Nomination # 90 31

Rechard Reed — Regional Supervisor — 10/2/89 Date

STR — 11/1/89

EI — Drafted — 11/13/89 Date

Name addition:

USGS name Rush Creek

Local name Rush Creek

Species	Date(s) Observed	Spawning	Rearing	Migration
Coho	11/3/88	X	X	X
Steelhead	5/88	X	X	X
Cutthroat	6/13/89	X	X	X

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

T. 72S, R. 83E, S. 9/16

Portions of watershed near stream had been cut within previous 8 mo., some within previous few weeks (of 6/13/89 survey). Captured 2 CT in one baited minnow trap fished for 15 min. Forest Service Fishery Biologists observed adult CO & SH in 1988 adjacent to upper Rush Cr. bridge x-ing. On 11/3/88, I observed juvenile CO (3) in same area, as depicted by upper added stretch, on attached map. Excellent spawning habitat near upper reaches. Moderate gradient, picks up upstream w/apparent falls barrier(s).

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
