OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
sockeye salmon	95,97	y	y	yes	☑
					☐
					☐
					☐
					☐

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. **Attach a copy of a map showing location of mouth and observed upper extent of each species,** as well as other information such as: specific stream reaches observed as spawning or rearing habitat, locations, types, and heights of any barriers; etc.

Aerial surveys have been conducted on this system since the **1970's** and observers have noted the presence of **sockeye salmon**, which has been published in our ADF&G Annual Salmon Management Reports (AMR). Data can be found in RBASE.

Please add sockeye salmon.

Name of Observer (please print): on file; name and date is published in AMR

Signature: _____ Date: _____

Agency: Alaska Department of Fish & Game

Address: 211 Mission Road
Kodiak, Alaska 99615

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.

Signature of Area Biologist: _____ Date: _____ Revision 02/08

Name of Area Biologist (please print): Jeff Wadle, FBIII

J- I faxed a remedy, "hopefully" to the stream confusion on the mainland with 262-112, etc. KMA stream 262 112 isn't on your map, however it is on ours. It is located directy to the left of kma numbered stream 262-108 on the fax I sent and circled.

Let me know-

Iris

Found what I think are incorrect AWC # in my XREF table

Fugitive Creek (KMA - 258-307) I thought was AWC# 258-30-10025, this creek is not in the AWC

However you send I nom for 258-30-10025 for water body named McDonalds Lagoon Creek (KMA ?)

I think this is correct.

In my xref table I have a McDonald's Lagoon (KMA - 252-318) AWC # 252-31-10080

The attached shows both McDonald Lagoon Creek and Fugitive (red dot)

Unless ya think otherwise I will assign a new number to Fugitive Creek and add McDonalds Lagoon Creek to my xref table as AWC # 258-30-10025 (could ya supply the KMA #)?

I'm not sure what to make of the McDonald Lagoon south of Kitoi Bay

Subject: interesting

I can't find 262-112 on any of the maps… theres just a lake type thing… Perhaps that's it, or perhaps the little lake above blew out a stream and that's what it is. Anyhow, 262-112 is on our maps and not on any other maps I look at…. I'm wondering if the stream just moves around or what… .because on one of the surveys in 2000 it says that -108 shares a mouth with -112 which I find interesting… I'll have to do more digging.
