State Board of Fisheries

P.O. Box 115526

Juneau, AK 99811

Dear State Board of Fisheries,

In February, I testified before your board to simply ask for one thing - the safe passage of our fish to the upper inlet.

I hoped that I made it clear that I was not speaking to either a single species or a single users group, but to the conservation of the entire upper inlet salmon existence. Their continued growth is an essential part of our economy and our way of life.

Thank you for the bold measures to move in what appears to be the right direction. In the meantime we will continue to enhance our salmon habitat issues.

Sincerely,

A handwritten signature in cursive script that reads "Larry DeVilbiss".

Mayor Larry DeVilbiss

LD/rr
