For Office Use

Nomination # 93 011

Richard D. Reed 1/22/92
Regional Supervisor Date

Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

This stream (tributary to stream 105-32-10670) was included in the original atlas but never identified in the catalog. Forest Service timber staff have indicated the stream is present and supports anadromous fish. Stream just needs to be numbered on the atlas and identified in the catalog.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) _____
