Public Review Nomination for Waters
Importan[illegible]o Anadromous Species

84-634

X Addition ____ Deletion

Name of Waterbody (if known): _____

Location:

Anadromous Waters Catalog Volume and Number S.E. Alaska 102-80-13

USGS 1:63,360 Quadrangle Craig C-1

or 1:250,000 (if 1:63,360 not available) _____

Species	Date(s) Observed	Stage(s) (Spawning, Rearing, Migration)
Steelhead	5/16/84	spawning, rearing available

Comments: Please provide any clarifying information. Also, please include a map of the area identifying the stream reach. This can be a copy of the map from the Anadromous Waters Atlas.

add SH to # 102-80-10130

An adult steelhead was observed 400 meters up the stream. Good rearing habitat is available. I believe the limits of fish passage marked on the anadromous catalog ~~are as close as possible to being~~ are accurate.

Add steelhead to list of species

SVS 10/31/84
