Richard Reed — Regional Supervisor — 11/12/91 Date

F1 — Drafted — 1/23/92 Date

Species	Date(s) Observed	Spawning	Rearing	Migration
1 coho salmon	5/14/91		x	
add → 1 rainbow/steelhead trout	5/14/91		x	
3 Dolly Varden char	5/14/91		x	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Two baited minnow traps set during Forest Practices Inspection. Where mouth of -2030 shown in catalog, found basically a small seep, but evidence of flow & channels in past in woods. This stream should be ~~thorog~~ thoroughly walked to determine upper extent of habitat, but I feel that the mouth location has changed, and have drawn it accordingly.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) James D. Durst, Habitat Biologist

Nicholas Helicopter Field Inspection, South Shore Klawock Lake; Al Peterson, Jon Savage

new plugs + gas in boat

pulled traps in creek #2038 (Last Creek?)

Section 33; Lot #67/68; 3-5' for ways, 66' lake buffer adequate

Lot 69/70; nonshown stream; set 2 traps; 1 Sculpin, 1 RT, 3 DV, 1 CO, gradient barrier ~ 250' from beach dry streambed (silt, flow) seen

hydraulic change?

Stream # 2030?; a little bit at mouth; cutbanks + gravel where channel once was in trees, but no water; 66' lake buff adequ

14 May (cont.)

Lot # 87 + Tract 6; Type A around the corner from 2030, on point; 10' at lower; typically 6-8%; forks; E fork a short way then too steep; small; W fork a bit farther 6' wide, begins to step up; unknown fry seen a bit below fork

Sect. 33, Lot #99, Luke Creek, Stream No. 2020; unmaintained extensive beaver dam system w/ multiple channels + ponds; 2 traps set @ 1430; pulled @ 1445; lower trap NC; upper trap 1 DV, 5 CO

Sect. 29; Lot 125 small seep/creek; 66' lake buffer mostly protects

Stream No. 2018, Flower Creek, beaver dam system w/ flow to both sides of point
