

Members of AK Board of Fish

2/5/14

RC 146

In RC 139 - during NO-Bait the ESSN Fishery can fish up to 36 hours/week until July 31.

After August 1 until 22,500 Kings are projected, for over two weeks the ESSN Fishery gets a total of 24 hrs.

This is more restricted than catch/release

After August 1, the King salmon are protected in the Kenai River

After August 1 most likely on August 6, millions of pink salmon arrived, it would be nice to have opportunity to fish the pinks.

Thank you

GAILY Hollister
