Drafted Date

Species	Date(s) Observed	Spawning	Rearing (Erwin 12/4/91)	Migration
≥4 coho salmon		x →	X	
7 rainbow/steelhead trout		x →	X	
1 Dolly Varden char		x →	X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Two baited minnow traps placed above suspected barrier, but good catches in both traps. Anadromous to clearcut, where gradient gets too steep.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
