Comments: Please provide any clarifying information. Also, please include a map of the area identifying the stream reach. This can be a copy of the map from the Anadromous Waters Atlas.

The above stream #'s are incorrect. There are no such district in Southeast as 119 or 128. I believe the first three (119-) should be (109-) See Port Alexander D-3. However these streams are not listed eventhough a space in the present numbering provides a place for them. I dont know where 128-25-10220 goes. It doesnt seem to fit anywhere on the map sheet Craig B-3 referenced
