refuses to cooperate with an onboard observer program. The onboard observer program set out in this section is compatible with and complementary to the existing observer programs of other agencies.

(d) Based on the findings in (a) - (c) of this section, the department shall institute a mandatory onboard observer program, as follows:

(1) for all vessels that process Tanner crab, red king crab, blue king crab, or golden king crab, a department approved crab fishery onboard observer must be on board the vessel and acting in the capacity of a crab fishery onboard observer for 100 percent of the time that the vessel is acting in the capacity of a catcher-processor or a floating processor;

(2) the department shall require onboard observers for an adequate number of catcher vessels, or during the harvest of a percentage of the total harvest weight of each catcher vessel, participating in the rationalized Bering Sea/Aleutian Islands commercial crab fisheries harvesting IFQ, CDQ, or the Adak community allocation;

(3) the Bering Sea/Aleutian Islands rationalized crab fisheries where IFQ, CDQ, or the Adak community allocation are established include

## GENERAL PROVISIONS

(A) Registration Area O (Aleutian Islands) golden king crab, Registration Area O red king crab (west of 179° W. long.), Registration Area T (Bristol Bay) red king crab, Registration Area Q (Bering Sea) Pribilof District red and blue king crab, Registration Area Q St. Matthew Island Section of the Northern District blue king crab; and

(B) Registration Area J (Westward), Bering Sea District C. opilio (snow crab) and C. bairdi Tanner crab, excluding the Norton Sound Section;

(4) to meet catcher vessel observer coverage requirements, a department approved crab fishery onboard observer must be on board the catcher vessel and acting in the capacity of a crab onboard observer in the following registration areas during the following prescribed time periods:

(A) for Registration Area O (Aleutian Islands),

(i) during harvest of 100 percent of the total red king crab weight harvested by each catcher vessel while operating fishing gear west of 179° W. long., during each registration year;

(ii) repealed 6/17/2018;

(iii) repealed 6/17/2018;

(iv) during harvest of 50 percent of the total golden king crab weight harvested by each catcher vessel while operating fishing gear east of 174° W. long., during each of three trimesters dated August 1 through October 31, November 1 through January 31, and February 1 through April 30, during each registration year; and

(v) during harvest of 50 percent of the total golden king crab weight harvested by each catcher vessel while operating fishing gear west of 174° W. long., during each of three trimesters dated August 1 through October 31, November 1 through January 31, and February 1 through April 30, during each registration year;

(B) for Registration Area Q (Bering Sea),

(i) during harvest of 100 percent of the total red and blue king crab weight harvested by each catcher vessel while operating fishing gear in the Pribilof District, during each registration year; and

(ii) during harvest of 100 percent of the total blue king crab weight harvested by each catcher vessel while operating fishing gear in the St. Matthew Island Section of the Northern District, during each registration year;

(C) for Registration Area T (Bristol Bay), during harvest of 20 percent of the total red king crab weight harvested by each catcher vessel while operating fishing gear, during each registration year, or the department may randomly select 20 percent of the catcher vessels harvesting Bristol Bay red king crab to carry onboard observers for 100 percent of the fishing time of each selected catcher vessel;

(D) for Tanner crab Registration Area J (Westward), Bering Sea District,

(i) during harvest of 30 percent of the total *C. opilio* (snow crab) weight harvested by each catcher vessel while operating fishing gear, during each registration year, or during a period when the department randomly selects between 30 percent and 100 percent of the catcher vessels harvesting Bering Sea *C. opilio* (snow crab) to carry onboard observers for 100 percent of the fishing time of each selected catcher vessel; and

(ii) during harvest of 30 percent of the total *C. bairdi* Tanner crab weight harvested on each catcher vessel while operating fishing gear during each registration year or during a period when the department randomly selects between 30 percent and 100 percent of the catcher vessels engaged in directed harvest of *C. bairdi* Tanner crab to carry onboard observers for 100 percent of the fishing time of each selected catcher vessel, unless a catcher vessel harvests *C. bairdi* Tanner crab as incidental catch during directed fishing for either Bristol Bay red king crab or Bering Sea snow crab, where observer coverage requirements for those directed fisheries would apply to the Tanner crab incidental harvest;

(5) onboard observers are required for the number of catcher vessels that the department determines are adequate to participate in the non-IFQ, non-CDQ, or non-Adak community allocation commercial crab fisheries that take shellfish in the following Bering Sea/Aleutian Islands shellfish fisheries:

(A) Registration Area O (Aleutian Islands), red king crab fishery east of 179° W. long.;

(B) Registration Area J (Eastern Aleutian and Western Aleutian Districts), Tanner crab fishery;

(C) Registration Area J (Westward), hair crab, snails, or other miscellaneous shellfish commercial fisheries that require a permit issued by the commissioner under 5 AAC 38.062;

(6) for vessels that take red or blue king crab in the Norton Sound Section of Registration Area Q, the department may require onboard observers on selected vessels;

(7) for vessels that take red or blue king crab in the Kotzebue Sound Section of Registration Area Q, the department may require onboard observers on selected vessels;

(8) the department may waive the onboard observer requirement for a vessel that processes crab at a place where a department sampler is located, if the sampler has reasonable access to the vessel and if the vessel is tied to a dock; all other vessel requirements remain in effect; the department may also waive the onboard observer requirement when an observer is taken ill or is injured while on board the vessel and is unable to function, or when in the judgment of the department the observer is unavailable despite the good faith effort of the vessel operator and for a reason that is beyond the control of the vessel operator; a request for a waiver and all supporting documentation must be submitted in writing;

(9) the department may place a representative of the department on board a processing vessel to perform tank inspections, or to verify the performance of an observer, without waiving the observer requirement.

(e) In addition to the permit requirements in 5 AAC 34.055 and 5 AAC 35.055, the permit for a vessel that participates in a Tanner crab, red king crab, blue king crab, or golden king crab fishery must require that an observer, approved by the department, be briefed by the department for the fishery in which the vessel participates and that the observer be on board the vessel before the vessel obtains a tank inspection, before the vessel takes crab, and before the start of and during all processing operations, except for when a vessel has checked out of a fishery under 5 AAC 39.670(c)(3)(G) and has notified the department of its intent to deploy gear consistent with 5 AAC 39.670(c)(3)(E). For the purposes of 5 AAC 34.055, 5 AAC 35.055, and 5 AAC 39.140, the observer is a representative of the department. All information collected by the observer is confidential property of the department. The department shall develop guidelines for approval of observers, including training requirements, conflict-of-interests standards, data collection schedules and standards, record keeping and reporting requirements, and other criteria needed to ensure accurate and objective reporting.

(f) Based on the findings in this section, it is the board's intent that a credible, fair, and enforceable observer program be implemented before the September 25, 1988 opening of the Bristol Bay red king crab fishery. Information gathered in this observer program is intended to promote both conservation and enforcement.

(g) Repealed 12/26/97.

(h) An employee or crewmember of a commercial crab catcher-processor, crab floating processor, crab catcher vessel, or scallop vessel may not be employed as a shellfish onboard observer for 12 consecutive months after the person's last day of employment on the crab catcher-processor, crab floating processor, crab catcher vessel or scallop vessel.

(i) When a vessel is required to carry an onboard observer, the vessel owner, owner's agent, or operator shall

(1) contract and pay for onboard observers through an independent contracting agent, unless the onboard observer is provided by the department;

(2) provide at least 48 hours advance notice to the contracting agent of an observer's arrival at a department area office for debriefing;

(3) when carrying an observer trainee and within sufficient time to allow for debriefing before expiration of the trainee permit, ensure that the trainee is returned to the port where the department office responsible for management of the fishery the observer's assigned vessel participates in;

(4) provide adequate food and accommodations for the observer equal to those provided for the vessel's crew;

## GENERAL PROVISIONS

- (5) provide to the observer daily catch information, including areas fished, number and pounds of shellfish landed, number of pots pulled by registration area, and other information specified by the department;
  - (6) provide a safe work area, necessary gear, opportunity, and sufficient time to allow the observer to adequately sample catch as specified by the department;
  - (7) ensure that the transfer of an observer between vessels is conducted in a timely manner, under safe conditions, and with the agreement of the observer involved;
  - (8) assure observer access to single side band (SSB) radio, fax, telex, or telephone so that catch reports from observers are received at the area management office as specified by the department;
  - (9) notify the observer before shellfish are brought on board to allow sampling, unless the observer specifically requests not to be notified;
  - (10) provide proof of compliance with current United States Coast Guard Commercial Fishing Vessel Safety Examination requirements; and
  - (11) maintain safe conditions on the vessel for the protection of observers and adhere to all U.S. Coast Guard and other applicable rules, regulations, or statutes pertaining to safe operation of the vessel.
- (j) An independent contracting agent that provides onboard observers under this section shall
- (1) employ observers in compliance with all applicable state and federal laws and provide all necessary administrative and payroll functions for the observer employees;
  - (2) secure contracts directly with vessel owners and operators in pay-as-you-go fisheries;
  - (3) repealed 6/27/2014;
  - (4) provide the department with complete and legible transcripts, resumes, and other work history documents to qualify observer candidates no less than 30 days before training;
  - (5) provide observer training to meet certification requirements contained in 5 AAC 39.143;
  - (6) provide observer sampling equipment for use during training classes and at the examinations;
  - (7) provide all logistical support for observers, including room and board, travel to and from vessels, travel to and from the department examinations, and briefings and debriefings;

(8) assign observers to vessels without regard to requests from vessel owners and operators for, or for exclusion of, a specific observer; any request for, or for exclusion of, a specific observer shall be reported to the department by the contracting agent;

(9) provide, for each observer deployment, a complete set of all necessary observer sampling equipment as specified, in writing, by the department for an observer to complete a trip assignment;

(10) provide the department no less than 48 hours advance notice of an observer's scheduled arrival at the port where the department office responsible for management of the fishery the observer's assigned vessel participates in for briefings and debriefings;

(11) schedule all observer briefing and debriefing appointments directly with the department;

(12) maintain records of observers' scheduled briefing and debriefing dates, and observers' time on board a vessel to ensure compliance with maximum trip limits for trainee observers as specified in 5 AAC 39.143(c), and fully certified observers as specified in 5 AAC 39.142(a)(8);

(13) ensure that no less than 65 percent of observer deployment days per year per contractor are performed by certified observers.

(k) Repealed 6/27/2014.

(l) When a vessel is required to carry an onboard observer, an employee, operator, crewmember, officer, director, agent, owner, or shareholder of the vessel or any entity with ownership of, or management authority over, the vessel may not

(1) impede, or interfere with an observer carrying out observer duties;

(2) interfere with or bias the sampling procedure employed by an observer, including physical or mechanical interference, or sorting or discarding of catch before sampling;

(3) tamper with, destroy, or discard an observer's collected samples, equipment, records, photographic film, papers, or personal effects without the express consent of the observer; or

(4) harass an observer by conduct that has sexual connotations, or by conduct that creates an intimidating, hostile, or offensive environment; for the purpose of this paragraph, "harass" means words, conduct, or action that being directed at the observer, annoys, alarms, or causes emotional distress in the observer.

(m) In this section, "pay-as-you-go" means the cost of the observer is paid by the vessel operator.

### **5 AAC 39.646. Shellfish onboard observer trainee program qualifications and requirements**

(a) To qualify as a crab onboard observer trainee, an applicant must have one of the following:

(1) a Bachelor degree or higher from an accredited college or university with a major in the sciences of biology, any branch of biology, or limnology that includes a minimum of 30 semester hours in applicable biological sciences with use of dichotomous keys in at least one course, and the successful completion of at least one course each in mathematics and statistics with a minimum of five semester hours total for both; or

(2) a valid National Marine Fisheries Service observer certification; or

(3) other fisheries related education or work experience approved by the department.

(b) A crab or scallop onboard observer trainee must

(1) have the ability to use a radio for communications; and

(2) be physically able to carry out the duties of an observer and not be incapacitated by chronic or debilitating seasickness.

(c) Before an applicant may take the certification examination, the applicant must attend a training course approved by the department that provides instruction in the following subject areas:

(1) identification of the species and sex of all shellfish species commercially fished in waters under the jurisdiction of the state;

(2) how to accurately read a vernier caliper and properly measure shellfish species, and to use a fixed measuring gauge to determine legal size shellfish;

(3) organizational structure of the shellfish regulations in this title and ability to reference appropriate regulations as required;

(4) use of a radio for communications;

(5) identification of Pacific cod, halibut, sablefish, and other fish species commonly caught as bycatch;

(6) department sampling procedures;

(7) performance of observer duties similar to those performed while on board a vessel.

(d) In addition to the requirements in (a) of this section, to qualify as a scallop onboard observer trainee, an applicant must possess a valid department crab observer trainee

permit or crab observer certification in good standing, except that, if an applicant with a valid department crab observer trainee permit or crab observer certification in good standing is unavailable, a valid National Marine Fisheries Service North Pacific Groundfish Observer Program certification may be substituted at the discretion of the department.

**5 AAC 39.670. Bering Sea/Aleutian Islands Individual Fishing Quota (IFQ) Crab Fisheries Management Plan** (a) This management plan applies to the management of the nine crab fisheries rationalized by the National Marine Fisheries Service (NMFS), including the Community Development Quota and the Adak community allocation, with management authority deferred to the Department of Fish and Game as referenced in the Fishery Management Plan for Bering Sea/Aleutian Islands King and Tanner Crabs.

(b) The following fisheries are covered under the management plan in this section:

- (1) Bristol Bay red king crab (BBR);
- (2) Aleutian Islands red king crab (west of 179° W. long.) (WAI);
- (3) Aleutian Islands golden king crab (east of 174° W. long.) (EAG);
- (4) Aleutian Islands golden king crab (west of 174° W. long.) (WAG);
- (5) Saint Matthew Island Section blue king crab (SMB);
- (6) Pribilof District red and blue king crab (PIK);
- (7) Bering Sea snow crab (BSS);
- (8) Bering Sea Tanner crab (east of 166° W. long.) (EBT);
- (9) Bering Sea Tanner crab (west of 166° W. long.) (WBT).

(c) The following provisions apply to the fisheries specified in this section:

(1) a vessel participating in an Individual Fishing Quota (IFQ), Community Development Quota (CDQ), or the Adak community allocation crab fishery must have on board the vessel an activated vessel monitoring system (VMS) approved by NMFS;

(2) a vessel operator who is registered for one of the fisheries listed in (b) of this section may

(A) authorize other vessel operators who are registered for the same fishery to operate crab pot gear registered to that vessel; before a vessel operator may operate crab pot gear registered to another vessel, the registered operator of the pot gear must file a cooperative gear authorization form with the department authorizing other vessels to operate the crab pot gear;

(B) transfer gear operation rights and responsibilities to only one other vessel operator who is registered for that fishery and only under the following conditions:

(i) both the operator of the vessel relinquishing gear operation rights and responsibilities (relinquisher) and the vessel operator receiving those rights and responsibilities (recipient) must sign a gear operation transfer form or notify the

department by electronic mail giving the effective date and time of the transfer and the number of pots being transferred;

(ii) the gear operation transfer form must also be signed by a department representative before the pot gear transfer is valid and a copy of the gear operation transfer form bearing the original signatures of both the relinquisher and recipient vessel operator must be received by the department within 30 days of the effective date of the department representative's signature; for the purposes of this subparagraph, the form must be submitted in person at the department's Dutch Harbor office, or by mail, or by facsimile; or both the relinquisher and the recipient shall notify the department by electronic mail, from the electronic mail address provided on the registration form, of the effective date and time of the transfer, and receive a reply electronic mail from the department validating the transfer within seven days of the effective date;

(iii) the transfer of gear operation rights and responsibilities must occur and be validated within 14 days of the relinquishing vessel being active in the registration area where the pot gear is located;

(iv) the pot gear transfer must include all of the pot gear registered to the relinquishing vessel and that vessel's pot gear may not be split among more than one recipient vessel;

(v) except as specified in (c)(2)(C) of this section, gear operation rights and responsibilities revert to the relinquisher at the regulatory closure of the fishery in which the gear is registered to operate;

(C) gear operation rights and responsibilities may be restored to the relinquishing vessel if the relinquisher and recipient notify the department as specified in (c)(2)(B) of this section;

(3) each crab pot deployed must bear the ADF&G number of the vessel that initially registers the crab pot, and if deployed in a fishery with a crab pot limit, each pot must bear a buoy tag registered to the vessel registering that pot; in addition,

(A) an active vessel may collectively operate and transport crab pot gear of another registered and active vessel;

(B) when a vessel transports and deploys crab pot gear to the fishing grounds for another vessel, the vessel registered with the crab pot gear must be active in the registration area where the crab pot gear is deployed within seven days of the initial deployment;

(C) repealed 8/28/2005;

(D) a vessel's crab pot gear may not be deployed unless the vessel is actively participating in harvesting the species in the applicable area, except for when a vessel has

checked out of a fishery under 5 AAC 39.670(c)(3)(G) and has notified the department of its intent to deploy gear consistent with 5 AAC 39.670(c)(3)(E);

(E) for the purposes of this paragraph, a vessel is considered active in an area by becoming validly registered with the department and by VMS verification of the vessel in the registration area;

(F) a vessel that has completed fishing operations as specified in 5 AAC 39.675(b)(1) and (2) is not considered active in a registration area;

(G) a vessel operator who is registered for one of the fisheries listed in (b) of this section must check out with the department in Dutch Harbor or Kodiak by telephone, facsimile transmission, or electronic mail within 72 hours of operating the vessel's last pot in the registration area;

(4) no provision in this section allows an individual vessel operator to use a greater quantity of crab pot gear than otherwise authorized in the applicable provisions of 5 AAC 34 or 5 AAC 35;

(5) a vessel operator may harvest EBT and BBR, or WBT and BSS, or EBT and BSS, concurrently; as follows:

(A) a vessel operator participating in the BBR fishery may retain EBT as incidental harvest as specified in 5 AAC 35.506(i)(2);

(B) a vessel operator participating in the BSS fishery may retain WBT as incidental harvest as specified in 5 AAC 35.506(i)(1);

(C) a vessel operator participating in the WBT fishery may retain BSS as incidental harvest as specified in 5 AAC 35.506(j);

(D) a vessel operator participating in the BSS fishery may retain EBT as incidental harvest as specified in 5 AAC 35.506(i)(1);

(6) a vessel operator may have a species of king or Tanner crab from an IFQ fishery and king crab from an Adak community allocation fishery or a species of king or Tanner crab from a CDQ fishery on board the vessel at the same time; a vessel operator may not have a species of king or Tanner crab from an IFQ fishery and a species of king or Tanner crab from a non-CDQ or non-IFQ fishery on board the vessel at the same time;

(7) an operator of a vessel participating in an IFQ, CDQ, or Adak community allocation crab fishery in the Bering Sea/Aleutian Islands area must notify the United States Coast Guard at least 24 hours before departing port when carrying crab pot gear;

(8) in addition to the registration requirements specified in 5 AAC 34 and 5 AAC 35, a vessel owner, or owner's agent, shall provide satisfactory proof of a current valid

United States Coast Guard Commercial Fisheries Vessel Safety Decal before a registration certificate is issued;

(9) the operator of a vessel designated at the time of registration to operate the crab pot gear of another vessel shall be considered the agent of the vessel registered to operate the crab pot gear.

**Editor's note:** The contact phone number for the United States Coast Guard for Kodiak, Alaska is (907) 654-5588; Unalaska/Dutch Harbor, Alaska is (907) 581-6738; Anchorage, Alaska is (907) 229-8203; and Kenai, Alaska is (907) 398-6220.

The gear operation transfer form specified in 5 AAC 39.670(c) (2) may be sent to the department office in Dutch Harbor at Department of Fish and Game, P.O. Box 920587, Dutch Harbor, AK 99692-0587; Fax (907) 581-1579; email: [dfg.dutchharbor@alaska.gov](mailto:dfg.dutchharbor@alaska.gov).

**5 AAC 39.675. Crab pot gear storage for Bering Sea/Aleutian Islands IFQ, CDQ, and Adak community allocation crab fisheries** (a) Notwithstanding any other provision of 5 AAC 34 - 5 AAC 35, king and Tanner crab pots may be stored outside of a designated storage area specified in 5 AAC 34.052 and 5 AAC 35.052 with all bait and bait containers removed and doors secured fully open for up to 14 days following the completion of fishing operations in a registration area. King and Tanner crab pots must be removed from the water or placed in long-term storage if left unattended for 14 days or longer. A vessel's registration is invalid after 14 days of inactivity in a registration area.

(b) For the purposes of this section, a vessel is considered to have completed fishing operations if the

(1) vessel operator contacts the department in Dutch Harbor to invalidate the vessel registration for that species and registration area within 72 hours of operating the last pot gear in the registration area;

(2) pot gear belonging to that vessel is removed from the water, placed into long-term storage, or is transferred to a recipient vessel as specified in 5 AAC 39.670(c)(2).

**5 AAC 39.685. Operation of other gear for Bering Sea/Aleutian Islands IFQ crab fisheries.** Persons and vessels participating in the Bering Sea/Aleutian Islands IFQ crab fisheries are exempt from the requirements specified in 5 AAC 34.053(1), 5 AAC 35.053(1), and 5 AAC 34.628.

**5 AAC 39.690. Bering Sea/Aleutian Islands King and Tanner Crab Community Development Quota (CDQ) Fisheries Management Plan** (a) Male red, blue, and golden king crab and male Tanner crab may be taken in a Bering Sea/Aleutian Islands CDQ fishery only under the conditions of a permit issued by the commissioner. In Registration Area O, west of 174° W. long., male golden king crab may only be taken under the conditions of a permit issued by the commissioner for the community of Adak.

## GENERAL PROVISIONS

The community of Adak golden king crab allocation will be managed under the CDQ regulations specified in this section. Female crab of these species may not be taken.

(b) In the Bering Sea/Aleutian Islands CDQ fishery,

(1) male golden king crab may only be taken in Registration Area O as described in 5 AAC 34.600 and male red king crab may only be taken in that portion of Registration Area O west of 179° W. long. as described in 5 AAC 34.600;

(2) male red king crab may be taken only in Registration Area T as described in 5 AAC 34.800, and male red and blue king crab may be taken only in Registration Area Q as described in 5 AAC 34.900; and

(3) male Tanner crab may be taken only in the Bering Sea District of Registration Area J as described in 5 AAC 35.505(e).

(c) Male king crab and male Tanner crab may be taken only with pots.

(d) Unless otherwise specified in a permit issued under (e) of this section, an operator of a vessel fishing CDQ crab allocations shall comply with all regulations in 5 AAC 34, 5 AAC 35, and 5 AAC 39 that are applicable to the area and species of crab being fished.

(e) In the permit required in (a) of this section the commissioner may, as the commissioner determines it necessary for the conservation and management of the resource,

(1) specify the species of king or Tanner crab that may be taken;

(2) specify an area or areas open to CDQ fishing operations;

(3) specify registration requirements;

(4) specify fishing periods;

(5) specify gear requirements, including the numbers of pots;

(6) designate the poundage of the federal CDQ allocation of a species of king or Tanner crab that may be taken by a CDQ group in a registration area or portion of a registration area as follows:

(A) a CDQ fishery allocation is specified in the federal Fishery Management Plan for Bering Sea/Aleutian Islands king and Tanner crab;

## GENERAL PROVISIONS

(B) in the Norton Sound Section, the department shall calculate a CDQ fishery allocation, in pounds, based on the percentage of the total anticipated harvest for the commercial fishery and the CDQ fishery, combined;

(C) the department shall calculate the poundage of king or Tanner crab, as specified in the federal CDQ allocation determination that may be taken by each CDQ group;

(D) a person operating a vessel in a CDQ fishery may not exceed the CDQ group allocation specified in this paragraph; a CDQ group that retains crab in excess of the CDQ group allocation may have quota voluntarily transferred to that CDQ group from another eligible CDQ group with excess quota no later than June 30 of the current allocation year; if a CDQ group is unable to obtain quota for the excess crab, the crab shall be weighed, sold, and reported on an ADF&G fish ticket and all proceeds from the sale of CDQ crab in excess of the group allocation shall be surrendered to the state;

(7) except in the Norton Sound Section, a CDQ fishery for a king or Tanner crab species will open and close concurrent with the IFQ fishery for that species of king or Tanner crab;

(8) require onboard observers during fishing operations;

(9) require the operator of a vessel fishing CDQ crab allocations to notify the department of fishing time, delivery time, and delivery destination;

(10) establish reporting requirements;

(11) require logbooks;

(12) establish times and areas allowed for placement and removal of gear;

(13) establish times, areas, and conditions allowed for storage of gear;

(14) set out other conditions deemed necessary by the commissioner.

(f) A permit issued under (e) of this section will be considered the registration required by 5 AAC 34.020 or 5 AAC 35.020.

(g) Notwithstanding 5 AAC 34.005 and 5 AAC 35.005, participation by a CDQ permit holder in an exclusive or superexclusive king or Tanner crab fishery does not preclude a vessel or permit holder from participation in a CDQ crab fishery.

(h) Notwithstanding 5 AAC 34.005 and 5 AAC 35.005, participation by a CDQ permit holder in a CDQ king or Tanner crab fishery does not preclude a vessel or permit holder from participation in an exclusive or superexclusive crab fishery.

(i) Except in the Norton Sound Section, a vessel participating in a CDQ crab fishery must have on board the vessel an activated vessel monitoring system (VMS) approved by the National Marine Fisheries Service.

## **Article 9. Definitions; Miscellaneous.**

### **5 AAC 39.975. Definitions**

(a) In 5 AAC 01 - 5 AAC 39,

(1) "alien" means a person who is not a citizen of the United States, and who does not have a petition for naturalization pending before the district court;

(2) "bag limit" means the maximum legal take per person per day, even if part or all of the fish are preserved;

(3) "buyer" means a person who purchases fish from the fishermen who caught the fish or who, for commercial purposes, processes fish he has caught himself;

(4) "depth of net" means the perpendicular distance between cork line and lead line expressed as either linear units of measure or as a number of meshes, including all of the web of which the net is composed;

(5) repealed 2/18/73;

(6) "gear" means any type of fishing apparatus;

(7) "inclusive season dates" means whenever the doing of an act between certain dates or from one date to another is allowed or prohibited, the period of time thereby indicated includes both dates specified; the first date specified designates the first day of the period, and the second date specified designates the last day of the period;

(8) "legal limit of fishing gear" means the maximum aggregate of a single type of fishing gear permitted to be used by one individual or boat, or combination of boats in any particular regulatory area, district or section;

(9) "local representative of the department" means the nearest, most accessible professional employee of the department, a person designated by the commissioner or by a professional employee of the department to perform a specific function for the department and a law enforcement officer of the Department of Public Safety;

(10) "salmon stream" means a stream used by salmon, at any stage of life, for spawning, rearing, presence, or migration;

(11) "stretched measure" means the average length of any series of 10 consecutive meshes measured from inside the first knot and including the last knot when wet; the 10 meshes, when being measured, shall be an integral part of the net, as hung, and measured perpendicular to the selvages; measurements shall be made by means of a metal tape

## GENERAL PROVISIONS

measure while the 10 meshes being measured are suspended vertically from a single peg or nail, under five-pound weight, except as otherwise provided in this title;

(12) repealed 6/30/79;

(13) "waters of Alaska" means the internal waters of the state including rivers, streams, lakes and ponds, the tidal zone of the state from mean higher high water to mean lower low water, and those waters extending three miles seaward of a line (the baseline) between the following points:

(A) Southeastern and Yakutat Areas:

100 southernmost tip Cape Muzon, Dall Island;

101 westernmost tip unnamed point, Dall Island (54° 39.87' N. lat., 132° 43.53' W. long.);

102 westernmost tip Wolk Point, Dall Island;

103 southernmost tip Liscome Point, Dall Island;

104 westernmost tip Point Cornwallis, Dall Island;

105 westernmost tip Security Point, Dall Island;

106 westernmost tip Parrot Point, Dall Island;

107 westernmost tip Point Bazan, Dall Island;

108 westernmost tip of westernmost unnamed island west of Dolgoi Island (54° 49.33' N. lat., 133° 00.40' W. long.);

109 westernmost tip Ritter Point, Dall Island;

110 westernmost tip Rockwell Point, Dall Island;

111 westernmost tip Cape Augustine, Dall Island;

112 westernmost tip Sakie Point, Dall Island;

113 southernmost tip Cape Felix, Suemez Island;

114 southernmost tip of southernmost island off Cape Bartolome, Baker Island;

115 westernmost tip Cape Chirikof, Baker Island;

116 southernmost tip Cape Addington, Noyes Island;

117 westernmost tip of the southernmost island of the Hazy Islands;

- 118 westernmost tip of the westernmost island of the Hazy Islands;
- 119 southernmost tip Cape Ommaney, Baranof Island;
- 120 southernmost tip Eagle Rocks, Baranof Island;
- 121 westernmost tip Puffin Point, Baranof Island;
- 122 westernmost tip Sea Lion Rocks;
- 123 56° 19.50' N. lat., 134° 54' W. long., Baranof Island;
- 124 westernmost tip First Kekur Island;
- 125 westernmost tip Second Kekur Island;
- 126 westernmost tip North Cape, Baranof Islands;
- 127 westernmost tip John Rock;
- 128 westernmost tip Jacob Rock;
- 129 westernmost tip Kaiuchali Island;
- 130 westernmost tip Cape Edgecumbe, Kruzof Island;
- 131 westernmost tip Pt. Amelia, Kruzof Island;
- 132 westernmost tip Sealion Islands;
- 133 westernmost tip Eagle Rock;
- 134 westernmost tip Klokachef Point, Klokachef Island;
- 135 westernmost tip Black Island;
- 136 westernmost tip Cape Edward;
- 137 westernmost tip Urey Rocks;
- 138 westernmost tip of westernmost rock off Cape Cross, Yakobi Island (57° 54.67' N. lat., 136° 34.33' W. long.);
- 139 westernmost tip Yakobi Rock (off Cape Bingham, Yakobi Island);
- 140 westernmost tip Zip Rock (off Cape Spencer);
- 141 westernmost tip Graves Rocks;

- 142 westernmost tip Sugarloaf Island;
- 143 westernmost tip Astrolabe Rocks;
- 144 southernmost tip Icy Point;
- 145 westernmost tip Harbor Point;
- 146 westernmost tip La Chaussee Spit;
- 147 westernmost tip Cape Fairweather;
- 148 easternmost tip of the west side of the entrance to Dry Bay;
- 149 southernmost tip at the mouth of Dangerous River;
- 150 westernmost tip Ocean Cape;
- 151 easternmost tip Point Manby;
- 152 southernmost tip Sitkagai Bluffs;
- 153 southernmost tip Point Riou;
- 154 southernmost tip Icy Cape;
- 155 southernmost tip Cape Yakataga;
- 200 southernmost tip Cape Suckling;

(B) Prince William Sound and Cook Inlet Areas:

- 200 southernmost tip Cape Suckling;
- 201 easternmost tip Pinnacle Rock (off Cape St. Elias, Kayak Island);
- 202 southernmost tip Hook Point, Hinchinbrook Island;
- 203 southernmost tip Cape Hinchinbrook, Hinchinbrook Island;
- 204 easternmost tip Montague Island;
- 205 easternmost tip Box Point, Montague Island;
- 206 easternmost tip Wooded Islands;
- 207 southernmost tip, Wooded Islands;

- 208 southernmost tip Jeanie Point, Montague Island;
- 209 southernmost tip Cape Cleare, Montague Island;
- 210 southernmost tip Point Elrington, Elrington Island;
- 211 southernmost tip Cape Puget;
- 212 southernmost tip Cape Junken;
- 213 southernmost tip Cape Fairfield;
- 214 southernmost tip Barwell Island (off Cape Resurrection);
- 215 easternmost tip Pilot Rock;
- 216 easternmost tip Chiswell Island;
- 217 southernmost tip Seal Rocks;
- 218 southernmost tip unnamed cape south of Black Mountain (Black Bay) (59° 27.20' N. lat., 150° 14' W. long.);
- 219 easternmost tip Hoof Point, Ragged Island;
- 220 easternmost tip Outer Island, Pye Islands;
- 221 southernmost tip of southernmost island off Outer Island;
- 222 southernmost tip Nuka Rock (south of Nuka Point, Nuka Island);
- 223 southernmost tip Gore Point;
- 224 southernmost tip East Chugach Island;
- 225 southernmost tip Perl Rock (off Perl Island, Chugach Islands);
- 300 easternmost tip East Amatuli Island, Barren Islands;
- (C) Kodiak, Chignik, Aleutian Islands, and Alaska Peninsula Areas:
- 300 easternmost tip East Amatuli Island, Barren Islands;
- 301 easternmost tip Point Banks, Shuyak Island;
- 302 northernmost tip Tonki Cape, Afognak Island;
- 303 northernmost tip Cape St. Hermogenes, Marmot Island;

- 304 along the seaward coast of Marmot Island southernmost tip of Marmot Cape;
- 305 southernmost tip Pillar Cape, Afognak Island;
- 306 easternmost tip East Cape, Spruce Island;
- 307 northernmost tip Kodiak Rock (off Long Island);
- 308 easternmost tip Cape Chiniak, Kodiak Island;
- 309 easternmost tip Cape Greville Kodiak Island;
- 310 easternmost tip Ugak Island;
- 311 along the coast to the southernmost tip of Ugak Island;
- 312 southernmost tip Dangerous Cape, Kodiak Island;
- 313 easternmost tip Cape Barnabas, Sitkalidak Island;
- 314 easternmost tip Black Point, Sitkalidak Island;
- 315 easternmost tip Twoheaded Island;
- 316 easternmost tip Geese Islands;
- 317 easternmost tip Cape Sitkinak, Sitkinak Island;
- 318 along the coast to the southernmost tip of Sitkinak Island;
- 319 southernmost tip Tugidak Island;
- 320 along the west coast to the northernmost tip of Tugidak Island;
- 321 southernmost tip Cape Alitak, Kodiak Island;
- 322 westernmost tip Low Cape, Kodiak Island;
- 323 westernmost tip Cape Ikolik, Kodiak Island;
- 324 easternmost tip Kilokak Rocks (off Alaska Peninsula);
- 325 easternmost tip Ashiik Island;
- 326 easternmost tip Poltava Island;
- 327 easternmost tip Navy Island (off Cape Providence);
- 328 easternmost tip Aiugnak Columns;

- 329 easternmost tip Ugaiushak Island;
- 330 easternmost tip Hydra Island;
- 331 easternmost tip Foggy Cape, Sutwik Island;
- 332 around the south coast of Sutwik Island via the southernmost offcoast islets to the westernmost tip of Sutwik Island;
- 333 southernmost tip Cape Kumlik;
- 334 easternmost tip Unavikshak Island;
- 335 southernmost tip Atkulik Island;
- 336 easternmost tip Kak Island;
- 337 easternmost tip Castle Cape (Tuliumnit Point);
- 338 easternmost tip Chankliut Island;
- 339 along seaward coast to southernmost tip Chankliut Island;
- 340 southernmost tip Seal Cape;
- 341 easternmost tip Mitrofanina Island;
- 342 southernmost tip Spitz Island;
- 343 southernmost tip Chiachi Island;
- 344 easternmost tip Kupreanof Point;
- 345 easternmost tip Castle Rock;
- 346 easternmost tip Atkins Island;
- 347 easternmost tip Simeonof Island;
- 348 along the seaward coast of Simeonof Island to the southernmost tip;
- 349 easternmost tip of the unnamed island off the southern coast of Simeonof Island;
- 350 easternmost tip Chernabura Island;
- 351 along the coast to southernmost tip of Point Farewell, Chernabura Island;
- 352 southernmost tip Point Welcome, Bird Island;

- 353 southernmost tip Mountain Cape, Nagai Island;
- 354 westernmost tip Sealion Rocks;
- 355 southernmost tip Acheredin Point, Unga Island;
- 356 southernmost tip of Kennoys Island;
- 357 easternmost tip East Rock;
- 358 easternmost tip Olga Rock;
- 359 easternmost tip Pinnacle Rock;
- 360 easternmost tip Hay Island;
- 361 easternmost tip Hague Rock;
- 362 easternmost tip Lookout Point, Caton Island, Sanak Islands;
- 363 along the coast to southernmost tip Caton Island;
- 364 southernmost tip Umla Island;
- 365 southernmost tip Telemitz Island;
- 366 southernmost tip Dora Island;
- 367 easternmost tip Seal Rock;
- 368 southernmost tip Haystack Rock;
- 369 southernmost tip South Rock;
- 370 southernmost tip Sisters Island;
- 371 easternmost tip Clifford Island;
- 372 along the coast of Clifford Island and Long Island to the westernmost tip of the westernmost Trinity Island;
- 373 westernmost tip Point Petrof, Sanak Island;
- 374 southernmost tip Cape Lutke, Unimak Island;
- 375 along the coast to the southernmost tip of Scotch Cap, Unimak Island;
- 376 easternmost tip Ugamak Island;

- 377 easternmost tip Round Island;
- 378 easternmost tip Aiktak Island;
- 379 easternmost tip Kaligagan Island;
- 380 easternmost tip Tigalda Island;
- 381 along the coast of Tigalda Island to Derbin Island;
- 382 southernmost tip Avatanak Point, Avatanak Island;
- 383 easternmost tip Rootok Island;
- 384 along the coast to southernmost tip Rootok Island;
- 385 southernmost tip Battery Point, Akutan Island;
- 386 easternmost tip Unalga Island;
- 387 easternmost tip Egg Island off Sedanka Island;
- 388 easternmost tip Outer Signal (island);
- 389 easternmost tip Inner Signal (island);
- 390 southernmost tip Sedanka Island;
- 391 easternmost tip Kayak Cape, Unalaska Island;
- 392 easternmost tip Cape Yanaliuk, Unalaska Island;
- 393 easternmost tip Whalebone Cape, Unalaska Island;
- 394 southernmost tip Cape Prominence, Unalaska Island;
- 395 southernmost tip Reef Point, Unalaska Island;
- 396 southernmost tip Ogangen Island off Unalaska Island;
- 397 southernmost tip Eagle Point, Unalaska Island;
- 398 southernmost tip Cape Aiak, Unalaska Island;
- 399 southernmost tip South Rock off Cape Izigan, Unalaska Island;
- 400 southernmost tip Emerald Island off Konets Head, Unalaska Island;

- 401 easternmost tip Kettle Cape, Umnak Island;
- 402 easternmost tip The Pillars (off Thumb Point, Umnak Island);
- 403 easternmost tip Kigul Island;
- 404 easternmost tip Ogchul Island;
- 405 easternmost tip Vsevidof Island;
- 406 easternmost tip Black Cape, Umnak Island;
- 407 easternmost tip Cape Udak, Umnak Island;
- 408 easternmost tip Breadloaf Island;
- 409 easternmost tip Samalga Island;
- 410 along the coast to westernmost tip of Samalga Island;
- 411 southernmost tip Concord Point, Chuginadak Island;
- 412 southernmost tip unnamed point south of Mt. Cleaveland, Chuginadak Island (52° 48.75' N. lat., 169° 57.50' W. long.);
- 413 southernmost tip Herbert Island;
- 414 southernmost tip Yunaska Island;
- 415 southernmost tip Amutka Island;
- 416 along the south and west coast to northernmost tip of Amutka Island;
- 417 northernmost tip Chagulak Island;
- 418 northernmost tip of Yunaska Island;
- 419 northernmost tip Herbert Island;
- 420 westernmost tip of Carlisle Island;
- 421 along the coast to the northernmost tip of Carlisle Island;
- 422 westernmost tip Uliaga Island;
- 423 along northern coast to easternmost tip of Uliaga Island;
- 424 northernmost tip of Kagamil Island;

- 425 northernmost tip Anangula Island (off Okee Point, Umnak Island);
- 426 northernmost tip Ananiuliak Island;
- 427 northernmost tip Okee Point, Umnak Island;
- 428 westernmost tip Cape Kigushimkada, Umnak Island;
- 429 along the coast to westernmost tip of Kshaliuk Point;
- 430 northernmost tip Cape IImalianuk, Umnak Island;
- 431 westernmost tip Cape Aslik, Umnak Island;
- 432 along the coast to northernmost tip of Ashishik Point;
- 433 northernmost tip Cape Tanak, Umnak Island;
- 434 northernmost tip Cape Idak, Umnak Island;
- 435 westernmost tip Chernofski Point, Unalaska Island;
- 436 northernmost tip Cape Aspid, Unalaska Island;
- 437 westernmost tip of westernmost unnamed island off Sedanka Point, Unalaska (53° 27.05' N. lat., 167° 20' W. long.);
- 438 westernmost tip Kashega Point, Unalaska Island;
- 439 westernmost tip Spray Cape, Unalaska Island;
- 440 westernmost tip Cape Starichkof, Unalaska Island;
- 441 southernmost tip of Cape Kovrizhka, Unalaska Island;
- 442 along the coast to the northernmost tip of Cape Kovrizhka;
- 443 westernmost tip Point Kadin, Unalaska Island;
- 444 northernmost tip Koriga Point, Unalaska Island;
- 445 northernmost tip Bishop Point, Unalaska Island;
- 446 northernmost tip Point Tebenkof, Unalaska Island;
- 447 northernmost tip Cape Wislow, Unalaska Island;
- 448 northernmost tip Cape Cheerful, Unalaska Island;

- 449 northernmost tip Priest Rock (off Cape Kalekta, Unalaska Island);
- 450 westernmost tip Reef Point, Akutan Island;
- 451 westernmost tip Lava Point, Akutan Island;
- 452 northernmost tip North Head, Akutan Island;
- 453 northernmost tip Akun Head, Akun Island;
- 454 westernmost tip Cape Sarichef, Unimak Island;
- 455 northernmost tip Raven Point, Unimak Island;
- 456 northernmost tip Oksenof Point, Unimak Island;
- 457 northernmost tip Cape Mordvinof, Unimak Island;
- 458 northernmost tip Cape Lapin, Unimak Island;
- 459 northernmost tip of unnamed point, Unimak Island (55° N. lat., 163° 54' W. long.);
- 460 northernmost tip Otter Point, Unimak Island;
- 461 northernmost tip Cape Krenitzin;
- 462 along the north coast of the Alaska Peninsula to northernmost tip of Cape Glazenap;
- 463 along the coast and across the entrances between the Kudiakof Islands and the northernmost tip of Moffet Point;
- 464 along the north coast of the Alaska Peninsula to easternmost tip of Lagoon Point;
- 465 northernmost tip Cape Kutuzof;
- 500 along the north coast of the Alaska Peninsula including the outer coast of all barrier islands, to the westernmost tip of Cape Menshikof;
- (D) Bristol Bay Area:
- 500 westernmost tip of Cape Menshikof;
- 501 southernmost tip of Pyrite Point;
- 502 along the coast to the westernmost tip of Cape Peirce;
- 600 westernmost tip of Cape Newenham;

(E) Kuskokwim, Yukon, Norton Sound-Point Clarence, and Arctic-Kotzebue Areas:

600 westernmost tip Cape Newenham;

601 southernmost tip Kwigluk Island;

602 southernmost tip Pingurbek Island;

603 westernmost tip Kikegtek Island;

604 westernmost tip Cape Vancouver;

605 southernmost tip Dall Point;

606 along the coast and across all entrances, to the westernmost tip of Cape Romanzof;

607 westernmost tip Cape Rodney;

608 westernmost tip of Point Spencer Spit;

609 southernmost tip Cape York;

610 westernmost tip Cape Prince of Wales;

611 along coast of all barrier islands to Northwest Corner light;

612 westernmost tip Cape Krusenstern;

613 along the coast to the westernmost tip of Point Hope;

614 westernmost tip Cape Lisburne;

615 along the coast of all barrier islands and across all entrances to the northernmost tip of Point Barrow;

616 along the coast of all barrier islands and across all entrances to the easternmost tip of Cape Simpson;

617 northernmost tip Pitt Point;

618 along the coast to easternmost tip of Cape Halkett;

619 easternmost tip Thetis Island, Jones Islands;

620 along the coast of all barrier islands and across all entrances, through the Jones Islands to the northernmost tip Long Island;

621 northernmost tip Reindeer Island, Midway Islands;

622 northernmost tip Cross Island;

623 westernmost tip Flaxman Island;

624 along the north coast of Flaxman Island and across all entrances to the northernmost tip Brownlow Point;

625 along the coast of all barrier islands and across all entrances to the easternmost tip Konganevik Point;

626 northernmost tip Anderson Point;

627 northernmost tip Arey Island;

628 northernmost tip Barter Island;

629 northernmost tip Bernard Spit;

630 along the coast of all barrier islands and across all entrances to the northernmost tip Griffen Point;

631 northernmost tip along the coast to Humphrey Point;

632 across the entrances and along coast of all barrier islands, to the northernmost tip Demarcation Point;

700 along the coast to the United States-Canada Boundary;

(F) and extending three miles seaward of all islands not enclosed by the above line;

(14) "salmon stream terminus" means a line drawn between the seaward extremities of the exposed tideland banks of any salmon stream at mean lower low water;

(15) repealed 8/14/70;

(16) "ton" means 2,000 pounds avoirdupois weight;

(17) "king crab" means any or all of the following species:

(A) *Paralithodes camtschaticus* (red king crab);

(B) *Paralithodes platypus* (blue king crab);

(C) *Lithodes couesi*;

(D) *Lithodes aequispinus* (golden king crab);

(E) *Paralithodes brevipes* (Hanasaki king crab);

(18) "Tanner crab" means any or all of the following species:

- (A) *Chionoecetes opilio* (snow crab);
- (B) *Chionoecetes tanneri* (grooved Tanner crab);
- (C) *Chionoecetes bairdi* (Tanner crab);
- (D) *Chionoecetes angulatus* (triangle Tanner crab);

(19) "Dungeness crab" means the species *Metacarcinus magister*;

(20) "household" means a person or persons having the same residence;

(21) "groundfish" or "bottomfish" means any marine finfish except halibut, osmerids, herring, and salmonids;

(22) "to operate fishing gear" means

(A) the deployment of gear or to have gear deployed in the waters of Alaska;

(B) the removal of gear from the waters of Alaska;

(C) the removal of fish or shellfish from the gear during an open season or period;  
or

(D) possession of a gillnet containing fish during an open fishing period, except that a net which is completely clear of the water is not considered to be operating for the purpose of minimum distance requirements;

(23) "possession limit" means the maximum number of fish a person may have in his possession if the fish have not been canned, salted, frozen, smoked, dried or otherwise preserved so as to be fit for human consumption after a 15-day period;

(24) "hung measure" means the maximum length of the cork line when measured wet or dry with traction applied at one end only;

(25) "drainage" means all of the waters comprising a watershed, including tributary rivers, streams, sloughs, ponds and lakes which contribute to the supply of the watershed;

(26) "fresh water of streams and rivers" means fresh water separated from salt water at the mouth of streams and rivers by a line drawn between the seaward extremities of the exposed tideland banks at the present stage of the tide;

(27) "guideline harvest level" means the preseason estimated level of allowable fish harvest which will not jeopardize the sustained yield of the fish stocks; an area, district, section or portion thereof may close to fishing before or after the guideline harvest level has been reached if principles of management and conservation dictate such action;

(28) "peace officer of the state" means a person defined in AS 16.05.150;

(29) "processing" means completion of

(A) cooking;

(B) canning;

(C) smoking;

(D) salting, which means uniformly mixing with a minimum salting level of at least 20 percent of the weight of the fish resources;

(E) drying; or

(F) freezing, which means to congeal and solidify the flesh of fish by abstraction of heat;

(30) "domicile" means the same as in AS 16.05.940; evidence of a person's domicile may include, but is not limited to, the following:

(A) statements made to obtain a license to drive, hunt, fish, or engage in an activity regulated by a government entity;

(B) affidavit of the person, or of other persons who may know of that person's domicile;

(C) place of voter registration;

(D) location of residences owned, rented, or leased;

(E) location of storage of household goods;

(F) location of business owned or operated;

(G) residence of spouse and minor children or dependents;

(H) governments to which taxes are paid;

(I) whether the person has claimed residence in another location for the purpose of obtaining benefits provided by the governments in that location;

(31) "fishing site" means a structure or vessel used by a CFEC permit holder for providing shelter in support of the operation of stationary net gear;

(32) "net gear site" means the in-water location of stationary net gear;

(33) "seine vessel" means the largest vessel, as determined by keel length, used to operate a seine and the vessel from which the seine is set, and to which the seine is retrieved to;

(34) "demersal shelf rockfish" means any or all of the following *Sebastes* species:

(A) repealed 4/30/91;

(B) *S. pinniger* (Canary);

(C) *S. nebulosus* (China);

(D) *S. caurinus* (Copper);

(E) *S. maliger* (Quilback);

(F) repealed 4/30/91;

(G) *S. helvomaculatus* (Rosethorn);

(H) repealed 4/30/91;

(I) *S. nigrocinctus* (Tiger);

(J) *S. ruberrimus* (Yelloweye);

(K) repealed 4/4/97;

(35) "onboard observer" means a representative of the Departments of Fish and Game or Public Safety who

(A) is certified by the Department of Fish and Game as having completed minimum training requirements;

(B) is living on board a fishing or processing vessel for all or part of the period the vessel is at sea; and

(C) is monitoring fishing or processing activities and collecting harvest data essential to management and enforcement;

(36) "rockfish" means all species of the genus *Sebastes*;

(37) "pelagic shelf rockfish" means any or all of the following *Sebastes* species:

(A) *S. ciliatus* (Dark);

(B) *S. entomelas* (Widow);

(C) *S. flavidus* (Yellowtail);

(D) *S. melanops* (Black);

(E) *S. diaconus* (Deacon);

(F) *S. variabilis* (Dusky);

(38) "slope rockfish" means any species of the genus *Sebastes* not specified as either demersal shelf rockfish or pelagic shelf rockfish;

(39) "thornyhead rockfish" or "idiot rockfish" means all species of the genus *Sebastes*;

(40) "weathervane scallop" means the species *Patinopecten caurinus*;

(41) "mile" means

(A) a nautical mile when used in reference to marine waters; or

(B) a statute mile when used in reference to fresh water;

(42) "miscellaneous shellfish" means all shellfish and marine invertebrates, except shrimp, and king, Tanner, and Dungeness crab;

(43) "total allowable catch" or "TAC" means the annual harvest quota or the retainable catch allowed for a species or species group;

(44) "individual fishing quota" or "IFQ" means the annual allocation of pounds for harvest that represents a quota share holder's percentage of the total allowable catch;

(45) "handicraft" means a finished product in which the shape or appearance of the natural material has been substantially changed by skillful use of the hands, such as by sewing, carving, etching, scrimshawing, painting, or other means, and which has substantially greater monetary and aesthetic value than the unaltered natural material alone.

(b) Beginning April 15, 2017, in AS 16.05.835, "anchor roller" means a device used solely in aid of deploying and retrieving anchor gear and does not provide any additional flotation, planing surface, sea keeping ability, buoyancy, deck space, or structural support to the vessel.

## **5 AAC 39.995. Water depth**

Unless otherwise specified, water depths in 5 AAC 01 - 5 AAC 39 are to be measured from mean lower low water.

## **5 AAC 39.998. Petition policy for Category 2 management measures in a Bering Sea/Aleutian Islands king or Tanner crab fishery**

The Board of Fisheries recognizes that in rare instances, circumstances may require regulatory changes outside the process described in 5 AAC 96.625(b) - (d). Notwithstanding 5 AAC 96.625(f), a petition for a regulatory change may be submitted under this section and 5 AAC 96.625(a) for a Category 2 management measure in a Bering Sea/Aleutian Islands king or Tanner crab fishery described in the federal Fishery Management Plan (FMP) for the Commercial King and Tanner Crab Fisheries in the Bering Sea/Aleutian Islands dated January 24, 1989. It is the policy of the Board of Fisheries that a petition submitted under this section will be denied and not scheduled for hearing unless the petition

(1) addresses a Category 2 management measure and is filed within 30 days from the date that the board adopted that Category 2 management measure;

(2) presents an issue that is not solely allocative; and

(3) presents new legal, biological, or management information that indicates the regulation may not be consistent with the federal FMP.

**Title 16. Fish and Game.**

**Chapter 05. Fish and Game Code Definitions.**

**Sec. 16.05.055. On-board observer program.** (a) The commissioner may enter into appropriate contracts and agreements with agencies, such as the National Marine Fisheries Service, the North Pacific Fishery Management Council, and the International Pacific Halibut Commission, designed to ensure that on-board observer programs conducted in the fisheries of the state are coordinated and consistent with each other for vessels operating in state and federal water.

(b) The master of a vessel, as a condition of participating in a fishery for which an on-board observer program is authorized by the Board of Fisheries under AS 16.05.251, shall consent in writing to the placement of an observer aboard the vessel.

**Sec. 16.05.060. Emergency orders.** (a) This chapter does not limit the power of the commissioner or an authorized designee, when circumstances require, to summarily open or close seasons or areas or to change weekly closed periods on fish or game by means of emergency orders.

(b) The commissioner or an authorized designee may, under criteria adopted by the Board of Fisheries, summarily increase or decrease sport fish bag limits or modify methods of harvest for sport fish by means of emergency orders.

(c) An emergency order has the force and effect of law after field announcement by the commissioner or an authorized designee. An emergency order adopted under this section is not subject to AS 44.62 (Administrative Procedure Act).

**Sec. 16.05.065. Application extension.** (a) The commissioner shall extend the time and dates during which application may be made for fish or game registration if the commissioner finds that

(1) the conservation and management of the fish or game resource will not be affected adversely; and

(2) the failure to timely apply is the result of excusable neglect.

(b) The fee for an extension granted under this section is \$45.

(c) As used in this section, “excusable neglect” does not include unfamiliarity with or ignorance of applicable laws and regulations. In order to show excusable neglect, a person must have demonstrated, before the registration deadline, an intent to harvest fish or game.

**Sec. 16.05.070. Regulations as evidence.** Regulations of a board and of the commissioner, including emergency openings and closures, are admissible as evidence in the courts of the state in accordance with AS 44.62 (Administrative Procedure Act).

**Sec. 16.05.080. Limitation of power.** Nothing in this chapter authorizes the department or a board to change the amount of fees or licenses.

**Sec. 16.05.150. Enforcement authority.** The following persons are peace officers of the state and they shall enforce this title except AS 16.51 and AS 16.52:

- (1) an employee of the department authorized by the commissioner;
- (2) a police officer in the state;
- (3) any other person authorized by the commissioner.

**Sec. 16.05.160. Duty to arrest.** Each peace officer designated in AS 16.05.150 shall arrest a person violating a provision of this title except AS 16.51 and AS 16.52, or any regulation adopted under this title except AS 16.51 and AS 16.52, in the peace officer's presence or view, and shall take the person for examination or trial before an officer or court of competent jurisdiction unless in the judgment of the peace officer it would be in the state's best interest to issue a warning or a citation under AS 16.05.165.

**Sec. 16.05.165. Form and issuance of citation.** (a) When a peace officer stops or contacts a person concerning a violation of this title except AS 16.51 and AS 16.52 or of a regulation adopted under this title except AS 16.51 and AS 16.52 that is a misdemeanor, the peace officer may, in the officer's discretion, issue a citation to the person as provided in AS 12.25.175 — 12.25.230.

(b) The supreme court shall specify by rule or order those misdemeanors that are appropriate for disposition without court appearance, and shall establish a schedule of bail amounts. Before establishing or amending the schedule of bail amounts required by this subsection, the supreme court shall appoint and consult with an advisory committee consisting of two law enforcement officers of the Department of Public Safety engaged in fish and wildlife protection, two representatives of the Department of Fish and Game, two district court judges, and the chairpersons of the House and Senate Judiciary Committees of the legislature. The maximum bail amount for an offense may not exceed the maximum fine specified by law for that offense. If the misdemeanor for which the citation is issued may be disposed of without court appearance, the issuing peace officer shall write on the citation the amount of bail applicable to the violation.

(c) If a person cited for a misdemeanor for which a bail amount has been established under (b) of this section does not contest the citation, the person may, on or before the 30th day after the date of the citation, mail or personally deliver to the clerk of the court in which the citation is filed by the peace officer

- (1) the amount of bail indicated on the citation for that offense; and
- (2) a copy of the citation indicating that the right to an appearance is waived, a plea of no contest is entered, and the bail is forfeited.

(d) When bail has been forfeited under (c) of this section, a judgment of conviction shall be entered. Forfeiture of bail and all seized items is a complete satisfaction for the misdemeanor. The clerk of the court accepting the bail shall provide the offender with a receipt stating that fact if requested.

(e) A person cited under this section is guilty of failure to obey a citation under AS 12.25.230 if the person fails to pay the bail amount established under (b) of this section or fails to appear in court as required.

(f) Notwithstanding other provisions of law, if a person cited for a misdemeanor for which a bail amount has been established under (b) of this section appears in court and is found guilty, the penalty that is imposed for the offense may not exceed the bail amount for that offense established under (b) of this section.

**Sec. 16.05.170. Power to execute warrant.** Each peace officer designated in AS 16.05.150 may execute a warrant or other process issued by an officer or court of competent jurisdiction for the enforcement of this title except AS 16.51 and AS 16.52, and may, with a search warrant, search any place at any time. The judge of a court having jurisdiction may, upon proper oath or affirmation showing probable cause, issue a warrant in all cases.

**Sec. 16.05.180. Power to search without warrant.** Each peace officer designated in AS 16.05.150 may without a warrant search any thing or place if the search is reasonable or is not protected from searches and seizures without warrant within the meaning of art. I, § 14, Alaska State Constitution, which specifically enumerates “persons, houses and other property, papers and effects.” However, before a search without warrant is made a signed written statement by the person making the search shall be submitted to the person in control of the property or object to be searched, stating the reason the search is being conducted. A written receipt shall be given by the person conducting the search for property which is taken as a result of the search. The enumeration of specific things does not limit the meaning of words of a general nature.

**Sec. 16.05.190. Seizure and disposition of equipment.** Guns, traps, nets, fishing tackle, boats, aircraft, automobiles or other vehicles, sleds, and other paraphernalia used in or in aid of a violation of this chapter or a regulation of the department may be seized under a valid search, and all fish and game, or parts of fish and game, or nests or eggs of birds, taken, transported, or possessed contrary to the provisions of this chapter or a regulation of the department shall be seized by any peace officer designated in AS 16.05.150. Upon conviction of the offender or upon judgment of the court having jurisdiction that the item was taken, transported, or possessed in violation of this chapter or a regulation of the department, all fish and game, or parts of them are forfeited to the state and shall be disposed of as directed by the court. If sold, the proceeds of the sale shall be transmitted to the proper state officer for deposit in the general fund. Guns, traps, nets, fishing tackle, boats, aircraft, or other vehicles, sleds, and other paraphernalia seized under the provisions of this chapter or a regulation of the department, unless forfeited by order of the court, shall be returned, after completion of the case and payment of the fine, if any.

**Sec. 16.05.195. Forfeiture of equipment.** (a) Guns, traps, nets, fishing gear, vessels, aircraft, other motor vehicles, sleds, and other paraphernalia or gear used in or in aid of a violation of this title or AS 08.54, or regulation adopted under this title or AS 08.54, and all fish and game or parts of fish and game or nests or eggs of birds taken, transported, or possessed contrary to the provisions of this title or AS 08.54, or regulation adopted under this title or AS 08.54, may be forfeited to the state

(1) upon conviction of the offender in a criminal proceeding of a violation of this title or AS 08.54 in a court of competent jurisdiction; or

(2) upon judgment of a court of competent jurisdiction in a proceeding in rem that an item specified above was used in or in aid of a violation of this title or AS 08.54 or a regulation adopted under this title or AS 08.54.

(b) Items specified in (a) of this section may be forfeited under this section regardless of whether they were seized before instituting the forfeiture action.

(c) An action for forfeiture under this section may be joined with an alternative action for damages brought by the state to recover damages for the value of fish and game or parts of them or nests or eggs of birds taken, transported, or possessed contrary to the provisions of this title or a regulation adopted under it.

(d) It is no defense that the person who had the item specified in (a) of this section in possession at the time of its use and seizure has not been convicted or acquitted in a criminal proceeding resulting from or arising out of its use.

(e) Forfeiture may not be made of an item subsequently sold to an innocent purchaser in good faith. The burden of proof as to whether the purchaser purchased the item innocently and in good faith shall be on the purchaser.

(f) An item forfeited under this section shall be disposed of at the discretion of the department. Before the department disposes of an aircraft it shall consider transfer of ownership of the aircraft to the Alaska Wing, Civil Air Patrol.

**Sec. 16.05.200. Power to administer oaths.** Each peace officer designated in AS 16.05.150 may administer to or take from any person, an oath, affirmation, or affidavit when it is for use in a prosecution or proceeding under or in the enforcement of this chapter.

## **Article 2. Boards of Fisheries and Game.**

**Sec. 16.05.241. Powers excluded.** The boards have regulation-making powers as set out in this chapter, but do not have administrative, budgeting, or fiscal powers.

**Sec. 16.05.251. Regulations of the Board of Fisheries.** (a) The Board of Fisheries may adopt regulations it considers advisable in accordance with AS 44.62 (Administrative Procedure Act) for

(1) setting apart fish reserve areas, refuges, and sanctuaries in the waters of the state over which it has jurisdiction, subject to the approval of the legislature;

(2) establishing open and closed seasons and areas for the taking of fish; if consistent with resource conservation and development goals, the board may adopt regulations establishing restricted seasons and areas necessary for

(A) persons 60 years of age and older to participate in sport, personal use, or

subsistence fishing; or

(B) residents under 18 years of age and nonresidents under 16 years of age to participate in sport fishing;

(3) setting quotas, bag limits, harvest levels, and sex and size limitations on the taking of fish;

(4) establishing the means and methods employed in the pursuit, capture, and transport of fish;

(5) establishing marking and identification requirements for means used in pursuit, capture, and transport of fish;

(6) classifying as commercial fish, sport fish, guided sport fish, personal use fish, subsistence fish, or predators or other categories essential for regulatory purposes;

(7) watershed and habitat improvement, and management, conservation, protection, use, disposal, propagation, and stocking of fish;

(8) investigating and determining the extent and effect of disease, predation, and competition among fish in the state, exercising control measures considered necessary to the resources of the state;

(9) prohibiting and regulating the live capture, possession, transport, or release of native or exotic fish or their eggs;

(10) establishing seasons, areas, quotas, and methods of harvest for aquatic plants;

(11) establishing the times and dates during which the issuance of fishing licenses, permits, and registrations and the transfer of permits and registrations between registration areas is allowed; however, this paragraph does not apply to permits issued or transferred under AS 16.43;

(12) regulating commercial, sport, guided sport, subsistence, and personal use fishing as needed for the conservation, development, and utilization of fisheries;

(13) requiring, in a fishery, observers on board fishing vessels, as defined in AS 16.05.475(d), that are registered under the laws of the state, as defined in AS 16.05.475(c), after making a written determination that an onboard observer program

(A) is the only practical data-gathering or enforcement mechanism for that fishery;

(B) will not unduly disrupt the fishery;

(C) can be conducted at a reasonable cost; and

(D) can be coordinated with observer programs of other agencies, including the

National Marine Fisheries Service, North Pacific Fishery Management Council, and the International Pacific Halibut Commission;

(14) establishing nonexclusive, exclusive, and superexclusive registration and use areas for regulating commercial fishing;

(15) regulating resident or nonresident sport fishermen as needed for the conservation, development, and utilization of fishery resources;

(16) requiring unlicensed fishing vessels present in or transiting the waters of the state to report to the department the quantity, species, and origin of fish on board; in this paragraph, “unlicensed fishing vessel” means a fishing vessel that is not licensed under AS 16.05.490 — 16.05.530;

(17) promoting fishing and preserving the heritage of fishing in the state.

(b) [Repealed, § 12 ch 52 SLA 1986.]

(c) If the Board of Fisheries denies a petition or proposal to amend, adopt, or repeal a regulation, the board, upon receiving a written request from the sponsor of the petition or proposal, shall in addition to the requirements of AS 44.62.230 provide a written explanation for the denial to the sponsor not later than 30 days after the board has officially met and denied the sponsor’s petition or proposal, or 30 days after receiving the request for an explanation, whichever is later.

(d) Regulations adopted under (a) of this section must, consistent with sustained yield and the provisions of AS 16.05.258, provide a fair and reasonable opportunity for the taking of fishery resources by personal use, sport, and commercial fishermen.

(e) The Board of Fisheries may allocate fishery resources among personal use, sport, guided sport, and commercial fisheries. The board shall adopt criteria for the allocation of fishery resources and shall use the criteria as appropriate to particular allocation decisions. The criteria may include factors such as

(1) the history of each personal use, sport, guided sport, and commercial fishery;

(2) the number of residents and nonresidents who have participated in each fishery in the past and the number of residents and nonresidents who can reasonably be expected to participate in the future;

(3) the importance of each fishery for providing residents the opportunity to obtain fish for personal and family consumption;

(4) the availability of alternative fisheries resources;

(5) the importance of each fishery to the economy of the state;

(6) the importance of each fishery to the economy of the region and local area in which the fishery is located;

(7) the importance of each fishery in providing recreational opportunities for residents and nonresidents.

(f) Except as expressly provided in AS 16.40.120(e) and 16.40.130, the Board of Fisheries may not adopt regulations or take action regarding the issuance, denial, or conditioning of a permit under AS 16.40.100 or 16.40.120, the construction or operation of a farm or hatchery required to have a permit under AS 16.40.100, or a harvest with a permit issued under AS 16.40.120.

(g) The Board of Fisheries shall consider a request of the commissioner for approval of a petition to the Alaska Commercial Fisheries Entry Commission to establish a moratorium on new entrants into a commercial fishery under AS 16.43.225 at the board's next regular or special meeting that follows the receipt by the board of the request for approval of the petition and that allows time for the notice required under this subsection. The board may consider the request of the commissioner for approval of the petition only after 15 days' public notice of the board's intention to consider approval of the petition. The board shall consider whether the commissioner, in support of the request for approval of the petition, has adequately shown that the fishery meets requirements for a moratorium on new entrants under AS 16.05.050. The board by a majority vote of its members at the meeting when the petition must be considered shall approve or disapprove the petition.

(h) The Board of Fisheries shall adopt by regulation a policy for the management of mixed stock fisheries. The policy shall provide for the management of mixed stock fisheries in a manner that is consistent with sustained yield of wild fish stocks.

(i) Notwithstanding AS 16.43.140(c)(5), the board may adopt, at a regularly scheduled meeting at which the board considers regulatory proposals for management of a specific salmon fishery, a regulation to allow a person who holds two entry permits for that salmon fishery an additional fishing opportunity appropriate for that particular fishery.

**Sec. 16.05.259. No subsistence defense.** In a prosecution for the taking of fish or game in violation of a statute or regulation, it is not a defense that the taking was done for subsistence uses.

**Sec. 16.05.260. Advisory committees.** The Board of Fisheries and the Board of Game may adopt regulations they consider advisable in accordance with AS 44.62

(Administrative Procedure Act) establishing, at places in the state designated by the individual boards, advisory committees to be composed of persons well informed on the fish or game resources of the locality. The boards shall set the number and terms of each of the members of the advisory committees, shall delegate one member of each committee as chairman, and shall give the chairman authority to hold public hearings on fish or game matters. Recommendations from the advisory committees shall be forwarded to the appropriate board for their consideration but if the Board of Fisheries or the Board of Game chooses not to follow the recommendations of the local advisory committee the appropriate board shall inform the appropriate advisory committee of this action and state the reasons for not following the recommendations. The commissioner shall delegate authority to advisory committees for emergency closures during

established seasons. The commissioner is empowered to set aside and make null and void only opening of seasons set by the advisory committees under this section. The appropriate board shall adopt the necessary regulations governing these closures.

**Sec. 16.05.270. Delegation of authority to commissioner.** For the purpose of administering AS 16.05.251 and 16.05.255, each board may delegate authority to the commissioner to act in its behalf. If there is a conflict between the board and the commissioner on proposed regulations, public hearings shall be held concerning the issues in question. If, after the public hearings, the board and the commissioner continue to disagree, the issue shall be certified in writing by the board and the commissioner to the governor who shall make a decision. The decision of the governor is final.

**Article 4. Licensing of Commercial Fishing Crewmembers and Vessels.**

**Sec. 16.05.440. Expiration date for licenses.** Licenses issued under AS 16.05.440 — 16.05.723 expire at the close of December 31 following their issuance or, for licenses that are valid for two years, after December 31 of the year after the year of issuance, and shall be renewed upon application and payment of the license fees required by AS 16.05.440 — 16.05.723.

**Sec. 16.05.450. Issuance of licenses; disclosure for child support purposes.** (a) The commissioner or an authorized agent shall issue a crewmember fishing license under AS 16.05.480 to each qualified person who files a written application at a place in the state designated by the commissioner, containing the reasonable information required by the commissioner together with the required fee. The commissioner shall require the reporting of the applicant’s social security number on the application. The application shall be simple in form and shall be executed by the applicant under the penalty of unsworn falsification in the second degree.

(b) The Alaska Commercial Fisheries Entry Commission shall issue a vessel license under AS 16.05.490 to each qualified vessel for which a written application has been filed, at a place in the state designated by the commission, containing the reasonable information required by the commission together with the required fee. The application shall be simple in form and shall be executed by the applicant under the penalty of unsworn falsification in the second degree.

(c) [Repealed, § 19 ch 105 SLA 1977.]

(d) Upon request, the commissioner shall provide a social security number provided under (a) of this section to the child support services agency created in AS 25.27.010, or the child support enforcement agency of another state, for child support purposes authorized under law.

**Sec. 16.05.475. Registration of fishing vessels.** (a) A person may not employ a fishing vessel in the water of this state unless it is registered under the laws of the state. Vessels registered under the laws of another state, and persons residing in another state, are not excused from this provision.

(b) The term “employ”, as used in this section, shall be defined by the Board of

Fisheries through the adoption of regulations under AS 44.62 (Administrative Procedure Act). The definition may include any activities involving the use or navigation of fishing vessels.

(c) The term “registered under the laws of the state”, as used in this section, shall be defined by the Board of Fisheries through the adoption of regulations under AS 44.62 (Administrative Procedure Act). The definition may include any existing requirements regarding registration, licenses, permits, and similar matters imposed by law or regulation together with modifications of them and with any additional requirements the board finds necessary to maximize the authority of the state to apply and enforce fisheries regulations under 16 U.S.C. 1801-1882 (Magnuson-Stevens Fishery Conservation and Management Act of 1976 (P.L. 94-265, 90 Stat. 331)).

(d) In this section “fishing vessel” means any vessel, boat, ship, or other craft that is used for, equipped to be used for, or of a type which is normally used for

(1) fishing, or

(2) aiding or assisting one or more vessels at sea in the performance of any activity relating to fishing, including, but not limited to, preparation, supply, storage, refrigeration, transportation, or processing.

**Sec. 16.05.480. Commercial fishing license; disclosure for child support purposes.** (a)

A person engaged in commercial fishing shall obtain a commercial fishing license and shall retain the license in possession and readily available for inspection during fishing operations. An entry permit or interim-use permit entitles the holder to participate as a gear operator in the fishery for which the permit is issued and to participate as a crewmember in any fishery. A crewmember fishing license is not transferable and entitles the holder to participate as a crewmember in any fishery.

(b) A person applying for a commercial fishing license under this section shall provide the person’s social security number. A person applying for a resident commercial fishing license under this section shall also provide proof of residence that the department requires by regulation.

(c) [Repealed, § 12 ch 123 SLA 1978.]

(d) Upon request, the department or the Alaska Commercial Fisheries Entry Commission shall provide a social security number provided by an applicant for a license under this section to the child support services agency created in AS 25.27.010, or the child support agency of another state, for child support purposes authorized under law.

(e) Except as provided under AS 16.05.470 and AS 23.35.060, fees collected from the sale of crewmember fishing licenses under this section may be appropriated into the fish and game fund.

(f) [Repealed, § 7 ch 27 SLA 2001.]

(g) A resident engaged in commercial fishing who is 11 years of age or older and who

does not hold an entry permit or an interim-use permit shall, except as provided in (i) of this section, pay a fee of \$60 for an annual crewmember fishing license. A resident engaged in commercial fishing who is less than 11 years of age and who does not hold an entry permit or an interim-use permit shall pay an annual fee of \$5.

(h) A nonresident engaged in commercial fishing who is 11 years of age or older and who does not hold an entry permit or an interim-use permit shall, except as provided in

(i) of this section, pay a base fee of \$60 for an annual crewmember fishing license, plus an amount, established by the department by regulation, that is as close as is practicable to the maximum allowed by law. A nonresident engaged in commercial fishing who is less than 11 years of age and who does not hold an entry permit or an interim-use permit shall pay an annual base fee of \$5 plus an amount, established by the department by regulation, that is as close as is practicable to the maximum allowed by law.

(i) Notwithstanding (g) and (h) of this section, a resident or nonresident engaged in commercial fishing who does not hold an entry permit or an interim-use permit may obtain one seven-day crewmember fishing license under this subsection annually. A person who obtains a seven-day license is not eligible for another seven-day license in the same license year; however, if a person who obtains a seven-day license pays the full fee for an annual crewmember fishing license under (g) or (h) of this section during the same license year, the person is entitled to receive a refund of the fee for the seven-day license. The department shall adopt regulations establishing a refund procedure. During the period for which the seven-day license is valid, a person who holds a seven-day license may not engage in fishing with a rod and reel while present on a commercial fishing vessel. The fee for a seven-day license is \$30.

(j) In this section, “commercial fishing license” includes an entry permit and an interim-use permit issued under AS 16.43 and a crewmember fishing license.

**Sec. 16.05.490. Vessel license.** (a) As a condition to delivery or landing of fish or engaging in commercial fishing in the state, a license is required for a commercial vessel.

**Sec. 16.05.495. Vessel license exemption.** A vessel used exclusively for the commercial capture of salmon in commercial salmon administrative management areas that include state water between the latitude of Point Romanof and the latitude of Cape Newenham, and state water surrounding Nunivak Island, or at a set net site, is exempt from the licensing requirements of AS 16.05.490.

**Sec. 16.05.510. Unlicensed vessel unlawful.** A person may not operate a vessel to which AS 16.05.490 — 16.05.530 apply without a vessel license, whether the absence of a vessel license results from initial failure to purchase or from another reason.

**Sec. 16.05.520. Number plate.** (a) The vessel license includes a permanent number plate. The number plate shall be accompanied by a tab affixed to the number plate designating the year to be fished. A number plate is not transferable, and the number plate shall be considered a permanent fixture upon the vessel upon which the number plate is originally placed. The number plate shall be securely fastened well forward on the port side in plain

sight. On a vessel with a superstructure, the number plate shall be fastened on the port side of the superstructure. A number plate remains the property of the state. The Alaska Commercial Fisheries Entry Commission may establish by regulation a reasonable fee for the initial issuance of a permanent number plate. If a permanent number plate is accidentally defaced, mutilated, destroyed, or lost, the person owning or operating the vessel shall immediately apply for and may obtain a duplicate upon furnishing the Alaska Commercial Fisheries Entry Commission with the pertinent facts and a payment of a reasonable fee established by the commission by regulation that is not less than \$2.

(b) If a vessel carrying a number plate is lost, destroyed, or sold, the owner shall immediately report the loss, destruction, or sale to the Alaska Commercial Fisheries Entry Commission.

**Sec. 16.05.530. Renewal of vessel license.** (a) Upon payment of the vessel license fee and filing of the name and address of the owner of the vessel or the owner's authorized agent, the name and number of the vessel, a description of the vessel, the vessel license number, if any, the area to be fished, and other reasonable information required by the Alaska Commercial Fisheries Entry Commission, the commission shall issue a permanent number plate and a vessel license. If the vessel has a permanent number plate, the commission shall issue a vessel license and tab designating the year the license is valid. The tab shall be placed in the space provided on the permanent number plate.

(b) For calendar year 2006 and following years, the annual fee for a vessel license issued or renewed under this section is set according to the overall length, as defined by the United States Coast Guard, of the vessel under the following schedule:

(1) 0 — 25 feet .....	\$24
(2) over 25 feet — 50 feet .....	60
(3) over 50 feet — 75 feet .....	120
(4) over 75 feet — 100 feet .....	225
(5) over 100 feet — 125 feet .....	300
(6) over 125 feet — 150 feet .....	375
(7) over 150 feet — 175 feet .....	450
(8) over 175 feet — 200 feet .....	525
(9) over 200 feet — 225 feet .....	600
(10) over 225 feet — 250 feet .....	675
(11) over 250 feet — 275 feet .....	750
(12) over 275 feet — 300 feet .....	825
(13) over 300 feet .....	900.

**Sec. 16.05.665. Falsification of application for license.** (a) A person who knowingly makes a false statement as to a material fact on an application for a license under AS 16.05.440 — 16.05.660 is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than \$1,000, or by imprisonment for not more than six months, or by both.

(b) A license issued under AS 16.05.440 — 16.05.660 to a person convicted under (a) of this section is void.

(c) A person whose license is void under (a) and (b) of this section may not obtain another license of the same type for a period of not less than two nor more than three years from the date of conviction by the court.

**Sec. 16.05.675. Landing permits.** (a) A person who does not hold a limited entry permit or interim-use permit issued under AS 16.43 or a fish transporter permit issued under AS 16.05.671 may not deliver or land fish in the state unless the person

(1) holds a valid federal permit to operate commercial fishing gear in the fishery conservation zone; and

(2) has been issued a landing permit by the Alaska Commercial Fisheries Entry Commission.

(b) The commissioner may by regulation establish eligibility requirements for the issuance of a landing permit.

(c) The commissioner may authorize the Alaska Commercial Fisheries Entry Commission to issue landing permits for a fishery if the commissioner has made a written finding that the issuance of landing permits for that fishery is consistent with state resource conservation and management goals.

**Sec. 16.05.680. Unlawful practices.** (a) It is unlawful for a person, or an agent or representative of the person,

(1) to employ, in the harvesting, transporting, or purchasing of fish, a fisherman who neither is licensed under AS 16.05.480 nor is the holder of a permit issued under AS 16.43;

(2) to purchase fish from a person who is not

(A) the holder of a limited entry, interim-use, or landing permit issued under AS 16.43;

(B) a fish transporter who is selling the fish as the agent of the holder of a limited entry, interim-use, or landing permit issued under AS 16.43; or

(C) exempt under AS 16.05.660; or

(3) to purchase fish from an association other than one to which a permit has been issued under AS 16.05.662.

(b) A person may not sell salmon that was not harvested under the authority of the entry permit, interim-use permit, or landing permit under which the salmon is sold. For purposes of this subsection, salmon sold by a fish transporter on behalf of the commercial fisherman who harvested the salmon is salmon harvested under the authority of the limited entry, interim-use, or landing permit under which the salmon is sold.

**Sec. 16.05.690. Record of purchases.** (a) Each buyer of fish shall keep a record of each purchase showing the name or number of the vessel from which the catch involved is

taken, the date of landing, vessel license number, pounds purchased of each species, number of each species, and the Department of Fish and Game statistical area in which the fish were taken, and other information the department requires. Records may be kept on forms provided by the department. Each person charged with keeping the records shall report them to the department in accordance with regulations adopted by the department.

(b) A person may not knowingly enter false information on a fish ticket or supply false information to a person who is recording information on a fish ticket.

**Article 5. Management of Fish and Fisheries.**

**Sec. 16.05.735. Management of offshore fisheries.** The state may assume management of a fishery in offshore water adjacent to the state in the absence of a federal fishery management plan for the fishery or in the event that a federal fishery management plan for the fishery delegates authority to the state to manage the fishery in the United States exclusive economic zone.

**Article 6. Miscellaneous Provisions.**

**Sec. 16.05.800. Public nuisances.** A net, seine, lantern, snare, device, contrivance, and material while in use, had and maintained for the purpose of catching, taking, killing, attracting, or decoying fish or game, contrary to law or regulation of a board or the commissioner, is a public nuisance and is subject to abatement.

**Sec. 16.05.810. Burden of proof.** The possession of fish or game or a part of fish or game, or a nest or egg of a bird during the time the taking of it is prohibited is prima facie evidence that it was taken, possessed, bought, or sold or transported in violation of this chapter. The burden of proof is upon the possessor or claimant of it to overcome the presumption of illegal possession and to establish the fact that it was obtained and is possessed lawfully. This section does not apply

(1) during the first full 10 days after the time when a taking is prohibited, except as provided in (3) of this section;

(2) if the fish or game or part of fish or game is in a preserved condition whether frozen, smoked, canned, salted, pickled, or otherwise preserved; or

(3) with respect to crab aboard a commercial crab fishing vessel, during the first full three days after the time when a taking is prohibited.

**Sec. 16.05.815. Confidential nature of certain reports and records.** (a) Except as provided in (b) and (c) of this section, records required by regulations of the department concerning the landings of fish, shellfish, or fishery products, and annual statistical reports of fishermen, buyers, and processors required by regulation of the department are confidential and may not be released by the department or by the Alaska Commercial Fisheries Entry Commission except as set out in this subsection. The department may release the records and reports set out in this subsection to the Alaska Commercial Fisheries Entry Commission. The department and the Alaska Commercial Fisheries Entry Commission may release the records and reports set out in this subsection to the

recipients identified in this subsection if the recipient, other than a recipient under (5) — (9) of this subsection, agrees to maintain the confidentiality of the records and reports. The department and the Alaska Commercial Fisheries Entry Commission may release

(1) any of the records and reports to the National Marine Fisheries Service and the professional staff of the North Pacific Fishery Management Council as required for preparation and implementation of the fishery management plans of the North Pacific Fishery Management Council within the exclusive economic zone;

(2) any of the records and reports to the professional staff of the Pacific States Marine Fisheries Commission who are employed in the Alaska Fisheries Information Network project for the purpose of exchanging information with users authorized by the department;

(3) any of the records and reports to the Department of Revenue to assist the department in carrying out its statutory responsibilities;

(4) records or reports of the total value purchased by each buyer to a municipality that levies and collects a tax on fish, shellfish, or fishery products if the municipality requires records of the landings of fish, shellfish, or fishery products to be submitted to it for purposes of verification of taxes payable;

(5) such records and reports as necessary to be in conformity with a court order;

(6) on request, the report of a person to the person whose fishing activity is the subject of the report, or to a designee of the person whose fishing activity is the subject of the report;

(7) on request, annual statistical reports of a fisherman, buyer, or processor to the fisherman, buyer, or processor whose activity is the subject of the report, or to a designee of the fisherman, buyer, or processor whose activity is the subject of the report;

(8) any of the records and reports to the Department of Public Safety for law enforcement purposes;

(9) fish tickets, fish ticket information, records required of sport fishing guides, and annual statistical reports of fishermen, buyers, and processors and information in those reports to the law enforcement personnel of the National Marine Fisheries Service and the National Oceanic and Atmospheric Administration for the purpose of enforcing fishery laws in waters of this state and in waters of the exclusive economic zone adjacent to this state;

(10) fish tickets, fish ticket information, and records required of sport fishing guides regarding halibut to the International Pacific Halibut Commission;

(11) any of the records and reports to the child support services agency created in AS 25.27.010, or the child support enforcement agency of another state, for child support purposes authorized under law;

(12) any of the records and reports to the Department of Natural Resources to assist the department in carrying out its statutory responsibilities in regard to sport fishing operations and sport fishing guides within the Kenai River Special Management Area under AS 41.21.500 — 41.21.514; and

(13) fish ticket information and records or reports of the total value purchased by each fisherman, buyer, or processor to the National Marine Fisheries Service for the purpose of enforcing the industry fee system of a fishing capacity reduction program under 16 U.S.C. 1861a (Magnuson-Stevens Fishery Conservation and Management Act).

(b) Except as provided in (c) of this section, records or reports received by the department which do not identify individual fishermen, buyers, or processors or the specific locations where fish have been taken are public information.

(c) Crab stock abundance survey information that reveals crab catch by sampling location is confidential and is not subject to inspection or copying under AS 40.25.110 — 40.25.120 until the close of the fishing season for which the survey was conducted.

(d) Except as otherwise provided in this section, the department shall keep confidential

(1) personal information contained in fish and wildlife harvest and usage data; and

(2) the records of the department that concern

(A) telemetry radio frequencies of monitored species;

(B) denning sites;

(C) nest locations of raptors that require special attention;

(D) the specific location of animal capture sites used for wildlife research or management; and

(E) the specific location of fish and wildlife species. The department may release records and information that are kept confidential under this subsection if the release is necessary to comply with a court order, if the requester is a state or federal agency, if the requester is under contract with the state or federal agency to conduct research on a fish or wildlife population, or if the requester has been authorized by the department to perform specific activities and agrees to use the records and information only for purposes as provided under a contract or agreement with the department. After 25 years, the records and information that are kept confidential under this subsection become public records subject to inspection and copying under AS 40.25.110 — 40.25.140 unless the department determines that the release of the records or information may be detrimental to the fish or wildlife population. In this subsection, “personal information” has the meaning given in AS 40.25.350.

**Article 9. General Provisions.**

**Sec. 16.05.905. Activities by aliens prohibited.** (a) Alien persons not lawfully admitted to the United States are prohibited from engaging in commercial fishing activities or taking marine mammals in the territorial waters of the state as they presently exist or may be extended in the future.

(b) An alien person who violates (a) of this section is guilty of a misdemeanor, and upon conviction is punishable by a confiscation and forfeiture of the fishing vessel used in the violation, or by imprisonment for not more than one year, or by fine of not more than \$10,000, or by all or any two of the foregoing punishments.

**Sec. 16.05.920. Prohibited conduct generally.** (a) Unless permitted by AS 16.05 — AS 16.40 or by regulation adopted under AS 16.05 — AS 16.40, a person may not take, possess, transport, sell, offer to sell, purchase, or offer to purchase fish, game, or marine aquatic plants, or any part of fish, game, or aquatic plants, or a nest or egg of fish or game.

(b) A person may not knowingly disturb, injure, or destroy a notice, signboard, seal, tag, aircraft, boat, vessel, automobile, paraphernalia, equipment, building, or other improvement or property of the department used in the administration or enforcement of this title except AS 16.51 and AS 16.52, or a poster or notice to the public concerning the provisions of this title except AS 16.51 and AS 16.52, or a regulation adopted under this title except AS 16.51 and AS 16.52, or a marker indicating the boundary of an area closed to hunting, trapping, fishing, or other special use under this title except AS 16.51 and AS 16.52. A person may not knowingly destroy, remove, tamper with, or imitate a seal or tag issued or used by the department or attached under its authority to a skin, portion, or specimen of fish or game, or other article for the purpose of identification or authentication in accordance with this title except AS 16.51 and AS 16.52 or a regulation adopted under this title except AS 16.51 and AS 16.52.

**Sec. 16.05.930. Exempted activities.** (a) This chapter does not prevent the collection or exportation of fish and game, a part of fish or game or a nest or egg of a bird for scientific or educational purposes, or for propagation or exhibition purposes under a permit that the department may issue and prescribe the terms thereof.

(b) This chapter does not prohibit a person from taking fish or game during the closed season, in case of dire emergency, as defined by regulation adopted by the appropriate board.

(c) AS 16.05.920 and 16.05.921 do not prohibit rearing and sale of fish from private ponds, the raising of wild animals in captivity for food, or the raising of game birds for the purpose of recreational hunting on game hunting preserves, under regulations adopted by the appropriate board. In this subsection, “animals” includes all animal life, including insects and bugs.

(d) Nondomestic animals of any species may not be transferred or transported from the state under (a) of this section unless approved by the Board of Game in regular or special meeting. Animals transferred or transported under (a) of this section shall be animals that

are certified by the department to be surplus and unnecessary to the sustained yield management of the resource. Each application for a permit under (a) of this section shall be accompanied by a statement prepared by the department examining the probable environmental impact of the action.

(e) This chapter does not prevent the traditional barter of fish and game taken by subsistence hunting or fishing, except that the commissioner may prohibit the barter of subsistence-taken fish and game by regulation, emergency or otherwise, if a determination on the record is made that the barter is resulting in a waste of the resource, damage to fish stocks or game populations, or circumvention of fish or game management programs.

(f) A permit may not be required for possessing, importing, or exporting mink and fox for fur farming purposes.

(g) AS 16.05.330 — 16.05.723 do not apply to an activity authorized by a permit issued under AS 16.40.100 or 16.40.120, or to a person or vessel employed in an activity authorized by a permit issued under AS 16.40.100 or 16.40.120.

**Sec. 16.05.940. Definitions.**

In AS 16.05 — AS 16.40,

(1) “aquatic plant” means any species of plant, excluding the rushes, sedges, and true grasses, growing in a marine aquatic or intertidal habitat;

(2) “barter” means the exchange or trade of fish or game, or their parts, taken for subsistence uses

(A) for other fish or game or their parts; or

(B) for other food or for nonedible items other than money if the exchange is of a limited and noncommercial nature;

(3) “a board” means either the Board of Fisheries or the Board of Game;

(4) “commercial fisherman” means an individual who fishes commercially for, takes, or attempts to take fish, shellfish, or other fishery resources of the state by any means, and includes every individual aboard a boat operated for fishing purposes who participates directly or indirectly in the taking of these raw fishery products, whether participation is on shares or as an employee or otherwise; however, this definition does not apply to anyone aboard a licensed vessel as a visitor or guest who does not directly or indirectly participate in the taking; “commercial fisherman” includes the crews of tenders or other floating craft used in transporting fish, but does not include processing workers on floating fish processing vessels who do not operate fishing gear or engage in activities related to navigation or operation of the vessel; in this paragraph “operate fishing gear” means to deploy or remove gear from state water, remove fish from gear during an open fishing season or period, or possess a gill net containing fish during an open fishing period;

(5) “commercial fishing” means the taking, fishing for, or possession of fish,

shellfish, or other fishery resources with the intent of disposing of them for profit, or by sale, barter, trade, or in commercial channels; the failure to have a valid subsistence permit in possession, if required by statute or regulation, is considered prima facie evidence of commercial fishing if commercial fishing gear as specified by regulation is involved in the taking, fishing for, or possession of fish, shellfish, or other fish resources;

(6) “commissioner” means the commissioner of fish and game unless specifically provided otherwise;

(7) “customary and traditional” means the noncommercial, long-term, and consistent taking of, use of, and reliance upon fish or game in a specific area and the use patterns of that fish or game that have been established over a reasonable period of time taking into consideration the availability of the fish or game;

(8) “customary trade” means the limited noncommercial exchange, for minimal amounts of cash, as restricted by the appropriate board, of fish or game resources; the terms of this paragraph do not restrict money sales of furs and furbearers;

(9) “department” means the Department of Fish and Game unless specifically provided otherwise;

(10) “domestic mammals” include musk oxen, bison, and reindeer, if they are lawfully owned;

(11) “domicile” means the true and permanent home of a person from which the person has no present intention of moving and to which the person intends to return whenever the person is away; domicile may be proved by presenting evidence acceptable to the boards of fisheries and game;

(12) “fish” means any species of aquatic finfish, invertebrate, or amphibian, in any stage of its life cycle, found in or introduced into the state, and includes any part of such aquatic finfish, invertebrate, or amphibian;

(13) “fish derby” means a contest in which prizes are awarded for catching fish;

(14) “fish or game farming” means the business of propagating, breeding, raising, or producing fish or game in captivity for the purpose of marketing the fish or game or their products, and “captivity” means having the fish or game under positive control, as in a pen, pond, or an area of land or water that is completely enclosed by a generally escape-proof barrier; in this paragraph, “fish” does not include shellfish, as defined in AS 16.40.199;

(15) “fish stock” means a species, subspecies, geographic grouping, or other category of fish manageable as a unit;

(16) “fish transporter” means a natural person who holds a fish transporter permit issued under AS 16.05.671;

(17) “fishery” means a specific administrative area in which a specific fishery

resource is taken with a specific type of gear; however, the Board of Fisheries may designate a fishery to include more than one specific administrative area, type of gear, or fishery resource; in this paragraph

(A) “gear” means the specific apparatus used in the harvest of a fishery resource; and

(B) “type of gear” means an identifiable classification of gear and may include

(i) classifications for which separate regulations are adopted by the Board of Fisheries or for which separate gear licenses were required by former AS 16.05.550 — 16.05.630; and

(ii) distinct subclassifications of gear such as “power” troll gear and “hand” troll gear or sport gear and guided sport gear;

(18) “fur dealing” means engaging in the business of buying, selling, or trading in animal skins, but does not include the sale of animal skins by a trapper or hunter who has legally taken the animal, or the purchase of animal skins by a person, other than a fur dealer, for the person’s own use;

(19) “game” means any species of bird, reptile, and mammal, including a feral domestic animal, found or introduced in the state, except domestic birds and mammals; and game may be classified by regulation as big game, small game, fur bearers or other categories considered essential for carrying out the intention and purposes of AS 16.05 — AS 16.40;

(20) “game population” means a group of game animals of a single species or subgroup manageable as a unit;

(21) “hunting” means the taking of game under AS 16.05 — AS 16.40 and the regulations adopted under those chapters;

(22) “nonresident” means a person who is not a resident of the state;

(23) “nonresident alien” means a person who is not a citizen of the United States and whose permanent place of abode is not in the United States;

(24) “operator” means the individual by law made responsible for the operation of the vessel;

(25) “person with developmental disabilities” means a person who presents to the department an affidavit signed by a physician licensed to practice medicine in the state stating that the person is experiencing a severe, chronic disability

(A) attributable to a mental or physical impairment or a combination of mental and physical impairments;

(B) that is manifested before the person reaches 18 years of age;

(C) that is likely to continue indefinitely;

(D) that results in substantial functional limitations in three or more of the following areas of major life activity: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency;

(E) that reflects the person's need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services that are of lifelong or extended duration and are individually planned and coordinated;

(F) and that the person is not a danger to themselves or others; and

(G) and that the person does not suffer from a mental illness; in this subparagraph, "mental illness" means an organic, mental, or emotional impairment that has substantial adverse effects on a person's ability to exercise conscious control of the person's actions or ability to perceive reality or to reason or understand.

(26) "person with physical disabilities" means a person who presents to the department either written proof that the person receives at least 70 percent disability compensation from a government agency for a physical disability or an affidavit signed by a physician licensed to practice medicine in the state stating that the person is at least 70 percent physically disabled;

(27) "personal use fishing" means the taking, fishing for, or possession of finfish, shellfish, or other fishery resources, by Alaska residents for personal use and not for sale or barter, with gill or dip net, seine, fish wheel, long line, or other means defined by the Board of Fisheries;

(28) "resident" means

(A) a person who for the 12 consecutive months immediately preceding the time when the assertion of residence is made has maintained the person's domicile in the state and who is neither claiming residency in another state, territory, or country nor obtaining benefits under a claim of residency in another state, territory, or country;

(B) a partnership, association, joint stock company, trust, or corporation that has its main office or headquarters in the state; a natural person who does not otherwise qualify as a resident under this paragraph may not qualify as a resident by virtue of an interest in a partnership, association, joint stock company, trust, or corporation;

(C) a member of the military service, or United States Coast Guard, who has been stationed in the state for the 12 consecutive months immediately preceding the time when the assertion of residence is made;

(D) a person who is the dependent of a resident member of the military service, or the United States Coast Guard, and who has lived in the state for the 12 consecutive months immediately preceding the time when the assertion of residence is made; or

(E) an alien who for the 12 consecutive months immediately preceding the time when the assertion of residence is made has maintained the person's domicile in the state

and who is neither claiming residency in another state, territory, or country nor obtaining benefits under a claim of residency in another state, territory, or country;

(29) “rural area” means a community or area of the state in which the noncommercial, customary, and traditional use of fish or game for personal or family consumption is a principal characteristic of the economy of the community or area;

(30) “seizure” means the actual or constructive taking or possession of real or personal property subject to seizure under AS 16.05 — AS 16.40 by an enforcement or investigative officer charged with enforcement of the fish and game laws of the state;

(31) “sport fishing” means the taking of or attempting to take for personal use, and not for sale or barter, any fresh water, marine, or anadromous fish by hook and line held in the hand, or by hook and line with the line attached to a pole or rod which is held in the hand or closely attended, or by other means defined by the Board of Fisheries;

(32) “subsistence fishing” means the taking of, fishing for, or possession of fish, shellfish, or other fisheries resources by a resident domiciled in a rural area of the state for subsistence uses with gill net, seine, fish wheel, long line, or other means defined by the Board of Fisheries;

(33) “subsistence hunting” means the taking of, hunting for, or possession of game by a resident domiciled in a rural area of the state for subsistence uses by means defined by the Board of Game;

(34) “subsistence uses” means the noncommercial, customary and traditional uses of wild, renewable resources by a resident domiciled in a rural area of the state for direct personal or family consumption as food, shelter, fuel, clothing, tools, or transportation, for the making and selling of handicraft articles out of nonedible by-products of fish and wildlife resources taken for personal or family consumption, and for the customary trade, barter, or sharing for personal or family consumption; in this paragraph, “family” means persons related by blood, marriage, or adoption, and a person living in the household on a permanent basis;

(35) “take” means taking, pursuing, hunting, fishing, trapping, or in any manner disturbing, capturing, or killing or attempting to take, pursue, hunt, fish, trap, or in any manner capture or kill fish or game;

(36) “taxidermy” means tanning, mounting, processing, or other treatment or preparation of fish or game, or any part of fish or game, as a trophy, for monetary gain, including the receiving of the fish or game or parts of fish or game for such purposes;

(37) “trapping” means the taking of mammals declared by regulation to be fur bearers;

(38) “vessel” means a floating craft powered, towed, rowed, or otherwise propelled, which is used for delivering, landing, or taking fish within the jurisdiction of the state, but does not include aircraft.

**Chapter 10. Fisheries and Fishing Regulations.**

**Article 2. Interference with Commercial Fishing Gear.**

**Sec. 16.10.055. Interference with commercial fishing gear.** A person who wilfully or with reckless disregard of the consequences, interferes with or damages the commercial fishing gear of another person is guilty of a misdemeanor. For the purposes of this section “interference” means the physical disturbance of gear which results in economic loss or loss of fishing time, and “reckless disregard of the consequences” means a lack of consideration for the consequences of one’s acts in a manner that is reasonably likely to damage the property of another.

**Article 6. Transportation of Fish and Shellfish.**

**Sec. 16.10.240. Transportation of live crab.**

(a) A person may not take out of or ship, transport, or send from this state any commercially taken live crab, unless the crab have been landed in a port in the state and recorded on a fish ticket form prescribed by the department.

(b) Notwithstanding (a) of this section, live crab may be taken, shipped, transported, or sent from the state by means of surface transportation only if the crab are taken at a time and location in the state for which the Department of Environmental Conservation does not require seafood processors to test crab for the presence of marine toxins.

**Article 7. Purchase of Fish.**

**Sec. 16.10.265. Purchase of fish from permit holders.** (a) An individual may not, while acting as a fish processor or primary fish buyer, or as an agent, director, officer, member, or employee of a fish processor, of a primary fish buyer, or of a cooperative corporation organized under AS 10.15, intentionally or knowingly make an original purchase of fish from a seller who does not hold

(1) a landing permit, an entry permit, or an interim-use permit; or

(2) a fish transporter permit under AS 16.05.671.

(b) An individual who violates (a) of this section is

(1) upon a first conviction, guilty of a class B misdemeanor and shall be sentenced to a fine of not less than \$1,000 nor more than \$5,000, and may be sentenced to a definite term of imprisonment of not more than 90 days;

(2) upon a second conviction, guilty of a class A misdemeanor and shall be sentenced to a fine of not less than \$5,000 nor more than \$10,000, and may be sentenced to a definite term of imprisonment of not more than one year;

(3) upon a third or subsequent conviction, guilty of a class A misdemeanor and shall be sentenced to a fine of not less than \$10,000 nor more than \$25,000, and may be sentenced to a definite term of imprisonment of not more than one year.

(c) The commissioner of revenue shall impose upon a fish processor, primary fish buyer, or cooperative corporation organized under AS 10.15, a civil fine equal to the value of fish purchased in violation of this section by (1) the fish processor or primary fish buyer if the fish processor or primary fish buyer is not a corporation; or (2) a director, officer, or employee in a policy-making position of the fish processor, of the primary fish buyer, or of the cooperative corporation. Value is based on the average price paid to fishermen at the time of the violation.

(d) The commissioner of commerce, community, and economic development may suspend or revoke a business license issued under AS 43.70.020 and the commissioner of revenue may suspend or revoke a license to engage in the business of processing or buying raw fish if the licensee or an officer, director, or employee in a policy-making position of the licensee has been convicted of three offenses under this section. Proceedings to suspend or revoke a license are governed by AS 44.62 (Administrative Procedure Act).

(e) An organization may not be criminally prosecuted under (a) of this section.

(f) In this section, "individual" means a natural person.

**Sec. 16.10.267. Possession of permit and identification by seller.** (a) When a fisherman sells fish, the fisherman shall possess

(1) a landing permit, entry permit, or interim-use permit issued or transferred to the fisherman under AS 16.43, or other document authorized by regulation to be used in place of an entry permit or interim-use permit; and

(2) an identification card that has been issued to the fisherman by a state or federal agency or other organization designated by the Department of Public Safety and that bears a photograph of the fisherman.

(b) If requested by the purchaser of the fish or by a peace officer, the fisherman or fish transporter shall present for inspection the identification card, entry permit, interim-use permit, fish transporter permit, or other document required to be in the fisherman's or the fish transporter's possession under (a) or (d) of this section.

(c) Examples of a suitable identification card required under (a)(2) and (d)(2) of this section are a motor vehicle operator's license issued under AS 28.15.111 and an identification card issued under AS 18.65.310.

(d) When a fish transporter sells fish as the agent of the commercial fisherman who caught the fish, the fish transporter shall possess

(1) a fish transporter permit and the fish ticket completed by the fish transporter under AS 16.05.671(d); and

(2) an identification card that has been issued to the fish transporter by a state or federal agency or other organization designated by the Department of Public Safety and that bears a photograph of the fish transporter.

(e) A person who violates this section is, upon conviction, guilty of a class B misdemeanor and may be sentenced to a definite term of imprisonment of not more than 90 days. In addition

(1) upon a first conviction for a violation of this section, the court may sentence the convicted person to pay a fine of not more than \$5,000 and may order the loss of commercial fishing privileges for a period of not more than three years from the date of conviction;

(2) upon a second conviction for a violation of this section, the court may sentence the convicted person to pay a fine of not more than \$10,000 and may order the loss of commercial fishing privileges for a period of not more than three years from the date of conviction;

(3) upon a third or subsequent conviction for a violation of this section, the court  
(A) may sentence the convicted person to pay a fine of not more than \$10,000;  
and

(B) shall order that the convicted person lose commercial fishing privileges for a period of three years from the date of conviction.

**Sec. 16.10.270. Purchase of fish by the pound.** (a) A fish processor or primary fish buyer shall purchase raw fish by the pound. The poundage of the fish to be purchased shall be determined by weighing the fish unless both the buyer and seller agree in writing upon a sample weighing technique that will fairly determine the average weight of the fish purchased.

(b) A person who violates this section is guilty of a misdemeanor and upon conviction is punishable by imprisonment for not more than one year, or by a fine of not more than \$5,000, or by both.

**Sec. 16.10.296. Definitions.** In AS 16.10.265 — 16.10.296, unless the context otherwise requires,

(1) “commissioner” means the commissioner of labor and workforce development;

(2) “fish” means any species of aquatic finfish, invertebrates and amphibians, shellfish, or any other raw fishery resource, in any stage of its life cycle, found in or introduced into the state, and includes fish eggs except fish eggs sold for stock enhancement purposes;

(3) “fish processor” means a person engaging or attempting to engage in a business for which a license is required under AS 43.75;

(4) “primary fish buyer” means a person, other than a cooperative corporation organized under AS 10.15, engaging or attempting to engage in the business of originally purchasing or buying any fishery resource in intrastate, interstate, or foreign commerce.

**Chapter 43. Regulation of Entry into Alaska Commercial Fisheries.**

**Article 1. Alaska Commercial Fisheries Entry Commission.**

**Sec. 16.43.100. Duties and general powers.** (a) To accomplish the purposes set out in AS 16.43.010, the commission shall

- (1) regulate entry into the commercial fisheries for all fishery resources in the state;
- (2) establish priorities for the application of the provisions of this chapter to the various commercial fisheries of the state;
- (3) establish administrative areas suitable for regulating and controlling entry into the commercial fisheries;
- (4) establish, for all types of gear, the maximum number of entry permits for each administrative area;
- (5) designate, when necessary to accomplish the purposes of this chapter, particular species for which separate interim-use permits or entry permits will be issued;
- (6) establish qualifications for the issuance of entry permits;
- (7) issue entry permits to qualified applicants;
- (8) issue interim-use permits as provided in AS 16.43.210, 16.43.220, and 16.43.225;
- (9) establish, for all types of gear, the optimum number of entry permits for each administrative area;
- (10) administer the buy-back program provided for in AS 16.43.310 and 16.43.320 to reduce the number of outstanding entry permits to the optimum number of entry permits;
- (11) provide for the transfer and reissuance of entry permits to qualified transferees;
- (12) provide for the transfer and reissuance of entry permits for alternative types of legal gear, in a manner consistent with the purposes of this chapter;
- (13) establish and administer the collection of the annual fees provided for in AS 16.43.160;
- (14) administer the issuance of commercial fishing vessel licenses under AS 16.05.490;
- (15) issue educational entry permits to applicants who qualify under the provisions of AS 16.43.340 — 16.43.390;

(16) establish reasonable user fees for services;

(17) issue landing permits under AS 16.05.675 and regulations adopted under that section;

(18) establish and collect annual fees for the issuance of landing permits that reasonably reflect the costs incurred in the administration and enforcement of provisions of law related to landing permits;

(19) establish a moratorium on entry into commercial fisheries as provided in AS 16.43.225;

(20) when requested by a regional development organization formed under former AS 44.33.895, provide to the organization, without charge, public information contained in the commission's data with respect to relevant fisheries, including limited fisheries, fishery participants, and limited entry permit holders' harvests and earnings; and

(21) administer, when necessary to accomplish the purposes of this chapter, a Bering Sea hair crab fishery vessel permit system under AS 16.43.451 — 16.43.521.

(b) The commission may do all things necessary to the exercise of its powers under this chapter, whether or not specifically designated in this chapter.

**Article 2. Entry Permit System.**

**Sec. 16.43.140. Permit required.** (a) A person may not operate gear in the commercial taking of fishery resources without a valid entry permit or a valid interim-use permit issued by the commission.

(b) A permit is not required of a crewmember or other person assisting in the operation of a unit of gear engaged in the commercial taking of fishery resources as long as the holder of the entry permit or the interim-use permit for that particular unit of gear is at all times present and actively engaged in the operation of the gear.

(c) A person may hold more than one interim-use or entry permit issued or transferred under this chapter only for the following purposes:

(1) fishing more than one type of gear;

(2) fishing in more than one administrative area;

(3) harvesting particular species for which separate interim-use or entry permits are issued;

(4) if authorized by regulations of the commission, fishing an entire unit of gear in a fishery in which the commission has issued entry permits for less than a unit of gear under AS 16.43.270(d); under this paragraph, a person may not hold more than two entry permits for a fishery; however, the person may not

(A) fish more than one unit of gear in the fishery; or

(B) acquire a second entry permit for the fishery after the person has acquired an entry permit that authorizes the use of an entire unit of gear in the fishery;

(5) consolidation of the fishing fleet for a salmon fishery; however, a person may hold not more than two entry permits for a salmon fishery under this paragraph, but the person who holds two entry permits for a salmon fishery may not engage in fishing under the second entry permit.

**Sec. 16.43.150. Terms and conditions of entry permit; annual renewal.** (a) Except as may be otherwise provided under AS 16.43.270(d), an entry permit authorizes the permittee to operate a unit of gear within a specified fishery.

(b) The holder of an entry permit shall have the permit in possession at all times when engaged in the operation of gear for which it was issued.

(c) Each entry permit is issued for a term of one year and is renewable annually.

(d) Failure to renew an entry permit for a period of two years from the year of last renewal results in a forfeiture of the entry permit to the commission, except as waived by the commission for good cause. An entry permit may not be renewed until the fees for each preceding year during which the entry permit was not renewed are paid. However, failure to renew an entry permit in a year in which there is an administrative closure for the entire season for a specific fishery is good cause not to renew the entry permit. The commission shall waive the payment of fees for that year.

(e) An entry permit constitutes a use privilege that may be modified or revoked by the legislature without compensation.

(f) Except for permits that are not transferable under AS 16.43.170(e), an entry permit survives the death of the holder.

(g) Except as provided in AS 16.10.333 — 16.10.338, AS 44.81.215, 44.81.225, and 44.81.231 — 44.81.250, an entry permit may not be

(1) pledged, mortgaged, leased, or encumbered in any way;

(2) transferred with any retained right of repossession or foreclosure, or on any condition requiring a subsequent transfer; or

(3) attached, distrained, or sold on execution of judgment or under any other process or order of any court, except as provided in AS 16.43.170(g) and (h).

(h) Unless an entry permit holder has expressed a contrary intent in a will that is probated, the commission shall, upon the death of the permit holder, transfer the permanent permit by right of survivorship directly to the surviving spouse or, if no spouse survives, to a natural person designated by the permit holder on a form provided by the commission. If no spouse survives and if the person designated on the form, if any, does not survive, the permit passes as part of the permit holder's estate. A designation under this subsection must be acknowledged before a person authorized to administer an oath under AS 09.63.010 or must be witnessed by two persons who are qualified under

AS 13.12.505 to witness the will of the permit holder. Except as provided in AS 16.10.333 — 16.10.337, AS 44.81.215, and 44.81.231 — 44.81.250, the permit is exempt from the claims of creditors of the estate.

(i) The holder of a transferable or nontransferable entry permit or of an interim-use permit may voluntarily relinquish the permit to the commission.

**Article 9. General Provisions.**

**Sec. 16.43.950. Applications of regulations of Board of Fisheries.** Nothing in this chapter limits the powers of the Board of Fisheries, including the power to determine legal types of gear and the power to establish size limitations or other uniform restrictions applying to a certain type of gear. Holders of interim-use permits or entry permits issued under this chapter are subject to all regulations adopted by the Board of Fisheries.
