Nomination # 94 374	Janal Shea — Regional Supervisor — 11-9-93 Date
Revision Year: '94	
Revision to: Atlas ____ Catalog ____ Both X	Ed Weiss — 1/28/94
Revision Code: A-2	L. Brown — Drafted — 1/31/94 Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Coho salmon	10/8/93		✓		✓
Dolly Varden	10/8/93		✓		✓

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments:

This small stream has the distinctive red coloration of iron fixing bacteria. The stream originates from a spring just below the skating rink at 18th Ave. One trap set for five hours captured 10 juvenile Dolly Varden and 1 coho salmon fry. The stream intersects Pullen Creek in between 17th + 18th Ave. This stream was very shallow and choked with aquatic vegetation making it difficult to set a trap. Many fish were seen along the length of the stream. The low catches of coho is probably a function of trap location rather than poor habitat
