Revision to: Atlas ___ Catalog ___ Both X	L. Irone 12/21/92 Drafted Date
Revision Code: A-2	

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
King Salmon	8/27/92		✓ counted 10 sampled 2		
Coho "	8/27/92		✓ sampled one fish		

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments: Site 3-A-7

Stream 2135 was sampled at Site 3-A-7. Stream 2135 is a steep, clear, narrow waterway broadening into a small alluvial fan where it empties into the Copper mainstem. The upper limit is formed by a blockage of fallen logs + rocks forming a small waterfall. Both King and Coho juveniles were identified at this site.

Name of Observer (please print) (Dennis Gnath + Cevin Gilliland)
