| | | | | |
| | | | | |

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Large numbers of rearing coho observed in pools throughout this area. The large number indicate this is also a spawning stream for coho's. Loggers reported exhibit fish present in fall

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
