Species	Date(s) Observed	Spawning	Rearing	Migration
coho salmon	7-25-85		✓	
dolly varden	7-25-85		✓	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Numerous fry were observed in the lower reaches of this stream. The creek is very braided near the lake. Two traps set for 1 hour captured 7 coho salmon and 10 Dolly varden fry.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
