Richard Reed — Regional Supervisor — 12/14/88 Date

SDS — 12/20/88

FI — Drafted — 12/15/88 Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Coho	June 1, 1988		x	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

This system was surveyed on 6/1/88. I walked the length of the addition marked on the map. Rearing coho were observed throughout the lake/stream chain. Identification was verified via capture with a dip net.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) Robert E Johnson
