Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Numerous coho fry observed in stream at and above proposed LPK ~~sta~~ bridges at Sta #s 40+00 and 52+00 Suspected that this habitat extends even further than indicated on map, as terrain was relatively flat.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
