Local name _____

Nomination # _____

Richard Reed — Regional Supervisor — 10/20/86 Date

OK STS — 10/30/86

EI — Drafted — 10/27 Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Pink	July 1985	X		
Chum	" "	X		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Species observed near mouth of creek and upstream, but not further than 150 ft past grass in the estuary. Except for a period in the late 1960's, salmon have been observed since the mine began in 1849. Possible barrier to pinks upstream.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Andy Pekovich (DNR 465-3400)
