

Regarding RC 106 on Proposal 1 addressing fishing regulations in Ugashik  
Substitute regulatory Language for Proposal 1

5 AAC 01.310

( i ) in the Ugashik District Stat area 321-50 after Aug 1 Subsistence will be allowed in the commercial area.

During the weekly commercial closed period subsistence currently have to pull there nets in front of there house. In order to continue to subsistence fish they have to go out of the commercial area several hundred yards up river. They should be able to continue to subsistence fish in front of there homes. This will allow this to happen.

Roland Briggs

Ugashik resident and member of the Lower Bristol Bay advisory committee.
