Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
1 coho salmon	5/13/91		X	
4 Dolly Varden char	5/13/91		X	

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Placed 3 baited minnow traps during Forest Practices Inspection. Upper 2 traps above log drop ~50' from mouth did not capture any fish, so log apparently barrier at present.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
