Nomination # 89 20

Richard Reed — Regional Supervisor — 10/3/88 Date

SJS — 11/9/88

FI — Drafted — 10/20/88 Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Coho salmon	4-6-88		✓	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

A barrier just below the Dyea Rd. prevents upstream migration of fish. Three fry traps set just above the Carcross highway for two hrs. captured 1 coho salmon. Given the early time of year (ie cold water temps) the low number captured is not surprising. This stream flows into the Skagway river.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
