Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Two baited minnow traps set for 15 minutes during Forest Practices Inspection. Add coho to species for stream. Upper end not field checked. A large, beautiful stream.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
