State of Alaska
Department of Fish and Game
Public Review Nomination for Waters
Important to Anadromous Species

84-301

X Addition ____ Deletion

~~X Correction~~

Name of Waterbody (if known): West Behm Canal

Location:

Anadromous Waters Catalog Volume and Number District 1 - Vol 3

USGS 1:63,360 Quadrangle Ketchikan D-6 4

or 1:250,000 (if 1:63,360 not available) ____

Stream 101-90-10170

Species	Date(s) Observed	Stage(s) (Spawning, Rearing, Migration)
Pink	1976	Spawning

Comments: Please provide any clarifying information. Also, please include a map of the area identifying the stream reach. This can be a copy of the map from the Anadromous Waters Atlas.

Apparent deletion of stream from current map based on map comparisons. 1976 ADF6 stream survey indicates limited available fish habitat in stream and ITZ.
