Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Spawning Coho observed 100 feet above culvert on Thorne Bay/Big Salt/Klawock road. Stream flows out of a watershed which will be logged next year (logging unit KN1). Did not follow stream to tidewater. This stream may cross the Klawock airport access road, or may go in a westerly direction

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
