OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Sockeye	September 2, 2013	X			
	add new stream w/ sockeye salmon spawning				

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:

I observed 13 adult sockeye on this tributary between waypoints 430 and 431. See attached map for track.
Waypoint 430: 58.40661 N 135.40245 W
Waypoint 431: 58.40698 N 135.40184 W
