OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Coho salmon	10-4-93		✓		✓
cutthroat trout	10-4-93		✓		✓
Dolly Varden	10-4-93		✓		✓

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments:

Coho salmon fry were trapped just below the fairgrounds. Two traps set in the lower portion of the trib for 1 hr captured 12 coho, 6 Dolly Varden and 2 cutthroat trout. Two traps set in the fork toward the fairground caught 3 coho salmon, and 1 cutthroat trout. Therefore the northern fork should be considered the mainstem of this stream. The creek picks up gradient past this point so the fairgrounds should be considered the upper limit of fish habitat

Name of Observer (please print) Randy Ericksen

Date: 10-15-93 Signature: Randy Ericksen
