Richard Reed — Regional Supervisor — 10/2/89 Date

SJB — 11/1/89

FI — Drafted — 11/13/89 Date

Species	Date(s) Observed	Spawning	Rearing	Migration
CO	6-16-89	x	x	✓

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Stream is located ½ mile South of the 4021-5008 tributary. Recent extensive clearcutting between those two streams, with heavy impacts (streamside clearcutting, blowdown etc) to the 4021-5008 trib. There is one former possible coho rearing trib between the two streams which was logged through.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
